All qualified applicants for admission or employment will receive consideration without regard to age, race, marital status, gender, religion, national origin, or disability. No person attending Chadron State College shall on grounds of age, race, marital status, gender, religion, national origin, or disability be excluded from participation in, be denied the benefits of, or be subject to discrimination under any program or activity. The college is an affirmative action/equal opportunity employer.

This catalog is an official publication of Chadron State College and is intended to provide general information. Although the policies, procedures, and descriptions are current and accurate at the time of publication, the college and the Nebraska State Colleges Board of Trustees reserve the right to make changes at any time to facilitate the delivery of high-quality educational services. The information in this catalog, therefore, is subject to change and does not constitute a contract between the college and any other party. Any such changes are available from the Registrar’s Office. Students are responsible for adhering to regulations and completing requirements for their program of study.

CHADRON STATE COLLEGE

Location: Chadron, Nebraska, a city of approximately 6,000 residents, is located in the northwest corner of Nebraska. Federal Highways 385 and 20 intersect at Chadron

Type: A state-supported college granting baccalaureate and graduate degrees

Enrollment: Approximately 2,800 students

Calendar: Academic year of two semesters; summer session

Accreditation: • Higher Learning Commission; Member - North Central Association
  30 North LaSalle Street, Suite 2400
  Chicago, IL 60602-2504
  Telephone: (800) 621-7440  Fax: (312) 263-7462
  Internet: info@ncacihe.org
• National Council for the Accreditation of Teacher Education
• Nebraska State Department of Education
• Council on Social Work Education
• Association of Collegiate Business Schools and Programs

Degrees Granted: Bachelor of Applied Sciences, Bachelor of Arts, Bachelor of Science, Bachelor of Science in Education, Master of Arts in Education, Master of Business Administration, Master of Education, and Specialist in Education, Master of Science, as well as pre-professional education

Library: 250,000 volumes, 750 current periodicals and newspapers; supplemented by loans from other libraries throughout the United States. On-line, web-based periodical indices, and full-text databases. The online library catalog for Chadron State College is available through web access along with a comprehensive list of other libraries’ catalogs throughout Nebraska and worldwide.

Career Services: A wide range of resources are available to assist students in career planning and job attainment

Athletics: Competition in NCAA Division II varsity sports, Rocky Mountain Conference, and intercollegiate rodeo; intramural sports program

Financial Assistance: Available to admitted degree-seeking students based upon financial need

Housing: College owned and operated residence halls
THE COLLEGE’S RESIDENTIAL AND ONLINE ENVIRONMENT

Chadron State College, nestled against “C” Hill, lies within the southern boundary of the city of Chadron, Nebraska, which has a population of approximately 6,000 residents. The scenic Pine Ridge of northwestern Nebraska has long been recognized as the most beautiful portion of the state. The prairie and hills around Chadron are rich in pioneer history, and the town was founded in 1885. Fort Robinson, twenty-eight miles away, was once a colorful frontier military post and provides a variety of activities amid its historic buildings, including the Post Playhouse, sponsored each summer by the college’s theatre department. Chadron State Park, the Pine Ridge, the Museum of the Fur Trade, the Sandhills of Nebraska, the Hudson-Meng Bison Site, the Agate Fossil Beds, the Black Hills of South Dakota, and the Hot Springs Mammoth Site provide opportunities for exciting day trips, including sight-seeing, fishing, hunting, hiking, mountain biking and skiing. The city of Chadron has a municipal airport with daily flights to Denver International Airport, city and college swimming pools, an accredited public school system, a Carnegie Library, a community building, a modern municipal hospital with a health clinic for students, and a system of beautiful public parks and an arboretum. In early 2000, “Sports Afield” designated Chadron as one of the “top 50 outdoor sports towns” in the nation and one of the four best mountain biking towns in the United States. “Outside Magazine” has selected Dawes County, where Chadron is located, as one of the nation’s top 100 counties in which to live.

The Chadron State College residential campus, occupying two hundred eighty-one acres, is bound on the south by the tall, pine-clad buttes of the Pine Ridge. Twenty-five major buildings with more than one million square feet of floor space provide state-of the art facilities for residential students. Five buildings have been completely renovated in the past six years, and another is currently being remodeled. The Nelson Physical Activity Center contains specialized rooms for indoor track, basketball, cardiovascular exercise, weight training, racquetball, and dance and gymnastics. The Student Center houses the Eagle Pride Bookstore, the Eagle Grille snack bar, pool tables and giant TV, a ballroom, meeting rooms, student cafeteria, offices for student government, and a video conferencing room. The Reta E. King Library contains a quarter of a million print and microform volumes and 750 periodical subscriptions, complemented by other print and electronic resources. It also houses a student computer lab, electronically-mediated classroom, student meeting rooms and a coffee café, and boasts wireless laptop computers for checkout and student use throughout the facility. Library materials are accessible by students via onsite and Internet communications. The computerized Nebraska State College Library catalog, reached via the King Library web page, identifies books in the Chadron, Wayne, and Peru State College libraries and acts as a gateway to the libraries at the three campuses of the University of Nebraska. On-line, web-based periodical indexes and articles provide an electronic catalog of the world’s library collections. A highlight this decade was the development of the Mari Sandoz High Plains Heritage Center that pays tribute to the western Nebraska native who became one of America’s leading authors. The center focuses on the settlement and development of the High Plains region, including the history of the cattle industry in the C.F. Coffee Gallery. The center houses an archive of important historical documents and artifacts, as well as a state-of-the-art digitizing laboratory, the Kosman electronically-mediated classroom, a gallery of rotating artistic and historical exhibits, permanent exhibits on Sandoz and the high plains environment, and the outdoor Heritage Gardens that feature Sandhills and pioneer plantings. Other important campus facilities include the High Plains Herbarium and Pharmacognosy Collection, the Eleanor Barbour-Cook Museum of Geology, the CSC Planetarium, the Black Box Theatre and the “hot glass” glass-blowing facility in Memorial Hall.

Students at Chadron State College can participate in a wide variety of extracurricular activities provided by the more than 70 student clubs and organizations. The college fields NCAA Division II teams in football, volleyball, men’s and women’s basketball, track and field, wrestling, women’s golf, and women’s softball. CSC athletes have earned 125 All-American and 64 Academic All-American/Scholar-Athlete honors since 1980. Chadron State has an excellent rodeo team that hosts a regional collegiate rodeo each year, and boasts several national collegiate champions in individual events.

Chadron State College has a long tradition of serving the needs of learners located across the vast region of the Great Plains with the first distance learning course being offered in 1930. The college embraces its role as a regional institution, offering courses on the residential campus in Chadron, at select sites within western Nebraska via interactive television and on-site instruction, as well as online programs throughout the world. Offices in Alliance, North Platte, and Scottsbluff are staffed by college employees to facilitate awareness of and response to regional needs, student enrollment and advising, and public outreach efforts. A complete array of student services is available online for students enrolled in the college’s twelve distance learning programs. With this rich history of outreach to distance learners as its experience base, CSC Online was created to provide a web-based learning environment second to none. Academic offerings available through CSC Online are targeted to the needs of today’s learners and are accessed through the best available technology. The online college allows learners to pursue their education without the constraints of time and place. Chadron State’s Online College is designed for learners who are not able to attend on-campus, learners needing more flexibility for work
and family, and those seeking the convenience and freedom that CSC Online can afford them. The online programs and courses of CSC are developed and taught by the same high quality faculty members who teach on the CSC campus in Chadron. Through its website, www.chadronstateonline.com, students are able to learn more about CSC’s online program offerings, apply for admission, register for courses, communicate with advisors, review financial aid information and apply for assistance, access an array of students services, take a Readiness for Online Learning Quiz, visit a Demonstration Course, Take a Browser Test, and go to class.

In 1994, Chadron State College’s assessment document was one of the first to be approved by the North Central Association and was subsequently used as a model for other institutions. Chadron State College received the Employer of the Year Award from the Nebraska Federation of Business and Professional Women in 1995. In 1997, Chadron State College was selected as Nebraska’s representative to help create the Western Governors University, which is designed to share resources in providing distance learning opportunities for place-bound learners in the western United States. Chadron State received the “Connecting Nebraska Award” from the Nebraska Development Network after hosting a Non-Profit Organization Leadership Development Institute in 2000. Chadron State College was awarded the Hidden Treasure Award for excellence in core instructional programming and focus on students by the Newsweek/Kaplan College Catalog in 2000. The college continues to be recognized statewide and regionally for its focus on collaboration and partnerships to serve this region, and the college’s outstanding faculty, staff, and alumni are recognized each year with a variety of excellence awards.

PROGRAM AUTHORIZATION AND INSTITUTIONAL ACCREDITATION

Chadron State College is authorized by the Nebraska Legislature to offer undergraduate programs, master’s level programs, and the educational specialist program. Continuation and development of applied research and public services activities are additional legislatively-mandated priorities.

Chadron State College is accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools to confer residential and online Baccalaureate degrees, the Master of Education degree, the Master of Arts in Education degree, the Master of Business in Administration degree, the Master of Science in Organizational Management, and the Specialist in Education degree. Chadron State College is also accredited by the National Council for the Accreditation of Teacher Education, the Council on Social Work Education, and Association of Collegiate Business Schools and Programs.

GOVERNANCE AND ORGANIZATIONAL STRUCTURE

Chadron State College is governed by the Board of Trustees of the Nebraska State Colleges. The Nebraska State College System (NSCS) is comprised of the three regional, comprehensive institutions of Chadron State College, Peru State College, and Wayne State College. The President of Chadron State College reports to the Chancellor of the NSCS. Reporting directly to the President of Chadron State College, are three Vice Presidents: the Vice President for Academic Affairs, the Vice President for Enrollment Management and Student Services, and the Vice President for Administration and Finance, comprising the President’s cabinet.

The Vice President for Academic Affairs oversees all academic and instructional programs at Chadron State College. Deans and Directors of the following units report to the Vice President: The School of Arts and Sciences, School of Business, Economics, Applied and Mathematical Sciences, School of Education, Human Performance, Counseling, Psychology and Social Work, The Reta E. King Library, The Mari Sandoz High Plains Heritage Center, and Extended Campus Programs serving distance learning sites and online learners. Thirteen academic departments are located within the three Academic Schools, as follows:

School of Arts and Sciences

- Communication Arts
- English and Humanities
- Justice Studies
- Music
- Physical and Life Sciences
- Social Sciences
- Visual and Performing Arts
School of Business, Economics, Applied and Mathematical Sciences
- Applied Sciences
- Business and Economics
- Mathematical Sciences

School of Education, Human Performance, Counseling, Psychology and Social Work
- Counseling, Psychology, and Social Work
- Education
- Health, Physical Education, and Recreation

The Vice President for Enrollment Management and Student Services oversees enrollment services, admissions, records and transcripts, financial aid, residential housing, student government and activities, and student academic success services. Directors of these units, including the Assistant Vice President for Enrollment Management, report directly to this Vice President.

The Vice President of Administration and Finance oversees facilities, computer services, grounds, human resources, budgets, conferencing, and contract services. Directors of these units report to this Vice President.

The Athletic Director, the Cultural Programming and Public Relations Director, and the Director of Institutional Research complete the President’s Executive Council. A complete organizational chart is available from the Human Resources Office.

HISTORY

Chadron State College’s mission has evolved from its heritage as a state normal school created primarily to prepare teachers to its present role as the only four-year college serving the western half of Nebraska, a rapidly changing and developing non-metropolitan region.

The State Board of Education selected Chadron as the site of a normal school in western Nebraska in 1910 and acquired eighty acres of land south of Chadron, including the grounds of Chadron Congregational Academy which had closed in the spring of 1910. Nebraska State Normal School at Chadron was founded in 1911.

In 1921, the State Legislature changed the institution’s name to Chadron State Teacher’s College. As the name suggested, the primary purpose of the institution was teacher preparation; however, the statement in the catalog suggested a slightly expanded role “to promote the educational interests of western Nebraska.” The institution was granted the authority to confer the baccalaureate degree in education at this time.

In 1949, an act by the State Legislature allowed the college to grant the degree of Bachelor of Arts in arts and sciences. Students could now enroll at Chadron and pursue curricula other than teacher training. However, the college continued to define itself as primarily a teacher’s college and the majority of the school’s graduates were prepared for a teaching career.

In 1964, the Nebraska Legislature changed the name of the institution to Chadron State College. Since that time, the mission of the college has changed from primarily teacher education to a comprehensive institution offering liberal arts-based and pre-professional programs in a variety of disciplines.

Chadron has offered a Master’s degree in Education since 1956. In 1972, the Board of Trustees authorized CSC to offer the Specialist in Education degree. In 1984, the Master’s in Business Administration was approved by the Board of Trustees. The Bachelor of Applied Sciences was approved in 2001. The Master of Science in Organizational Management was approved in 2006.

Western Nebraska is recognized as having a personality that is distinct from the eastern half of the state. As a result of location this region plays a significant role in efforts of this nation and the world to solve the needs for food and energy while preserving the natural environment and improving the living and working conditions of people in both industrialized and developing nations. Chadron State College has the mission to anticipate and be responsible to the needs for higher education in this changing locality. Chadron State College also serves a significant number of students from the surrounding states of Colorado, Wyoming, and South Dakota, responding to and continuing to evolve to address the changing needs of western Nebraska and the surrounding region.
VISION 2011

As Chadron State College approaches the centennial of its existence and service, it again asserts its leadership in educating and serving the citizens of Nebraska and the High Plains region. The College’s ambitions are articulated in its strategic plan, Vision 2011. This plan was developed in 2003 through a campus-wide conversation about the future of the region and how CSC can best support the dreams and visions of its citizens, communities, and students. The faculty, staff and administration of Chadron State College feel the duty to those dreamers and visionaries who built what has been given to the region, and will fulfill its obligation of stewardship by strengthening the College and the region it serves. Each year the College provides significant funding for projects developed by faculty, staff and students that address the focus areas listed below. These projects provide significant opportunities for Chadron State College to fulfill its vision and mission as it prepares for the next century of service to the region. Visit the CSC website Vision 2011 for details about the focus areas and projects that have been funded.

Vision Statement

Chadron State College aspires to be a premiere institution of higher education in the western High Plains states, innovatively pursuing excellence in teaching, scholarship and service.

Mission Statement

Chadron State College will enrich the quality of life in the region by providing educational opportunities, research, service, and programs that contribute significantly to the vitality and diversity of the region.

Vision 2011 Focus Areas

- Institutional Community – achieve a collegial institutional environment that encourages and assists students, faculty, and staff in realizing their potentials and reaching their aspirations.
- Public Relations – build strong public and political support.
- Regional Services – improve the quality of services to the western High Plains states.
- Research, Scholarly, and Creative Activity – achieve higher levels of scholarly, creative, and research activity.
- Resources and Facilities – expand resources and improve efficiency and effectiveness of resource and facilities use.
- Teaching and Learning – improve effectiveness of teaching and learning.

NONDISCRIMINATION POLICY/EQUAL EDUCATIONAL AND EMPLOYMENT OPPORTUNITY POLICY

Chadron State College is committed to an affirmative action program to encourage admission and employment, and to provide procedures which will assure equal treatment of all students and employees. The College administers its academic and employment programs and related supporting services in a manner which does not discriminate on the basis of gender, race, color, national origin, age, religion, disability, or marital status and that is consistent with nondiscriminatory policy including Title VII of the Civil Rights Act of 1964, as amended, Title IX of the Educational Amendments of 1972, as amended, and Sections 503 and 504 of the Rehabilitation Act of 1973. The College’s written policy regarding the Americans with Disabilities (ADA) Act may be reviewed in the office of the Director of Human Resources or in the Reta E. King Library, along with the provisions of the Americans with Disabilities Act, and the rights provided.

The following people have been designated to coordinate compliance with the nondiscrimination requirements contained in Section 35.107 of the Department of Justice regulations:

- Program access - Vice President for Academic Affairs; Sparks Hall; 432-6203
- Physical access - Vice President for Administration; Sparks Hall; 432-6202
- Employee access - Director of Human Resources; Sparks Hall; 432-6224

Title IX

Chadron State College is an equal opportunity institution. Chadron State College does not discriminate against any student, employee or applicant on the basis of race, color, national origin, sex, disability, religion, or age in employment and education opportunities, including but not limited to admission decisions. The College has designated an individual to coordinate the College’s nondiscrimination efforts to comply with regulations implementing Title VI, VII, IX, and Section 504. Inquiries regarding non-discrimination policies and practices may be directed to Kara Vogt, Director of Human Resources, Title VI, VII, IX Compliance Coordinator, Chadron State College, 1000 Main Street, Chadron, NE 69337, (308) 432-6224.
Numerous services are available at Chadron State College to promote the academic and social success of all students. Details about these services are available on the CSC website. Many of these services are available for distance learners and online students. Contact the ombudsman for distance learners in the office of Extended Campus Programs for more information about those services. Services for residential students are available in Crites Hall, and the Peer Tutoring Center is located in the Kline Center.

- **Academic Advising** – The Advising Center in Crites Hall assists students with questions about admission and graduation requirements, as well as advice concerning academic programs and the planning of class schedules. Located in Crites Hall the Advising Center is staffed by college faculty and trained professionals in Student Academic Success Services. In addition each student at CSC is assigned a personal academic advisor who is a professor at the college. As students change their majors, they may also change academic advisors by completing a Change of Advisor form in the Registrar’s office in Crites Hall. The Advising Center’s website provides answers to questions about selecting a major, registering for classes, and finding a career. The First Year Seminar, an elective for freshmen and transfer students, helps students adjust to the demands of college.

- **Campus Activities** – The Student Campus Activities Board provides funding for a wide array of organized activities that allow students to form friendships and participate in co-curricular experiences that complement and support academic success. There are more than seventy campus clubs and organizations that include academic departmental and interest clubs, honorary societies, intercollegiate and intramural sports, music and publication groups, and religious organizations. See the CSC Student Handbook for more detailed information on these activities and other aspects of college life.

- **Career Counseling** - Career Counseling is available to assist students in exploring career options and developing effective job search skills. The Center provides assistance to students in making career-related decisions through the assessment of skills, interests, beliefs, values, and personality characteristics. The Career Resource Library contains information and resources on numerous businesses, careers, job vacancies, college catalogs, and job search strategies. It is located in Crites Hall in Student Academic Success Services.

- **Computer Services** – The Computer Center provides a wide range of services for students, faculty and staff. Broadband Internet connectivity is available campus-wide, including all rooms in the residence halls. Wireless environments are currently available in the Student Center and the Rita E. King Library. Twenty-five computer labs are maintained around the campus for general use by students, specialized instruction, or in support of student services. Consult the Computer Services website for more information about these services.

- **Disability Services** - Services for students with disabilities include counseling, tutoring and assistance in discussing their academic needs with professors, as well as providing additional resources, referral services and/or special accommodations as appropriate. Students who are in need of special accommodations should visit the Student Academic Success Services office in Crites Hall. A student-initiated conference with the Disability Services Contact Person can be arranged. Documentation of the disability(ies) by a qualified professional must be on file in the Disability Service Contact Person’s office in order to evaluate requests.

- **Health Services** - Located in Crites Hall, Health Services is staffed by a Registered Nurse who treats minor illnesses and injuries, dispenses non-prescription medication, and offers wellness and lifestyle counseling. If prescription drugs or further treatment are needed, the nurse will make appointments for students at a local medical clinic. The student has full responsibility to notify his or her instructor prior to absence from class due to illness. For absence due to extended illness or hospitalization exceeding three class days, the College Nurse will notify instructors if requested to do so by the student. Such notification does not necessarily mean the absence is excused by the instructor. The student must contact his/her instructors upon return to school, and retains the responsibility to fulfill all course requirements.
• **Housing and Food Service** - The Housing Office assigns and supervises all on-campus housing, which includes six residence halls and numerous one-, two, and three-bedroom apartments. A variety of housing options are available so that accommodations may be selected on the basis of need, interest, and cost. All first-year students are required to live on campus and participate in the meal program except for those who are: (1) married, (2) a single parent, (3) living with parents, or (4) over 21 years of age. These students must fill out an Off-Campus Application Form, available at the Housing or Admissions Offices. The application must be returned to the Housing Office for approval prior to the start of the semester. Students residing in the residence halls are required to participate in the food service program. Meals are served Monday through Sunday in the Student Center cafeteria or the Eagle Grille. Students living in CSC Apartment Housing are eligible to purchase a meal plan. Payment options for room and board may be arranged through the Business Office. Specific policies pertaining to Chadron State College residence halls and CSC apartments are included in the CSC Student Handbook. The Student Handbook, along with additional information and applications, may be obtained by contacting the Housing Office or visiting the CSC website.

• **Internship and Career Services** – Located in Crites Hall the Internship and Career Services office assists students in the job application process by providing access to job vacancy bulletins and computerized job searching. Career services are available for employment following graduation or for part-time or temporary employment during the school year. Assistance with finding internship opportunities is also available. Services include resume and credential file preparation, interview practice, and business etiquette, coordination of on-campus interviews with company representatives, and the ability to register with the resume referral file, or for education students, to be on the active registrant list, both of which can be made available to employers upon their request.

• **Multicultural Services** - Multicultural Services assists all Chadron State College students to live effectively in today’s global community. Program activities provide opportunities for diverse groups to build understanding and respect through communication and shared experiences. International exchange programs for faculty and students are also available. For more information contact the Multicultural and International Services Coordinator in the office of Extended Campus Programs in Crites Hall.

• **Personal Counseling** - A certified counselor offers confidential, personal counseling to all students. This short-term counseling is available for students who are making difficult choices, going through periods of transition, seeking to change behaviors and/or improving their decision-making skills. Contact Student Academic Success Services in Crites Hall for more information.

• **Residence Life Programs** - The Residence Life Program staff offers the resident student a variety of educational, social, and recreational programs that encourage responsible decision-making and healthy lifestyles. Programs designed to enhance academic success, personal wellness, recreational opportunities, social functions, and community involvement are emphasized.

• **Student Support Services (SSS)** - The Student Support Services (SSS)- STRIVE program is an academic enrichment program designed to assist students during their college career. The objectives of the SSS-STRIVE program are to promote and increase participants’ academic success, assist with progress towards college graduation, and provide information regarding the pursuit of advanced degrees. SSS-STRIVE also provides cultural and social enrichment opportunities, leadership training, and opportunities for career exploration. Contact the SSS office in Crites Hall for more information and eligibility requirements.

• **Tutoring** - Chadron State College’s nationally certified Peer Tutor program provides walk-in, individual, and small group tutoring sessions. Other services include supplemental instruction for groups of students enrolled in challenging courses, and a Writing and Speaking Center that assists students with writing and presentation skills and assignments. Tutors are specially trained upperclass students who excel in the areas in which they tutor and have previously taken the classes in those areas. Peer tutoring services are available for daytime tutoring, nighttime study, supplemental instruction, and online sessions for residential and distance learners. Tutoring services are free to all students, and are available on the second floor of the Kline Building.
STUDENT RIGHT TO KNOW

Student Right To Know information is available at www.csc.edu/righttoknow/. This site contains consumer information, graduation rates, campus crime statistics and other consumer related information. Information on the Student Right to Know is also available upon request from the Chadron State College Financial Aid Office, 1000 Main Street, Chadron, NE 69337. Information pertaining to campus crime statistics and Family Educational Rights and Privacy Act (FERPA) is available upon request from the Vice President of Enrollment Management and Student Services.

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT

Students have the right to inspect and review official records as provided in the Family Education Rights and Privacy Act (FERPA) of 1974 (Public Law 93-380) as amended by Public Law 93-568. A copy of this law is on file in the office of the Vice President of Enrollment Management and Student Services. The Family Education Rights and Privacy Act allows the College to release designated directory information without prior consent of a student unless he/she has notified the College not to release this information without consent. Any student wishing to have directory information withheld from reporting must notify the Vice President for Enrollment Management and Student Services using a written notarized form available from that office.

Directory information at CSC includes: (a) name, address, telephone listing, and electronic mail address, (b) date and place of birth, (c) year in college and major field of study, (d) participation in officially recognized college activities and sports, (e) weight and height of members of athletic teams, (f) degrees and awards received, (g) most recent previous educational agency or institution attended, (h) photographs, and (i) enrollment status. Additional information regarding FERPA may be found in the CSC Student Handbook.

UNDERGRADUATE ADMISSIONS

HOW TO ENROLL AT CHADRON STATE COLLEGE

Write, phone, or visit the College by contacting the Admissions Office, and visit the college’s website.

Admissions Office
Crites Hall
Chadron State College
1000 Main Street
Chadron, Nebraska 69339
Phone: 1-800-242-3766 or 308-432-6263
inquire@csc.edu

The Admissions Office can supply the information you will need, or direct you to your area of interest where faculty will assist you. Online learners please contact the college via phone at 308-432-6432, 1-800-600-4099, or email at elrep@csc.edu. You may also visit our online learning site at www.chadronstateonline.com to learn more about the opportunities for place-bound learners.

General Admissions Information

Chadron State College is committed to the policy that all persons have equal opportunity and access to programs without discrimination on the basis of race, color, national origin, marital status, gender, age, religion, or disability. All students seeking admission for enrollment in degree-granting programs must complete the Application for Admission and submit all related documents before admission can be granted. All materials become the property of Chadron State College and are not returned. Admission may be invalidated if granted on the basis of false information willfully submitted, or if the disclosure of facts required in the application process are intentionally concealed or omitted.
• **Application Fee** - Every student applying for admission to Chadron State College for the first time shall pay a one-time application or matriculation fee. The fee is used to establish a student’s record and is non-refundable except in cases where the student is denied admission to CSC. The admission/matriculation fee will not be applied to tuition and fees upon enrollment.

• **College Preparatory Program** - In order to improve students’ preparation for college-level work, Chadron State College recommends the following College Preparatory Program for high school students who wish to enter Chadron State College:
  1. Four units of English; in each year the content of the courses should have an emphasis upon the development of written and oral communication skills and literature;
  2. Three units of mathematics, including such courses as algebra, geometry, advanced algebra, trigonometry, or calculus; students are encouraged to take a math course during their senior year;
  3. Three units of social studies, including one unit of American history and one unit of global studies;
  4. Two units of laboratory science, such as biology, chemistry, or physics; and
  5. Other academic courses selected from areas such as foreign language, visual or performing arts, and computer literacy.

Students who enter Chadron State College without sufficient academic background may need to enroll in foundational courses to enhance their opportunities for success.

• **General Bulletin/Catalog** - All first-time entering students will be assigned to the current catalog. Transfer students or students returning to Chadron State College following a break in their enrollment will be assigned the catalog in effect for their peer classification at Chadron State College. Students may choose to follow a later catalog published after their (re)enrollment.

**Freshman Admissions Checklist**
- Complete paper application or apply online
- Submit $15 application fee
- Visit campus
- Submit **official** transcripts
- Sign up for orientation
- Submit health form with proof of immunizations records or exemption
- Receive final acceptance
- Register for classes

* For detailed admissions policies, please visit the admissions webpage @ http://www.csc.edu/admissions/

**Transfer Student Admissions Checklist**
- Complete paper application or apply online
- Submit $15 application fee
- Visit campus
- Submit **official** college transcripts from each college attended
- Submit credit evaluation request
- Sign up for orientation
- Submit health form with proof of immunizations records or exemption
- Receive final acceptance
- Register for classes

* For detailed admissions policies, please visit the admissions webpage @ http://www.csc.edu/admissions/
Additional Information for Freshmen

- **ACT/SAT exam**: All new students are required to complete the ACT or SAT exam and have official scores reports sent directly to the CSC Admissions Office (ACT College Code 2466, SAT Code 6466). The ACT/SAT is not required of prospective students who graduated from a state-accredited high school five or more years prior to enrollment.

- **Transcripts**: Applicants must submit official final high school transcripts reflecting date of graduation, high school rank and cumulative GPA.

- **Health Form Requirement**: All students entering any Nebraska State College institution must show a physician-validated immunization record for two doses of measles, rubella, diphtheria, and tetanus. Exemptions are available for qualifying students. Contact the Health Services office in Crites Hall for more information.

Additional Information for Transfer Students

- **Transcripts**: One official transcript from each college attended must be submitted, even if no credit was earned at the institution. Students may not omit any part of their previous college records, whether part-time or full-time, with or without degree objectives, whether or not credit has been granted, or whether or not they desire to transfer credit. Failure to disclose a complete collegiate record may result in denial of admission or in dismissal from Chadron State College. One official high school transcript is required if the applicant has attempted less than 12 college credits, or at the discretion of the Admissions Office.

- **Grade Point Average**: Transfer applicants must have a minimum cumulative grade point average of “C” (2.0) earned at institutions accredited by a regional higher education accrediting agency to be eligible for admission without qualification. If accepted, students with grade point averages below this level or who earned their credit from non-accredited schools are admitted on a probationary status.

- **Eligibility**: Prospective transfer students must be eligible to return to the institution last attended. Those who have been suspended or dismissed from another college or university for academic or personal reasons may not be considered for admission until eligible to return to their former institution, or until one full academic semester has elapsed.

- **Health Form Requirement**: All students entering any Nebraska State College institution must show a physician-validated immunization record for two doses of measles, rubella, diphtheria, and tetanus. Exemptions are available for qualifying students. Contact the Health Services office in Crites Hall for more information.

- **Transfer Credit From Accredited Colleges Or Universities**: A student must complete at Chadron State College a minimum of 50 percent of the hours required for the program of study unless otherwise accepted by institutional agreement prior to enrollment. Completion of specific lower division courses may also be required in individual degree programs. Courses that have been recorded as credit/no credit will not be used to meet subject major, comprehensive major, minor or endorsement area requirements. A maximum total of 66 hours will be applied toward the degrees of Bachelor of Arts, Bachelor of Science, and Bachelor of Science in Education. A maximum total of 70 hours from regionally-accredited community colleges will be accepted into the Bachelor of Applied Science degree.

- **General Studies Credit**: Students who have completed an Associate of Arts degree from a regionally accredited institution will have met all General Studies requirements with the exception of the three (3) hours of upper division general studies requirements in Reason and Values and three (3) hours of upper division general studies requirement in Global and Social Awareness. Completion of specific lower division courses may also be required in individual degree programs. Students with an Associate of Science or an Associate of Occupational Studies should check with the CSC Registrar’s office for specific details regarding additional General Studies credits that may be required for graduation.

- **Transfer Credit From Non-accredited Colleges Or Universities**: Credits earned from a non-accredited institution may be accepted on a provisional basis, until the satisfactory completion of 30 hours at Chadron State College. Other stipulations as outlined in the section above regarding transfer of credit from accredited colleges apply. The College reserves the right not to transfer credit from non-accredited institutions.

- **Transfer Credit From Vocational And Technical Institutions**: Credits earned at a vocational technical college are transferable if they are substantially equivalent to Chadron State College courses. Equivalency of a course, including the number of semester hours to be awarded, is determined by the appropriate department at Chadron State College. Other stipulations as outlined in the section above regarding transfer of credit from accredited colleges apply. A student who has been granted an Associate of Applied Arts degree by a technical community college and is recommended by that institution for a vocational teacher education program may receive up to 40 semester hours for the technical competencies acquired. These students may also pursue the
Bachelor of Applied Sciences degree for non-education programs. A student completing less than the Associate of Applied Arts degree at a technical community college may be granted credit equivalent to the competency level of the student. The Registrar and the School Dean from the area in which the student is seeking credit will establish the amount of transfer credit and its applicability to the desired degree program at Chadron State College. The accepted credit for technical competencies will be granted after all other degree requirements have been met.

Former Student Readmission

Students enrolled at Chadron State College prior to the fall semester of 1988 are required to apply for readmission through the Admissions Office. Students who have attended CSC at any time since the fall semester of 1988 and who wish to enroll in classes may register for classes according to the published class schedule. Additional information below:

- Students who have attended another college or university are considered transfer students and the requirements listed above for transfer students apply.
- Students who voluntarily withdrew from CSC are eligible for readmission with the same academic status that they had at the time of withdrawal.
- Students suspended or dismissed for any reason may petition the Student Academic Review Committee for reinstatement. Evaluation for readmission usually includes consideration of academic aptitude, evidence of growth and maturity, course work at other institutions, and time elapsed since leaving the institution. The appeal form is available through the Vice President for Enrollment and Student Services’ office.
- Health Form Requirement: All students entering any Nebraska State College institution must show a physician-validated immunization record for two doses of measles, rubella, diphtheria, and tetanus. Exemptions are available for qualifying students. Contact the Health Services office in Crites Hall for more information.

International Student Checklist

Qualified students from other countries are welcome to apply for admission to Chadron State College. Inquiries concerning international undergraduate student admission may be directed to the Admissions Office or the Multicultural and International Services Coordinator in the office of Extended Campus Programs in Crites Hall.

- Complete the International Student Application form and submit the non-refundable admission/matriculation fee in U.S. dollars to the Admissions Office. Applicants residing in a foreign country should make application no later than six months prior to the anticipated enrollment date. Students in the United States should allow four months to complete the admission process.
- Transfer students in the United States must submit transfer authorization from the appropriate immigration officials. Complete transcripts from each college attended must be filed with the Registrar’s Office.
- Provide evidence of English language competency through one of the following:
  - Official test scores on the Test of English as a Foreign Language (TOEFL). A minimum score of 550 is required for students taking the paper-based test, 213 for those taking the computerized test, and 79/80 for those taking the Internet-based test.
  - Official test scores on the academic module of the International English Language Testing System (IELTS). A minimum score of 6.0 is required.
  - An official letter from a non-U.S. institution of higher education where you attend or previously attended, and from which Chadron State College has a formal cooperative agreement, certifying your proficiency in English.
- Provide evidence of capability to finance a program of study without assistance from Chadron State College.
- Provide written proof of insurance valid for one entire academic year. Minimum coverage for medical and hospital expense insurance is $50,000 (U.S.). Minimum coverage of $10,000 for medical evacuation and $7,500 for repatriation of remains is also required. The insurance deductible may not exceed $500 (U.S.). Proof of adequate coverage must be in English and submitted to Chadron State College prior to admission each year.
- Health Form Requirement: All students entering any institution of the Nebraska State College System must show a physician-validated immunization record for two doses of measles, rubella, diphtheria, and tetanus. International students are required to present a record of skin testing for tuberculosis within six (6) months prior to first enrollment. Exemptions may be available for qualifying students. Contact the Health Services office in Crites Hall for more information.
- Issuance of the Certificate of Eligibility, Form I-20, will be made only upon completion of all admission requirements and required payments. The applicant assumes full responsibility to make all necessary arrangements through official channels for entrance into the United States.
Early Entry Student Admission

The High School Early Entry Program is extended to eligible high school juniors and seniors contingent upon permission of parents and recommendation from a high school official. To be eligible, a student must meet any one of the following criteria:

- Cumulative high school GPA of at least 3.0 on a 4.0 scale.
- ACT composite score of at least 20 or an equivalent score on another standardized test.
- ACT sub-score of at least 20 in the area(s) related to the course request(s).
- Rank in the upper 1/3 of their high school class.

Early Entry students are limited to a maximum of six credit hours per semester and a total accumulation of 16 credit hours during high school. College credit is granted upon verification of a high school diploma, and Chadron State College accepts these credits into academic programs of study. If the student does not plan to complete their degree at CSC, he/she should check in advance with the institution of choice to verify acceptance of Early Entry credits. Contact the Admissions Office for additional information.

Non-degree Seeking Student Admission

A special classification of Non-Degree Seeking Students is provided for individuals who have no intent of pursuing a degree program, but seek course work for personal reasons. Students classified as a Non-Degree Seeking Students are not eligible for financial aid assistance. Should the individual later wish to pursue a degree, a maximum of 26 semester credit hours may apply toward the first Bachelor’s Degree. All regular admission requirements must be met. Contact the Admissions Office for assistance.

Special Merit Admissions

Students with special merit may be extended special consideration during the admissions process. Special consideration will be given to non-traditional students who present evidence of being able to succeed, returning adult students, students educated at home schools, students who are members of underrepresented groups, and students who can provide evidence of special talents such as creative art or with unique educational experience or career achievements. Students who wish to be considered for admission based upon special merit should contact the Admissions Office.

Veterans of Military Service Admission

Veterans who are graduates of accredited high schools are admitted to full freshman standing. Those who are not graduates of an accredited high school may take the “General Educational Development Test, High School Level” and, if they meet approved standards, may be admitted to full freshman standing. Special service schools may qualify the veteran for some college credit if such schools meet prescribed standards.

The “Guide to the Evaluation of Educational Experiences in the Armed Services,” prepared by the American Council on Education, will be used in evaluating the veteran’s military service training. The Registrar and appropriate school dean will evaluate each course as to equivalency and determine the semester-hours credit, based on the course offerings at Chadron State College. The veteran is responsible for submitting the exact information for each service training course along with a DD214. Veteran information or assistance may be obtained by contacting the Registrar.

Financial benefits for education are available to veterans under federal laws administered by the Veterans Administration.

STUDENT REGISTRATION

ADVISING

Although the student is responsible for meeting all conditions and requirements of Chadron State College, faculty engage in student advising to assist students in the attainment of their academic goals. All freshmen and transfer students are assigned to an advisor by the Dean of their School. Exploratory students are guided through the advising process to career exploration and the selection of a major appropriate to their talents, interests, and personalities by the Office of Student Academic Success Services. Students are encouraged to declare a major prior to the second year of study, and are required to declare a major prior to their junior year. The offices of the Registrar and Student Academic Success Services provide forms for changing advisors or majors.
CLASS REGISTRATION

- **Responsibility for planning one's course of study and for the fulfillment of all requirements and regulations lies with the student.** Class schedules and registration forms are available online at MyCSC or at the Registrar’s office in Crites Hall. Students may add or drop courses, using online services or at the Registrar’s office, until the end of the first week of classes each fifteen-week semester or the first two days of summer sessions.
- The college general bulletin is the authoritative source of information for program and graduation requirements and regulations.
- Faculty advisors are assigned to aid the student in understanding the requirements and in planning his/her academic program. Additional assistance is available at the Advising Center, staffed by faculty and professional staff, located in Crites Hall. Consult your advisor prior to registering for classes to ensure completion of program requirements and other graduation requirements.
- Students are encouraged to register for classes early in the enrollment period to ensure course availability.
- The College reserves the right to cancel courses with low enrollment. The College also reserves the right to modify the published schedule without prior notice.

**Student's Semester Class Load**
- Students who expect to graduate in four years should take 16 credit hours per semester.
- Twelve credit hours is the minimum required for full-time status with regard to Federal financial aid.
- The maximum load for any single four-week summer session is seven hours.
- Students wishing to carry more than 18 semester hours during a semester must petition for an overload. Contact the Registrar’s Office prior to registration. In general, overloads may be approved if:
  - the student’s cumulative grade point average is 2.75 or above, or in the case of a first semester freshman, the high school record shows an average of B or above.
  - the student is a candidate for graduation and can complete final requirements only by carrying an overload.

**Classification Of Students**
- 1 – 29 completed credits – Freshman
- 30 – 59 completed credits – Sophomore
- 60 – 89 completed credits – Junior
- 90 or more completed credits – Senior

**Course Numbers**
The FIRST DIGIT of a course number indicates the class level at which the student would ordinarily register for the course, but students may enroll in lower level courses as well as one level above their class ranking as follows:
- Freshmen enroll in courses numbered 100 through 299.
- Sophomores enroll in courses numbered 200 through 399, or lower.
- Juniors enroll in courses numbered 300 through 499, or lower.
- Seniors enroll in courses numbered 400 through 499, or lower. Courses numbered 500 through 599 are open to qualified seniors who have completed a baccalaureate degree or are within 16 semester hours of baccalaureate graduation. Undergraduate students wishing to register for graduate courses must submit a written petition to the Dean of Graduate Studies.
- Graduate students enroll in courses numbered 500 through 799. Courses in the 600 series are open only to graduate students. Courses numbered 700 through 799 are for students who have completed the Master’s degree.

**Section Numbers**
On-line courses meet as regular classes except in a virtual setting and follow the calendar established by Chadron State College. They are not independent study courses.
- **Section 01** courses are on-campus, but may be sent to distance sites by ITV.
- **Section 40** courses are offered by ITV to Scottsbluff.
- **Section 60** courses are offered by ITV to Alliance.
- **Section 62** courses are offered by ITV to Sidney.
- **Section 65** courses are offered by ITV to North Platte.
- **Section 68** courses are offered by ITV to McCook.
Section 79 courses are delivered via the internet: no classroom attendance required.
Section 89 courses are designed to accommodate both on-campus and distance learners. Campus based learners have online access to all course materials, but are required to attend regularly scheduled face-to-face classroom instruction. Distance learners access all course materials online—no classroom attendance requirement.
Section 99 courses require periodic traditional face-to-face classroom or ITV attendance with additional instruction offered online. Students are expected to participate in both modes.

Late Registration

No students may register for a current semester after classes have been in session for five days without permission from the appropriate academic School Dean. After the tenth day of the semester, approval of the Vice President for Academic Affairs is required.

Audit Registration

• Any student may elect to audit a class, instead of having a grade recorded. An audited class does not count toward any graduation requirement and is recorded as an “AU” on the academic transcript. Current tuition and fees are charged for audited courses.
• Students may change from credit to audit until the seventh week of the semester, or before the midterm of non-semester offerings.
• Changing a course from audit to credit is not allowed following the first two weeks of courses in a semester, or the first day of summer classes.
• Persons 65 years of age and older may audit one course per semester on a space-available basis. They may apply for a waiver of tuition for that course. Fees will not be waived. Self-paced study (correspondence), private lessons, and courses with no available space are not eligible for this program. Waiver forms are available from the Assistant Vice President for Enrollment Management in Crites Hall.

Changes of Registration and Withdrawal

Any change of registration must be initiated by the student at the Registrar’s Office. The effective date of the change is the date on which the completed forms are processed by the Registrar’s Office.

• Adding or withdrawing from classes during the drop-add period: During the first five days of a term and during the first two days of a summer session, a student may add or drop courses without academic penalty.
• Withdrawing from classes: A student who withdraws from a course after the 100% refund period but before the end of the eleventh full week (or before the midterm of a non-semester offering) receives a grade of W. This grade is not computed into the grade point average. After the eleventh week (or after the midterm of a non-semester offering) a student may not withdraw and a grade other than W must be recorded.
• Withdrawing from the College: A student who withdraws from the College after the 100% refund period but before the end of the eleventh week (or before the midterm of a non-semester offering) will receive a grade of W for each course. A student who withdraws from the College after the eleventh week (or after the midterm of a non-semester offering) will receive a grade of W for courses the student is passing and F for courses the student is failing.

TUITION, FEES, AND FINANCIAL AID

COSTS AND REFUND

The Board of Trustees for the Nebraska State Colleges establishes a schedule of tuition and fees to be charged by the State Colleges. Specific courses may have additional assessed fees. The current tuition and fees schedule may be obtained from the Business Office.

Refunds on tuition for the academic year are pro-rated, based on a schedule available in the Business Office. Students who receive Title IV funds will be subject to the student refund procedure requirements of the Higher Education Reauthorization Act of 1998. Details regarding this requirement are available from both the Business Office and the Financial Aid Office.
FINANCIAL AID

- Financial aid is available for those seeking a degree or teaching certificate from Chadron State College. Students do not need to be enrolled full time to be eligible for financial aid.
- Students seeking financial aid must complete the admissions requirements for the degree program and the Free Application for Federal Student Aid (FAFSA) to qualify for consideration of financial aid. Applications are available through the Chadron State College Financial Aid Office or on-line at www.fafsa.ed.gov. For information about the financial aid programs that are available, rights and responsibilities as a financial aid recipient, and other pertinent information, contact the Chadron State College Financial Aid Office or visit the web site www.csc.edu/finaid.
- Scholarships - Chadron State College offers a variety of scholarships based on area of study, extracurricular activities, and academic criteria, which includes class rank, cumulative grade point average, and composite ACT score. Scholarship brochures and applications are available on-line at www.csc.edu, from the Admissions and Financial Aid Offices, or from an individual’s high school counselor. The application deadline for most freshman scholarships is January 15th. The deadline for continuing students at CSC or transfer students is March 1st.

NON-RESIDENT FEES

The statutes of Nebraska require all state educational institutions to charge a non-resident fee for each non-resident student attending college in Nebraska. Additional written documents, affidavits, verification, or other evidence may be required to establish the status of any applicant. The burden of establishing exemption from non-resident fees is the responsibility of the student. Erroneous classification as a resident or willful evasion of non-resident fees may result in disciplinary action which may include dismissal as well as payment of required fees for each semester attended. Numerous tuition waivers are available for non-resident students who meet scholarship minimums. Contact the Admissions Office for more information.

A student classified as a non-resident retains this status until he/she is officially approved for reclassification as a resident by completing the Application for Residency Classification Form, which is available in the Admissions Office. A student classified as a resident but who becomes a non-resident as provided by the statutes must promptly notify the Admissions Office of such change. Residency status may be challenged when circumstances indicate a change of legal residence. Any sanctioned change of classification from non-resident to resident will not be made retroactive beyond the period in which the change is approved.

STUDENT ACADEMIC PERFORMANCE

GRADES

The following grades are currently used at Chadron State College:

A — Superior performance
B — Excellent performance
C — Average performance
D — Below average performance
F — Failure to meet minimum requirements, or student failed to officially withdraw from course.
I — Incompletes indicates some portion of the student’s work is unfinished due to a justifiable reason. Issued at the discretion of the faculty member and academic School Dean, the “I” is replaced with a grade when the work is completed. If a grade is not submitted within twelve months or a shorter time frame as specified on the Request for an Incomplete Form completed by the instructor and student, the grade of incomplete remains permanently on the record (effective August 26, 1974).
IP — In Progress indicates a course continuing into the next term. Grades are recorded at the end of the course.
P — Passing performance; requires previous registration as Pass/Fail.
W — Indicates official withdrawal from a course with a passing grade; requires form filed by deadline.
AU — Indicates non-graded, audit participation in a course; requires previous registration for an Audit
Grade Point Average

Chadron State College assigns quality points to letter grades as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4</td>
</tr>
<tr>
<td>B</td>
<td>3</td>
</tr>
<tr>
<td>C</td>
<td>2</td>
</tr>
<tr>
<td>D</td>
<td>1</td>
</tr>
<tr>
<td>F</td>
<td>0</td>
</tr>
</tbody>
</table>

To determine grade point average, the total number of quality points earned for each attempted credit hour is divided by the total credit hours attempted (including semester hours passed and failed). The grade point average is computed only for courses taken at Chadron State College for non-teaching majors, but utilizes all courses from all institutions attended for teaching majors (Bachelor of Science in Education degree). Contact the Registrar’s office for more information.

ACADEMIC HONORS

Deans’ and President’s List

During the fall and spring semesters, the Deans’ List (3.5-3.99 GPA) and President’s List (4.0 GPA) are established to honor undergraduate students for their academic achievements. Students completing at least 12 credit hours with no incomplete grades during that semester are eligible to receive a Certificate of Recognition. The Vice President for Academic Affairs Office presents the certificate to the student.

Graduation Honors

Students pursuing their first baccalaureate degree may be eligible to graduate with honors from Chadron State College. Honor designations are calculated at the end of the semester prior to the semester in which graduation occurs. The student must have completed at least forty-five CSC semester hours at the end of this prior semester, with a cumulative grade point average as follows:

- 3.90 - 4.00 summa cum laude
- 3.75 - 3.89 magna cum laude
- 3.60 - 3.74 cum laude

ACADEMIC AMNESTY

Academic Amnesty permits students to eliminate one semester’s grades from their cumulative grade point average. The courses and grades will appear on the transcript with a notation that the student was given amnesty and these courses are not part of the cumulative grade point average. All courses taken during the semester will be subject to amnesty, including self-paced study (correspondence) and those courses which were successfully completed.

Only returning students can apply for academic amnesty. Application must be made following the posting of grades for which amnesty is sought, but no later than ninety (90) calendar days of the subsequent Fall or Spring semester of enrollment. Since amnesty may affect financial aid awards, students receiving financial aid should contact the Office of Financial Aid prior to applying for amnesty. Further information is available from the Registrar’s Office.

ACADEMIC PROBATION AND SUSPENSION

Probation

Probation is a warning to the student that his/her grades are below the academic standards of Chadron State College. A student will be placed on probation if:

- his/her CSC cumulative grade point average is below 2.00, or
- as a first-year student, he/she earns less than a 1.00 in his/her initial semester at Chadron State College.

The first year student will be allowed to continue for one additional semester on probation. The student’s failure to bring his/her cumulative grade point average to a successful level will result in academic suspension from Chadron State College. Students on probation may be required to participate in activities designed to facilitate academic success.

Suspension

Academic suspension results in a student being denied enrollment in academic programs at Chadron State College, except in summer terms and in self-paced (correspondence) courses. A student will be suspended under the following conditions:

- A student who is not a first-time, first-semester student and who earned less than a 1.00 cumulative grade point average will be academically suspended.
• A student who has been placed on probation will be academically suspended from the College if his/her semester grade point average (GPA) falls below 2.50 and his/her cumulative GPA falls below the following scale:
  - After attempting 1-29 CSC semester hours..............1.25
  - After attempting 30-44 CSC semester hours.............1.50
  - After attempting 45-59 CSC semester hours.............1.76
  - After attempting 60+ CSC semester hours.............2.00

The first academic suspension from Chadron State College is for one semester. The second (and subsequent) suspension from Chadron State College is for three years.

**Appeals**

A student may appeal an academic suspension or probation if he/she believes that an error occurred or if extenuating circumstances affected the scholastic performance and would warrant retention in or admission to college. The appeal is initiated with written petition on a form available from the office of the Vice President for Enrollment Management and Student Services. Faculty members within the Student Academic Review Committee will consider the appeal. If re-entry is allowed, the Committee may require specific conditions and participation in activities designed to facilitate academic success.

A second suspension cannot be appealed.

---

**STUDENT CONDUCT**

**ACADEMIC HONESTY**

Students are encouraged and expected, with the assistance of the faculty, to conduct themselves in conformity with the highest standards with regard to academic honesty. Violation of college, state, or federal standards with regard to plagiarism, cheating, or falsification of official records will not be tolerated. Students violating such standards will be advised and disciplined. Violations of these standards may result in course failure, suspension, or dismissal from the college. Students are encouraged to seek the advice of instructors as to the proper procedures to avoid such violations.

The following acts are examples of academic dishonesty:

1. Cheating – intentionally using or attempting to use unauthorized materials, information, or study aids in any academic exercise.
2. Fabrication – intentional and unauthorized falsification or invention of any information or citation in an academic exercise.
3. Facilitating Academic Dishonesty – intentionally or knowingly helping or attempting to help another in an act of academic dishonesty.
4. Plagiarism – appropriating or imitating language, ideas, and thoughts of another author, representing them as one’s own original work.

The following acts are examples of plagiarism:

1. Submitting an assignment that someone else has written and claiming the work as one’s own.
2. Submitting an assignment that contains sections, paragraphs, sentences or key phrases that someone else has written without appropriately documenting the source(s) for each portion of the assignment not written by the student submitting the assignment.
3. Submitting an assignment that contains paraphrased ideas from another source, published or unpublished, without approximately documenting the source for each paraphrase. (Changing around a few words in a sentence from the source is not sufficient to avoid plagiarism.)

“Someone else” in the three statements above may refer to a published author, another student, an internet source, or any person other than the student claiming credit for the assignment. If an individual is unsure in how to document sources used within an assignment, they are encouraged to ask their professor or the reference librarian for assistance.

**CIVILITY**

Civil behavior enhances the academic setting, and is expected at all times. Courtesy and respect for others are essential elements of the academic culture. The academic environment welcomes a difference of opinion, discourse, and debate within a civil environment.
CLASS ATTENDANCE

Faculty provide added value to individual study, facilitating understanding, interpretation, and application of information available to students through assigned readings, external learning opportunities, and in-class presentation. Attendance during regularly-scheduled class presentations facilitates academic success, and students are expected to be present during scheduled class periods. Students who are absent from class should consult their professors, as any absence jeopardizes the student’s understanding of the course material. Faculty members are encouraged to assist students with make-up work if the absence was for college-related activities or approved by the faculty member as an unavoidable absence. Responsibility for arranging make-up study rests with the student.

Lists of students anticipating absence for college-related activities will be distributed to faculty. These students will be excused from their classes but not from the work required in those classes.

REGULATIONS GOVERNING GRADUATION

GRADUATION CHECKLIST

Questions regarding any of the following requirements should be directed to the Registrar’s office in Crites Hall. Graduation forms are available online or at the Registrar’s office and need to be completed a semester prior to graduation.

☐ A minimum of 125 semester credit hours must be earned, of which 45 credit hours must be in 300 or 400 (junior or senior) level courses, to meet the requirements for all baccalaureate degrees.

☐ A 2.5 grade point average, from all institutions attended, must be attained for the Bachelor of Science in Education programs for teacher candidates. A grade point average of 2.0 in CSC coursework must be attained for all other Baccalaureate degrees.

☐ For the Bachelor of Arts or Bachelor of Science degree, students must complete either (1) a comprehensive major of 48 to 57 credits, or (2) a subject major of 30 to 36 credits and a minor of 18 to 21 credits. Students not meeting these requirements may petition to graduate with an Interdisciplinary major. Contact Extended Campus Programs in Crites Hall for more information on the interdisciplinary major.

☐ Teacher candidates who are seeking the Bachelor of Science in Education must complete one field or subject endorsement for 7 – 12th grade secondary certificates or a minor for the elementary certificate, along with the requirements for the professional year which includes a teacher internship. Contact the CSC Department of Education for more information.

☐ Students, who do not transfer in an Associate of Arts degree, must complete all 47 credits of General Studies courses as listed in the following section of the bulletin. Transfer guides, listed on the college’s website, indicate courses from other institutions that may satisfy individual General Studies course requirements. Depending on the program of study, General Studies requirements may vary. Consult the Registrar’s office or an academic advisor for more information.

☐ If the student’s program of study qualifies them for two majors in two different degrees (e.g. a Bachelor of Arts in Business Administration and a Bachelor of Science in Range Management), the student must select the degree (Bachelor of Arts or Bachelor of Science) to be conferred. Both majors will be recorded on the transcript.

☐ No more than 66 credit hours may be transferred or applied towards a Bachelor of Arts, Bachelor of Science, or Bachelor of Science in Education degree from accredited two-year institutions. No more than 70 hours may be transferred or applied towards a Bachelor of Applied Science degree from two-year institutions. Unlimited numbers of credit hours may be transferred from accredited four-year institutions.

☐ A minimum completion of at least 30 semester hours of credit from Chadron State College is required for a degree that includes substantial transfer credit.

☐ Twenty-four of the last thirty semester hours of credit must be from Chadron State College. No more than 12 of the last 30 hours may be self-paced study (correspondence) courses.

☐ Candidates who plan to complete requirements for graduation in December must file formal application with the Registrar by April 15. Those who plan to graduate in May must file by November 15. Forms require a series of signatures by academic advisors, the academic dean and the Business Office. The forms are available online or at the Registrar’s office.
As part of the graduation process, exit assessments for all academic programs and General Studies are required of all students. Dates and times of these assessments will be scheduled and taken throughout the candidate’s final year at Chadron State College.

Candidates must have completed or be enrolled in all courses required for the degree prior to application for graduation. Any coursework required for the degree that is incomplete or in progress from a previous term must be completed and graded thirty (30) days prior to commencement. All self-paced study (correspondence) coursework must be completed and graded thirty (30) days prior to commencement for the student to be eligible to graduate at that commencement.

Students may not graduate under the provisions of a General Bulletin issued more than five years prior to the end of the semester in which they expect to complete their work, unless they have been in military service or have earned college credit in residence at Chadron during each calendar year since beginning the program of study. Students are required to use a General Bulletin of the year they enrolled or a subsequent General Bulletin.

Candidates for degrees are required to take part in the formal exercises of commencement unless prior notification is given to the Registrar. Candidates for degrees are required to wear the academic cap and gown at the commencement exercise. All commencement regalia are ordered through the Eagle Pride Bookstore several months prior to graduation.

SECOND BACCALAUREATE DEGREE

A second baccalaureate degree may be earned by completing at least 30 credit hours beyond the first degree, fifteen of which must be at the 300-400 level, and satisfying the current requirements for the second degree at Chadron State College. These requirements include those for a comprehensive major, or subject major and minor. General Studies courses do not need to be repeated. A student may not earn more than one degree simultaneously at Chadron State College. Students pursuing a second baccalaureate degree are not eligible for graduation academic honors.

PETITION FOR WAIVER OR EXCEPTION OF COLLEGE ACADEMIC REGULATIONS

Any request for waiver or exception to the undergraduate academic policies and regulations stated in the Chadron State College General Bulletin must be submitted as a written petition to the office of the Vice President for Academic Affairs. Consideration will be given to the petition by the Council of Academic Deans or the appropriate faculty recommendation committee. A written response will be returned to the petitioning student.

UNDERGRADUATE DEGREES

PROGRAMS OF STUDY

To serve the educational needs of western Nebraska and adjoining areas, Chadron State College offers programs of study leading to the following undergraduate degrees:

BACHELOR OF APPLIED SCIENCES
BACHELOR OF ARTS
BACHELOR OF SCIENCE
BACHELOR OF SCIENCE IN EDUCATION

Bachelor of Applied Science

The Bachelor of Applied Science is designed to provide a specialized program leading toward a baccalaureate degree for individuals in technical occupations. Admission to this degree is restricted to those individuals who transfer to Chadron State College with a completed Associate of Science, Associate of Applied Science, or Associate of Occupational Science degree from an accredited community or technical college. Students are required to complete an official plan of study prior to admission into this degree program. The specialized general studies requirements for this degree are listed with the degree program. Additional information can be obtained from the Extended Campus Programs Office or see Technical Occupations under Program of Studies.
Bachelor of Arts and Bachelor of Science

The Bachelor of Arts and Bachelor of Science degrees provide content area programs of study for entrance into a professional workforce (exclusive of education) or continued graduate-level study.

In addition to the general requirements for graduation, candidates for the Bachelor of Arts and the Bachelor of Science degree are required to complete the General Studies program and the requirements for at least one subject major and either a second major or a minor, or one comprehensive major. Elective courses may be selected to reach the total 125 semester hour minimum requirement for graduation.

Second Major

A student may earn multiple majors simultaneously at Chadron State College by satisfying the requirements for each major as outlined by the institution. Only one degree is granted, although all completed majors are recognized on the student’s transcript.

Minors

The selection of a minor must be in an area (as identified by the national Classification of Instructional Programs code) other than the selected major. Minors are required in conjunction with subject majors (30-36 hours), but are not required in conjunction with comprehensive majors (48-57 hour). However, a minor may be added as long as 50 percent of the coursework is unduplicated by the major.

Bachelor of Science in Education

The degree of Bachelor of Science in Education is conferred upon those who complete the teacher-preparation programs of study. In addition to the general requirements for graduation, candidates for the degree of Bachelor of Science in Education must complete the General Studies program, and the Professional Education requirements for their certificate. Students pursuing elementary education are required to complete one content minor specifically designed for elementary education (K-8) or an additional endorsement. Students pursuing middle school education must also complete two content areas of specialization programs of study. Students pursuing secondary education must also complete one subject or field endorsement plus the corresponding special methods course. Programs of study fulfill the Nebraska Department of Education requirements for teaching certification. Students planning on teaching in other states should seek assistance from their advisor or the Certification Officer to ensure fulfillment of the teaching certification requirements for those other states.

Pre-Professional Curricula

Students may pursue a pre-professional program, such as pre-law, pre-engineering, or pre-nursing, at Chadron State College before transferring to a professional school. Pre-professional programs last from one to four years depending upon the profession, professional schools, and the student’s specific academic and extra-curricular interests. Each professional school specifies the courses a student must complete before seeking admission into that school. Therefore, each student’s program of study must be specifically designed to satisfy the admissions requirements of the professional schools into which the student wishes to seek admission as well as his/her own educational needs. Students interested in pre-professional programs should contact the appropriate academic School Dean.

Teacher Certification Endorsement

Information concerning the specific requirements for the various teaching certificates in Nebraska may be secured from the office of the Certification Officer in the Department of Education.

Academic Certification of Study

An Academic Certificate of Study is provided to students who complete a coherent and defined coursework plan. These recognized knowledge clusters have been developed to assist the student in enhancing knowledge and proficiency, career success, employment opportunities, and personal development. For more information contact the Assistant Vice President for Extended Campus Programs.
GENERAL STUDIES FOR BACHELOR OF ARTS, BACHELOR OF SCIENCE, AND BACHELOR OF SCIENCE IN EDUCATION

(Bachelor of Applied Science general studies requirements are listed with Technical Occupations major.)

Philosophy of General Studies

The principal educational goal of Chadron State College is students’ intellectual development, which is best achieved through offering high quality educational opportunities. The College endorses a plan of study that promotes depth and proficiency in a single subject area as well as a breadth of knowledge crossing many academic disciplines. The General Studies Program is designed to encourage broader intellectual development by offering a variety of stimulating courses taught by instructors with expertise in their fields. This structured inquiry into the wider world of knowledge provides each student with avenues for self-discovery. The General Studies Program aims to produce constructively critical, intellectually curious graduates who are informed on global and social issues and who recognize the importance of their individual contributions towards creating a better world.

Candidates for a baccalaureate degree must complete the following General Studies program in addition to either a comprehensive major (48-57 hours) or field endorsement, or a subject major (30-36 hours) and minor (18-21 hours). Transfer students who possess an Associate of Arts degree need only complete six (6) upper division hours, three each in the categories of Global and Social Awareness, and Reason and Values. Students with an Associate of Science or an Associate of Occupational Studies degree should consult a CSC academic advisor for additional courses in general studies that may be required.

NOTE: Up to (9) hours of general studies courses can apply toward any comprehensive major or any minor. No courses required in a subject major (30-36 hours) can be used to meet General Studies Program requirements. Some degree programs specify general studies courses; check the program requirements for the major you are seeking.

General Studies Program

Communication - 3 Hours, selected from:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>BA 331</td>
<td>Business Communications</td>
<td>3 hrs.</td>
</tr>
<tr>
<td>CA 125</td>
<td>Fundamentals of Oral Comm</td>
<td>3 hrs.</td>
</tr>
<tr>
<td>CA 130</td>
<td>Interpersonal Comm</td>
<td>3 hrs.</td>
</tr>
<tr>

<tr>
<td>CA 230</td>
<td>Conflict Resolution and Mediation</td>
<td>3 hrs.</td>
</tr>
<tr>
<td>CA 233</td>
<td>Presentation Speaking</td>
<td>3 hrs.</td>
</tr>
</tbody>
</table>

Student Learning Outcome for Communication: Students will communicate effectively and responsibility through speaking and listening.

Performance Criteria for Communication:

All students will meet the following performance criteria:

- Demonstrate understanding of the ethical aspects of listening;
- Demonstrate ability to engage in the five-step process of listening, receiving, understanding, remembering, evaluating, and responding.

Students will meet one of the following three performance criteria depending on course selection:

- Demonstrate understanding of creating and delivering an effective speech;
- Demonstrate knowledge of factors affecting interpersonal interaction including conflict resolution, intercultural issues, nonverbal and verbal communication;
- Demonstrate understanding of how to effectively communicate in groups.
**Composition - 6 Hours, selected from:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 135</td>
<td>Composition I, 3 hrs.</td>
<td></td>

<td>Technical Writing I, 3 hrs.</td>
<td></td>
</tr>
<tr>
<td>ENG 240</td>
<td>Advanced Grammar &amp; Comp, 3 hrs</td>
<td></td>
</tr>
</tbody>
</table>

Developmental writing courses are required for students scoring below 19 on the ACT verbal exam. Consult the Advising Center in Crites Hall or the English Department for more information.

**Student Learning Outcome for Composition:** Students will discover, express, and advocate ideas clearly and effectively in Standard Edited English.

**Performance Criteria for Composition:**

- Conduct research as a series of tasks, including finding, evaluating, analyzing, and synthesizing appropriate sources;
- Compose essays using processes that involve invention, revision, and editing;
- Read, evaluate, and use sources critically and analytically;
- Follow conventions of Standard Edited English in finished compositions.

**Fine Arts - 3 Hours, selected from:**

<td>Elements of Theatre, 3 hrs.</td>
<td></td>
</tr>
</tbody>
</table>

**Student Learning Outcome for Fine Arts:** Students will experience the fine arts and develop critical understanding and appreciation of those arts.

**Performance Criteria for Fine Arts:**

- Demonstrate a mastery of the technical language of various arts;
- Demonstrate an understanding of what features of various arts make them successful;
- Use their knowledge of the features and language of the arts to evaluate artistic texts, works, and performances.

**Global and Social Awareness - 6 Hours (3 hours MUST be upper division), selected from:**

International, multicultural, and other special program which instill global and social awareness may be petitioned to Academic Review to meet the Global and Social Awareness requirements. Written petitions should be submitted to the Vice President for Academic Affairs.
Student Learning Outcome for Global and Social Awareness: Students will understand and be sensitive to cultural diversity and attain knowledge of an appreciation for various cultures and societies.

Performance Criteria for Global and Social Awareness: Depending on the course selected, students will meet one of the following performance criteria.

Students should be able to:
- Demonstrate understanding of the values and lifestyles of various cultures;
- Demonstrate understanding of the contributions of various cultures to the human enterprise;
- Demonstrate understanding and knowledge of human behavior in different spatial or temporal or institutional contexts.

Government - 3 Hours, selected from:
- PS 231 American National Government, 3 hrs.
- PS 341 Comparative Politics, 3 hrs.

Student Learning Outcomes for Government: (1) Students will develop an informed, critical, and articulate sense of political ideas central to governance, political institutions, and political processes. (2) Students will develop familiarity with contemporary political leaders, events, and trends. In doing so, students will demonstrate an ability to discuss politics in informative, critical, and persuasive manners through written and verbal communications.

Performance Criteria for Government:

Students should be able to:
- 1a. Describe major concepts central to popular governance, such as security, liberty, equality, rights, and institutions;
- 1b. Identify the causes and consequences of major periods of political development in American and world politics, focusing on varying types of governing systems and philosophies;
- 1c. Describe the development, purpose, and function of the primary institutions of democratic governance.
- 2a. Write logically and persuasively;
- 2b. Use proper grammar and punctuation;
- 2c. Make arguments and draw conclusions on political issues and support these claims in a logical and consistent manner;
- 2d. Critically evaluate written and verbal arguments presented in class, recognizing the strengths and weaknesses of varying ideas.

Health/Wellness - 3 Hours, selected from:
- FCS 337 Nutrition, 3 hrs.
- FCS 417 Lifespan Wellness, 3 hrs.
- HPER 233 Health/Wellness, 3 hrs.

Student Learning Outcome for Health/Wellness: Produce positive changes in the student through the knowledge of nutrition, personal health habits and physical activities which enhance the personal living environment.

Performance Criteria for Health/Wellness:

Students should be able to:

Health/Wellness
- Define and apply the physical and emotional dimensions of health into their own lives.
- Define and apply the social and environmental dimensions of health into their own lives.
- Define and apply the spiritual and intellectual dimensions of health into their own lives.

Nutrition
- Name and describe six types of nutrients;
- Describe the Food Guide Pyramid and the number of servings for each food group in the pyramid;
- Describe the different types of fats and explain their effects on the human body.
History - 6 Hours, selected from:

- HIST 231 U.S. History to 1877, 3 hrs.
- HIST 232 U.S. History since 1877, 3 hrs.
- HIST 233 Western Civilization I, 3 hrs.
- HIST 234 Western Civilization II, 3 hrs.

Student Learning Outcomes for History:
(1) Students will develop an informed, critical, and articulate sense of the past, an appreciation for the diversity of the human experience within the Western World, and an awareness of the role of tradition, people, and past events in shaping the present.
(2) Students will write effectively and evaluate the written expression of others.

Performance Criteria for History:
Students should be able to:
- 1a. Identify and relate the causes and consequences of the major turning points in either the History of Western Civilization or United States History, including but not limited to the Rise and Fall of Rome, the Scientific Revolution, the Industrial Revolution, and Great Depression, World Wars I and II, and the Cold War;
- 1b. Define the major political, economic, and social trends for the course(s) of study;
- 1c. Describe the interactions of various people with one another, including the short- and long-term consequences of those encounters; and
- 1d. Trace the migration patterns of people across the globe and assess the effects of such movement.
- 2a. Write logically and persuasively;
- 2b. Use proper grammar and punctuation;
- 2c. Read critically the writing of others;
- 2d. View writing as a process requiring planning, drafting, and revising; and
- 2e. Use standard English.

Humanities - 3 Hours, selected from:

- HUM 231 Humanistic Perspectives, 3 hrs.
- HUM 232 The Humanistic Tradition I, 3 hrs.
- HUM 233 The Humanistic Tradition II, 3 hrs.
- HUM 234 The Humanistic Tradition III, 3 hrs.
- PHIL 231 Introduction to Philosophy, 3 hrs.

Student Learning Outcome for Humanities:
Students will understand and appreciate the human experience through the distinctive characteristics of the humanistic perspective.

Performance Criteria for Humanities:
Students should be able to:
- Demonstrate familiarity with major works (oral, written, and visual) and key figures in the humanities;
- Recognize and analyze significant traditions or important themes that are reflected in or contained in these works;
- Apply an understanding of these humanistic themes to their own lives.

Mathematics - 3 Hours

The following matrix is designed to aid the student in enrolling in the appropriate Mathematics course. If a student’s ACT Math test score is 1-18, the student must take the ASSET test for proper advising. If the ACT Math test score is 19 or higher, the student should be advised to take a Mathematics course based upon the following matrix and value added placement:

<table>
<thead>
<tr>
<th>ACT Math Score</th>
<th>Recommended Math Course</th>
</tr>
</thead>
<tbody>
<tr>
<td>1-15</td>
<td>ACFS-007M Basic Math</td>
</tr>
<tr>
<td>16-18</td>
<td>MATH 016 Introductory or Intermediate Algebra</td>
</tr>
<tr>
<td>16-18</td>
<td>MATH 100 Pre-college Algebra</td>
</tr>
<tr>
<td>&gt;19</td>
<td>MATH 142 College Algebra or value added</td>
</tr>
</tbody>
</table>
### High School Background

<table>

</tr>
</thead>
<tbody>
<tr>
<td>MATH 133</td>
<td>Intro to Mathematics, 3 hrs.</td>
</tr>
<tr>
<td>1 Year Algebra</td>
<td>MATH 132 Applied Mathematics, 3 hrs. (if Elementary Education Major)</td>
</tr>
<tr>
<td>MATH 137</td>
<td>Math Topics for Elem Teachers, 3 hrs. (if Elementary Education Major)</td>
</tr>
<tr>
<td>MATH 232</td>
<td>Applied Statistics, 3 hrs.</td>
</tr>
</tbody>
</table>

| 1 Year Algebra and 1 Year Geometry | MATH 142 College Algebra, 4 hrs. |

| 2 Years Algebra | MATH 138 Applied Calculus, 3 hrs. |
| MATH 142 College Algebra, 4 hrs. |
| MATH 232 Applied Statistics, 3 hrs. |

| 2 Years Algebra and 1 Year Geometry | MATH 134 Plane Trigonometry, 3 hrs. |
| MATH 135 Pre-Calculus Mathematics, 3 hrs. |

| 4 Years Math including Trigonometry | MATH 138 Applied Calculus, 3 hrs. |
| MATH 232 Applied Statistics, 3 hrs. |

### Student Learning Outcome for Mathematics:
Students will develop quantitative and logical reasoning abilities needed in all disciplines, the workplace, and for informed citizenship.

### Performance Criteria for Mathematics:
- Communicate quantitative ideas using mathematical terminology;
- Demonstrate skill manipulating mathematical expressions;
- Organize, analyze, and interpret data;
- Model and solve problems mathematically.

### Physical Activities - 2 Hours, selected from:

### Student Learning Outcome for Physical Activities:
Produce positive changes in the student through the knowledge of physical activities which enhance the personal living environment.

### Performance Criteria for Physical Activities:
- Participate regularly in physical activity;
- Demonstrates the knowledge and understanding of rules and regulations of recreational and/or sport activities;
- Acquire and demonstrate the skills necessary to participate in physical activity.
Reason and Values - 3 Hours, selected from:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>B A  431</td>
<td>Professional Ethics, 3 hrs.</td>
<td></td>

<td>Environmental Ethics, 3 hrs.</td>
<td></td>
</tr>
</tbody>
</table>

Student Learning Outcome for Reason and Values: Students will develop skills in critical thinking and argumentation. In BA 431 and Phil 432, students will focus on arguments about ethical issues.

Performance Criteria for Reason and Values:

Students should be able to:

- Identify and understand the structure of various arguments. In BA 431, Phil 432 and Phil 433, students will examine arguments used to defend ethical positions;
- Evaluate arguments, taking different perspectives into account. In BA 43, Phil 432 and Phil 433, students will evaluate arguments for ethical positions, using different ethical theories to help provide different perspectives on the issues at stake;
- Construct clear and well-structured arguments, anticipating and dealing with various challenges to those arguments that might arise. In BA 431, Phil 432 and Phil 433, students will construct arguments defending ethical positions.

Science - 6 Hours, one course from each area, one course must include a lab

Directions for matrix use:
(1) All students are required to complete 6 hours of science with 3 hours selected from Biological Science and 3 hours selected from Physical Science. At least one laboratory course is required.
(2) If a student has no high school preparation in science or has undergone a long hiatus between high school and college, it is recommended that courses listed under: No Biology, General Science or Physical Science be used.
(3) When a student has multiple science courses at the high school level, the most advanced course should be used for selection of appropriate value added college courses.

**Student Learning Outcome for Science:** Students will acquire an understanding of the fundamental principles of the natural sciences and apply scientific methods of inquiry to investigate the natural world and its connections with culture and society.

**Performance Criteria for Science:**

Students should be able to:

- Gather and critically evaluate data;
- Participate in scientific inquiry;
- Demonstrate basic knowledge of the natural sciences;
- Explore the historical development of scientific ideas and the progressive nature of science.
ALTERNATIVE LEARNING EXPERIENCES

ADVANCED PLACEMENT
College credit may be earned through the Advanced Placement (AP) program.
- All advanced placement test scores accepted by Chadron State College must be a score of 3 or higher.
- Other policies may apply.
- Contact the Registrar’s Office in Crites Hall for more information.

COLLEGE LEVEL EXAMINATION PROGRAM—CLEP
- Chadron State College accepts College Level Examination Program (CLEP) credit toward degree completion.
- Students must be enrolled at CSC to receive CSC credit for CLEP.
- CLEP tests must be completed before an individual has taken any college level course in the discipline in which credit is sought.
- A maximum of 18 hours of CLEP credit may be applied to a degree. All CLEP credit hours contribute to a maximum of 42 hours of experiential learning credit.
- Other policies may apply.
- Contact the Extended Campus Programs Office in Crites Hall for more information.

CORRESPONDENCE COURSES
(Self-study)
- Students may enroll for credit in Chadron State College correspondence courses.
- Correspondence courses have no classroom time and are completed without faculty instruction, interaction, or supervision.
- Full payment of tuition and fees is due at the time of registration.
- Correspondence courses may not be audited.
- Student may enroll for year-long or semester-long formats.
- Students may not be enrolled in more than two courses at a time.

Year-long format
- Students have one calendar year from the end of the semester in which they enrolled to complete the course.
- A grade is filed upon completion of the course or at the end of the one year period, whichever occurs first.
- A “W” will be posted as a final grade for students withdrawing from the course within the first six months. Withdrawals after six months will result in a final grade (other than “W”) based on course material completed at the time of withdrawal.
- Courses are not subject to “incompletes” and extensions are not granted.
- A full refund of tuition and fees (except matriculation fee) is available only within the first 30 days of enrollment. There are no refunds after the first 30 days of enrollment.
- Year-long courses are not eligible for financial aid.

Semester-long format
- Courses begin and end at the same time as other CSC spring and fall semester courses. Semester-long correspondence classes are not available during the summer term.
- Semester-based courses may qualify for financial aid.
- Once registered for semester-based courses, students may not change to the full-year option.
- Semester-based correspondence courses are subject to the same policies and time restrictions as other semester-based CSC courses.
- Grades are filed at the end of the semester of enrollment.

Other policies may apply. Contact the Extended Campus Programs Office in Crites Hall for more information.
COURSE CHALLENGE

Students enrolled at Chadron State College can earn college credit by “challenging” selected courses in the General Bulletin.

- Requests to challenge a course must be made to the dean of the school in which the course is listed.
- The dean will determine if the course is available for challenge and whether the challenge shall be by comprehensive examination and/or by some other evidence of competence in the subject matter of the course.
- Credit will be granted only if the grade received on the challenge is a “C” or above.
- The credit will be recorded on transcripts and calculated into earned hours.
- Forms for course challenges are available from the Registrar’s Office.
- Fees are determined annually and are charged through the Business Office.
- Exceptions:
  - When the course is a prerequisite to a course already taken.
  - When the course has been taken previously for audit or credit.
  - When the course has been determined to be ineligible for challenge by the academic school.

Other policies may apply.

INDEPENDENT STUDY

Independent Study allows a student to learn independently under the supervision of a faculty member outside the normal classroom setting. The intent of Independent Study courses is to support and encourage in-depth study in areas beyond the traditional course offerings. (Independent Study differs from self-study correspondence courses.)

- Students may not earn more than nine credit hours of independent study.
- No more than six hours completed in any one department.
- Exceptions to this policy can be made only through written petition to the Vice President for Academic Affairs.

INTERNATIONAL BACCALAUREATE CREDIT-IB

Chadron State College accepts credit from students who have completed the International Baccalaureate diploma program through their high school.

- Acceptance of specific credits is determined in consultation with appropriate academic departments.
- Contact the Registrar’s Office in Crites Hall for more information.

INTERNEPHTS

The Internship Program provides a structured educational experience integrating classroom theory with supervised, planned, and progressive work experience in the student’s field of study. The program is designed to supplement and compliment the traditional curriculum of Chadron State College. The goal of this experience will be to enhance the student’s educational, professional, and personal development.

- Internship credit can apply toward degree, elective, and/or upper division hour requirements for graduation.
- Students must have completed 30 credit hours and demonstrate academic achievement, personal maturity, and readiness.
- Students may earn 1-12 hours of internship credit per academic term.
- A maximum of 18 hours of internship credit may be applied toward a degree. Lower limits may apply in some departments. All internship hours contribute to a maximum of 42 hours of experiential learning credit.
- The student’s academic advisor and the departmental faculty coordinator must approve the student and the internship site before the student begins an internship.
- Other policies may apply.
- Contact the Internship and Career Services Office in Crites hall for more information.
PRIOR LEARNING CREDIT PROGRAM (PLC)

The Prior Learning Credit Program provides the opportunity for enrolled adult students (25 years or older) to receive credit for college-level learning acquired outside the traditional college classroom.

- To be considered for credit, students document college-level learning from work experience, training, military service, intensive reading, and other activities where comparable learning would occur.
- Students seeking Prior Learning Credit are required to complete COLG 131 Portfolio Development prior to submission of a portfolio that documents the college-level learning from their experiences.
- Other policies may apply.
- Contact the Extended Campus Programs Office in Crites Hall for more information.

STUDY ABROAD

Students can earn credit through Chadron State College-sponsored foreign international studies programs.

- Students may study at foreign universities for one or more semesters, and transfer the credit to CSC.
- Students can earn CSC credit for short-term international study courses, led by Chadron State College faculty.
- Financial aid may be available for qualifying students.
- Contact the Extended Campus Programs Office in Crites Hall for more information.

AGRICULTURE

Mission
The mission of the agriculture program is to address the educational needs of individuals interested in rangeland management, domestic livestock and/or wildlife management, soil and plant sciences, and production processes and techniques.

Student Learning Outcomes
Students in this program will develop the knowledge, skills, competencies, and attitudes so they will be able to:

- Attain a career in an agriculture or rangeland management related field.
- Recognize the highly competitive and global role of agriculture in the local, national, and world marketplaces.
- Achieve entrance into graduate programs in agriculture or rangeland management related fields.
- Interpret and utilize current theory and research findings to enhance knowledge, skills, and abilities needed for agriculture or rangeland management related careers.

The Degree of Bachelor of Science with a COMPREHENSIVE MAJOR IN RANGELAND MANAGEMENT: A student must complete the following Core Requirements in addition to an option and the General Studies requirements. All students must take CHEM 140/140L, as well as BIOL 131, 136/136L, or 138/138L which will satisfy the General Studies Science requirements.

Rangeland Ecology Option
A student must complete the following program in addition to the Core and the General Studies requirements with exceptions as noted below. If the student elects to spend two semesters at the University of Nebraska-Lincoln the following exceptions apply: three (3) hours of History, three (3) hours of Health/Wellness, and two (2) hours of Physical Activities are waived from the General Studies requirements for this option.

Recommended Electives: In order to enhance employment opportunities, the following elective courses are recommended: AGRI 331, 333/333L, 336, 338, 340, 420, GEOS 321, or at the University of Nebraska-Lincoln courses in Natural Resource Policy, Watershed Management, Principles of Forestry, Disturbed Land Reclamation, and Remote Sensing/GIS.
Rangeland Fire Management Option

This program is designed for students who will complete two years at Casper College, or other two year schools with a similar curriculum, and who will then transfer to Chadron State College to complete a Bachelor of Science degree in Rangeland Management. A student must complete the following program in addition to the Core and the CSC General Studies Requirements. See an agriculture advisor on the Chadron State College campus for the courses to be taken at Chadron State College.

Core Requirements ....................................................... 37
FIRE 1500 Introduction to Fire Science ...................... 3
FIRE 1510 Fire fighting Strategy & Tactics I ............. 3
FIRE 1520 Fire Fighting Strategy & Tactics II ........... 3
FIRE 1810 Introduction to Wildland Fire Fighting ..... 3
FIRE 1830 Intermediate Wildland Fire Behavior ........ 3
FIRE 1840 Single Resource Boss/Crew ...................... 3
FIRE 1991 Wildland Leadership ................................. 3
Total     58

Classes with the FIRE prefix here are only available at Casper College. See General Studies transfers for electives to take at Casper College to meet the General Studies required by CSC. See Applied Sciences transfers for courses at Casper College that would meet some of the core requirements. A maximum total of 66 transfer hours will be applied towards the CSC Bachelor of Science degree. For further information see the Additional Information for Transfer Students section of the CSC General Catalog.

http://www.csc.edu/transfer/guides/casper_college/casper_general_studies.htm
http://www.csc.edu/transfer/guides/casper_college/casper_applied_sciences.htm
http://www.csc.edu/transfer/guides/general_text/transfer_of_credit_accredited.htm

Rangeland Livestock Management Option

A student must complete the following program in addition to the Core and the General Studies requirements. No exceptions to the General Studies requirements apply to this option.

Core Requirements ....................................................... 37
AGRI 331 Farm and Ranch Management .................. 3
Animal Science Electives from list below ...................... 9
Business Electives from list below ................................. 9
Total     58

Animal Science Electives: Select at least nine (9) hours from the following: AGRI 333/333L, 336, 338, 427/427L, 447.

Business Electives: Select nine (9) hours from the following: ACTG 241, AGRI 340, ECON 232, 334, 338, FIN 335.

Recommended Electives: In order to enhance employment opportunities, the following elective courses are recommended: AGRI 335, 420, 431, 436, GEOS 321, 322, and ECON 434.

Bachelor of Science in Natural Resources WITH A MAJOR IN GRASSLAND ECOLOGY AND MANAGEMENT: This program is designed for students who will complete two years at Chadron State College and who will then transfer to the University of Nebraska-Lincoln to complete a Bachelor of Science degree from the University of Nebraska-Lincoln. Please see an agriculture advisor on the Chadron State College campus for the courses to be taken at Chadron State College.

Bachelor of Science in Agriculture Sciences WITH A MAJOR IN AGRICULTURAL EDUCATION: This program is designed for students who will complete two years at Chadron State College and who will then transfer to the University of Nebraska-Lincoln to complete a Bachelor of Science degree from the University of Nebraska-Lincoln. Please see an agriculture advisor on the Chadron State College campus for the courses to be taken at Chadron State College.

The Degree of Bachelor of Arts with a COMPREHENSIVE MAJOR IN BUSINESS ADMINISTRATION with AGribusiness option: See Business Department.
MINORS in Agriculture

**Agribusiness – Agriculture:** This minor is recommended for the student interested in agribusiness and enrolled in a major other than rangeland management. Rangeland management majors are advised to complete the Minor in Agribusiness offered by Business.

AGRI 132  Introduction to Animal Science .......................... 3  AGRI 331  Farm and Ranch Management .......................... 3
AGRI 242 & 242L Principles of Rangeland & Forage .......................... 4  AGRI 410  Agriculture Seminar .......................... 1
Crop Mgmt & Lab ........................................... 4  Choose 9 hrs of electives from below .......................... 9
AGRI 310  Careers in Agriculture .................................. 1

Total 21

**Electives:** AGRI 340, 431, ECON 334, 338, 434, FIN 335.

**Animal Science:** This minor is recommended for the student interested in the animal sciences and enrolled in a major other than rangeland management.

AGRI 132  Introduction to Animal Science .......................... 3  AGRI 337  Applied Animal Nutrition .......................... 3
AGRI 242 & 242L  Principles of Rangeland & Forage .......................... 4
Crop Mgmt & Lab ........................................... 4  Animal Production electives to be selected from
AGRI 310  Careers in Agriculture .................................. 1  list below ........................................... 6
Animal Anatomy/Physiology to be selected from
list below ........................................... 3

Total 20

**Animal Production:** Select at least six (6) hours from the following: AGRI 333/333L, 335, 336, 350.

**Animal Anatomy/Physiology:** Select at least three (3) hours from the following: AGRI 427/427L, 447.

**Agricultural Plant Science:** This minor is recommended for the student interested in the plant sciences and enrolled in a major other than rangeland management. Rangeland management majors are advised to complete the Minor in Plant Sciences offered by Biology.

AGRI 141  Introduction to Plant Science .......................... 3  BIOL 238 & 238L  Plant Morphology & Lab
AGRI 245 & 245L  Prin of Soil Science & Lab .......................... 4
AGRI 339 & 339L  Rangeland Plant Ident & Lab .......................... 3
AGRI 428 & 428L  Veg Invent & Analysis & Lab .......................... 3

**AGRI** 444  Grass Systematics .......................... 3
GEOS 322  Introduction to GPS .................................. 1

Total 20

**Rangeland Management:** This minor is recommended for the student that wants a basic understanding of Rangeland management that will compliment a major other than rangeland management.

AGRI 132  Introduction to Animal Science .......................... 3  AGRI 339 & 339L  Rangeland Plant Ident & Lab .......................... 3
AGRI 242 & 242L  Prin of Rangeland & Forage .......................... 4  AGRI 428 & 428L  Veg Invent & Analysis .......................... 3
Mgmt & Lab ........................................... 4  Choose 7 hrs of electives from below .......................... 7

Total 20

**Electives:** AGRI 235, 333/333L, 334, 337, 350, 436, GEOS 321, 322

**Wildlife Management:** This minor is recommended for the student interested in wildlife management. Rangeland management majors are advised to complete the Minor in Wildlife Management offered by Biology.

AGRI 325  Rangeland Wildlife Management .......................... 3  BIOL 401  Ornithology .......................... 3
AGRI 426  Wildlife Research and Mgmt Tech .......................... 3  Electives .......................... 3
AGRI 435  Wildlife Management Practicum .......................... 3

Total 21

To satisfy wildlife electives and to enhance employment potential, students are recommended to take courses from the following: AGRI 245/245L, 339/339L, 428/428L, 436, BIOL 427, 443, GEOS 321, 322, MATH 232.
**Veterinary Science:** This minor is recommended for the student that is interested in veterinary science and enrolled in a major other than rangeland management.

Electives: AGRI 333/333L, 335, 336, 337, 338; BIOL 341/341L, 343/343L, 430, 431, 432/432L.

**Total** 20

**ACADEMIC CERTIFICATE in Agriculture**

**Wildlife Management:** This certificate program is intended to enhance the knowledge base of producers, conservationists, and interested members of the general public in the area of wildlife management. The successful student in this program will be awarded a Certificate in Wildlife Management upon successful completion of the following courses. These courses are offered through distance learning at all CSC branch campuses.

</table>

To enhance employability with this certificate it is recommended that students supplement these classes with the following: AGRI 427/427L, 436, 445/445L or BIOL 435/435L, BIOL 139/139L, 336/336L, 401, GEOS 321, 322.

**Agricultural Plant Sciences:** This certificate program is intended to enhance the knowledge base of producers, conservationists, and interested members of the general public in the area of plant science. The successful student in this program will be awarded a Certificate in Agricultural Plant Sciences upon successful completion of the following courses.

<table>

<tr>
<td>AGRI 339 &amp; 339L</td>
<td>Rangeland Plant Ident &amp; Lab</td>
<td>3</td>
</tr>
</tbody>
</table>

To enhance employability with this certificate, it is recommended that students supplement these classes with the following: AGRI 245/245L, 428/428L, 431, 436, BIOL 138/138L, 336/336L, 425/425L, 431/431L, 448/448L, GEOS 321, 322.

**AMERICAN INDIAN STUDIES**

**Student Learning Outcomes**

- Students will be able to compare and contrast American Indian societies and cultures.
- Students will be able to define and describe Lakota society and culture, and assess its effect upon the High Plains.
- Students will be able to trace the development of American Indians’ contemporary circumstances and situations.

**MINOR in American Indian Studies**

A student must complete the following program in addition to the General Studies requirements and a major in another discipline:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH 337</td>
<td>People &amp; Cultures of North America</td>

<td>3</td>
</tr>
</tbody>
</table>

Electives from list below: AIS 131, 132, 334, 430, 436; ANTH 430, 435; BIOL 448/448L; ENG 435; GEOG 430; and SOC 335.

**Total** 21
Academic Certificate Program

A student may be awarded a Certificate in American Indian Studies upon successful completion of the American Indian Studies minor program listed above.

ART

Mission Statement

The Chadron State College Art Department provides a comprehensive course of study in the visual arts while preparing students for careers in Fine Arts Studio, Graphic Design or Art Education. The program encourages personal and artistic growth in a student-centered learning environment and is dedicated to creating a classroom experience strong in the production of art, the knowledge of historical context, the use of critical thinking, and the understanding of aesthetics. The department enriches life in the Western High Plains region by providing educational opportunities, research, service, and visual arts programs that contribute to the vitality and diversity of the region.

Student Learning Outcomes

The outcomes of the Art discipline are as follows:

- Students will have an opportunity to explore, create, analyze, and understand art.
- Students will develop and enhance their artistic skills.
- Students will gain knowledge of art through workshops, field trips, and gallery exhibits.
- The Art discipline will create an atmosphere which encourages students to communicate their ideas and feelings about art.
- Students will experiment with new art materials, procedures, and technology.
- Prospective teachers will become knowledgeable with methods and techniques used in art education.
- Students will develop a professional portfolio and art exhibit.

Requirements

1. All art majors are required to complete Art 131, 133, 136, and 230 prior to enrolling in any other studio courses.
2. All incoming freshman art majors with the assistance of the art faculty must complete an entry level survey of their previous art experience for assessment purposes.
3. After completion of 60 credit hours, all art majors will be evaluated by the art faculty and notified of the advisability of continuing in upper division art courses. Transfer students are required to submit a portfolio by the middle of their first semester junior year.
4. To complete the requirements for a degree in Art each senior art major must participate in one Senior Thesis Exhibit during his/her final year. B.S.E. candidates must enroll the semester prior to enrolling in student teaching (Note: Secondary Methods Course in art is offered only during the Fall semester.)
5. The senior exhibit must reflect the student’s ability to create Art in at least two media, including works from their option area. All works must have been completed on the college level and within the past two years. The students, as a requirement of their senior thesis, must be involved in the setting up of art gallery exhibits, and supply the department a senior thesis portfolio.
6. Students will not normally be permitted to enroll in Advanced Art Studio, Seminar, or Independent Study until they have completed the required courses in the media or topic selected for advanced study.
7. **NOTE:** ART 400, 430, 500, 530 are all three credit hour courses and may only be taken for a combined total of nine hours in any studio area.
8. Materials fee will be assessed for most Art courses.
**The Degree of Bachelor of Arts with a COMPREHENSIVE MAJOR IN ART:** A student must complete the following core and one option in addition to the General Studies requirements. All art majors are required to complete ART 131, 133, 136 and 230 prior to enrolling in any other studio courses.

BIOLOGY

Student Learning Outcomes

1. Students will have a strong knowledge base and the skills to be lifelong learners.
   - Students will have a strong foundational knowledge to be able to critically evaluate information.
   - Students will be able to recognize the limits of their knowledge and have the skills to seek and evaluate additional information.
   - Students will be able to apply logical reasoning and organizational skills to integrate new information into their functional knowledge base.

2. Students will be prepared for their profession in the science discipline.
   - Students will understand the interrelatedness of science and society and exhibit the professional skills appropriate for their chosen career path.
   - Students will be able to communicate scientific knowledge to a diverse audience using appropriate technology and media tools.
The Degree of Bachelor of Science with a COMPREHENSIVE MAJOR IN BIOLOGY:

A student must complete the core requirements, an option, and the General Studies requirements. Students pursuing a comprehensive major in biology should take MATH 138 or 232 as their General Studies Math requirement.

Students intending to pursue a graduate degree emphasizing research are encouraged to strengthen their chemistry, physics, and mathematics proficiencies through additional coursework.

1 Students entering the Environmental Resource Management field are encouraged to pursue a minor in Applied Statistics, Environmental Chemistry, Geoscience, Water Resource Management, or Wildlife Management.
Students enrolled in this option are encouraged to substitute CHEM 131/131L and CHEM 132/132L for CHEM 140/140L, and substitute CHEM 233/233L and CHEM 234/234L for CHEM 231. MATH 232 is highly recommended.

**The Degree of Bachelor of Science in Education with a SUBJECT ENDORSEMENT IN BIOLOGY (7-12):** A student must complete the following program in addition to the Professional Education and General Studies Requirements. Students pursuing this endorsement must complete MATH 138 as the General Studies Mathematics requirement and PHYS 435 as one of the General Studies Global and Social Awareness requirements. A final grade of “C” or better must be attained in all endorsement area courses.

**The Degree of Bachelor of Science with a COMPREHENSIVE MAJOR IN HEALTH SCIENCES:** This degree provides health professionals an opportunity to earn a bachelor’s degree. This degree is not intended to replace a bachelor’s degree in a specific health profession; therefore, consultation with the Registrar and the Health Professions Office at Chadron State College regarding the appropriateness of this degree for each student is important.

To be eligible for this degree, each student must have successfully completed one or more of the following in an appropriately accredited professional program:

1. A twelve month professional program in Clinical Laboratory Sciences (Medical Technology).
2. An eighteen month or longer professional program in Radiography, Nuclear Medicine Technology, Diagnostic Medical Sonography, Radiation Therapy, Nursing, Occupational Therapy Assistant, Physical Therapy Assistant, Mortuary Science, or Respiratory Therapy.
3. One year of a professional program in Veterinary Medicine, Physical Therapy, Optometry, Occupational Therapy, Chiropractic Medicine, Podiatric Medicine, or a professional program in another of the health sciences that requires three or more years of study.
4. A student with eighteen months or more of professional education in a field not listed above may earn this degree by requesting specific permission and approval of the Registrar and the Health Professions Office. Chadron State College will determine the appropriate application of credits for each professional program listed by each applicant.
5. The professional program(s) attended must require a high school diploma or equivalent as an entrance requirement and have at least 25% of the training program as academic work in the classroom. The remaining 75% can be clinical training. The student is responsible for proving these conditions exist.

To earn this degree the student must complete at least 30 semester hours of Chadron State College credit before or after the professional program of studies, the comprehensive major as subsequently described, 45 upper division hours, 125 semester hours of college credit, and the General Studies requirements as subsequently listed. Should the professional program component not total 35 semester hours the student must earn additional Chadron State College credit at the upper division level to meet the 125 total credit hour minimum.
Admission requirements to a professional program and thus graduation requirements may change between the date a catalog is printed and the date a student may expect to be graduated. Therefore, each student must consult with the Health Professions Office/Advisor and the Registrar’s Office at CSC as well as the professional school(s) of their choice at least once each calendar year for the latest requirements.

Each student must complete the core requirements, one option, the listed General Studies, and elective courses.

**General Electives**

Seven hours of elective courses must be selected from any area of the Chadron State College catalog with advisor consultation.

**Chadron State College**

Chadron State College is affiliated with the Clinical Laboratory Science (Medical Technology) Program at Rapid City Regional Hospital. Chadron State College’s pre-professional program meets the requirements of many, if not all, NAACLS accredited professional schools in the United States. The Clinical Laboratory Sciences curriculum for Rapid City Regional Hospital follows the course descriptions for Biology. Successful completion of course work is required, but completion of the registry exam is not required for the degree.
Pre-Chiropractic Medicine Option

Students must complete the core requirements as well as the courses listed below; and one year of an appropriately accredited professional program in Chiropractic Medicine.

**General Health Care Option**

This option is available only to those students pursuing a career choice for which an option is not described. The elective courses for this option will be selected by the student and the student’s advisor at Chadron State College and approved by the Registrar and the Dean of the School of Arts and Science. The courses selected for this option must total 26 semester credit hours. The courses selected will typically be in the science and mathematics areas but can be from other disciplines if it best serves the needs of the student. Student must consult with the Health Professions Office, Director of Health Professions, and the Chair of the Physical and Life Sciences Department to plan course of study.

*Students substitute Health Physics I, Radiation Physics I, and Radiobiology from the RWMC Radiologic Technology Certificate Program for CHEM 435 with lab.

**Up to forty-three (43) hours of the RWMC Radiologic Technology Certificate Program may be applied to the CSC upper division requirement.

***These courses are additional required prerequisites for admission to the RWMC Radiologic Technology Program that are not included in the CSC General Studies requirements.

****Students proficient in writing are encouraged to register for advanced composition courses, including ENG 240, 337, and 339.

MINORS in Life Sciences

Biology: A student must complete the program listed below in addition to the General Studies Requirements and a major in another discipline.
BIOL 131 Fundamentals of Cellular Biology ........... 3 BIOL 332 Genetics .............................................. 3
BIOL 138 & 138L General Botany & Lab .................. 3 Upper Division Biology Electives* .................... 9
BIOL 139 & 139L General Zoology & Lab ................ 3 Total 21

*Students selecting this minor are strongly encouraged to seek counsel with biology faculty to determine appropriate electives.

Plant Sciences: A student must complete the program below in addition to the General Studies requirements and a major.
AGRI 245 Principles of Soil Science ....................... 3 BIOL 438 & 438L Taxonomy of Plants & Lab .......... 3
AGRI 339 & 339L Range Plant Identification & Lab ... 3 BIOL 439 & 439L Plant Physiology & Lab ............ 3
BIOL 138 & 138L General Botany & Lab .................. 3 GEOS 322 Introduction to GIS ......................... 3
BIOL 336 & 336L General Ecology & Lab .................. 3 Total 21

Wildlife Management: A student must complete the program below in addition to the General Studies requirements and a major in another discipline.
BIOL 235 & 235L Intro to Wildlife Mgmt ............... 3 BIOL 435 Mammalogy ........................................ 3
BIOL 325 & 325L Rangeland Wildlife Mgmt ............ 3 BIOL 437 Wildlife Mgmt Practicum ................... 3
BIOL 401 Ornithology ........................................... 3 Electives .................................................. 3
BIOL 426 Wildlife Research & Mgmt Tech ................ 3 Total 21

To satisfy wildlife elective and to enhance employment potential students are recommended to take courses from the following: AGRI 245/245L, 339/339L, 428/428L, 436, BIOL 427/527, 443/543, GEOS 321, 322, MATH 232.
Academic Certificates in Life Sciences

**Plant Sciences:** A student may be awarded a Certificate in Plant Sciences upon successful completion of the Plant Sciences minor program of study listed above.

**Wildlife Management:** A student may be awarded a Certificate in Wildlife Management upon completion of the Wildlife Management minor program of study listed above.

**RURAL HEALTH OPPORTUNITIES PROGRAM**

The Rural Health Opportunities Program (RHOP) is a cooperative program between Chadron State College (CSC) and the University of Nebraska Medical Center (UNMC). The purpose of the program is to recruit and educate traditional and non-traditional students from rural Nebraska who will return to practice in the rural areas of the state. This program represents a commitment and dedication to the education of Nebraskans and to provide quality health care to the citizens of the state. RHOP currently has options in medicine, dentistry, dental hygiene, pharmacy, medical technology, physical therapy, nursing, physician assistant, and radiography. Admission into each option of the program is competitive. Each participant accepted into the program receives automatic admission into the designated professional program upon successful completion of the appropriate curriculum at CSC. For information, application forms, admissions criteria, criteria for evaluation of progress in the program, and programs of study please contact the Health Professions Office at CSC.

**Options**

**DENTAL HYGIENE:** Includes two years of coursework at CSC and two years of professional study at the Dental Hygiene Program, College of Dentistry, UNMC in West Campus in Scottsbluff, NE. Upon successful completion of this four year program, a student will receive a Bachelor of Science degree in Dental Hygiene from UNMC.

**DENTISTRY:** Includes four years of study at CSC followed by four years of professional education at the College of Dentistry at UNMC-Lincoln campus. The student will follow a prescribed four-year program of study at CSC that will satisfy the requirements for a Bachelor of Science with a comprehensive major in the Biology – Human Biology Option from CSC. The D.D.S. degree will be awarded by UNMC upon successful completion of the professional program.

**MEDICAL TECHNOLOGY:** Includes three years of study at CSC, three months of study in the student clinical laboratory at UNMC in Omaha or Kearney, Nebraska, and nine months of clinical laboratory experiences in Omaha or at selected clinical sites in central and western Nebraska. The student will receive a Bachelor of Science degree in Medical Technology from UNMC upon successful completion of this four year program.

**MEDICINE:** Includes four years of study at CSC followed by four years of professional education at the College of Medicine at UNMC. The student will follow a prescribed four-year program of study at CSC that will satisfy the requirements for a Bachelor of Science with a comprehensive major in the Biology – Human Biology Option from CSC. The M.D. degree will be awarded by UNMC upon successful completion of the professional program.

**NURSING:** Includes two academic years of coursework at CSC, and five semesters of professional study at the Scottsbluff Campus of the UNMC College of Nursing. Upon completion of this program, a student will receive a Bachelor of Science in Nursing degree from UNMC.

**PHARMACY:** Includes three years of coursework at CSC, three years of professional study at the College of Pharmacy at UNMC in Omaha, and one year of clerkships in rural Nebraska. Upon successful completion of first year of the Doctor of Pharmacy program, the student will qualify for the Bachelor of Science with a comprehensive major in the Health Science – Pre-Pharmacy Option from CSC and will receive a Doctor of Pharmacy (PharmD) degree from UNMC College of Pharmacy upon completion of the entire program.

**PHYSICAL THERAPY:** Includes three years of study at CSC, three years of basic medical science and clinical training at UNMC in Omaha, Nebraska, and a semester of clinical experiences in western Nebraska. The student may receive a Bachelor of Science degree with a comprehensive major in Health Sciences – Pre-Physical Therapy Option from Chadron State College upon successful completion of the first year of the professional program, and a Doctor of Physical Therapy from UNMC upon successful completion of the professional program.
PHYSICIAN ASSISTANT: Includes four years of study at CSC, thirteen months of basic medical sciences and clinical training in the Physician Assistant Program at UNMC in Omaha, Nebraska, followed by fifteen months of clinical rotations at UNMC in Omaha or at selected clinical sites in western Nebraska. The student will follow a prescribed four-year program of study at CSC that will satisfy the requirements for a Bachelor of Science with a Comprehensive Major in Biology--Human Biology Option from CSC. The Master of Physician Assistant degree will be awarded by UNMC upon successful completion of the professional program.

RADIOGRAPHY: Includes two years of courses at CSC followed by two years of professional study in the Radiation Sciences Technology Program within the School of Allied Health at UNMC in Omaha. Upon successful completion of this four year program, the student will receive a Bachelor of Science degree in Radiation Science Technology from UNMC.

RAPID CITY REGIONAL HOSPITAL AFFILIATED HOSPITAL-BASED CLINICAL MEDICAL TECHNOLOGY CURRICULUM

This structured curriculum for the clinical year of professional study at an affiliated hospital-based medical technology program includes: Theory and Principles, Methodologies and Instrumentation, Problem Solving, Quality Assurance, and Computer Applications, Clinical Significance and Correlation of Laboratory Procedures (in the diagnosis and treatment of disease processes).

The curriculum encompasses six MAJOR subject areas commonly offered in the modern clinical laboratory. These six major subjects are: Clinical Microscopy/Urinalysis, Clinical Hematology/Coagulation, Clinical Microbiology, Clinical Serology/Immunology, Clinical Chemistry/Radiobioassay/Body Fluids, and Clinical Immunohematology.

It also includes SPECIALIZED UNITS OF INSTRUCTION (SPECIAL TOPICS) which may be offered as separate courses, clustered together, or included within one of the major subject areas. These specialized units are: Introduction/Orientation to Medical Technology, Phlebotomy, Computer Applications in the Clinical Laboratory, Laboratory Mathematics/Quality Assurance, Management/Supervision, Educational Methodology, and Introduction to Research.

Clock hours (didactic and practical), as well as placement of these specialized units within the clinical year, account for the diversity of credit hours per subject area assigned by the hospital affiliate. The total semester hours credit recommended by COMTE (Committee on Medical Technology Education) for transcript posting is 40 hours.

Special Appointment Medical Technology Program Faculty: Pam Kieffer, M.T., Program Director; Susan L. Eliason, M.D., Medical Director.

COURSE DESCRIPTIONS

<table>
<thead>
<tr>
<th>Major Subjects</th>
<th>Semester Hours Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lecture, supervised laboratory instruction, quality control, instrumentation, computer applications, and experience in body fluids and urine in regard to chemical and cellular composition, anatomy and physiology, theory of renal function in health and disease.</td>
<td></td>
</tr>
</tbody>
</table>

| 2. Clinical Hematology/Coagulation   | Range of Credit: 5-8 sem. hrs. |
| Lecture, supervised laboratory instruction, quality control, instrumentation, computer applications, and experience in the analysis of cellular elements of the blood and bone marrow, both normal and abnormal, and on the hemostatic mechanisms of the blood. |

| 3. Clinical Microbiology            | Range of Credit: 8-12 sem. hrs. |
| Lecture, supervised laboratory instruction, quality control, instrumentation, computer applications, and experience in the isolation and identification of pathogenic organisms and their susceptibility to anti-microbial agents. Includes Bacteriology, Mycology, Parasitology, and Virology. |
4. Clinical Serology/Immunology  
   Range of Credit: 2-3 sem. hrs.  
   Lecture on antigen/antibody structure-function-interactions, supervised laboratory instruction, quality control, 
   instrumentation, computer applications, and experience in applying the principles of immunology to serologic 
   diagnosis.

5. Clinical Chemistry/Radiobioassay/Body Fluids  
   Range of Credit: 8-12 sem. hrs.  
   Lecture, supervised laboratory instruction, quality control, computer applications, instrumentation, and 
   experience in medically oriented biochemistry as applied to normal and abnormal physiology and analyses of body 
   constituents. Includes analyses of special body fluids such as amniotic, synovial cerebrospinal, gastric, and pleural 
   fluids. Includes special procedures utilized for toxicology, endocrinology and radiobioassay.

6. Clinical Immunohematology  
   Range of Credit: 4-6 sem. hrs.  
   Lecture, supervised laboratory instruction, quality control, instrumentation, computer applications and experience 
   in theory and practice of immunohematology as applied to blood transfusion, component therapy, autoimmune 
   diseases, immunologic diagnostic procedures, and blood component preparation and administration.

Specialized Units (Special Topics)  

7. Orientation to Medical Technology  
   Range of Credit: 0-1 sem. hrs.  
   A. Introduction  
      Introduction to basic techniques, principles of safety, infection control, professional ethics, and personal and 
      professional responsibilities in the clinical laboratory. Review of program’s rules and regulations. Introduction to 
      clinical significance of laboratory procedures in diagnosis and treatment.

   B. Phlebotomy  
      Anatomy and physiology of the arm, blood collection techniques from vein, capillary, artery, and difficult draw 
      sites. Specimen variables and handling techniques. Interactive communication skills with patients and 
      paraprofessionals.

   C. Computer Applications in the Clinical Lab  
      An introduction to techniques, principles, and concepts common in laboratory data processing systems. 
      Utilization of mini-computers in the laboratory and with instruments.

   D. Laboratory Mathematics/Quality Assurance  
      Laboratory oriented mathematics with emphasis on performing calculations related to units of measure, pH, 
      Beer’s Law and calibration curves, Henderson-Hasselbach equation, enzyme activity, renal clearance, gastric acidity, 
      and hematology calculation. Principles and practices of quality assurance. Includes statistical techniques, method 
      evaluation, and pipette calibration.

8. Management and Supervision  
   Range of Credit: 0-4 sem. hrs.  
   Lectures and/or seminars on theory and techniques of laboratory oriented management practices utilized in 
   planning, organizing, directing, controlling, and supervising a clinical laboratory facility.

9. Educational Methodologies  
   Range of Credit: 0-4 sem. hrs.  
   Lectures and/or seminars on the principles of education. Includes methods of instruction, writing objectives, and 
   evaluation devices for didactic and clinical practice.

10. Introduction to Research  
    Range of Credit: 0-1 sem. hrs.  
    Faculty guided study, research, scientific writing, case study presentations, and/or projects in specialty area(s) of 
    medical technology.
The Association of Collegiate Business Schools and Programs (ACBSP), a professional accreditation agency recognized by the Council of Higher Education Accreditation (CHEA), has awarded accreditation status to the following degree programs offered by the Department of Business:

1) Comprehensive Major in Business Administration
   Options: Accounting, Agribusiness, Finance, Management, Management Information Systems, Marketing/Entrepreneurship
2) Subject Major in General Business
3) Master of Business Administration

**Vision**

The Business Academy at Chadron State College provides nationally competitive professional preparation in Business Administration.

**Mission**

The faculty of the Business Academy is committed to preparing students for challenging careers in the rapidly changing, highly technological and culturally diverse world. The fundamental purpose of the Business Academy is to be the premier provider of professional business programs in our service region. We strive to combine excellence in teaching with appropriate course work and classroom environments that emphasize critical thinking, human relation/communication skills, theoretical and professional skills, and lifelong learning environment designed for creative problem solving and decision making.

**Student Learning Objectives of Bachelor of Arts Program**

Students successfully completing programs offered by the Business Academy will develop the knowledge, skills, competencies, and attitudes to be able to:
1. Attain a career or entrance into a graduate program in business, economics, or related field.
2. Acquire the lifelong learning skills in business needed for professional and personal growth.
3. Interpret and utilize current theory and research findings to achieve a satisfactory score on a nationally recognized standardized exam in business.

**The Degree of Bachelor of Arts with a SUBJECT MAJOR IN GENERAL BUSINESS:**

A student must complete the following program in addition to the General Studies requirements and a major or minor in another discipline. Transfer students from a two (2) year institution must complete 50% of the required courses for the major from Chadron State College. All Business Majors must complete one of the following or equivalent Mathematics Requirement, prior to taking advanced (300/400 level) Finance, Economics, and Management courses: MATH 138 Applied Calculus or MATH 142 College Algebra. All Business majors must complete BA 331 Business Communications or equivalent for the General Studies Communication requirement.

CAREER AND TECHNICAL EDUCATION

Learning Objectives
The State Board of Nebraska has established certain criteria to be met by teachers planning to teach career and technical education courses in Nebraska schools. The learning objectives of Career and Technical Education are:

- Identify and explain the philosophy of career and technical education.
- Develop coordination plans for school and work-site learning which include a variety of opportunities experiencing the connection and transition from school to work.
- Identify and explain child labor laws and the application to work based learning.

SUPPLEMENTAL ENDORSEMENT to Teach COOPERATIVE EDUCATION-
DIVERSIFIED OCCUPATIONS (7-12): Students must complete the following program in addition to either having, or earning concurrently, a secondary endorsement in another field or subject.

CTE 431/531  Intro to Spec Needs Prog in CTE  OR  1000 hours verified work experience

COMMUNICATION ARTS

The Communication Arts comprehensive curriculum prepares students for professional careers or graduate school in one of the three major areas of student interest: Human Communication, Journalism, and Public Relations.

Student Learning Outcomes
1. Learn to gather, evaluate, and synthesize materials in the following contexts:
   - Interpersonal Communication
   - Public Address
   - Group/Team Communication
   - Mass Communication

2. Learn to create and evaluate messages designed for target groups related to:
   - Interpersonal Communication
   - Public Address
   - Group/Team Communication
   - Mass Communication
The Degree of Bachelor of Arts with a COMPREHENSIVE MAJOR IN COMMUNICATION ARTS: A student must complete the Core requirements and one of the Options listed in addition to the General Studies requirements. Students pursuing this combination major are strongly recommended to enroll in MATH 232, Applied Statistics, to fulfill the General Studies requirements for Mathematics.

DESIGN AND TECHNOLOGY EDUCATION

Mission

The mission of the Design and Technology Education program (formerly Industrial Technology Education) is to provide students with the educational preparation to enter careers in construction management and technology education. Design and Technology Education addresses the principles of graphic and technological communications, construction, manufacturing, and energy, power and transportation for the future educator in the middle school or secondary setting. Design and Technology Education prepares the future construction manager for productive and lucrative service in the High Plains region of the nation.

Student Learning Outcomes

Students in this program will develop knowledge, skills, competencies and attitudes so they will be able to:

1. Demonstrate ability in the application of basic management principles as related to construction or educational environments within the regional and global economies.
2. Apply technical knowledge in manufacturing, energy, power and transportation, graphic and technological communications and construction in problem situations relevant to their study of construction or technology education.
3. Demonstrate behaviors and attitudes consistent to team building leadership strategies within the regional and global economies.
4. Develop a skill set of construction and educational processes as they apply to the regional as well as global economies.

The Degree of Bachelor of Applied Science with a COMPREHENSIVE MAJOR IN CONSTRUCTION MANAGEMENT: In partnership with area community colleges and technical institutes an alternative for the completion of the Bachelor of Applied Science with a Comprehensive Major in Construction Management is available to students. Two-year institutions partnering in this degree will have formal agreements with CSC, the Department of Applied Sciences, and the Design and Technology Education program. Students are required to complete an Associate of Applied Science Degree in Construction Technology from one of the partner institutions or demonstrate that they have completed a Construction Technology program in an accredited institution in order to participate in this Major. Chadron State College will accept up to 70 semester credit hours from an AAS degree granted by an accredited technical school or community college. Additional hours may be accepted from regionally accredited 4-year institutions. Students participating in this Major must complete the general studies requirements established by CSC for the Bachelor of Applied Science degree. For a listing of present partners contact the Department of Applied Sciences.
REQUIRED TRANSFER COURSES FROM TWO-YEAR PARTNERS

- An introductory course in Construction Technology .......................................................... 3
- Two courses (minimum) in construction equipment, materials, tools, techniques .................. 6

The Degree of Bachelor of Science with a SUBJECT MAJOR IN CONSTRUCTION MANAGEMENT:

A student must complete the following program in addition to the General Studies requirements and a major or minor in another area. Design and Technology Education students are encouraged to complete a minor in business or agribusiness. Transfer students must complete at least one-half of the major at Chadron State College.

The Degree of Bachelor of Science in Education with a FIELD ENDORSEMENT IN DESIGN AND TECHNOLOGY EDUCATION (7-12) 2+2 Partnership with Regional Two-year Institutions: In partnership with area community colleges and technical institutes, an alternative for the completion of the Bachelor of Science in Education is available to students. Two-year institutions partnering in this degree will have formal agreements with CSC, the Department of Applied Sciences, and the Design and Technology Education program. Students participating in this major must complete the General Studies and Professional Education requirements established by CSC. For a listing of present partners contact the Department of Applied Sciences.

MINIMUM REQUIRED COURSE WORK AT THE TWO-YEAR PARTNERS:
- Two courses in Graphic & Technological Communication:
  May include Graphic Design, Web Design, Computer Aided Drafting CAD),
  Computer Aided Drafting & Design (CADD), Printing, Photography ......................................................... 6
- Two courses in Energy, Power & Transportation:
  May include Automotive Technology, Diesel Technology, Heating, Ventilation, & Air Conditioning (HVAC), Electricity, Electronics ........................................................................................................... 6
- Two courses in Construction:
  May include Construction Technology, Framing, Masonry, Construction Estimating,
  Construction Management, Cabinet Making ....................................................................................................... 6
- Two courses in Manufacturing:
  May include Machine Shop, Welding Technology, Robotics, Foundry, Computer Aided Manufacturing
  CAM, Computer Numerical Control (CNC), Programmable Logic Control (PLCs) ......................................... 6

EDUCATION

Mission

The mission of the Chadron State College Teacher Education program, founded on educating Visionary Leaders, prepares candidates to teach and facilitate student learning in candidate’s respective content area of study. Candidates will gain applicable knowledge and skills in the area of assessment, curriculum, guidance, multicultural education, classroom management, professional issues, special education, psychology, children’s literature and instructional technology as part of this program.

Philosophy

Education in a democracy is accepted as the most important human activity for the maintenance, perpetuation, and advancement of the society. With this in mind, the Education Unit of Chadron State College is dedicated to the development of visionary leaders. The program recognizes the institutional responsibility of developing leadership which facilitates proactive behaviors in educators, for educational services to the public and non-public as well as the rural, frontier, and urban sectors. The campus reflects a sensitivity to the need of being a social model, both flexible and adaptable, to the pluralistic and multicultural nature of the dominant society.

Students within the Education Unit are valued as unique individual learners, each wanting to learn and also capable of making good learning decisions. Each student is a client to be served by the staff of CSC and in turn the student (Teacher Candidate) will serve others after graduation in their role as an educator.

We believe the educator’s role is to facilitate learning. The facilitation of learning is accomplished by creating opportunities for all learners to actively participate in the learning environment and process knowledge through methods appropriate to their individual learning styles. Our model is based, to a great extent, on the constructivist theory of learning.

The faculty within the Education Unit act upon a set of common beliefs that reflect the importance placed upon the preparation of qualified professional educators, who will assume leadership roles within the local education community and the education profession at large.

In so doing, various methods of instruction are planned to be consistent with sound theory and current research findings. The individual faculty member is free to use varied approaches and personalized techniques in instruction. In creating a non-threatening learning climate, allowances for the learning styles are encouraged and responded to through appropriate teaching styles and open communication among all participants. Learning is believed to be inherently joyful and efforts toward developing and maintaining this end are supported. The demands of the content of the subject are not diminished in the teaching effort which will produce the greatest positive change.
The Visionary Leader Model

Chadron State College’s Teacher Education Program is designed to produce Visionary Leaders. Visionary Leaders inherit our profession’s quintessential traditions and tools, and are made aware of the best contemporary educational research and developments. We bequeath a vital educational vision - one that honors both tradition and innovation - to our students.

The Visionary Leader model is depicted by three interlocking circles, each representing an interrelated area of the curriculum: General Studies, Specialty Studies, and Professional Studies. One circle, professional studies, consists of six components that make up the conceptual framework for the Education Unit. These components are:

- Communication
- Thinking Skills
- Methodology/Technology
- Assessment
- Human Relations and Diversity
- Professionalism

These six areas constitute the conceptual framework for the professional preparation programs at Chadron State College. All six components are interwoven throughout the professional preparation programs.

Student Learning Outcomes

The Teacher Education Unit has identified six (6) broad student learning outcomes that are expected of all program completers. Each student learning outcome is a reflection of one of the following six components of the Unit’s conceptual framework “Developing Visionary Leaders”:

- Thinking Skills
- Human Relations-Multicultural
- Assessment
- Communication
- Methodology-Technology
- Professionalism

Each of the six broad student learning outcomes are assessed at various intervals (gateways) throughout the teacher education program. (These six components are also used to organize and define the Unit’s dispositions, as described in our conceptual framework document. The six expected student learning outcomes are as follows:

Upon completion of the CSC teacher education program, candidates will be able to

- promote activities that elicit critical thought, beyond recall and comprehension. (Thinking Skills)
- develop and maintain a physically inclusive and emotionally safe classroom environment conducive to effective learning that encourages student concerns, embraces elements of diversity, and exhibits an understanding of child growth and development. (Human Relations)
- design and assess learning activities (with sequential goals and objectives), utilizing assessment measures to make instructional and/or curricular decisions. (Assessment)
- demonstrate and promote effective communication skills (with students and adults), while respecting diversity and engaging students in the learning enterprise through motivation and constructive learning applications. (Communications)
- plan and deliver teaching-learning activities that are consistent with identified learning objectives and ability level of students while using a variety of instructional methodologies/strategies to prescribe for individual differences. (Methodology-Technology)
- demonstrate conduct befitting a professional educator to include the following dispositions: regular self-reflection, positive ethical behavior, respectful and attentive attitude, effective classroom management skills, appropriate knowledge of subject matter, and professional leadership. (Professionalism)

Moral Character and Safety Concerns

Teaching is a profession that requires its potential candidates to be individuals of integrity. Prospective teachers must be able to demonstrate that they are individuals of strong moral character who can make mature decisions for themselves and for their students. Teachers are responsible for the education, safety and well-being for anyone in their charge. Therefore, the Chadron State College Department of Education is interested in training future teachers who show a high degree of moral character and the ability to act responsibly. These individuals must be able to serve as representatives of our College and our program.
With this in mind, should the College discover behavior, which in its reasonable judgment, establishes on the part of the candidate a lack of integrity, questionable moral/ethical character, or otherwise indicates a potential of risk to young persons and others in the educational community, the Department of Education reserves the right to deny entry to, or dismiss anyone from, any program which leads to certification. More specifically, these kinds of behavior shall be adequate foundation to deny any candidate or potential candidate from participation in any practicum, pre-practicum, teacher internship or similar field experience, since the interests and safety of the children, and young people present in the classroom, schools and other venues where these field experiences take place are paramount.

Problematic behaviors, which the Department of Education reasonably determines renders the candidate a risk to the educational community, or demonstrates a likelihood of illegal activity, may be established by any credible means, including the facts surrounding a record of arrests and/or convictions.

Similarly, behaviors which result in a finding by a court or other governmental body that the individual is:

- A mentally ill and dangerous person;
- Mentally incompetent to stand trial;
- Acquitted of criminal charges because of insanity;
- An incapacitated person;
- A person in need of a guardian or conservator, or
- A person unable to manage his or her property/affairs due to mental illness, mental deficiency, or chronic use of drugs or chronic intoxication are the kind of behaviors which are likely to disqualify a candidate from participation in practicum experiences and other Department of Education programs.

**Nebraska State Department of Education Policy Pertaining to Students with Felony or Misdemeanor Convictions**

The Nebraska Department of Education policy requires that a person with felony convictions or misdemeanor convictions involving abuse, neglect, or sexual misconduct shall not be allowed to participate in pre-teacher internship, laboratory and/or classroom field experiences or intern experiences without approval by the Board of Education. To comply with this policy, the Chadron State College Department of Education will require each student to affirm under oath that he/she does not have any convictions in the above-named areas prior to each field experience placement. If a student does have any felony or misdemeanor conviction(s), he/she is required to meet with the Chadron State College Certification Officer, as soon as possible. Students with questions pertaining to convictions should also contact this office.

**Acceptance into the Teacher Education Program**

Chadron State College recognizes its obligation to prospective candidates for teaching, to the public schools, and to the state, by giving careful consideration to each applicant for admission into the Teacher Education Program. Qualities believed essential to good teaching are considered through professional judgment in determining the applicant’s qualifications for entering the program. These include:

1. Academic scholarship
2. Command of oral and written English
3. Social, emotional and personal maturity
4. Affirmation under oath that the student has no felony conviction or misdemeanor conviction involving abuse, neglect, or sexual misconduct (Nebraska Department of Education, Rule 20: Regulations for the Approval of Teacher Education Program Section 005.07).
5. Affirmation under oath that the student does not have an order or determination currently in effect by a court or any other government body which finds the student to be any of the following: mentally incompetent to stand trial, acquitted of criminal charges because of insanity, an incapacitated person in need of a guardian, or unable to manage his/her property due to mental illness, mental deficiency, chronic use of drugs or chronic intoxication; or is currently an inpatient or resident in a mental health facility due to a determination by a qualified mental health professional (Nebraska Department of Education, Rule 21, Section 003.10).

Students interested in becoming candidates for teacher education must enroll in the class Introduction to Teaching the semester they wish to apply for admittance (normally in the freshman year, and/or before the end of the junior year). This course enables students to study the field of teaching and to evaluate their knowledge, skills, and dispositions as potential teachers.

1. Applications are initiated under the direction and advice of the Director of Field Experiences, and submitted to the Director of Field Experiences for further processing.
2. Completed applications are referred to the Screening Committee for formal action after the student has completed at least one semester of college. Enrollment in PSYC 231 will be restricted to those students who have earned a “C” or better in EDUC 131.

3. Students who are denied admittance to the teacher education curriculum will be helped by the college guidance staff to find a more appropriate career.

**Admission Requirements**

To be fully accepted into the Teacher Education Program, candidates must meet the following requirements:

1. Every student must have been admitted to the Teacher Education Program before they may enroll in Observation and Participation (EDUC 300, EDUC 320), or before they may participate in any field experience pertaining to these courses.

2. Intelligence and scholarship; as evidenced by the following:
   a) attainment of a satisfactory score on a basic skills test (PPST (Praxis I) or computerized PPST: Reading 170, Math 171, Writing 172);
   b) completion of 30 semester hours of college course work;
   c) an overall G.P.A. of at least 2.50 is required. The G.P.A. will be calculated by using all previous college/university course work as well as course work from CSC;
   d) completion of the college’s three courses (6 hours of General Studies Composition courses, and either CA 125, 225 or 233) in written and oral communications, with no grade lower than a “C”; and
   e) completion of EDUC 131, Introduction to Teaching, with a grade of “C” or above.

3. Character and personality, as evidenced by the following:
   a) affirmation under oath that the student has no felony nor misdemeanor convictions involving abuse, neglect, or injury to any person, nor any other convictions involving moral turpitude (Nebraska Department of Education, Rule 20: Regulations for the Approval of Teacher Education Program, Section 005.07); and
   b) affirmation under oath that the student does not have an order or determination currently in effect by a court or any other government body which finds the student to be any of the following: mentally incompetent to stand trial, acquitted of criminal charges because of insanity, an incapacitated person in need of a guardian, or unable to manage his/her property due to mental illness, mental deficiency, chronic use of drugs or chronic intoxication; or is currently an inpatient or resident in a mental health facility due to a determination by a qualified mental health professional (Nebraska Department of Education, Rule 21, Section 003.10).

4. Health and physical fitness, as evidenced by the following:
   a) emotional stability;
   b) absence of defects that would impair successful teaching; and
   c) absence of predisposition toward poor health as determined by a physical and medical examination at the request of the college Screening Committee.

Students who fail to meet all the above requirements will be denied admission until such time as the criteria are met.

**Application for Professional Year**

The Professional Year is comprised of the following two semesters of study: Professional Semester (Block) and the Teacher Internship Semester (Student Teaching).

The student, in cooperation of his/her advisor, must make application for the Professional Year by March 1 for Fall semester enrollment, and November 1 for Spring semester enrollment; this must be done during the applicant’s Junior Year of study. The student and the advisor must be sure that all prerequisites for entrance into the Professional Year are properly met before making application. These prerequisites include admission to candidacy, appropriate grade point averages stated, and satisfactory references indicated. Failure to meet these requirements will result in the application being returned to the student’s advisor until such time as they are met. The application will be presented to the chairperson of the department who will take the application for evaluation by the department faculty to be voted upon. If supported by a “yes” vote, the Chairperson endorses the application, and then forwards the application to the Director of Field Experiences. Each application submitted to the Director of Field Experiences must be approved by the department or departments in which the applicant is pursuing an area or areas of endorsement specialization. Academic department approval or disapproval must be indicated on each application. If the department does not approve the application, the student is not eligible for admission to the Professional Year. The Director of Field Experiences will present all applications to the Screening Committee for final consideration.

To qualify for admission into the Professional Year, the candidate must have completed the following criteria:
1. The candidate must have earned at least 90 semester hours by the time of enrollment in the Professional Year. At least 12 semester hours must have been earned in residence at Chadron State College.

2. Achievement of an overall 2.50 GPA in all college work (GPA will be calculated using grades from all previous college/university course work, as well as from CSC course work), and a 2.50 GPA (GPA will be calculated using grades from all previous college/university course work as well as course work from CSC) in areas of specialization, minor, and in professional education for endorsement and certification purposes.

3. A secondary candidate must have completed 75% of the course work required for all endorsements with a GPA of 2.50 (GPA will be calculated using grades from all previous college/university course work as well as course work from CSC), in addition to all of the core Professional Education courses.

4. An elementary candidate must have completed 75% of the minor or second endorsement area with a GPA of 2.50 (GPA will be calculated using grades from all previous college/university course work as well as course work from CSC), in addition to all of the core Professional Education courses.

5. A candidate pursuing two endorsements must take one of his/her Special Methods classes (EDUC 431) prior to the Professional Year but not before the candidate’s junior year. The candidate must attain at least a 2.50 GPA in her/his EDUC 431: Special Methods course(s).

6. Those preparing to enter teaching must have no grade less than a “C” and a GPA of 2.50 or better in the prerequisite Professional Education courses (EDUC 131, PSYC 231 (or PSYC 334 for those seeking the Early Childhood Unified Endorsement), EDUC 224, SPED 230, 334, EDUC 300/320).

7. Completion of a Visionary Leader portfolio verified by the candidate’s advisor or methods instructor’s assessment, which is sent to the Director of Field Experience Office. The portfolio will be submitted to the candidate’s advisor by November 1 or March 1 of the semester prior to the Professional Year.

8. Demonstration of social, emotional, personal maturity as well as the physical capabilities essential to handle the vast responsibilities required in the teaching profession. If at any time a candidate’s emotional, mental, or physical capabilities are determined to be impaired seriously so that as a result of professional judgment the candidate is unable to demonstrate the qualities required for the teaching profession, the college reserves the right to remove him/her from the program.

9. The candidate should come to the Field Experience Office to check on her/his progress toward meeting the qualifications to be admitted to the Professional Year. If a secondary education candidate has additional questions about the Teacher Education Program the candidate should seek out an Education faculty member as a supporting advisor.

The specific step-by-step process required for being admitted into the Professional Year is as follows:

1. The candidate will obtain the Application Packet from the Field Experience Office.
   a. Fill out application form and return it to Field Experience Office by due date (March 1st for Fall semester Block, November 1st for Spring Semester Block).

2. The recommendation forms are then taken to the candidate’s advisor and
   a. Three forms are given to members of the candidate’s departmental faculty
   b. One recommendation form is given to a faculty member outside the candidate’s department
   c. The advisor keeps one recommendation form and the “Department Recommendations for Admission to Professional Year” sheet to fill out.

3. After all of the recommendation forms are returned to the advisor, he/she presents the candidate’s Departmental Recommendations to the candidate’s Department for Departmental approval to be admitted to the Professional Year.

4. The candidate should check in with the advisor to make sure that the recommendations have been returned and have been acted upon by the Department.

5. The Department has three (3) possible choices:
   a. Recommend candidate be admitted to the Professional Year
   b. Recommend with reservations
      1. Department recommends the candidate, but has concerns. The candidate and the Education Department will be notified by letter of these concerns
   c. Does not recommend
      1. The candidate is not admitted into the Professional Year and would need to change majors or work out the issues with the candidate’s Department. Formal notification will be in letter format.

6. If the Department approves the Departmental Recommendations, the forms are sent to the Field Experience Office. It is then sent on to the Dean of Professional and Graduate Studies and the Dean of Students for approval. Last, it is sent back to the Field Experience Office and filed in the candidate’s folder.
7. The candidate’s advisor must receive the candidate’s portfolio by November 1st for Spring Block or by March 1st for Fall Block. After checking the portfolio the advisor will ask the candidate to make any changes that are needed or approve the portfolio as presented. When the advisor approves the candidate’s portfolio, the evaluation form is signed and a copy of the form is sent to the Field Experience Office. The Field Experience Office must receive the evaluation form before the application is presented to the Screening Committee.

8. Following completion of the above, the application is presented to the Screening Committee for final approval.

9. If the Department or the Screening Committee does not approve the application, the candidate will not be allowed to enter the Professional Year. Formal notification to candidate will be in letter format.

If a student in the program for teacher education is suspended from the college, he/she automatically is removed from the Teacher Education program. If the student should later be accepted for re-admission to the college, it will be necessary for him/her to reapply for admission to the teacher education program should he/she desire to re-enter the program.

A student who is denied admission to teacher education or who is administratively withdrawn from their teaching internship, may appeal the denial or administrative withdrawal by contacting the Director of Field Experiences for due process procedures.

**Admission To Teaching Internship Semester (Student Teaching)**

To be eligible to enter the teaching internship semester the candidate must meet the following requirements:

1. maintain all G.P.A. requirements listed for admission to the Professional Year;
2. make a sworn statement that the student has not been convicted of a felony or certain misdemeanor crimes;
3. make a sworn statement that the student is mentally competent;
4. have a faculty approval on his/her portfolio; and
5. secondary students must have completed Special Methods classes (EDIC 431).

**Teaching Internship**

Chadron State College requires teacher interning full-days for one semester or a minimum of ten (10) weeks full-days for each Field endorsement taught during a given semester. Interning is a full-time position. Therefore, students will not be allowed to take additional course work during their internship semester. In addition, it is strongly suggested that teacher interns not engage in additional employment during their placement.

**Eligibility for Initial Certification or Added Endorsement**

To be recommended for Teacher Licensure or certification, the student must have (1) completed teaching internship with a minimum G.P.A. of 2.50 or above in each area of endorsement, (2) met all course and credit requirements for endorsement in their specialization fields, (3) received departmental approval and recommendation, (4) met all graduation requirements for the appropriate degree, (5) passed the Praxis II exam if an elementary and/or special education major, and (6) filed an application with the Certification Officer, including a notarized statement that he/she has not been convicted of a felony or misdemeanor involving abuse, neglect, or sexual misconduct, and an oath of Mental Capacity.

A student seeking an additional endorsement after completing his/her degree program must complete the appropriate course work and officially notify the Teacher Certification Officer upon completion of the endorsement program/course work. Then proceed as outlined in (5) above.

**Graduation Without Certification**

In rare cases, permission may be granted for a student to graduate without a recommendation for certification. This provision is for the student who does not qualify for, or is removed from their teacher internship. However, there are times when, because of illness or other extreme situations, a student will decide not to complete all professional requirements. In this situation, the student should contact his or her advisor, and then complete a formal request to the Chadron State College Vice President for Academic Affairs to be allowed to graduate without completing all certification requirements. If permission is granted, an appropriate amended plan of study will be determined.

Any student who graduates without a recommendation for certification will not be recommended for teacher certification in any state. If, at some future time, the student wishes to complete certification requirements, (s)he must first reapply for readmission to the teacher education program. At least one semester must pass after graduation before the application can be made. Upon readmission to the Teacher Education program, the student will complete all requirements in effect at the time of reentry, including passing grades in all methods courses.
Program Changes

Chadron State College is a member of the Nebraska Council on Teacher Education, a teacher education governance and recommending body to the Nebraska Department of Education; therefore, all students majoring in early childhood, elementary, middle grades, or secondary education programs are subject to any program rule changes that may occur while a student is enrolled. If a student has not completed their program of study within three years following the program change, he/she will be required to adjust his/her program to reflect the change.

CERTIFICATE REQUIREMENTS

BACHELOR OF SCIENCE IN EDUCATION
Secondary (7-12) Professional Educational Program

The degree of Bachelor of Science in Education (7-12): A student must complete the following program in addition to the General Studies requirements, and either one field endorsement or one subject endorsement program:

Professional Education Courses

The following courses are prerequisites to the Professional Year (2.50 minimum G.P.A. required and no grade may be below a “C”):

*Students pursuing two Subject Endorsements must complete EDUC 431, Special Methods, in both subject areas. One special methods course should be taken prior to the Professional Year. The second special methods course must be taken the first semester of the Professional Year (Block), if offered. Also, the student must have a G.P.A. of 2.50 or better in the Special Methods course(s).

Course requirements for secondary level endorsements programs in the following subjects or fields are listed in each departmental section of this catalog (2.50 G.P.A. required):
Field Endorsement Programs

Art
Business Education
Family and Consumer Sciences Education
Health and Physical Education
Industrial Technology Education
Language Arts
Library Media Specialist
Mathematics
Mild/Moderate Disabilities
Music
Natural Science
Physical Science
Social Science

Subject Endorsement Programs

Biology
Chemistry
Coaching*
Driver Education*
Earth Science
English
Foreign Language-Spanish
Health
History
Library Media Specialist*
Physical Education
Physics
Theatre
Vocational Special Needs*

*Supplemental Endorsements Programs: These programs do not stand alone, and must be completed in addition to either a subject or field endorsement program.

Semester #2 – Teacher Interning
EDUC 480K, Teacher Interning K-12, or EDUC 490S, Secondary Teacher Interning, courses can be taken only upon the successful completion of the above Semester #1 – “Block” courses (minimum G.P.A. of 2.50 required).

The Degree of Bachelor of Science in Education with a FIELD ENDORSEMENT IN MIDDLE GRADES (4-9): A student must complete the following program in addition to the General Studies and Middle Grades Content Area Specialization requirements.

Professional Education:  The following courses are prerequisites to the Professional Year (2.50 minimum G.P.A. required and no grade may be below a “C”):

EDUC 131 Intro to Teaching ....................................... 3
EDUC 224 Multimedia Support Instr/Learning ........... 2

**Semester #2 – Teacher Interning**

EDUC 480I, Teacher Internship Intermediate, and/or EDUC 480M, Teacher Internship Middle School, can be taken only after the successful completion of the Professional Semester (Block) courses (minimum G.P.A. of 2.50 required).

**NOTE**: The Praxis II: Elementary Education Curriculum, Instruction and Assessment Exam (as required by the Nebraska Department of Education) must be taken as a requisite for graduation for all Middle Grade Endorsement students.

**Elementary School Professional Education Program**

This program covers special instructional methods in science, health, reading, student and program assessment (tests and measurements), curriculum, guidance, multicultural and human relations, classroom management, and other pertinent professional topics and issues. The student registers for EDUC 413, 414, 415, 416, 417, 422, 423, 424, and SPED 412e in their senior year (the Professional Semester – “Block”). Upon successful completion of the above courses (minimum 2.50 G.P.A. required), the student is then eligible to enroll in the Teacher Internship Experience the following semester.

Elementary majors will intern at a primary level (K-3) and an intermediate level (4-6). Students who have K-12 endorsements in addition to their elementary major/endorsement will intern in their elementary area for part of the Internship semester and in the 7-12 area the other portion of the Internship semester.

**The Degree of Bachelor of Science in Education with a FIELD ENDORSEMENT IN ELEMENTARY EDUCATION (K-8):** A student must complete the following program requirements in addition to the General Studies program requirements and one minor program of study OR an additional endorsement program:

**Professional Education:** The following courses are prerequisites to the Professional Year (2.50 minimum G.P.A. required no grade may be below a “C”):

PROGRAM FOR ADDING AN ENDORSEMENT

To add another endorsement to an existing teaching/administrative certificate, the student must complete the appropriate departmental and endorsement area coursework. To determine coursework requirements, the student should complete an Evaluation for an Added Endorsement Form in cooperation with their teacher educator (Advisor) in the department offering the endorsement. The student must then notify the Teacher Certification Officer when the program coursework is complete and request that the subsequent Endorsement be posted (or added) to the student’s official transcript. The student must then submit a Nebraska Application for Teacher Certification to the CSC Certification Office, in order for the State Department of Education to add this new endorsement to the student’s teaching certificate. The CSC Certification Office is unable to process requests to add endorsements/programs to a teaching certificate until this procedure is completed.

ENGLISH

Mission Statement

It is the mission of the English program to provide students with a scholarly environment of the highest caliber in which to pursue an education in the riches of the English language. The program seeks to educate students in an array of subjects within the broad domain of English studies, including English grammar, critical and creative writing, American, English and World literature, traditional literary genres, literary theory and criticism, and teacher training. The program’s curriculum encourages students to explore literature’s interdisciplinary relationship to the other humanistic disciplines, such as cultural studies, philosophy, religion, history, and art. While learning to evaluate, understand and enjoy complex and important works of literature, students in the English program will refine their critical and creative writing skills so that they can better appreciate the power of language and make use of it in both their personal and public lives. Finally, the program prepares students for graduate study or to enter a wide variety of vocations (such as teaching, law, the ministry, business, government and the public sector) that depend upon reading and writing effectively.

Student Learning Outcomes

Students graduating with an English major or an educational endorsement in English will:

• Demonstrate a proficiency in critical thinking and writing.
• Demonstrate and understanding of the elements of traditional literary genres.
• Know and identify the representative works and authors in major periods of American, British and World literature.
• Show evidence of familiarity with major theories of literary criticism.

The Degree of Bachelor of Arts with a SUBJECT MAJOR IN LITERATURE: A student must complete the following program in addition to the General Studies requirements and a major or minor in another area. Students pursuing this major must complete ENG 233 as the General Studies Fine Arts requirement.

ENG 232  Hist. of Amer. Lit. (a) & (b) 6  
ENG 236  Hist. of Eng. Lit. (a) & (b) 6  
ENG 249  Creative Writing (a) or (b) or (c) 3  
ENG 432  Shakespeare 3  
*ENG 436  World Literature 3  
ENG 440  Theory & Practice of Literary Criticism 3  
ENG 441  English & American Novels 3  
Electives: Upper Division Literature Courses 9  

Total 36

*ENG 436 cannot be used to meet the General Studies Global and Social Awareness program requirement.
The Degree of Bachelor of Science in Education with a SUBJECT ENDORSEMENT IN ENGLISH (7-12): A student must complete the following program in addition to the General Studies and Professional Education requirements. Students pursuing this major must complete ENG 233 as the General Studies Fine Arts requirement. Students seeking the degree of Bachelor of Science in Education in any of the three English education programs must both hold a 3.0 G.P.A. in their English courses and receive a grade of “C” or above in all English classes in this endorsement.

ENG 232 Hist. of Amer. Lit. (a) & (b) ............. 6  ENG 320 Grammar & Linguistics .................. 3
ENG 236 Hist. of Eng. Lit. (a) & (b) ............. 6  ENG 331 Theory & Practice of Teaching Writing .... 3
ENG 249 Creative Writing: (a) or (b) or (c) .... 3  ENG 400 Theory & Practice of Literary Criticism ... 3
ENG 320 Grammar & Linguistics .................. 3  ENG 440 English & American Novels ............. 3
ENG 331 Theory & Practice of Teaching Writing .... 3  ENG 441 English & American Novels ............. 3

Total 36

*ENG 436 cannot be used to meet the General Studies Global and Social Awareness program requirements.
Teacher candidates are encouraged to take ENG 249, Creative Writing: (a) Nonfiction Prose or (b) Fiction or (c) Poetry in addition to the above requirements.

The Degree of Bachelor of Science in Education with a FIELD ENDORSEMENT IN LANGUAGE ARTS (7-12): A student must complete the following program in addition to the General Studies and Professional Education requirements. Students pursuing this major must complete ENG 233 as the General Studies Fine Arts requirement. Students seeking the degree of Bachelor of Science in Education in any of the three English education programs must both hold a 3.0 G.P.A. in their English courses and receive a grade of “C” or above in all English classes in this endorsement.

---

**FAMILY AND CONSUMER SCIENCES**

**Mission**

The mission of the Family and Consumer Sciences academic program is to engage students in learning the theories and practicing the professional skills needed to empower individuals and families throughout the lifespan to manage the challenges of living and working in a complex world.

**Student Learning Outcomes**

Students in this program will develop knowledge, skills, competencies, and attitudes so they will be able to:

1. Analyze factors which contribute to the development of healthy individuals throughout the lifespan (conception through old age).
2. Analyze nutrition and life course choices which influence lifespan wellness.
3. Assess the relationship between managing resources (time, energy, money) and achieving personal or family goals.
4. Apply critical and creative thinking skills in addressing individual and family problems and issues in diverse environments.
5. Describe the physical, emotional, mental and social development of children.
6. Illustrate the role food, clothing, and shelter play in individual and family consumerism and resource management.
7. Summarize the history of the FCS profession as well as the multiple career paths available to FCS graduates.
8. Demonstrate the ability to use knowledge, skills, competencies, and attitudes in a professional work experience.

**The Degree of Bachelor of Arts with a COMPREHENSIVE MAJOR IN FAMILY AND CONSUMER SCIENCES:** A student must complete the General Studies requirements, the following core requirements, and one of the options listed below. Consultation with an advisor is recommended to help plan the sequencing of classes.

**Note:** Students pursuing this option should take CHEM 121 as their Physical Science General Studies requirement.
The Degree of Bachelor of Science in Education with a FIELD ENDORSEMENT IN FAMILY AND CONSUMER SCIENCES (7-12): A student must complete the General Studies requirements and Professional Education requirements in addition to the following field endorsement courses:

- CTE 431 Intro to Special Needs Prog in CTE ........... 3
- CTE 434 Prin & Philosophy of CTE ..................... 3
- FCS 122 Perspectives in Family & Cons. Sci ............ 2
- FCS 123 Principles of Apparel ............................ 2
- FCS 135 Alteration & Construction Tech ................. 3
- FCS 139 Child Growth and Development ................. 3
- FCS 224 Housing and Interior Design ..................... 2
- FCS 235 Food for Wellness
- OR
- FCS 236 Meals Across the Lifespan ...................... 3
- FCS 247 Nutrition ............................................. 3
- FCS 320 Aging and Death .................................. 3
- FCS 321b Curriculum Development in FCS .......... 2
- FCS 324 Interior Environments ............................ 2
- FCS 331 Family Systems Management .................... 3
- FCS 332 Family Studies .................................... 3
- FCS 341 Textiles ............................................. 4
- FCS 417 Lifespan Wellness ................................... 3
- FCS 421 Organization & Admin of FCS ................. 2
- FCS 422 Professional Career Development ............... 2
- FCS 435 Consumer Science .................................. 3
- FCS 424 Housing Issues .................................... 2
- FCS 435 Consumer Science .................................. 3

Total 53

The Degree of Bachelor of Science in Education with a MIDDLE GRADES CONTENT AREA OF SPECIALIZATION IN FAMILY & CONSUMER SCIENCES (Grade 4-9): A student must complete the following program in addition to the General Studies, Professional Education, Middle Grades requirements and another Content Area of Specialization in Middle Grades.

- FCS 139 Child Growth and Development ................. 3
- OR
- FCS 235 Food for Wellness
- OR
- FCS 236 Meals Across the Lifespan ...................... 3
- FCS 247 Nutrition ............................................. 3
- FCS 331 Family Systems Management .................... 3
- FCS 332 Family Studies .................................... 3
- FCS 335 Consumer Science .................................. 3
- FCS 424 Housing Issues .................................... 2

Total 18

SUPPLEMENTAL ENDORSEMENT IN FAMILY AND CONSUMER SCIENCES RELATED OCCUPATIONS (7-12): In addition to the FCS field endorsement, the following course work and experience are required.

1000 hours verified, paid work experience in FCS related occupational areas
- OR
- CTE 390 or Internship ........................................ 6
- CTE 438 Coord in Occupational Trng Program .... 3

The Degree of Bachelor of Science in Education with an EARLY CHILDHOOD EDUCATION UNIFIED ENDORSEMENT (Birth through Grade 3): This endorsement qualifies teachers to teach Early Childhood and/or special education from birth through grade 3. A student must complete the following program requirements in addition to the General Studies program and Professional Education Program course requirements:

Professional Education Courses: The following courses are prerequisites to the Professional Year (2.50 minimum G.P.A. required. No grade may be below a “C”):

- EDUC 131 Intro to Teaching ................................... 3
- EDUC 224 Multimedia Support of Instruction/Learning .......... 2
- EDUC 320 Elem/MS Obs & Participation ........................ 2
- PSYC 334 Developmental Psychology ....................... 3
- SPED 230 Intro Except Learner ............................... 3

Total 13
Early Childhood Education Unified Endorsement Courses: The following courses are prerequisites to the Professional Year (2.50 minimum G.P.A. required and no grade below a “C”):

- EDUC 231 Play, Art & Music for Early Childhood .... 3
- EDUC 233 Lit & Language Arts for Early Child .......... 3
- EDUC 321 Teach Elem/MS Math ................................ 2
- FCS 139 Child Growth and Development ............... 3
- FCS 237 Guidance Tech Human Relations .............. 3
- SPED 231 Survey & Effects of M/M Disability .......... 3
- FCS 321a Curriculum Development ........................ 2
- FCS 423 Program Management ............................... 3
- FCS 448 Early Childhood Practicum ....................... 4
- FCS 239 Partners in Early Child Educ..................... 3
- SPED 331 Behavior Interventions......................... 3
- SPED 238 Prenatal & Infant Development .............. 3
- FCS 321a Curriculum Development ........................ 2
- SPED 438 Consultation/Collaboration .................... 3
- SPED 337 Program Dev, Implem, & Mgmt ................ 3
- SPED 316 Micro Teaching in Preschool ................... 1
- SPED 336 Language & Learning Disorders ............... 3
- SPED 416 Clinical Exp – Except Child.................... 1
- FCS 331 Family Systems Management .................... 3
- FCS 332 Family Studies ....................................... 3
- FCS 436 Family Strengths .................................... 3
- Total 46

Professional Year Courses: (two semesters) comprised of “Block”-Professional Semester, and the Teacher Internship Experience Semester (Student Teaching): The following courses can be taken only as part of the Professional Year (2.50 minimum G.P.A. required): Refer to Application for Admission Requirements for the Professional Year.

Semester #1 - “Block”:

- EDUC 413 Elem/MS Curr & Counseling .................. 1
- EDUC 414 Classroom Mgmt.................................. 1
- EDUC 415 Human Relations/Multicultural ............. 1
- EDUC 416 Elem/MS Assessment ............................ 1
- EDUC 417 Teach Reading Diagnosis ..................... 1
- EDUC 422 Teach Elem/MS Science & Health .......... 2
- EDUC 423 Teach Primary Reading ....................... 2
- EDUC 424 Teach Internm. Reading ....................... 2
- Total 11

Semester #2 - Teacher Internship:

- EDUC 480P Teacher Internship Primary and EDUC 480R Teacher Internship Early Childhood Education Unified can be taken only upon successful completion of the above (Semester #1- “Block”) courses (minimum G.P.A. of 2.50 required).

NOTE: The Praxis II: Elementary Education Curriculum, Instruction and Assessment Exam (as required by the Nebraska Department of Education) must be taken as a requisite for graduation.

MINORS in Family and Consumer Sciences

Child and Family:

- FCS 139 Child Growth and Development ............... 3
- FCS 237 Guidance Tech in Human Relations .......... 3
- FCS 238 Prenatal & Infant Development .............. 3
- FCS 320 Aging and Death ................................ 3
- FCS 331 Family Systems Management .................. 3
- FCS 332 Family Studies ....................................... 3
- FCS 437 Family Strengths .................................... 3
- Total 21

Nutrition and Wellness:

- FCS 235 Food for Wellness .................................. 3
- FCS 236 Meals Across the Lifespan ....................... 3
- FCS 247 Nutrition .............................................. 3
- FCS 417 Lifespan Wellness .................................. 3
- FCS 447 Nutrition for Sport & Wellness ............... 3

Textiles and Fashion:

- FCS 123 Principles of Fashion .............................. 2
- FCS 135 Alteration & Construction Tech ............... 3
- FCS 329a Patternmaking ..................................... 2
- FCS 329b Historic Fashion & Costumes ............... 2
- FCS 329c Adaptive Fashions ................................ 2
- FCS 329d Visual Display/Production .................... 2
- FCS 341 Textiles ............................................... 4
- MKTG 231 Principles of Marketing ...................... 3
- Total 20
ACADEMIC CERTIFICATES in Family and Consumer Sciences

Family Life: A student may be awarded a certificate in Family Life upon successful completion of the following requirements:

- FCS 331 Family Systems Management .......................... 3
- FCS 332 Family Studies ........................................... 3
- FCS 335 Families in Society ..................................... 3
- FCS 337 Family Strengths ....................................... 3

Total 12

Fashion: A student may be awarded a certificate in Fashion upon successful completion of the following requirements:

- FCS 135 Alteration & Construction Tech .................... 3
- FCS 329b Historic Fashion & Costumes ....................... 2
- FCS 329d Adaptive Fashions .................................... 2
- FCS 341 Textiles ...................................................... 4

Total 13

Parenting: A student may be awarded a certificate in Parenting upon successful completion of the following requirements:

- FCS 139 Child Growth and Development ............... 3
- FCS 237 Guidance Tech in Human Relations ............ 3
- FCS 238 Prenatal & Infant Development ............... 3
- FCS 239 Partnerships in Early Childhood Ed .......... 3

Total 12

Wellness: A student may be awarded a certificate in Wellness upon successful completion of the following requirements:

- FCS 235 Food for Wellness
- OR
- FCS 236 Meals Across the Lifespan ....................... 3
- FCS 247 Nutrition .................................................... 3
- FCS 417 Lifespan Wellness ..................................... 3

- FCS 457 Nutrition for Community Wellness ........... 3

Total 15

GEOGRAPHY

Student Learning Outcomes

- Geography minors will demonstrate in writing an ability to recognize and describe major concepts, language, and techniques of a general nature used by geographers and articulate the geographical relationships with other areas of study.
- Students will be able demonstrate knowledge of the major human behavioral and physical processes that contribute to or result from spatial arrangement of phenomena on the earth’s surface. Students will be able to articulate this knowledge base.
- Students will demonstrate in written exercises an ability to acquire, locate, and assess geographic information from multiple sources including traditional primary and secondary sources, library collections, the use of the Internet and electronic data, and on-site observation and collection of data.
- Students will demonstrate in writing an ability to evaluate critically, in ways relevant to social science research and/or teaching, basic geographic tools and techniques including theories, statistical analysis, map interpretation, aerial photography interpretation and digital spectral image analysis, and geographic information systems and the application of same.
- Students will synthesize skills and graphic techniques and prepare research reports that describe, analyze, and articulate geographic distributions and processes of people and physical phenomena.

MINOR in Geography

A student must complete the following program in addition to the General Studies requirements and a major in another discipline:

- GEOG 231 Physical Geog ........................................... 3
- GEOG 232 Cultural Geog ........................................... 3
- GEOG 335 Resource Geography
- OR
- GEOG 336 Map Use & Geographic Info Systems ....... 3
- Electives in GEOG ..................................................... 12

Total 21
HEALTH, PHYSICAL EDUCATION, AND RECREATION

Mission - Recreation

The mission of the Chadron State College Recreation program is to meet the educational needs of individuals interested in the broad field of Recreation which includes the disciplines of Sport and Leisure Services, Outdoor Adventure Education, and Fitness and Exercise. The students in Recreation will develop the philosophies, knowledge and skills to become leaders in these disciplines. The program is designed to foster a commitment to providing lifelong recreational opportunities for the general public.

Student Learning Outcomes - Recreation

- Participate in scholarly activities and services that promote student development by encouraging professional involvement, community service, certification, and lifelong learning.
- Understand and develop effective leadership styles to successfully enter management positions in the field of recreation.
- Demonstrate competency in skills needed to design, implement, and administer a variety of programs and activities in the field of Exercise and Fitness, Sports, Outdoor Adventure, Recreation, and Leisure Services.
- Develop a knowledge base and the skills necessary to participate in lifelong recreational activities.
- Understand and be able to contribute to the enhancement in the overall quality of life for participants in the field of recreation.
- Design and outline objectives for the development of a recreation program for their specific field.
- Gain a basic knowledge regarding legal liability which is necessary to provide a safe and productive environment for participants in the field of recreation.
- Understand the importance and general principles of proper fiscal management in recreational programs.

Mission – Physical Education

The mission of the Physical Education Teaching Endorsements, within the Health, Physical Education Department is two fold:

1. To provide high quality education and training, leading to teacher certification in teaching Physical Education.
2. To provide professional, managerial, and analytical skill development for potential HPER educators.

Student Learning Outcomes - Physical Education

- Define Physical Education.
- List the four components of physical fitness.
- Identify what constitutes a quality physical education program.
- Align curriculum and lesson plans to the National Association of Sport and Physical Education standards.
- Recognize processes of motor movement and assess student progress.
- Construct a quality physical education lesson plan.
  o Components of the lesson plan
  o Safety precautions
  o Equipment
  o Goals and objectives
  o Extensions and adaptations
- Adapt the physical education environment for all learners.
- Administer physical education and fitness tests that evaluate and assess the psychomotor, affective, and cognitive domains.
- Promote the value of physical education in the community.
- Integrate other content areas such as math, geography, reading, history, and science into the physical education curriculum.
Mission – Health Education

The main focus of the Chadron State College Health Education Program is to provide an endorsement in Health Education. It is the goal of the department to develop leaders in education who support the academic mission of department of Health, Physical Education and Recreation. Graduates with a health endorsement will have the knowledge to instruct students and community members to actively practice and promote good health and well-being through education, prevention, and intervention programs designed to enhance ones ability to participate in, and benefit from acquired knowledge and experience gained in regard to living a healthy lifestyle.

Learning Outcomes – Health Education

- Demonstrate knowledge in the field of health by being able to comprehend concepts related to the promotion of health and the prevention of disease.
- Demonstrate the knowledge to promote health-enhancing behaviors and reduce health risks.
- Analyze and describe the influence of culture, media, technology and other factors on health.
- Demonstrate the ability to use interpersonal communication skills to enhance health.
- Demonstrate the ability to promote goal-setting and decision-making skills to enhance health.
- Demonstrate the knowledge to promote personal, family and community health.

The Degree of Bachelor of Arts with a COMPREHENSIVE MAJOR IN SPORTS AND RECREATION MANAGEMENT: A student must complete the General Studies requirements, the following core requirements, and one of the options listed below. Consultation with an advisor is recommended to help plan the sequencing of classes.

HISTORY

Student Learning Outcomes

- Students will synthesize and summarize in an articulate manner the genesis of the world’s major religious traditions and will recognize and explain in writing the continuing influence of historical religious traditions upon societies.
- Students will identify and relate the causes and consequences of the major turning points in world history, including but not limited to the Rise and Fall of Rome, the Scientific Revolution, the Industrial Revolution, the Great Depression, World Wars I and II, and the Cold War.
- Students will articulate theories of causation in the emergence and fall of the world’s major civilizations.
- Students will articulate and demonstrate with examples the contributions of major world civilizations to history and to state the relevance of these examples to the current world.
- Students will verbally and in writing generalize and demonstrate with examples major trends in political, social, and economic thought in history.
- Students will demonstrate knowledge of the spatial and physical locations of regions of the World from an historical perspective by passing map exercises in each of the courses offered at the 200 level.
- Students will recognize and associate the various verbal languages and written scripts which have formed a basis for societies and served as a transmission of their cultures.

The Degree of Bachelor of Arts with a SUBJECT MAJOR IN HISTORY: A student must complete the following program, the General Studies requirements, and a major or minor in another discipline. HIST 231 and HIST 232 must be taken to satisfy the General Studies History requirements, in addition to the 36 hours listed below.

<table>
<thead>
<tr>

<td>21</td>
</tr>
</tbody>
</table>

It is recommended that students in the minor take either HUM 335 Comparative Religion or HUM 432 World Mythology to fulfill the three hour upper division requirement in the Global and Social Awareness category of the General Studies Program.

INFORMATION SCIENCE AND TECHNOLOGY

Student Learning Outcomes

- Communicate effectively.
- Develop appropriate information technology solutions for organizational problems.
- Understand the principles of information systems and their appropriate application.
- Work effectively as a member of a group.
- Act according to social, ethical, and professional standards.
- Manage people, projects, and resources in a professional manner.

The Degree of Bachelor of Science with a COMPREHENSIVE MAJOR IN INFORMATION MANAGEMENT SYSTEMS:  A student must complete the following program in addition to the General Studies requirements.  MATH 232 or MATH 239 must be taken to satisfy the General Studies Mathematics requirement.

ACADEMIC CERTIFICATE in Information Management Systems

Web Developer: A student may be awarded a Web Developer Certificate upon successful completion of the Web Developer minor program of study listed above.

Cisco Certified Network Associate (CCNA): Students wishing to pursue a career as a Cisco Certified Network Associate (CCNA) should take the following sequence of courses as a part of their baccalaureate study at Chadron State College: IST 102, Cisco Networking Basics; IST 202, Cisco Routers and Router Basics; IST 304, Cisco Switching Basics and Intermediate Routing; and IST 305, Cisco WAN Technologies.

Cisco Certified Network Professional (CCNP): Students wishing to pursue a career as a Cisco Certified Network Professional (CCNP) should take the following sequence of courses as a part of their baccalaureate study at Chadron State College: IST 201, Cisco Advanced Routing; IST 301, Cisco Advanced Remote Access; IST 302, Cisco Advanced Multilayer; and IST 402, Cisco Internetwork Troubleshooting.

INTERDISCIPLINARY STUDIES

The Degree of Bachelor of Arts with a COMPREHENSIVE MAJOR IN INTERDISCIPLINARY STUDIES: The Bachelor of Arts with a Comprehensive Major in Interdisciplinary Studies is designed for the motivated student who is seeking specific degree competencies not fulfilled by traditional degree programs offered through Chadron State College. This program is intended to meet the needs of students who are self-directed, have a clear sense of educational purpose, and are able to integrate learning experiences across the academic curriculum. Following an approved curriculum, the student completes an individualized educational experience intended to provide a coherent, goal-oriented, academically sound knowledge base that is directly relevant to the intellectual development and career path of the student.

Degree Requirements

General Studies ............................................................................................................................................................ 47
Courses selected in consultation with academic advisor (a minimum of 45 hours must be 300 or 400 level courses)......................................................................................................................... 78

Minimum Total Credit Hours 125

Special Requirements

- Application for the Bachelor of Arts with a Comprehensive Major in Interdisciplinary Studies must be made to the Assistant Vice President for Extended Campus Programs prior to completing 90 semester hours of college credit.
- At least 42 of the total semester hours must be taken through traditional classroom, interactive television, or online (Internet-based) instruction. The balance may be obtained through correspondence, approved prior learning credit, CLEP, or Internships. No more than 42 semester hours may be earned through a combination of experiential credit programs (CLEP, Prior Learning Credit, Internships), with not more than 18 semester credit hours earned from any one experiential credit program.
- Following acceptance into the program, students must meet with the Assistant Vice President for Extended Campus Programs or designated academic advisor to complete an official plan of study.
JUSTICE STUDIES

The Justice Studies program provides the student with instruction in Criminal Justice and Legal Studies. The program focuses on the building of knowledge in the areas of law enforcement, criminology, law, paralegal studies, courts, juvenile justice, forensic studies, and corrections from a social science perspective. The program strives to promote basic principles of justice that enhance the criminal justice and legal professions and benefit the community at large. The program seeks to produce students who are critical and ethical thinkers, knowledgeable about issues of crime, law and justice, and appreciative and mindful of their civic and social responsibilities to provide service and leadership in their communities. The program provides students with the professional and academic preparation necessary for entry-level positions in public and private sectors. The program also provides students with the preparation necessary for successful graduate study and endeavors to provide professionals with career-enhancing educational experiences.

Student Learning Outcomes – Criminal Justice

The Criminal Justice curriculum prepares students for professional criminal justice careers; for graduate work in areas such as political science, sociology, and criminal justice; and for various professional schools including law, social work, public administration and business administration. Criminal Justice students will:

- Demonstrate effective written and oral communication skills.
- Identify the principal components of the criminal justice system and recognize the interrelationship within and between those components.
- Demonstrate an understanding of the role of law, both substantive and procedural, as a central feature in the criminal justice system.
- Recognize and describe the scope of the crime problem, theoretical explanations of crime and delinquency, and how our understanding of these concepts affects system processes.
- Understand the importance of ethics and ethical behavior in the pursuit of justice.
- Recognize issues related to effective policing in American society.
- Possess a foundational knowledge in the principles of scientific investigation of crime.
- Demonstrate an understanding of the differing arrays of people and cultures as they relate to the justice system.
- Possess an awareness of the goals, successes, and challenges of institutional and community corrections.
- Recognize issues that have traditionally confronted the justice system and identify prevailing trends, attitudes, advances and policies that will have an impact on the principal institutions of the criminal justice system.

Student Learning Outcomes – Legal Studies

The Legal Studies Program prepares non-lawyer personnel to perform support services for professionals in law firms, government offices, trust departments, real estate offices, accounting firms and other law related activities. Under a lawyer’s supervision, Legal Assistants or Paralegals are expected to perform a wide variety of functions. These include interviewing clients and witnesses, researching legal authority, analyzing factual and legal situations, preparing documents and forms, and managing offices. The curriculum also prepares students for graduate work in Legal Studies or law. Legal Studies students will:

- Possess a comprehensive understanding of selected areas of substantive and procedural law.
- Acquire organizational, computer literacy, writing, oral communication, and interpersonal skills.
- Demonstrate an ability to analyze problems, to formulate and evaluate logical alternative solutions, and to construct and evaluate logical arguments in support of specific positions.
- Understand the ethical dimensions of the paralegal profession.
- Demonstrate appropriate and effective legal research and writing skills.
- Demonstrate a basic knowledge of the fundamentals of law office organization, accounting systems, and the role performed by lawyers and non-lawyers.
Honors Seminars

The Justice Studies Department offers Honors Seminars within the major. Students with a 3.25 grade point average or above are eligible to take part in the Honors Seminars. Students completing all 6 hours of the program will receive special graduation recognition.

The Degree of Bachelor of Arts with a COMPREHENSIVE MAJOR IN JUSTICE STUDIES-CRIMINAL JUSTICE: A student must complete the following program in addition to the General Studies requirements:

LIBRARY INFORMATION MANAGEMENT

Mission

The mission of the Library Media Program is to prepare students to be professional librarians for careers in the library and information sciences through the use of online instruction. Students are given the tools, knowledge and skills to select and organize materials, provide information, and manage different types of libraries and media centers to meet the needs of the High Plains Region.

Student Learning Outcomes

Upon completion of this program, students will be able to:

- Adapt and apply the principles of collection development, cataloging, reference, management, and assessment in library environments.
- Describe formats of information sources with diverse points of view and discuss the legal and ethical responsibilities of providing access.
- Apply traditional and innovative technologies to support library services.
- Describe professional attitudes and philosophies of service needed to meet the information needs of diverse populations.

The Degree of Bachelor of Arts with a MAJOR IN LIBRARY INFORMATION MANAGEMENT: A student must complete the following program in addition to the General Studies requirements and a major or minor in another program of study. Nebraska Community Colleges Library Technology Assistant (LTA) classes are accepted as introductory classes.

MATHEMATICS

**Student Learning Outcomes**

- Develop mathematical ability and knowledge of the depth and breadth of mathematics.
- Communicate about and with mathematics.
- Use technology to support problem solving and promote understanding.
- Apply the mathematical sciences, including statistics, in other academic disciplines.
The Degree of Bachelor of Science with a SUBJECT MAJOR IN MATHEMATICS: A student must complete the following program in addition to General Studies requirements and a major or minor in another area. Transfer students must complete at least one-half of the major at Chadron State College. An unduplicated course from upper division courses (excluding MATH 335) in mathematics will be taken to satisfy the General Studies mathematics requirement.

MATH 151 Calculus I .................................................. 5
MATH 237 History and Foundations of Math ............. 3
MATH 252 Calculus II ................................................. 5
MATH 330 Differential Equations ............................... 3
MATH 331 Probability and Statistics ........................... 3
MATH 336 Calculus III ............................................... 3
MATH 337 Elementary Linear Algebra ....................... 3
MATH 401 Adv. Math Education Perspectives ........... 3
MATH 410 Mathematics Seminar .............................. 1
MATH 429 Intro. to Modern Algebra .......................... 3
MATH 434 Introductory Analysis ............................... 3

*Electives ................................................................. 4

Total       36

*Electives will be selected from upper division courses (excluding MATH 335) in mathematics and information science and technology.

The Degree of Bachelor of Science in Education with a FIELD ENDORSEMENT IN MATHEMATICS (7-12): A student must complete the following program in addition to the General Studies and Professional Education requirements. Transfer students must complete one-half of the program at Chadron State College. MATH 239 will be taken to satisfy the General Studies Mathematics requirements.

MATH 151 Calculus I .................................................. 5
MATH 237 History and Foundations of Math ............. 3
MATH 252 Calculus II ................................................. 5
MATH 330 Differential Equations ............................... 3
MATH 331 Probability and Statistics ........................... 3
MATH 334 College Geometry ..................................... 3
MATH 336 Calculus III ............................................... 3
MATH 337 Elementary Linear Algebra ....................... 3
MATH 401 Adv. Math Education Perspectives ........... 3
MATH 410 Mathematics Seminar.............................. 1
MATH 429 Intro. to Modern Algebra .......................... 3

Total       38

MATH 330 will serve as the course for the mathematical modeling requirement of this endorsement.

The Degree of Bachelor of Science in Education with a MIDDLE GRADES CONTENT AREA OF SPECIALIZATION IN MATHEMATICS (GRADES 4-9): A student must complete the following program in addition to the General Studies, the Professional Education Field Endorsement in Middle Grades requirements, and one other Content Area of Specialization for Middle Grades.

MATH 135 Pre-Calculus Mathematics ....................... 3
MATH 138 Applied Calculus ....................................... 3
MATH 232 Applied Statistics .................................... 3
MATH 235 Math for the Elem. Teacher I ................. 3
MATH 237 History & Foundations of Mathematics .... 3
MATH 335 Math for the Elem. Teacher II ................ 3

Total       18

MATH 331 Probability and Statistics ....................... 3

MINORS in Mathematics

Mathematics: A student must complete the following program in addition to a major in another area and the General Studies requirements:

MATH 151 Calculus I .................................................. 5
MATH 237 History and Foundations of Mathematics ....
MATH 239 Discrete Mathematics
MATH 252 Calculus II ................................................. 5-6

EITHER

MATH 331 Probability and Statistics ....................... 3

Upper Division Math Electives ................................ 7

Total       20-21
**Applied Statistics**: A student must complete the following program in addition to a major in another area and the General Studies requirements.

MATH 138  Applied Calculus  
OR  
MATH 151  Calculus I  
MATH 331  Probability & Statistics  

MATH 337  Elem. Linear Algebra  3  
MATH 338  Operations Research  3  
MATH 433  Statistical Methods and Data Analysis  3  
MATH 435  Sampling Techniques  3  

Total  18-20

**Mathematics Education (K-8)**: A student must complete the following program in addition to the General Studies and Professional Education, Elementary Education requirements.

MATH 137  Math Topics for Elementary Teachers  3  
MATH 232  Applied Statistics  
OR  
MATH 331  Probability and Statistics  3  

MATH 235  Math for the Elem. Teacher I  3  
MATH 335  Math for the Elem. Teacher II  3  
Electives selected from list below  6-7  

Total  18-19

Electives may be selected from MATH 134, 135, 138, 142, 237, 239, or any unduplicated upper division course in Mathematics or Information Science and Technology. Either MATH 232 or 331 will be used to satisfy the requirements of this minor; students may not apply both courses to the total minor requirements.

---

**MILITARY SCIENCE LEADERSHIP – ROTC PROGRAM**

**General Information**

The Chadron State College Army Reserve Officers Training Corps (ROTC) War Eagle Company was established in 2005 and is affiliated with the Mount Rushmore Battalion, located on the South Dakota School of Mines and Technology campus. The CSC ROTC program, administered by commissioned and noncommissioned officers of the United States Army, is open to both men and women. Courses are offered on the CSC campus, along with field exercises and social events at Camp Rapid in Rapid City, South Dakota. Military Science Leadership courses (MSL) complement any course of study providing leadership training unavailable anywhere else on campus. Participation in the ROTC Basic Course incurs no military obligation. Students completing both the Basic Course and Advanced Course may be commissioned as second lieutenants in the U.S. Army or the Nebraska National Guard.

The ROTC program is designed:

- to develop leadership and managerial potential and a basic understanding of associated professional knowledge  
- to develop a strong sense of personal integrity, honor, and individual responsibility  
- to provide an understanding of the fundamental concepts and principles of military art and science  
- to develop an appreciation of the requirements for national security  

Attainment of these objectives will prepare students for commissioning and will establish a sound basis for future professional development and effective performance in the Army or any chosen career field.

In the traditional four-year program, the student enrolls in eight consecutive semesters of MSL courses, two (2) credit hours each semester for the first two (2) years, and four (4) credit hours for the last two (2) years. Leadership laboratories are offered concurrently with each of the classroom courses.

Non-traditional two-year programs include eligible veterans with prior military service, current members of the US Army Reserve or Army National Guard, and students who have had high school Junior ROTC or Civilian Air Patrol experience. A two year program is available for any student having four academic semesters remaining or enrollment into a Masters degree program after attending a summer ROTC Leadership Training Course at Fort Knox, Kentucky. Participation at the basic course does not carry any commitment to participate in ROTC but it does satisfy the prerequisites necessary to enter the final four semesters of ROTC.
Contact Information – for more information about the ROTC program, contact the following individuals:

SFC Carl K. Dehling  
Recruiting and Retention NCO  
308-432-6174

MAJ Jon Hanson  
Professor of Military Science  
605-394-6038

Faculty:  Professor Hanson, Chair, Assistant Professors:  Reudebusch, Tusler, Dringman, Bryan

Curriculum

ROTC provides both leadership training and experience demanded by both Corporate America and the U.S. Army. ROTC consists of Basic and Advanced courses of instructions. The Basic Course consists of the first four semesters of MSL, including MSL 101, 102, 201, 202 and associated labs. It is designed to provide all college students with leadership and management skills demanded in today’s workplace. Participation in the Basic Course requires no obligation or commitment to continue in ROTC or serve in the Armed Forces.

The Advanced Course consists of the last four semesters of the ROTC program. The Advanced Course is offered to students possessing the potential to become Army officers and who desire to serve as commissioned officers in the Active Army, U.S. Army Reserve, or the Army National Guard. The objective of the Advanced Course is to select, train, and prepare students for military service.

Total: 33

Students must additionally complete a course in the following areas to satisfy commissioning requirements: 1) American Military History, 2) Communications, and 3) Computer Literacy. Consult the Professor of Military Science Leadership for more information.

Ranger Challenge

Ranger Challenge is available as an option to all cadets. These classes provide practical experience in small unit leadership development, team building, and officers’ technical/tactical skills, including rifle marksmanship, orienteering, mountaineering, weapons proficiency, physical training, and small unit leadership skills. Each course listed below may be taken twice for a maximum of four (4) credit hours each. This class culminates with a varsity level competition against other ROTC programs in the region.

PROGRAMS OF STUDY

Tuition, Credits, and Equipment

Military Science Leadership courses are tuition free. Books and equipment are provided by the department. Associated fees assessed for all courses do apply. MSL credit may be applied as free electives towards graduation or can be used as a physical education credit.

Financial Information

Financial support in the form of a tax free stipend is paid to contracted cadets. The amount of this stipend is $350 per month for freshmen, $400 per month for sophomores, $450 per month for juniors and $500 per month for seniors. The stipend is paid for up to ten months per calendar year to contracted cadets who are enrolled in ROTC. Students attending the four-week ROTC Leadership Training Course or the 32 day Leaders Development and Assessment Course (LDAC) receive approximately $800 plus room, board, and travel expenses.

Additional financial aid is available to eligible freshman, sophomore, and junior students in the form of four-year, three-year, and two-year Army ROTC scholarships. The scholarship provides tuition, fees, and a textbook allowance paid during the school year. In addition, all non-scholarship cadets who are contracted receive a 50% reduction in tuition costs.

Extracurricular Activities

Military-related extracurricular activities and organizations available to the ROTC student include Pershing Rifles, Scabbard and Blade, participation in the Bataan Memorial Death March, and the Ranger Challenge team. Students may also take part in voluntary hands-on training to include physical fitness, self-defense, survival, weapons, orienteering, rappelling, mountaineering, and first aid. These exercises are designed to provide the student with an opportunity to practice and improve skills learned in the classroom.

MUSEUM STUDIES

The mission of the Museum Studies program is to provide an introduction to the various aspects and a fundamental understanding of the museum profession. Through the study of museums, their practices, history, and philosophies, students are provided with a strong foundation for beginning their museum career exploration.

This course of study is designed to give the student a broad overview of the various aspects and issues that one may face in the workplace. Though classroom study, practical application, and individualized attention, the Museum Studies program is designed to allow students to personalize their course of study to their career objectives.

Student Learning Outcomes

Upon completion of the Major/Minor in Museum Studies, students will:
- Articulate principles for collections management and care.
- Demonstrate an understanding of the historical and philosophical context for the museum in modern America.
- Demonstrate a fundamental knowledge of museum administration, education, and exhibit design principles.

The Degree of Bachelor of Arts with a SUBJECT MAJOR IN MUSEUM STUDIES: A student must complete the following program in addition to the General Studies requirements and a major or minor in another area.

MUSIC

Mission
It is the mission of the Department of Music at Chadron State College to provide students a rich environment in which to pursue their musical interests and career goals. With a broad-based curriculum, the undergraduate programs offered are designed to prepare students for a variety of careers in both the public and the private sectors. The CSC Department of Music strives to set and maintain high standards of excellence in providing musical leadership to the campus and to the service region as the premier four-year institution of higher education in the Nebraska Panhandle.

Student Learning Outcomes
- Students will demonstrate acquired musical skills by performing alone and in ensembles.
- Students will notate, analyze, and describe music using a common vocabulary.
- Students will develop an appreciation for and knowledge of the history of music as it relates to form, style, performance practice, and the other arts.
- Students will be able to formulate strategies and demonstrate skills directly related to their degree program.

Requirements
1. Music majors and minors are required to participate in the major performing ensemble directly related to their major performing instrument/voice each semester.
2. Students in all degree programs (B.S.E. and B.A.) are required to pass a Piano Proficiency Examination before attempting the Sophomore Qualifying Exam (MUS 299) on their major instrument.
3. The Department of Music requires that music majors and minors receive a grade of “C” or higher in all music coursework in order to receive departmental approval for graduation.

The Degree of Bachelor of Arts with a COMPREHENSIVE MAJOR IN MUSIC: A student must complete the core requirements, an option, and the General Studies requirements. No grade lower than “C” in any required music course will apply toward graduation.

**Students proficient in piano at time of enrollment may test out of the requirement.**

**MUS 115x Private Improvisation may be substituted for MUS 336. MUS 115z, Private Songwriting Arranging, and MIDI I, may be substituted for MUS 413.**

### Instrumental/Vocal Emphasis
- MUS 102/302 or MUS 103/303 (7 cr.); MUS 117; MUS 118; MUS 220; MIS 332

### Piano Studio Operations Emphasis
- MUS 102/302 or MUS 103/303 (8 cr.); MUS 317; MUS 319A and B; MUS 423, MUS 424

The following courses are strongly recommended as supportive electives for the Music Business Option: MUS 105/305, 106/306, 330, 335, 337, 414

**NOTE:** Non-classical literature may be added providing a satisfactory repertoire of classical literature can be performed at an acceptable level.

*Students proficient in piano at time of enrollment may test out of the requirement.

**MUS 115x Private Improvisation may be substituted for MUS 336. MUS 115z, Private Songwriting Arranging, and MIDI I, may be substituted for MUS 413.**

***A student may elect to enroll in 1-12 credit of MUS 390, or a substitution suggested by the advisor and approved by the faculty based on the student’s career goals.***
The Degree of Bachelor of Science in Education with a FIELD ENDORSEMENT IN MUSIC (K-12): This endorsement qualifies a person to teach instrumental and vocal music in grades K-12. A student must complete the following program in addition to the General Studies and Professional Education requirements, including successful completion of EDUC 431K, Special Methods in Elementary Music, and EDUC 431Q, Special Methods in Secondary Music.

MUS 101  Student Recital .......................................... 0
MUS 102/302  Wind Symphony ...................................... 0

Total 57

Electives in Jazz may be selected from among the following: MUS 104/304, 105/305, 336

*Students must complete at least one credit hour of both band and choir to meet state accreditation requirements.

The following Classes are recommended as supportive classes: MUS 216, 315r, 413, 421

The Degree of Bachelor of Science in Education with a SUBJECT ENDORSEMENT IN VOCAL MUSIC (K-8): This endorsement qualifies a person to teach vocal music in the elementary grades. It is strongly recommended that a student complete the following program in conjunction with a K-8 Elementary Education Endorsement program, in addition to the General Studies requirements, the Professional Education requirements, and EDUC 431K, Special Methods in Elementary Music.

MUS 101  Student Recital .......................................... 0
MUS 103/303  Concert Choir ......................................... 4

MUS 299  Sophomore Qualifying Examination ......... 0
MUS 316  Vocal Pedagogy ........................................... 1
MUS 321  Choral Conducting ..................................... 2
MUS 326  Music History I ....................................... 3
MUS 427  Music History II ....................................... 3

Total 31

*Students proficient in piano at time of enrollment may test out of the requirement.
MINORS in Music

**Music:** A student must complete the following program in addition to the General Studies requirements and a major in another discipline.

|MUS 101 | Student Recital | 0 | Music Performance* | 4 |
|MUS 115 | Private Instruction | 3 | Music Electives** | 7 |
|MUS 131 & 131L | Theory I & Lab | 4 | Total | 21 |
|MUS 427 | Music History II | 3 |

**Chosen from the following courses: MUS 117, 118, 216, 220, 230, 240, 312, 315r, 319A, 319B, 321, 322, 336, 413, 419, 420, 423, 424, 426, 428

**Note:** Entrance to many of the above ensembles is by audition.

**Music (K-8):** A student must complete the following program in addition to the General Studies and Professional Education, Elementary Education requirements, including EDUC 431K, Special Methods in Elementary Education.

|MUS 101 | Student Recital | 0 | MUS 131 & 131L | Theory I & Lab | 4 |
|MUS 103/303 | Concert Choir | 4 | MUS 316 | Vocal Pedagogy | 1 |
|MUS 115S | Private Music Instruction (Voice) | 3 | MUS 426 | Music History I | 3 |
|MUS 117 | Piano Class I | 1* | MUS 427 | Music History II | 3 |
|MUS 118 | Piano Class II | 1* | Total | 20 |

*Students proficient in piano at time of enrollment may test out of the requirement.

PHYSICAL SCIENCES

**Student Learning Outcomes**

1. Students will have a strong knowledge base and the skills to be lifelong learners.
   - Students will have a strong foundational knowledge to be able to critically evaluate information.
   - Students will be able to recognize the limits of their knowledge and have the skills to seek and evaluate additional information.
   - Students will be able to apply logical reasoning and organizational skills to integrate new information into their functional knowledge base.

2. Students will be prepared for their profession in the science discipline.
   - Students will understand the interrelatedness of science and society and exhibit the professional skills appropriate for their chosen career path.
   - Students will be able to communicate scientific knowledge to a diverse audience using appropriate technology and media tools.
The Degree of Bachelor of Science with a COMPREHENSIVE MAJOR IN PHYSICAL SCIENCES: A student must complete the core requirements, an option, and the General Studies requirements. Students seeking to enter graduate school are advised to take advanced coursework in the discipline, plus additional mathematics. Students should consult their advisor.

### Core Requirements

**The Degree of Bachelor of Science in Education with a FIELD ENDOREMENT IN NATURAL SCIENCE (7-12):** Students must complete the following program in addition to the Professional Education and General Studies requirements. Students pursuing this endorsement must complete MATH 138 as the General Studies Mathematics requirement and PHYS 435 as one of the General Studies Global and Social Awareness requirements. Spanish language classes are highly encouraged.

Students choosing the Natural Science Field Teaching Endorsement opt for a concentration in one of four areas: Biology, Chemistry, Earth Science or Physics (below). A final grade of “C” or better must be attained in all endorsement area courses.

Total 20

Water Resources Management: A student may be awarded a Certificate in Water Resources Management upon successful completion of the Water Resources Management minor listed above.

<table>
<thead>
<tr>
<th>POLITICAL SCIENCE</th>
</tr>
</thead>
</table>

Student Learning Outcomes

- Students will demonstrate in writing and articulate verbally a basic understanding of the processes of politics and structure of government in the United States.
- Students will identify and evaluate key actors in the global environment, and analyze significant factors that contribute to national power.
- Students will demonstrate in writing an understanding of key historical ideas in political thought and articulate the influence those ideas have had on the evolution of political thought.
- Students will analyze and synthesize complex political relationships and schools of thought and articulate the results of their efforts in both written and verbal forms.
- Students will be able to elaborate upon, articulate, and actively demonstrate the basic knowledge and skills needed for responsible and active citizenship.

MINOR in Political Science

A student must complete the following program in addition to the General Studies requirements and a major in another discipline:

| PS 231 American National Government ................. 3 | PS 420 American Political Thought |
| PS 332 International Relations OR | OR |
| PS 341 Comparative Politics ......................... 3 | PS 431 History of Political Thought ............. 3 |

Total 21

*GEOG 334, Political Geography, may be applied as an elective.
PSYCHOLOGY

Mission

The mission of the psychology program at Chadron State College is to support the College, the Department of Counseling, Psychology and Social Work, and the larger community by providing learning experiences that inspire student achievement, instill ethics and values, promote service, and facilitate lifelong learning. Psychology students will develop the knowledge, understanding, appreciation, discipline, and skills that will enable them to function personally and professionally as informed and socially responsible citizens. Students will be prepared to pursue graduate training, careers within the disciplines, or careers in affiliated areas.

Student Learning Outcomes

The Psychology program at Chadron State College has adopted the student learning outcomes or goals suggested by the American Psychological Association (APA) for undergraduate programs in psychology. Individual students who have completed a psychology major should show progress toward the following learning goals:

- Demonstrate familiarity with the major concepts, theoretical perspectives, empirical findings, and historical trends in psychology. (Knowledge Base of Psychology)
- Understand and apply basic research methods in psychology, including research design, data analysis, and interpretation. (Research Methods in Psychology)
- Respect and use critical and creative thinking, skeptical inquiry, and, when possible, the scientific approach to solve problems related to behavior and mental processes. (Critical Thinking Skills in Psychology)
- Understand and apply psychological principles to personal, social, and organizational issues. (Application of Psychology)
- Value empirical evidence, tolerate ambiguity, act ethically, and reflect other values that are the underpinnings of psychology as a science. (Values in Psychology)
- Demonstrate information competence and the ability to use computers and other technology for many purposes. (Information and Technological Literacy)
- Communicate effectively in a variety of formats. (Communication Skills)
- Recognize, understand, and respect the complexity of sociocultural and international diversity. (Sociocultural and International Awareness)
- Develop insight into their own and other's behavior and mental processes and apply effective strategies for self-management and self-improvement. (Personal Development)
- Pursue realistic ideas about how to implement their psychological knowledge, skills, and values in occupational pursuits in a variety of settings. (Career Planning and Development)

The Degree of Bachelor of Arts with a SUBJECT MAJOR IN PSYCHOLOGY: Students majoring in Psychology are required to complete a minor in another subject area. Courses required for the major do not count for the General Studies Requirement (PSYC 421).

**SOCIAL WORK**

The CSC Social Work program has been accredited by the Council on Social Work Accreditation since 1993. Students who graduate from Chadron State College in Social Work are prepared for social work practice in a multicultural context within the region, as well as nationally and globally. The challenges of and capacities for addressing human diversity are integrated throughout the social work curriculum. The social work curriculum is also designed to encourage the development of knowledge and skills in collaboration, collegiality, and networking. Graduates of CSC Social Work program are prepared to provide professional leadership within the region.

**Mission**

The Bachelor in Arts in Social Work at Chadron State College provides an undergraduate experience that fosters student development of knowledge, skills, and values in order to function as generalist Social Workers who enhance the capacities and quality of life for individuals, families, groups, organizations, and communities within the region of west Nebraska, southwest South Dakota, southeast Wyoming, and northeast Colorado.

In order to carry out the social work program mission of Chadron State College, the Social Work faculty strives for excellence in teaching, scholarship, and service. Social Work faculty teach foundation curriculum with a sensitivity to student needs and with an awareness of the knowledge, skills, and values appropriate to a beginning social work professional at a baccalaureate level. To maintain student learning, Social Work faculty use innovative technology,
experiential and active learning approaches, and outcome-based learning that individualize curriculum and instruction to the needs of individual learners.

Social Work faculty continually evaluate courses through student process evaluations, course evaluations of teaching and objective attainment, peer reviews of teaching, assessment of written assignments, and tests of student learning. Social Work faculty seek to integrate scholarship with student learning through presentations at regional and national conferences, special projects, and community consultation. Social Work faculty provide service to the College, community, and professional associations by serving on local and regional boards and committees and participating in projects with local human service systems.

Objectives

To carry out the mission of the Social Work Program and Chadron State College, the Social Work Program seeks to prepare Social Work Professionals who will upon completion of the Program be able to:

1. Critically assess and intervene with individuals, families, groups, organizations and communities using multidimensional theories and strategies that enhance the social functioning and interactions of individuals, families, groups, organizations, and communities by involving them in accomplishing goals, developing resources, and preventing and alleviating distress.

2. Utilize the skills and knowledge to successfully practice within the context of diverse cultures, reflected by, but not limited to age, gender, mission/orientation, sexual preference, racial or ethnic background, disability, marital status, religious orientations, and life style.

3. Utilize knowledge of the forms and mechanisms of oppression/social/economic injustice, integrate a value-base that fosters commitment to advocacy, and develop the political and social skills necessary to alleviate oppression/social/economic injustice.

4. Critically analyze social welfare policies and implement social welfare policies, services, and programs through political and organizational processes that meet basic human needs and support the development of human capacities.

5. Work collaboratively within rural human service agencies and human service delivery systems with supervisors and professional colleagues and develop personal/professional/political support systems.

6. Utilize the knowledge and skills of research, evaluate professional practice using qualitative and quantitative research methods, use and solicit collegial feedback, and apply existing knowledge to advance Social Work practice.

7. Practice Social Work with an ethical orientation compatible with the Code of Ethics of the National Association of Social Workers and to assess and act professionally and intentionally in situations with ethical dilemmas.

8. Develop an identity as a professional Social Worker and practice Social Work with the highest regard for the strengths/capacities, integrity and value of all beings whether as individuals or in families, groups, organizations and communities.

9. Enter a graduate program in Social Work with advanced standing.

The Social Work Program consists of pre-professional studies in the freshman and sophomore years and the professional major which is usually completed during the student’s junior and senior years of study. Except for some transfer students, incoming students who want to major in Social Work are given the status of a Pre-Professional Social Work major. The Pre-Professional Social Work major is determined by the student indicating Social Work as an area of interest when first enrolling in college. Identifying an interest in Social Work permits the School of Education, Human Performance, Counseling, Psychology, and Social Work to assign the student to a Social Work faculty advisor. prerequisite courses to the Advanced Professional Social Work Program include the General Studies courses required of all CSC students, BIOL 121/121L; ECON 130; PSYC 131, 238; SW 231, 251, 252, 271; PS 231; and SOC 231.

Students considering Social Work should consult the Social Work faculty early in their academic career to insure that the necessary prerequisite coursework is completed prior to admission to the Advanced Professional Social Work program.

Admission to the Advanced Professional Program

The admissions policy of the Chadron State College Advanced Professional Social Work Program is to accept all qualified students within the limits of its resources, facilities, and mission. Qualified students are admitted without regard to age, race, marital status, gender, religion, national origin, or disability. Educational policies, scholarship and loan programs, and other programs and activities, are administered without discrimination. Chadron State College offers a B.A. degree with a comprehensive major in Social Work which is accredited by the Council on Social Work Education. Graduating students are prepared to practice as beginning Social Work professionals.
Generally, students make application to the Advanced Professional Social Work Program during the 2nd semester of
the sophomore year or first semester of the junior year. Students who change majors or transfer to Chadron State College
make application during the first semester on campus or when they have either completed or enrolled in all pre-requisite
Social Work courses. Applications to the Advanced Professional Social Work Program are available from the
Department of Counseling, Psychology, and Social Work.

Admission Criteria

Admission to the Chadron State College Advanced Professional Social Work Program is based on the following
criteria:
1. Sophomore standing.
2. Cumulative grade point average of 2.00 and a 2.75 G.P.A. in pre-requisite Social Work courses.
3. Completion of an Application for Major form. The form is available from the departmental office assistant.
4. Completion of an Application to the Advanced Professional Social Work Program by deadlines published
during Fall and Spring semesters. An Application to the Advanced Professional Social Work Program
includes: the Application form, three letters of reference, and written responses to questions identified on the
Application form. Submission of Application materials to Social Work Program Director.
5. Completion of or enrollment in all SW pre-Professional courses: BIOL 121/121L; ECON 130; PS 231; PSYC
131, 238; SW 231, 251, 252, 271; and SOC 231.
6. Documentation of 40 hours of volunteer experience in a social service setting. Documentation materials
included with Application to Professional Social Work.
7. Completed interview with a designated Social Work faculty member. Student will be notified of interview
following receipt of completed Application to Social Work Professional Program.
8. Signed Acknowledgement of student’s willingness to abide by the NASW Code of Ethics. Statement included
with Application to Social Work Professional Program.

The Chadron State College Social Work Program does not grant academic credit for life experience for any social
work course requirement.

After discussion with his/her advisor, a student who does not meet the admission’s requirements to the Social Work
Program may petition the Social Work Admissions Committee for special consideration.

Students who apply to enter the Field Program once accepted into the Advanced Professional Social Work Program
may be required to give permission to have a criminal background check conducted by a state Bureau of Criminal
Investigation or the Federal Bureau of Investigation, depending upon potential placement agency requirements. If a
background check is required, students will be responsible for all incurred costs.

A student with a major felony conviction(s) involving the use of weapons or abuse of vulnerable individuals may not
be able to complete SW 464, Social Work Field Practicum, depending upon the Program’s ability to find a field
placement site. If a student completes the Social Work Professional Program, he/she may not be able to secure a license
to practice Professional Social Work, depending upon a given state’s social work licensing board’s standards or
depending upon a given agency’s hiring standards. Students with questions about prior convictions must schedule a
meeting with the Social Work Program Director to discuss circumstances and options available.

Applications for admission to the Advanced Professional Social Work Program are reviewed by the Social Work
Admissions Committee. Students also interview with the Social Work Program Advisory Committee. Action on the
admission requests is based upon the recommendations of the Social Work Admissions Committee. The Social Work
Admissions Committee may recommend: admission, conditional admission, or deny admission. Students are notified
of the decision of the Admissions Committee by an official letter from the Director of the Social Work Program. Students
who are not accepted may appeal the decision by initiating the appeal process as outlined in the Social Work
Program Student Handbook.

Transfer Students

Students transferring into CSC may upon completion of pre-requisite Social Work courses or upon enrollment in pre-
requisite Social Work courses, apply for admission to the Advanced Professional Social Work Program.

Student Applications for Admission to the Advanced Professional Social Work Program must be submitted and a
student notified of the Social Work Admissions Committee decision of acceptance into the Advanced Professional Social
Work Program before a student can officially enroll in Professional Social Work courses through Chadron State College.
In situations where students are applying to the Advanced Professional Social Work Program while finishing pre-
requisite courses, students may pre-enroll in Professional Social Work courses on a conditional basis with over-rides
provided by the Director of the Social Work Program.
Students wanting to transfer credits from another institution must submit an official transcript to Chadron State College for evaluation. Unless an articulation agreement related to Social Work courses exists between Chadron State College and the institution, students must submit syllabi from prior Social Work courses to the Director of the Social Work Program. For Social Work Program courses, the final decision concerning content and acceptability of transferred courses rests with the Director of the Social Work Program.

**Termination Policy**

A student may be terminated from the Social Work Program due to failure to meet generally accepted standards of professional conduct as identified in the National Association of Social Work Code of Ethics and as identified in the Chadron State College Code of Student Conduct. Examples of nonprofessional conduct include, but are not limited to, consistent failure to demonstrate effective interpersonal skills necessary for forming professional helping relationships, inability to demonstrate nonjudgmental attitude, and inability to allow client self-determination.

Students who are dismissed from the Social Work Program may appeal the decision by initiating the appeal process as outlined in the Social Work Program Student Handbook.

**The Degree of Bachelor of Arts with a COMPREHENSIVE MAJOR IN SOCIAL WORK:** A student must complete the following program in addition to the General Studies requirements. Students pursuing this comprehensive major must complete BIOL 121/121L, ECON 130, and PS 231 to fulfill General Studies requirement for Life Science, Global and Social Awareness, and Government.

**Gerontology Services:** PSYC 234, 430; SW 332, 339
SOCIOLOGY

Student Learning Outcomes

- Students will demonstrate a working knowledge of the nature of a society.
- Students will describe the patterns of social behavior that constitute a society.
- Students will distinguish between the meanings of culture and society and elaborate on the manner in which societies are built upon cultures.
- Students will acquire and articulate a working knowledge of the vocabulary for describing and analyzing society and social institutions.
- Students will demonstrate knowledge in the specific subfields of Sociology that explore social institutions and other basic elements of society.
- Students will conduct social research and present the results of their research both verbally and in writing.
- Students will demonstrate through interpretative exercises the society in which they were raised through comparisons of that society with other societies.

MINOR in Sociology

A student must complete the following program in addition to the General Studies requirements and a major in another discipline:

ANTH 231 Introduction to Cultural Anthropology .......... 3
SOC 231 Introduction to Sociology.......................... 3
SOC 335 Ethnic Minority Group Relations............... 3
SOC 332 Juvenile Delinquency
OR
SOC 339 Criminology
OR
SOC 439 Sociology of Deviance......................... 3

Total  21

SPANISH

MINOR in Spanish

The student must complete the following program in addition to a major in another area and the General Studies requirements.

SPAN 202* Intermed Span Conversation & Comp.......... 3
SPAN 233C Intermed Culture Colloquium................ 1
SPAN 333C Advanced Culture Colloquium.............. 1
SPAN 334 Advanced Spanish Comp & Grammar......... 3
SPAN 335 Adv Spanish Conversation..................... 3

SPAN 390** Internship in Spanish
OR
SPAN 238/438 Study Abroad Program.................. 3
SPAN electives at the 300 level or above............. 6

Total  20

*The required prerequisite for SPAN 202 is SPAN 201. Alternately, students may place into SPAN 202 by obtaining a score of 90% or higher on the Spanish placement exam.

**In order to complete the Spanish minor at Chadron State College, students must complete either one of the courses offered through the Study Abroad program, or in an approved internship which allows for students to practice and improve their Spanish language and cultural knowledge on a daily basis.
CHADRON STATE COLLEGE

SPECIAL EDUCATION

Chadron State College offers a cross-categorical special education program, providing endorsement programs with current information, skills, and methods regarding program planning, implementation, and assessment for learners with mild/moderate disabilities. Endorsements in mild/moderate disabilities have been selected for their broad scope to effectively meet the special educational needs of teachers who will serve students in a variety of teaching/learning environments.

The undergraduate special education curriculum provides the following options: Mild/Moderate Disabilities endorsement (K-12), (4-9), Early Childhood Unified Education endorsement (birth-grade 3). A minor program of study in special education is offered, as an option, for those also seeking the Elementary Education Field Endorsement program.

The Degree of Bachelor of Science in Education with a FIELD ENDORSEMENT IN MILD/MODERATE DISABILITIES (K-12): Students seeking a teaching endorsement in the area of Mild/Moderate Disabilities (K-12) are required to complete the following courses in addition to the Professional Education courses (2.50 minimum G.P.A. required) and the General Studies Program requirements.

The Teacher Internship experience in mild/moderate disabilities (K-12) requires 8 Teacher Internship credit hours in a Special Education setting at the secondary level, as well as 8 credit hours at the elementary level; (EDUC 480V, Teacher Internship M/M K-12).

Professional Education: The following courses are prerequisites to the Professional Year (2.50 minimum G.P.A. required no grade may be below a “C”):

- EDUC 131 Intro to Teaching ....................................... 3
- EDUC 224 Multimedia Support of Instruction/Learning ........ 2
- PSYC 231 Educational Psychology ............................ 3
- SPED 230 Intro Except Learner.................................. 3
- SPED 334 Diff Instr for Diverse Classrooms ............. 2

Total 14-16

Mild/Moderate Disabilities Endorsement Courses (K-12):

- CTE 431 Intro. to Special Needs Prog in CTE ........... 3
- HPER 422 Intro to Adapted PE................................. 3
- PSYC 334 Developmental Psychology ....................... 3
- PSYC 336 Adolescent Psychology ............................. 3
- SPED 231 Survey of Effects of M/M Disab ............. 3
- SPED 232 Interper. Comm Skills for SPED ............. 3
- SPED 316e Microteach Elem/Middle School ............. 1
- SPED 316s Microteach Secondary Special Ed .......... 1
- SPED 331 Behavior Interventions ......................... 3
- SPED 332 Lang. and Learning Disorders .................. 3
- SPED 335 Elem./MS/Sec. Meth. Mat. M/M Dis. ....... 4
- SPED 337 Program Dev., Imp. & Eval ..................... 3
- SPED 416 Clinical Exp. in Appr. Exc. Child .......... 1
- SPED 412e SPED Practices & Strategies .................. 1
- SPED 416 Clinical Exp. in Appr. Exc. Child .......... 1
- SPED 417 Teach Reading & Writing Diagnosis .......... 1

Total 40

Professional Year (two semesters) - Comprised of the “Block” Professional Semester and the Teacher Internship Experience semester (Student Teaching)

Students pursuing only the Mild/Moderate Disability Endorsement program may select to complete their Professional Year course work requirements by enrolling in either the Elementary Professional Year (Elementary Block route) or the Secondary Professional Year (Secondary Block route). Options are outlined below.

The following courses can be taken only as part of the Professional Year (2.50 minimum G.P.A. required): refer to Application for Professional Year requirements.

Semester #1/Option 1 – Elementary Block Route: Refer to Application for Professional Semester

- EDUC 413 Elem/MS Curric. & Counseling............... 1
- EDUC 414 Classroom Mgmt................................. 1
- EDUC 415 Human Relations/Multicultural ............. 1
- EDUC 416 Elem/MS Assessment............................ 1
- EDUC 417 Teach Reading & Writing Diagnosis ....... 1
- EDUC 422 Teach Elem/MS Science & Health........... 2
- EDUC 423 Teach Primary Reading & Writing ......... 2
- EDUC 424 Teach Internm. Reading & Writing ......... 2
- SPED 412e SPED Practices & Strategies ............... 1

Total 12
Semester #1/Option 2 – Secondary Block Route: Refer to Application for Professional Semester
EDUC 411 Reading/Writing in the Content Areas ...... 1
EDUC 412 Secondary/MS General Methods .............. 1
EDUC 414 Classroom Mgmt ....................................... 1
EDUC 415 Human Relations/Multicultural ................. 1

Semester #2 – Teacher Interning
EDUC 480, Teacher Internship can be taken only after the successful completion of the Professional Semester (Block) courses (minimum G.P.A. of 2.50 required).

NOTE: The Praxis II: Elementary Education Curriculum, Instruction and Assessment Exam (as required by the Nebraska Department of Education) must be taken as a requisite for graduation.

The Degree of Bachelor of Science in Education with a MIDDLE GRADES CONTENT AREA OF SPECIALIZATION IN MILD/MODERATE DISABILITIES (GRADES 4-9): This endorsement content area qualifies individuals to teach Special Education (individuals with Mild/Moderate Disabilities) at the middle grades level. The Teacher Internship experience in Mild/Moderate Disabilities (Grades 4-9) requires 8 teacher internship credit hours in a Special Education setting at the middle grades level. A student must complete the following course requirements, as well as, the General Studies and Professional Education-Middle Grades program course requirements, in addition to one other 18 credit hour Middle Grades Content Area of Specialization:
SPED 316 Micro Teaching Elem/MS .......................... 1
SPED 331 Behavior Interventions .............................. 3
SPED 335 Elem/MS/Sec Methods ............................... 4
SPED 337 Program Devel., Improv. & Eval................. 3
SPED 338 Clinical Exper. in Appr. of Exc Child .......... 1
SPED 416 Assess. Indiv. With M/M Disab............... 3
SPED 435 Consultation/Collaboration ....................... 3
Total 18

The Degree of Bachelor of Science in Education with an EARLY CHILDHOOD EDUCATION UNIFIED ENDORSEMENT (BIRTH THROUGH GRADE 3): This endorsement qualifies teachers to teach early childhood and/or special education from birth through grade 3. A student must complete the following program requirements in addition to the General Studies program and Professional Education Program course requirements:

Professional Education: The following courses are prerequisites to the Professional Year (2.50 minimum G.P.A. required no grade may be below a “C”):
EDUC 131 Intro to Teaching ....................................... 3
EDUC 224 Multimedia Support of Instruction/Learning .......... 2
EDUC 320 Elem/MS Obs & Participation ..................... 1-3
PSYC 334 Developmental Psychology .......................... 3
SPED 345 Intro Except Learner ................................. 3
Total 14-16

Early Childhood Education Unified Endorsement: The following courses are prerequisites to the Professional Year (2.50 G.P.A. required and no grade below a “C”):
EDUC 231 Play, Art & Music for Early Childhood .......... 3
EDUC 232 Sci, Math & Soc Stu for Early Child ............. 3
EDUC 233 Lit & Language Arts for Early Child ............ 3
EDUC 321 Teach Elem/MS Math ............................... 2
FCS 139 Child Growth and Development .................. 3
FCS 237 Guidance Tech Human Relations .................. 1
OR
FCS 239 Partners in Early Child Educ ......................... 3
FCS 316e Micro Teaching in Preschool ....................... 1
OR
SPED 331 Behavior Interventions ............................ 3
SPED 337 Program Dev, Implem, & Mgmt ................... 3
SPED 416 Clinical Exp – Except Child ....................... 1
SPED 438 Consultation/Collaboration ....................... 3
Total 46

Professional Year Courses: (two semesters) comprised of the “Block” Professional Semester and the Teacher Internship Experience Semester (Student Teaching): The following courses can be taken only as part of the Professional Year (2.50 minimum G.P.A. required): Refer to Admission Requirements for the Professional Year.
Semester #1 – Block:
EDUC 413 Elem/MS Curric. & Counseling ........... 1
EDUC 414 Classroom Mgmt.................................. 1
EDUC 415 Human Relations/Multicultural .......... 1
EDUC 416 Elem/MS Assessment........................ 1
EDUC 417 Teach Reading & Writing Diagnosis ...... 1
EDUC 422 Teach Elem/MS Science & Health........ 2
EDUC 423 Teach Primary Reading & Writing ....... 2
EDUC 424 Teach Interm. Reading & Writing .......... 2
SPED 412e SPED Practices & Strategies.............. 1
Total 12

Semester #2 – Teacher Internship:
EDUC 480P, Teacher Internship Primary and EDUC 480R, Teacher Internship Early Childhood Education Unified can be taken only upon successful completion of the above (Semester #1 – “Block”) courses (minimum G.P.A. of 2.50 required).

NOTE: The Praxis II: Elementary Education Curriculum, Instruction and Assessment Exam (as required by the Nebraska Department of Education) must be taken as a requisite for graduation.

MINOR in Mild/Moderate Disabilities (K-8)
These courses must be completed along with the Elementary Education Field Endorsement course curriculum:
HPER 422 Intro to Adapted PE.................................. 3
SPED 231 Survey and Effects of M/M Disab .......... 3
SPED 232 Interpersonal Comm. Skills ................. 3
SPED 316 Microteach Pre/Elem/Middle School ...... 1
SPED 331 Behavior Interventions....................... 3
SPED 332 Language & Learning Disorders.......... 3
SPED 335 Elem/MS/Sec Methods & Materials ...... 4
SPED 337 Program Dev., Imp. & Mgmt ............... 3
Total 23

TECHNICAL OCCUPATIONS
The Degree of Bachelor of Applied Sciences with a COMPREHENSIVE MAJOR IN TECHNICAL OCCUPATIONS: The Bachelor of Applied Sciences degree is specifically designed to accept transfer of Associate of Applied Science (AAS); Associate of Science (AS); or Associate of Occupational Science (AOS) degrees from accredited two-year institutions. Technical course work completed in associate degree is enhanced at Chadron State College with general education and advanced support courses to meet the career and educational goals of the student. The course work allows students to individualize a plan of study in one of the following options: Health Care, Computers and Electronics, Industrial Trades, Agricultural Operations, Management Services, Management and Communication, or Post-secondary Technical Career Education.

Transfer of Courses
Chadron State College will accept up to 70 semester credit hours from an AS, AAS, or AOS degree granted by an accredited technical school or community college. Additional hours may be accepted from regionally accredited 4-year institutions.

Degree Requirements
Maximum Transfer Courses (from 2-year institutions) .................................................................................. 70 hours
Minimum General Education Courses ........................................................................................................... 40 hours
Minimum Upper Division Support Courses .................................................................................................. 45 hours
Minimum Total Hours for Degree Completion ............................................................................................ 125 hours

General Education Requirements - To be selected from General Studies Program:
Communication Arts.............................................. 3
Composition .......................................................... 6
Fine Arts ............................................................... 3
Global & Social Awareness.................................... 6
Government .......................................................... 3
Health and Wellness.............................................. 3
History .................................................................. 3
Humanities ............................................................ 3
Mathematics .......................................................... 3
Physical Activities ................................................... 1
Reason & Values ..................................................... 3
Science ................................................................. 3

40
Special Requirements
- Students must work with an academic advisor to complete an official plan of study.
- An Associate of Science, Associate of Applied Science, or Associate of Occupational Science degree from an accredited institution is required for admittance to this program.
- A maximum of 70 semester hours may be transferred from a technical or community college.
- Contact the Extended Campus Programs Office for more information.

THEATRE

Mission and Objectives
The mission of the Chadron State College Theatre Studies Program is to prepare students for professional and educational theatre through a comprehensive program of practical application of knowledge bases and skills as well as sound analytical and theoretical development. Through a global perspective on theatre, its practices, and its history, students are provided the diversity necessary to their development as an individual and responsible member of a world society.

The course of study is designed to prepare the student for a career in theatre and to encourage personal and artistic growth in a student-centered environment that places an equal value on classroom study and practical application. To this end, the program is dedicated to providing a classroom experience strong in historical, theoretical, and process oriented work combined with extensive practical opportunities in production in which students are encouraged and expected to play key roles as actors, designers, technicians, and directors.

The Degree of Bachelor of Arts with a COMPREHENSIVE MAJOR IN THEATRE: A student must complete the core requirements, the General Studies requirements, and one of the following options.

ACCOUNTING

ACTG 160  Topics in Accounting  Credit 1-3 hours
Topics or seminars will be selected as needed to keep students abreast of contemporary issues in accounting.

ACTG 241  Accounting Principles I  Credit 3 hours
Introduction to the process of recording financial data and preparing periodic financial statements and special reports for the sole proprietorship and partnership.

ACTG 242  Accounting Principles II  Credit 3 hours
Continuation of Accounting Principles I, emphasizing the accounting process in the corporation. Includes cash flow, managerial accounting, and financial statement analysis. Prerequisite: ACTG 241 or equivalent.

ACTG 332  Accounting Information Systems  Credit 3 hours
Using accounting system software on the personal, work group, and organizational levels including transaction processing systems, decision support systems, and internal control systems. Database is linked to organizational systems for business types of sole proprietorships, partnerships, corporations, and non-profit accounting systems. Prerequisite: ACTG 241 or equivalent.

ACTG 337  Cost Accounting  Credit 3 hours
Manufacturing cost procedures including job-order and process cost systems, planning and control, budgeting and standard costing, and analysis of costs and profits. Prerequisites: ACTG 242 or equivalent.

ACTG 341  Intermediate Accounting I  Credit 3 hours
Investigates theoretical accounting concepts relating to financial statement preparation and an indepth study of accounting concepts related to assets. Prerequisites: ACTG 242 or equivalent.

ACTG 342  Intermediate Accounting II  Credit 3 hours
Accounting concepts relating to non-current assets and liabilities, with emphasis on stockholder’s equity in the study of corporate accounting. Prerequisites: ACTG 341 or equivalent.

ACTG 343  Intermediate Accounting III  Credit 3 hours
Accounting theory and practical application of accounting problems presented in special topics. Accounting issues concerning leases, pensions, income taxes, earnings per share, cash flows, and interim and segment reporting are included. Prerequisite: ACTG 342 or equivalent.

ACTG 430  Personal Income Tax  Credit 3 hours
Federal income and state tax statutes, tax forms and regulations. Preparation of individual income tax returns and partnership returns. Computer software packages may be included.

ACTG 431  Corporate/Fiduciary Tax  Credit 3 hours
Basic principles of federal income taxation for partnerships, corporations, and fiduciaries. Tax preparation software packages may be included. Prerequisite: ACTG 242 or equivalent.

ACTG 433  Governmental and Not-For-Profit Accounting  Credit 3 hours
Specialized accounting procedures designed for governmental and non-profit entities including fund accounting, budgetary accounting, and reporting procedures. Non-profit accounting system software may be used to record transactions for these governmental and non-profit entities. Prerequisite: ACTG 242 or equivalent.
ACTG 438  Auditing  Credit 3 hours
Duties and responsibilities of auditors, how to conduct an audit, preparation of audit reports, and special auditing problems. Standardized auditing software may be used to conduct a simulated audit for a business entity. Prerequisite: ACTG 342 or equivalent.

ACTG 443  Advanced Accounting  Credit 3 hours
Accounting theory and problems dealing with corporate combinations and consolidations and other specialized financial accounting topics. Prerequisites: ACTG 342 and MIS 332 or equivalencies.

ACTG 460  Topics in Accounting  Credit 1-3 hours
Topics or seminars will be selected as needed to keep students abreast of contemporary issues in accounting.

AGRICULTURE
Many of the Agriculture courses require field trips that are considered an integral part of the course. Field trips may be held on Saturdays.

AGRI 132  Introduction to Animal Science  Credit 3 hours
Species adaptability, product standards and requirements, areas and types of production, processing and distribution of products, including meat animals, dairy, and horses.

AGRI 141  Introduction to Plant Science  Credit 3 hours
Fundamental structures and processes of plants. Principles to be applied cover plant structures, physiology, genetics, and environmental relationship to growth, adaptation, biotechnology, and management of plants.

AGRI 160  Special Topics  Credit 1-3 hours
Special topics appropriate for lower division credit. May be repeated with different emphases for up to six hours of credit.

AGRI 234  Principles of Animal Nutrition  Credit 2 hours
Principles of ruminant and non-ruminant nutrition as they relate to the biochemical and physiological functions of nutrients in life processes, and as they relate to feeding practices. Must be taken concurrently with AGRI 234L.

AGRI 234L  Principles of Animal Nutrition Laboratory  Credit 1 hour
Lab experience. Must be taken concurrently with AGRI 234.

AGRI 235  Introduction to Wildlife Management  Credit 3 hours
Introduction to the basic principles of wildlife biology and the art and science of wildlife management. Emphasis will be placed on terrestrial wildlife. Field trips required. Cross-listed as BIOL 235.

AGRI 242  Principles of Rangeland and Forage Crop Management  Credit 3 hours
Emphasizes rangeland history, ecology, physiology of rangeland productivity and utilization, grazing management, rangeland improvements, and domestic livestock and wildlife management. Also includes forage production, harvesting, storage, rotations and pasture management. Must be taken concurrently with AGRI 242L.

AGRI 242L  Principles of Rangeland and Forage Crop Management Laboratory  Credit 1 hour
Lab experience. Must be taken concurrently with AGRI 242.

AGRI 245  Principles of Soil Science  Credit 3 hours
Origin, development, classification, and management of soils that affect plant growth. Must be taken concurrently with AGRI 245L.

AGRI 245L  Principles of Soil Science Laboratory  Credit 1 hour
Lab experience. Must be taken concurrently with AGRI 245.
AGRI 270  Special Topics  Credit 1-3 hours
Introduction for all agriculture related majors to career options. Students will conduct independent research of selected agriculture firms or agencies. A required job shadowing experience will provide knowledge of opportunities and challenges of working in the broad agricultural job market.

AGRI 310  Careers in Agriculture  Credit 1 hour
Introduction for all agriculture related majors to career options. Students will conduct independent research of selected agriculture firms or agencies. A required job shadowing experience will provide knowledge of opportunities and challenges of working in the broad agricultural job market.

AGRI 325  Rangeland Wildlife Management  Credit 3 hours
Issues and management of wildlife and their habitats on rangelands. Emphasis will be on wildlife habitat management and manipulation and the issues of co-habitation of wildlife and domestic livestock. Field trips may be required. Cross-listed as BIOL 325. Prerequisite: Sophomore status or permission of instructor and Dean.

AGRI 331  Farm and Ranch Management  Credit 3 hours
The skills, techniques, innovations, and current procedures for management of farms and ranches.

AGRI 333  Beef Production  Credit 3 hours
Principles and practices of commercial and purebred beef production including breeds, breeding, reproduction, diseases, marketing, management, and general husbandry. Must be taken concurrently with AGRI 333L.

AGRI 333L  Beef Production Laboratory  Credit 1 hour
Lab experience. Must be taken concurrently with AGRI 333.

AGRI 334  Rangeland Improvement Practices  Credit 3 hours
Methods of manipulating rangeland vegetation for multiple-use purposes by grazing management, undesirable animal and plant control, seeding, soil and water enhancement, and other appropriate management practices. Prerequisite: AGRI 242 or consent of instructor.

AGRI 335  Horse Production  Credit 3 hours
Principles and practices related to modern horse production including breeding, housing, foot and leg care, equipment, and history.

AGRI 336  Sheep Production  Credit 3 hours
Principles and practices of commercial and purebred sheep production including breeds, breeding and reproduction, diseases, marketing, management, and general husbandry.

AGRI 337  Applied Animal Nutrition  Credit 3 hours
Characteristics of basic feedstuffs and recommended feeding practices utilizing ration development, feeding trials, and feed analysis.

AGRI 338  Livestock Evaluation  Credit 3 hours
Evaluation of the relationship of form to function of domestic animals for superior production. Various types, classes, grades, and breeds of livestock will be studied. Prerequisite: AGRI 132 or consent of the instructor.

AGRI 339  Rangeland Plant Identification  Credit 1 hour
Identification of the principle rangeland grasses, forbs, and shrubs of North American rangelands by ecosystem, with both common and scientific names. Habitat, management, and historic use characteristics of these species is also presented. Must be taken concurrently with AGRI 339L.

AGRI 339L  Rangeland Plant Identification Laboratory  Credit 2 hours
Lab experience. Must be taken concurrently with AGRI 339.

</table>
AGRI 435  Wildlife Management Practicum  Credit 3 hours
Seminar style course that will bring together wildlife professionals, natural resource managers, livestock producers, environmentalists and others interested in wildlife management. Participants will describe, discuss, and debate existing programs and issues on private and public lands. Field trips required. Cross-listed as BIOL 437. Prerequisites: AGRI/BIOL 235, AGRI/BIOL 426 required; AGRI/BIOL 325 recommended.

AGRI 436  Rangeland and Fire Ecology  Credit 3 hours
Principles of rangeland ecology using an approach treating plants, animals and humans as a whole. Includes composition, structure, processes, adaptations to environmental factors, biotic relationships, and problems of environmental quality and resource use. The role of fire in rangeland ecosystems, the characteristics of fire, and use of fire in maintaining native ecosystems will be explored. May require field trips. Prerequisite: AGRI 242 or consent of the instructor.

AGRI 437  Returning to the Farm  Credit 2 hours
Designed for students and their parents who are planning on farming/ranching together. Involves study of personality differences, business goals and arrangements, communications, decision-making, and adequacy of size of operation. Computer analysis of participant’s operating alternatives.

AGRI 438  Land Resource Management Planning  Credit 3 hours
Inventory of soils, vegetation, water, wildlife, timber, mineral, recreation, and cropland resources of a selected farm/ranch operation or conservation area and development of a detailed management plan. Techniques of management of private and public lands. Prerequisites: AGRI 141, 242, 245, 334, 339, and 350 or consent of the instructor.

AGRI 444  Grass Systematics  Credit 3 hours
The main focus of the course is on identification of members of the Poaceae, or grass, family. Students will work through grasses provided to identify them down to species. Upon completion of the class the students will be able to recognize common tribal and genera characteristics, and be able to key out unknown grasses.

AGRI 445  Mammalogy  Credit 2 hours
Systematic, life history, physiology, and behavior of mammals. Must be taken concurrently with AGRI 445L. Field trips required. Cross-listed as BIOL 435.

AGRI 445L  Mammalogy Laboratory  Credit 1 hour
Laboratory experience. Must be taken concurrently with AGRI 445. Cross-listed as BIOL 435L.

AGRI 447  Animal Breeding and Reproduction  Credit 3 hours
Reproduction processes of domestic animals, including anatomy, physiology, and endocrinology of reproduction, breeding systems, and artificial insemination principles. Prerequisite: AGRI 132 or consent of the instructor.

AGRI 460  Topics in Agriculture  Credit 1-3 hours
Meets the needs of changing conditions in agriculture. Topics may change from semester to semester. This course may be repeated for up to a total of 6 hours of credit.

AGRI 461  Special Problems  Credit 1-4 hours
Designed for the highly motivated advanced student. The student must submit a plan of study to the instructor and have the instructor’s approval the semester prior to enrollment. This course may be repeated for up to a total of 6 hours of credit.

AMERICAN INDIAN STUDIES

AIS 131  Lakota Language I  Credit 3 hours
Introduction to the Lakota language, with focus on preserving the ancient language of the Lakota, both written and spoken.
AIS 132   **Lakota Language II**  
Continuation of Lakota language study with emphasis on speaking and reading skills.  

AIS 334   **Lakota Society and Culture**  
Focus upon the central cultural aspects of the Lakota Sioux, including tribal and political organization, and social mores and norms. Recent changes in Reservation society will be examined.

AIS 430   **Topics in American Indian Studies**  
Special topics in American Indian Studies.

AIS 436   **Seminar in American Indian Studies**  
Designed to meet the specific needs of a group of students. Permission of the Instructor is required.

### ANTHROPOLOGY

ANTH 231   **Introduction to Cultural Anthropology**  
Comparative study of a variety of human groups modern and premodern, including analysis of technology, family form, religion, other aspects of social organization, and cultural change. Methods of cultural anthropology will be discussed. Field trips may be required.

ANTH 337   **People and Cultures of North America**  
Survey of indigenous cultures of North America from prehistory through contemporary societies. Emphasis is placed on the wide range of diversity exhibited by American Indians across the continent. Course content will include prehistoric Native Americans, the contact period, and contemporary American Indian societies.

ANTH 430   **Topics in Anthropology**  
Special topical studies that may include: art and religion, Native American culture, impact of technology on culture, agricultural systems, cultures of the Middle East, exploration and cultures, linguistics, and nomadism. Student may repeat the course for a maximum of 9 hours credit. Field research is possible.

ANTH 435   **Northern Plains Indian Cultures**  
Survey of Northern Plains Indian cultures with a focus upon aspects of cultures from both a historical and contemporary perspective, but with emphasis being placed on the contemporary cultures. The impact of modern technology and Euro-American contact on Northern Plains Indians will also be examined as well as the continuing functions of traditional Native beliefs in contemporary social, economic, political, and religious contexts.

### ART

ART 131   **Drawing I**  
Basic drawing techniques using a variety of media and emphasizing the development of perceptual skills and communication through the language of art. May require field trips.

ART 133   **Design Fundamentals I**  
Study of the basic elements and principals of design and their application in the visual language of creative art.

ART 136   **Figure Drawing I**  
Drawing from live models in order to develop perceptual skills in relation to the figure. Prerequisite: ART 131.

ART 160   **Topics in Art**  
Special Topics in Art may be taken within a variety of media areas.

ART 223   **Introduction to Photography**  
Introduction to the tools and techniques of traditional black and white photography. Topics covered include camera operation, lighting, film and print development, and professional presentation. 35 mm SLR camera required.
ART 225  Printmaking I  Credit 3 hours
Introduction to fundamental processes and creative potential of printmaking, including block cut, monotype, collograph, and serigraphy.

ART 226a  Metal Manufacturing Processes and Systems: Welding Processes  Credit 2 hours
Fundamentals of metal manufacturing processes, materials and systems. Discussion and application focused on welding and cutting processes and materials. Special emphasis placed on GMAW, SMAW, GTAW, PAC, OAW and FGC.

ART 226b  Metal Manufacturing Processes and Systems: Machining  Credit 1 hour
Fundamentals of metal manufacturing processes, materials and systems. Discussion and application focused on machining processes and materials. Special emphasis on lathe and mill practices as well as newer developments in industry technology.

ART 226c  Metal Manufacturing Processes and Systems: Foundry and Forging  Credit 1 hour
Fundamentals of metal manufacturing processes, materials and systems. Discussion and application focused on forging and foundry processes and materials. Special emphasis on sand and investment casting as well as gas and coal forge work.

ART 227  Sculpture I  Credit 3 hours
Experimentation with various materials in the creation of three-dimensional forms. Various media and processes will be explored.

ART 228  Ceramics I  Credit 3 hours
Basic techniques of pinch, coil, slab and wheel thrown ceramics, including clay mixing, glazing and kiln loading.

ART 229  Introduction to Graphic Design  Credit 3 hours
Introduction to the fundamentals of design, typography, layout, exploration of design history, the profession of graphic design and commercial art.

ART 230  Design Fundamentals II  Credit 2 hours
Fundamentals of three-dimensional design are covered through the elements and principles of form. Prerequisites: ART 131.

ART 232  Painting I  Credit 3 hours
Basic painting techniques emphasizing the use of color, the development of perceptual skills and communication through the language of Art. May require field trips. Prerequisite: Art 131.

ART 239  Elements of Art  Credit 3 hours
Introduction to Art History, artists, techniques, and materials employed in the production of art. Illustrated lectures and demonstrations.

ART 245a  Construction Processes & Systems: Tools and Materials  Credit 1 hour
Fundamentals of construction including wood, metal, and masonry materials. Topics include hand and power tool selection and operation, safety and material usage. Offered concurrently with DTE 235a and TH 245a.

ART 245b  Construction Processes & Systems: Techniques and Organizational Materials  Credit 1 hour
Fundamentals of construction including wood, metal, and masonry materials. Topics include the application of safe and appropriate building and construction techniques and the organization and scheduling of projects. Special emphasis on alternative and sustainable practices. Offered concurrently with DTE 235b & TH 245b.

</table>
ART 337  Sculpture II  Credit 3 hours
Advanced construction of three-dimensional forms through fabrication, mold construction, metal casting, and finishing processes. Prerequisite: ART 227.

ART 338  Art History Survey I  Credit 3 hours
Historical survey of Western Art from Prehistory through Gothic with emphasis on the social and political influences of the visual arts. Field trips may be required.

ART 339  Art History Survey II  Credit 3 hours
Historical survey of Western Art from the Renaissance through Impressionism with emphasis on the social and political influences of the visual arts. Field trips may be required.

ART 340  Twentieth Century Art Survey  Credit 3 hours
Survey of important movements and individual artists that have shaped Art History from Impressionism through the Postmodern 90s. Field trips may be required.

ART 343  Digital Photography  Credit 3 hours
Course is designed to explore digital photography and its ability to electronically create images using Apple and Adobe photo systems. Students will work with computers, scanners and image editing programs.

ART 390  Internship in Art  Credit 1-12 hours
Provides practical experience in art. Interested students should contact the Internship and Career Services office to secure application materials. Application should be made prior to the semester the internship will be started. The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant, and the work hours.

ART 400  Independent Study or Research  Credit 3 hours
Study or research in an area of special interest. Students must submit a written proposal for study and be approved by the Art department prior to registration. Prerequisite: permission of Art faculty and Dean.

ART 410  Seminar in Art  Credit 1-3 hours
Designed to meet the special needs of a group of students, analogous to the way in which Independent Study or Research is designed. May be repeated with a different topic. Prerequisite: permission of Art faculty.

ART 411  Graphic Design III  Credit 3 hours
Advanced-level work in graphic design. Exploration of several areas of design including logos, visual identity and branding, posters, editorial design, packaging design, annual reports, advertising, and web design. Further instruction and practice with Adobe Creative Suite design software (In Design, Photoshop, and Illustrator). Prerequisite: ART 322 or permission of instructor.

ART 412  Senior Thesis  Credit 1 hour
Preparation of the student’s senior art exhibit and portfolio is required of all art majors the semester they are scheduled to present their senior exhibit. Students will be evaluated on poster design, publicity, pictorial display, gallery arrangement and creativity, and craftsmanship in a broad range of media.

ART 421  Glass II  Credit 3 hours
(a) Exploration in the use of molten glass as an art medium. Advanced glassblowing techniques, and construction and maintenance of studio equipment. Prerequisite: ART 321A.

(b) Exploration into the advanced construction of strained glass panels. Course will cover both lead and copper foil processes. Lampworking with beads and marbles will be introduced. Prerequisite: ART 321B.

ART 422  Graphic Design Practicum  Credit 3 hours
Advanced level work in graphic design. Emphasis on multi-piece design, concept development, professional presentation and portfolio preparation. Prerequisite: ART 322, 329.
ART 428 Ceramics II  Credit 3 hours
Concentration on the wheel thrown form, both functional and non-functional, with continued research into glaze formulation and firing of kilns. Prerequisite: ART 228.

ART 430 Advanced Art Studio  Credit 3 hours
Open to advanced art students who have completed required courses and seek additional experience in a particular area or medium. Students must take the initiative of selecting an area, outlining a detailed plan of work and study, and submitting it in writing to the art department. Departmental approval must be received before registering. May be repeated with a different area/medium up to 3 times. Prerequisite: permission of Art faculty.

BIOLOGY

BIOL 110 Introduction to Laboratory Medicine  Credit 1 hour
Processes and procedures of the clinical laboratory including a historical perspective, hospital/laboratory organization, accrediting agencies, professional organizations, communication, ethics, departments, specialties, and the attributes of effective medical laboratory utilization.

BIOL 121 Human Biology  Credit 2 hours
An introductory study of the structure and function of the human body. Not for Biology or Health Science majors and minors. Must be taken concurrently with BIOL 121L.

BIOL 121L Human Biology Laboratory  Credit 1 hour
Laboratory experience in the structure and function of the human body. Must be taken concurrently with BIOL 121.

BIOL 131 Fundamentals of Cellular Biology  Credit 3 hours
The form, function, and physiology of eukaryotic cells, prokaryotic cells, viruses, and prions. Must be included with BIOL 138/138L and BIOL 139/139L for a complete first year experience in biology.

BIOL 136 Biological Science  Credit 2 hours
A survey of biological knowledge and principles designed to meet the needs of the non-science major. No credit towards biology major or minor. Must be taken concurrently with BIOL 136L.

BIOL 136L Biological Science Laboratory  Credit 1 hour
Laboratory experience in biological study, including using technology to explore and to gather scientific data. Must be taken concurrently with BIOL 136.

BIOL 138 General Botany  Credit 2 hours
The classification, ecology, anatomy, physiology, and phylogenetic relationships of major flowering plant groups. Must be taken concurrently with BIOL 138L.

BIOL 138L General Botany Laboratory  Credit 1 hour
Laboratory experience in flowering plants. Must be taken concurrently with BIOL 138.

BIOL 139 General Zoology  Credit 2 hours
The classification, genetics, ecology, anatomy, physiology, behavior, and phylogenetic relationships of major animal groups. Must be taken concurrently with BIOL 139L.

BIOL 139L General Zoology Laboratory  Credit 1 hour
Laboratory experience in major animal group anatomy and phylogeny. Must be taken concurrently with BIOL 139.
BIOL 221  Bioterminology  Credit 2 hours
The study of prefixes, suffixes, and roots of words used in medical and biological fields, emphasizing their origin in the Greek and Latin languages. Designed for biology majors and pre-professional students in the health care fields. Prerequisite: Nine hours of biology courses excluding BIOL 136/136L.

BIOL 231  Anatomy and Physiology  Credit 3 hours
Physiology as well as the gross, living, and clinical anatomy of each organ system of the body. Donor bodies will be utilized. This course is designed for Biology majors and students entering the health professions. Must be taken concurrently with BIOL 231L. Prerequisite: BIOL 131.

BIOL 231L  Anatomy and Physiology Laboratory  Credit 1 hour
Laboratory experience in human anatomy and physiology, for the biology major. Must be taken concurrently with BIOL 231.

BIOL 235  Introduction to Wildlife Management  Credit 3 hours
Introduction to the basic principles of wildlife biology and the art and science of wildlife management. Emphasis will be placed on terrestrial wildlife. Field trips required. Cross-listed as AGRI 235.

BIOL 238  Botany II  Credit 3 hours
The phylogenetic treatment of the vascular, lower vascular, and nonvascular plants, living and extinct. Must be taken concurrently with BIOL 238L. Prerequisite: BIOL 131 and BIOL 138/138L.

BIOL 238L  Botany II Laboratory  Credit 1 hour
Laboratory experience in the phylogenetic relationships of the plant kingdom. Must be taken concurrently with BIOL 238.

BIOL 239  Zoology II  Credit 3 hours
The phylogenetic treatment of vertebrate and invertebrate animals, living and extinct. Must be taken concurrently with BIOL 239L. Prerequisite: BIOL 131 and BIOL 139/139L.

BIOL 239L  Zoology II Laboratory  Credit 1 hour
Laboratory experience in the phylogenetic relationships of animals. Must be taken concurrently with BIOL 239.

BIOL 270  Topics in Biology  Credit 1-3 hours
Special topics appropriate for lower division credit. May be repeated with different emphases for up to six hours of credit.

BIOL 311  Biology Seminar I  Credit 1 hour
Selection of topics suitable for library research, conducting of literature searches, critical analysis of sources, and presentation of integrated thesis in a poster format. Resume development will be discussed. For second semester sophomores or juniors in Biology or Health Sciences majors.

BIOL 320  Supervised Study in Laboratory and Methods  Credit 1 hour
Students will prepare, supervise, and evaluate laboratory exercises under the direction of faculty members. Designed to give students practical experience teaching in the laboratory setting.

BIOL 323  Basic Hematology  Credit 1 hour
Basic hematology and urinalysis including microscope usage and care; blood cell formation, function and destruction; abnormal blood cells; blood clotting; coagulation disorders; and the chemical and physical examination of urine. Must be taken concurrently with BIOL 323L. Prerequisites: BIOL 131, BIOL 231/231L, and CHEM 231/231L.

BIOL 323L  Basic Hematology Laboratory  Credit 1 hour
Laboratory experience in basic hematology and urinalysis. All students must have received two of the three hepatitis B vaccinations prior to beginning this course. Must be taken concurrently with BIOL 323.
CHADRON STATE COLLEGE

BIOL 325  Rangeland Wildlife Management  Credit 3 hours
Issues and management of wildlife and their habitats on rangelands. Emphasis will be on wildlife habitat management and manipulation and the issues of co-habitation of wildlife and domestic livestock. Field trips may be required. Cross-listed as AGRI 325. Prerequisite: Sophomore status or permission of Instructor and Dean.

BIOL 331  Human Sexuality  Credit 3 hours
Designed to present the different dimensions of human sexuality and to provide information that can contribute to the student’s knowledge, comfort, and choices regarding personal and interpersonal aspects of sexuality.

BIOL 332  Genetics  Credit 3 hours
Transmission of traits from generation to generation, including Mendelian, molecular, and population genetics. Prerequisites: BIOL 131, CHEM 231/231L or 233/233L, and MATH 232, or permission of instructor.

BIOL 336  General Ecology  Credit 2 hours
Factors that influence the distribution and abundance of organismal populations. Must be taken concurrently with BIOL 336L. Field trips required. Prerequisite: 12 hours of Biology excluding BIOL 136/136L.

BIOL 336L  General Ecology Laboratory  Credit 1 hour
Laboratory experience in describing and quantifying organismal populations. Must be taken concurrently with BIOL 336.

BIOL 337  Environmental Management  Credit 3 hours
Global ecosystem and humans’ impact on it, including biology in human affairs, air and water pollution, and population growth. Special projects are required. Field trips required.

BIOL 340  Human Anatomy  Credit 3 hours
An advanced study of the microscopic and gross structure of the human body. This course will prepare the study for entry into BIOL 342. Donor bodies are used. Must be taken concurrently with BIOL 340L. Prerequisite: BIOL 131.

BIOL 340L  Human Anatomy Laboratory  Credit 1 hour
Laboratory experience in human anatomy, using donor bodies. Must be taken concurrently with BIOL 340.

BIOL 341  Microbiology  Credit 2 hours
Study of bacteria, molds, yeasts, algae, protozoa, viruses, and rickettsias. Must be taken concurrently with BIOL 341L. Prerequisite: BIOL 131.

BIOL 341L  Microbiology Laboratory  Credit 2 hours
Laboratory experience in techniques for microbe identification. Must be taken concurrently with BIOL 341.

BIOL 342  Human Physiology  Credit 3 hours
The detailed human physiology of each organ system of the body is discussed at an advanced level. BioPac computer laboratory equipment and donor bodies are used. Must be taken concurrently with BIOL 342L. Prerequisites: BIOL 340/340L or consent of the instructor.

BIOL 342L  Human Physiology Laboratory  Credit 1 hour
Laboratory experience in physiology of human systems, using technology and donor bodies. Must be taken concurrently with BIOL 342.

BIOL 343  Parasitology  Credit 2 hours
Taxonomy, morphology, physiology, life history, and control of the parasitic protozoans, helminthes, and arthropods. Must be taken concurrently with BIOL 343L. Prerequisites: BIOL 131 and 139/139L.
BIOL 343L Parasitology Laboratory Credit 1 hour
Laboratory experience in identifying and understanding parasites of living systems. Must be taken concurrently with BIOL 343.

BIOL 350 Field Biology Credit 1-6 hours
Two to five week field course offered between semesters, spring break, or during the summer. One hour of credit may be earned for each week of full time participation. Itinerary for each class will be announced several weeks prior to registration. Fees in addition to tuition will be charged. Early registration required.

BIOL 390 Internship in Biology Credit 1-12 hours
Practical experience as a biologist in government, business, or industry. Open to upper division students majoring in the area of biology. Interested students should contact the Internship and Career Services office to secure application materials. Application should be made prior to the semester the internship will be started. The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant, and the work hours.

BIOL 400 Independent Study or Research Credit 1-3 hours
Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Permission of instructor and School Dean is required.

BIOL 401 Ornithology Credit 2 hours
Biology of birds, including their classification, anatomy, physiology, life history, behavior, ecology, and identification with emphasis on local species. Must be taken concurrently with BIOL 401L.

BIOL 401L Ornithology Laboratory Credit 1 hour
Laboratory and field experience in anatomy, behavior, and identification of birds. Must be taken concurrently with BIOL 401.

BIOL 404 Anatomy and Physiology Mentor Credit 2 hours
Students will assist BIOL 231L, Anatomy and Physiology Lab instructor in the preparation and delivery of laboratory instruction using anatomical specimens and physiological simulations and conduct additional optional “open-lab” study sessions. Concurrent enrollment in BIOL 422 required. Written permission of instructor is required.

BIOL 405 Human Anatomy Mentor Credit 2 hours
Students will assist BIOL 340L, Human Anatomy Lab instructor in the preparation and delivery of laboratory instruction using anatomical specimens and conduct additional optional “open-lab” study sessions. Concurrent enrollment in BIOL 422 required. Written permission of instructor is required.

BIOL 406 Human Physiology Mentor Credit 2 hours
Students will assist BIOL 342L, Human Physiology Lab instructor in the preparation and delivery of laboratory instruction using live physiologic experimentation and computer simulations and conduct additional occasional “open-lab” study sessions. Prerequisite: BIOL 422. Written permission of instructor is required.

BIOL 409 Senior Biology Research Credit 1-2 hours
Original investigation in biology under a faculty member’s supervision and guidance. A public presentation of results will occur. May be repeated up to four times, for no more than 6 credits total. Written permission of instructor is required.

BIOL 410 Biology Seminar II Credit 1 hour
Each student will select a topic with approval by the biology faculty. The student will complete original research or literature review on the topic and report by a written research report, and a verbal presentation with audiovisuals. May be repeated but only one hour applies to major. Requirements: Senior Status, Biology Major or Junior status, Health Sciences Major. Prerequisite: BIOL 311.
BIOL 412  Biotechnology  Credit 3 hours
Hands-on procedures with lectures and readings to provide theoretical understanding and historical background of biotechnology work. Prerequisite or co-requisite: BIOL 332.

BIOL 422  Advanced Human Anatomy  Credit 2 hours
The advanced study of human anatomy through human gross dissection, histological analysis and clinical anatomy of each system of the body. Prerequisites: BIOL 340/340L and BIOL 342/342L and written permission by the course instructor.

BIOL 426  Wildlife Research and Management Techniques  Credit 3 hours
Field and laboratory techniques for studying, evaluating, and managing wildlife and their habitats are described and demonstrated. Field trips required. Cross listed as AGRI 426. Prerequisite: BIOL/AGRI 235 required; BIOL/AGRI 325 recommended.

BIOL 427  Biology of Populations  Credit 3 hours
Population ecology and the genetic processes of adaptation and evolution. Lectures and class discussion of current literature, plus application of concepts in a literature review paper is required. Prerequisites: BIOL 332 and BIOL 336/336L or equivalent.

BIOL 429  Aquatic Microbiology  Credit 3 hours
The detection and study of bacteria in streams, lakes, wells, etc. and a basic review of water-borne viruses that are of public health significance. Oral and written presentations, laboratory and field trips required. BIOL 341 highly recommended.

BIOL 430  Immunology  Credit 3 hours
Function of the human immune system including the structure and function of bone marrow, blood cells, and lymphatic tissue. Prerequisites: BIOL 342/342L.

BIOL 431  Entomology  Credit 2 hours
Taxonomy, morphology, physiology, life history, behavior, ecology, and economic importance of insects. Lecture, laboratory and field trips. Must be taken concurrently with BIOL 431L. Prerequisites: BIOL 139/139L and BIOL 328/328L.

BIOL 431L  Entomology Laboratory  Credit 1 hour
Laboratory and field experience in insect morphology and taxonomy. Must be taken concurrently with BIOL 431.

BIOL 432  Developmental Biology  Credit 2 hours
Molecular and cellular aspects of development, including the regulation and expression of the genome during development, fertilization, cleavage, gastrulation, morphogenesis, and organogenesis. Must be taken concurrently with BIOL 432L. Prerequisites: BIOL 332.

BIOL 432L  Developmental Biology Laboratory  Credit 1 hour
Laboratory experience in vertebrate embryology and morphological development. Must be taken concurrently with BIOL 432.

BIOL 433  Analysis of Human Movement  Credit 2 hours
Utilization of anatomy, physiology, biochemistry, and physics in the study of human movement, with emphasis on biomechanics, control and integration of muscle groups in maintaining posture and producing complicated movements, bioenergetics, adaptation of the body to stress and exercise, and training regimens. Must be taken concurrently with BIOL 433L. Prerequisites: BIOL 342/342L and PHYS 241/241L.

BIOL 433L  Analysis of Human Movement Laboratory  Credit 1 hour
Laboratory experience in human movement. Technology and donor bodies will be used. Must be taken concurrently with BIOL 433.

</tr>
<tr>
<td>BIOL 448L</td>
<td>Ethnobotany of the Northern Great Plains Laboratory</td>
<td>1</td>
<td>Laboratory experience in plant-human interactions. Must be taken concurrently with BIOL 448.</td>
</tr>
</tbody>
</table>
BIOL 449  Molecular Biology of the Cell  Credit 3 hours
In-depth analysis of eukaryotic cellular biology, including cell-cell communication, signal transduction, apoptosis, control of cell cycle, and other advanced topics (cancer, gene therapy, prokaryotic cells, viruses). Prerequisites: BIOL 332, 341/341L, and either CHEM 231/231L or CHEM 233/233L.

BIOL 450  Field Limnology  Credit 3 hours
Lecture and field methods for studying the biological, chemical, and physical processes in lakes and streams. Includes an extended field trip to Yellowstone National Park or other areas. Fees in addition to tuition will be charged. Early registration required. Prerequisite: one year of college-level science.

BIOL 456  Pathogenic Microbiology  Credit 2 hours
Major communicable diseases of humans caused by bacteria, fungi, and viruses. Global and regional impact, host-parasite relationships, morphology and physiology, diagnostic techniques used in isolation and identification, treatment, prevention, and modes of transmission are discussed. Field trips required. Must be taken concurrently with BIOL 456L. Prerequisites: BIOL 341/341L or equivalent.

BIOL 456L  Pathogenic Microbiology Laboratory  Credit 1 hour
Laboratory experience in isolation and clinical identification of pathogenic microbes. Must be taken concurrently with BIOL 456.

BIOL 458  Evolution  Credit 3 hours
Study of the fundamental theory of evolution, including phylogeny and earth history, macroevolutionary patterns, microevolutionary processes, and synthesis. Prerequisites: BIOL 332.

BUSINESS ADMINISTRATION

BA 160  Topics in Business  Credit 1-3 hours
Topics or seminars will be selected as needed to keep students abreast of contemporary issues in business.

BA 241  Quantitative Methods  Credit 3 hours
Business and economic concepts, techniques, models, analysis, and applications with emphasis on quantitative measurements for resource utilization, production, processing, marketing, and management. Prerequisite: Department’s Mathematics Requirement or equivalent.

BA 331  Business Communications  Credit 3 hours
Designed to assist students in acquiring the knowledge and skill necessary for effective communication through both the spoken and written word. Grammar, letter writing, formal and informal report writing, and the job application process.

BA 336  Business and Economic Statistics  Credit 3 hours
Statistical analysis of business and economic data used in business and how this analysis aids in making sound business decisions.

BA 337  Business Law  Credit 3 hours
Introductory business law including the legal and social environment of business, consumer protection, contracts, personal property and bailments, and sales and leases of personal property.

BA 390  Internship in Business  Credit 1-12 hours
Provides practical work experience in business. Interested students should contact the Internship & Career Services office to secure application materials. Application should be made prior to the semester the internship will be started. The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant, and the work hours.
B A 400 Independent Study or Research  Credit 1-3 hours  
Research in an area of special interest or need. The topic and the amount of work required are determined by the number of credit hours. Permission of Instructor, Department Chair, and Dean are required prior to registration.

B A 431 Professional Ethics  Credit 3 hours  
Philosophical moral theories and rules or standards governing the conduct of the members of a profession. Comprises principles, standards, and social, economic, legal, political, ethical, and philanthropic responsibilities that guide behavior in society. An application of ethical theories in solving professional ethics issues.

B A 432 Legal Aspects of Business Ownership  Credit 3 hours  
Business law covering negotiable commercial paper, debtor-creditor relations and risk management, agency and employment, business organizations and real property and estates.

B A 460 Topics in Business  Credit 1-3 hours  
Topics or seminars will be selected as needed to keep students abreast of contemporary issues in business.

CAREER AND TECHNICAL EDUCATION

CTE 390 Internship in Career and Technical Education  Credit 1-12 hours  
Provides practical work experience in an agency related to career and technical education. Interested students should contact the Internship and Career Services office to secure application materials. Application should be made prior to the semester the internship will be started. The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant, and the work hours.

CTE 400 Independent Study or Research  Credit 1-3 hours  
The problem selected and the amount of work in its solution determine the number of hours credit. May be repeated for up to six hours credit. Prerequisite: Consent of advisor.

CTE 431 Introduction to Special Needs Programs in Career and Technical Education  Credit 3 hours  
Designed to help high school career and technical education teachers and special education teachers determine the work based and school based needs of learners identified as special populations. The course includes transition to work curriculum and program plans.

CTE 434 Principles & Philosophy of Career and Technical Education  Credit 3 hours  
The principles, philosophy, and history of career and technical education are presented in this course.

CTE 435 Adult Education  Credit 3 hours  
Study of the adult learner, adult learning theory, and the adult programming.

CTE 437 Occupational Analysis  Credit 3 hours  
Study of the standard occupational analysis systems and practice in applying these systems to occupations and activities for determining content in curriculum development.

CTE 438 Coordination in Occupational Training Program  Credit 3 hours  
Foundation and scope of current and projected career and technical cooperative education programs and general studies work experience. Emphasis on coordination techniques, selection and placement, instructional procedures, youth leadership activities, organization and administration, and evaluation of cooperative occupational education.

CTE 440 Topics in Career and Technical Education  Credit 1-6 hours  
Contemporary topics within career and technical education.

CTE 441 Improvement of Instruction  Credit 3 hours  
Study of curriculum development, instructional models, integration of academic and occupational programs, and utilization of technologies in instruction.
CHEMISTRY

CHEM 110 Careers in Science
Introduction for Physical Sciences majors to career options. Students will conduct independent research of selected firms or agencies. A required field trip to a major metropolitan area will provide knowledge of opportunities and challenges of the technical job market.

CHEM 121 Fundamental Chemistry
Fundamental principles of chemistry and the application of chemical principles to health, environment, and society. Required of students who have not taken high school chemistry who plan to enroll in CHEM 131 or CHEM 140. Appropriate for General Studies Physical Science elective.

CHEM 131 College Chemistry I
Principles and applications of general college chemistry. Concurrent enrollment in CHEM 131L is required. Prerequisite: High school algebra or Math 142, and high school chemistry or CHEM 121.

CHEM 131L College Chemistry I Laboratory
Laboratory experience in basic chemical concepts, including concentrations, reaction mechanisms, molecular structure and spectroscopy. Concurrent enrollment in CHEM 131 required.

CHEM 132 College Chemistry II
Continuation of College Chemistry I with qualitative analysis. Concurrent enrollment in CHEM 132L required. Prerequisite: CHEM 131/131L.

CHEM 132L College Chemistry II Laboratory
Laboratory experience in qualitative chemical analysis. Concurrent enrollment in CHEM 132 required.

CHEM 140 General Chemistry
Survey of chemistry principles and applications for students requiring a one semester freshman chemistry course. Does not duplicate CHEM 131 and is not a prerequisite for CHEM 132. Concurrent enrollment in CHEM 140L required. Prerequisite: High school algebra or Math 142, and high school chemistry or CHEM 121.

CHEM 140L General Chemistry Laboratory
Laboratory experiences in basic chemical processes and mechanisms. Accompanies CHEM 140. Basic chemistry laboratory operations. Concurrent enrollment in CHEM 140 required.

CHEM 231 Introduction to Organic Chemistry
Survey of organic chemistry principles and applications for students requiring one semester of Organic Chemistry. The nomenclature, structure, physical and chemical properties and reactions of the principle families of organic compounds is covered. Carbohydrates, lipids, enzymes, amino acids and protein synthesis is also covered at an introductory level. Prerequisite: CHEM 132/132L or CHEM 140/140L. Concurrent enrollment in CHEM 231L required.

CHEM 231L Introduction to Organic Chemistry Laboratory
Principle laboratory operations of organic chemistry, organic synthesis, and spectroscopy. Concurrent enrollment in CHEM 231 required.

CHEM 233 Organic Chemistry I
Nomenclature, reactions, multi-step synthesis, stereochemistry, mechanisms, and spectroscopy of organic compounds. Prerequisite: CHEM 132/132L or CHEM 140/140L. Concurrent enrollment in CHEM 233L required.
CHEM 233L  Organic Chemistry I Laboratory  
Principle laboratory operations of organic chemistry, organic synthesis, and spectroscopy. Concurrent enrollment in CHEM 233 required.

CHEM 234  Organic Chemistry II  
A continuation of Organic Chemistry I. Concurrent enrollment in CHEM 234L required. Prerequisite: CHEM 233/233L.

CHEM 234L  Organic Chemistry II Laboratory  

CHEM 270  Topics in Chemistry  
Special topics in chemistry appropriate for lower division credit. May be repeated with different emphases for up to six hours of credit.

CHEM 310  Capstone I: Research Seminar  
The student will choose a topic for research and conduct a literature survey of that topic. Preliminary results and a plan for conducting further independent research on the topic will be presented in oral and written form during the semester. Normally taken during the student’s Junior year.

CHEM 320  Supervised Study in Laboratory and Field Methods  
Students will prepare, supervise, and evaluate laboratory exercises under the direction of faculty members. Designed to give students practical experience teaching in the laboratory setting. Sophomore or higher status required.

CHEM 332  Analytical Instrumentation  
A one-semester course in basic instrumentation with emphasis on the clinical and commercial setting. Prerequisites: CHEM 231/231L or 233/233L. Concurrent enrollment in CHEM 332L required.

CHEM 332L  Analytical Instrumentation Lab  
Laboratory experience in use and maintenance of scientific equipment. Concurrent enrollment in CHEM 332 required.

CHEM 341  Analytical Chemistry I  
Principles of modern analytical chemistry. Must be taken concurrently with CHEM 341L. Prerequisite: CHEM 132/132L.

CHEM 341L  Analytical Chemistry I Laboratory  
Laboratory experience in quantitative analysis. Must be taken concurrently with CHEM 341.

CHEM 342  Analytical Chemistry II  
Emphasis on instrumental and radioisotopic analysis. Must be taken concurrently with CHEM 342L. Prerequisite: CHEM 341/341L.

CHEM 342L  Analytical Chemistry II Laboratory  
Laboratory experience involving the use of quantitative instrumentation. Must be taken concurrently with CHEM 342.

CHEM 390  Internship in Chemistry  
Provides practical experience as a chemist in government, business, or industry. Open to upper division students majoring in the area of chemistry. Interested students should contact the Internship and Career Services office to secure application materials. Application should be made prior to the semester the internship will be started. The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant, and the work hours.

</table>
CHEM 464 Physical Chemistry II Credit 3 hours
Fundamental principles of kinetics, and quantum mechanics as related to chemical concepts. Prerequisites: CHEM 444/444L and MATH 151 or instructor approval.

COLLEGE

COLG 100 Adult Community Recreation Credit 1 hour
Basic recreational activity designed for the adult learner. Emphasis will be placed on flexibility, strength, and cardiovascular maintenance.

COLG 121 First Year Seminar Credit 3 hours
Assists the student in obtaining academic skills and knowledge necessary to reach his/her educational objective, including memory development, time management, test-taking, communication skills, career planning, study skills and techniques, questioning skills, understanding diversity, and career issues.

COLG 131 Portfolio Development Credit 1 hour
Designed by the Alternate Learning Program to provide opportunities for granting credit for college-level learning acquired outside the traditional college classroom. Course content includes the development of an experiential learning portfolio, preparation of a degree plan, traditional and nontraditional avenues for earning college credit, and a basic college orientation to facilities, resources, services, policies, and personnel.

COLG 191 Information Literacy Credit 1 hour
Students will be able to recognize an information need, access that information in multiple formats, evaluate/authenticate the information, discern the ethical implications of knowledge construction, and organize the information in a compelling and bibliographic manner.

COMMUNICATION ARTS

CA 125 Fundamentals of Oral Communication Credit 3 hours
Develops understanding and skills necessary for effective oral communication. Activities will include public speaking, group discussion, interviewing, and interpersonal communication.

CA 130 Interpersonal Communication Credit 3 hours
Study of the dynamics of interpersonal communication in one-to-one relationships through experiential exercises and selected readings. Designed to improve students’ interpersonal communication skills and enhance knowledge about the importance of communication in interpersonal settings.

CA 133 Media Writing Credit 3 hours
A study of various techniques of media writings intended to familiarize students on why and how media utilize those techniques. Writing techniques for Journalism, radio, television, and online, will be addressed.

CA 144 Oral Interpretation and Performance Studies Credit 3 hours
Introduction to the performance of literature and personal narratives. Theory and application in literary analysis, presentation modern, and criticism. Study of how performance is used as an aspect of and research tool for the study of every-day communication.

CA 160 Topics in Communications Credit 1-3 hours
Special Topics in Communications. May be repeated with a change in emphasis.

CA 225 Communicating in Groups and Teams Credit 3 hours
Theory and practice of group and teamwork which occur in a variety of settings.

<td>CA 350</td>
<td>Public Relations Multimedia</td>
<td>3 hours</td>
</tr>
<tr>
<td></td>
<td>A study of creative and effective writing practices across media currently used in the public relations field.</td>
<td></td>
</tr>
</tbody>
</table>
C A 351   **Organizational Communication**  Credit 3 hours  
The nature and flow of communication in modern organizations (such as businesses, political structures, hospitals, etc.) through applied theory, diagnosis, and problem solving skills. Examination of communication between management, employees, and the community. Students will be expected to analyze communication environments and present communication findings to the class.

C A 353   **Health Communication**  Credit 3 hours  
Communication theory, research, and applications in health care, health promotion, and wellness industries. Variables influencing communication between and within health care providers and consumers are examined.

C A 390   **Internship in Communication**  Credit 1 - 12 hours  
Provides practical experience in a field related to Communication Arts. Interested students should contact the Internship and Career Services office to secure application materials. Dean of the School of Arts and Sciences, Department Chairperson, and the student’s major advisor must approve program prior to semester of internship. Application should be made prior to the semester the internship will be started. The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant, and the work hours.

C A 391   **Internship in Journalism**  Credit 1-12 hours  
Provides practical work experience program on the staff of a mass media outlet. Dean of the School of Arts and Sciences, Department Chairperson, and student’s major advisor must approve program prior to semester of internship. Application must be submitted to the Director of Internships at least 30 days prior to semester of internship. Open to upper division students with previous course credit in journalism. Selection of interns based upon availability of work positions and the qualifications of the applicants.

C A 400   **Independent Study/Research**  Credit 1 - 3 hours  
Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Permission of Instructor and Dean is required.

C A 420   **Relational and Family Communication**  Credit 3 hours  
Advanced interpersonal course to explore current interpersonal research in modern family relationship situations. In-depth exploration of intimate communication, parent-child communication, child-child communication, and extended family communication in the western tradition and interculturally.

C A 430   **Research Methods**  Credit 3 hours  
A review of research methods used in the discipline of Communication wherein students can gain an understanding of and practice in research design. Students will be exposed to both quantitative and qualitative methodologies.

C A 431   **Publication Projects**  Credit 1-3 hours  
Production work on the student newspaper, THE EAGLE. The student arranges for weekly lab work. May be repeated with a change of emphasis up to a maximum of nine (9) credit hours. Prerequisite: CA 333 or permission of Instructor.

C A 434   **Editing and Design**  Credit 3 hours  
Principles of editing and designing publication with emphasis on newspapers, especially THE EAGLE. May be repeated with a change of emphasis up to a maximum of 9 credit hours. Prerequisite: CA 333 or permission of Instructor.

C A 435   **Advanced Topics in Communications**  Credit 1 - 3 hours  
Special topics in communications. May be repeated with change of emphasis.

C A 436   **Seminar in Communication**  Credit 3 hours  
Designed to meet the specific needs of a group of students. May be repeated with a different topic. Admission by permission of Communication Arts faculty.
C A 440  Gendered Communication  Credit 3 hours
Explores gender as a communication variable in settings ranging from interpersonal relationships, organizational settings, to public or mass communication.

C A 442  Globalization, Culture and Media  Credit 3 hours
Explores how globalization of culture and communication was shaped and reshaped as results of economic, technological, political and cultural concerns of various global players. Although all the major theoretical approaches of globalization of communication will be explored, focus on global communication as an emerging, hybrid and contested global field and global media will be emphasized.

C A 443  Media Law  Credit 3 hours
An overview of legal issues related to Journalism and other media outlets. Special emphasis on broadcast and print media, current interpretations of law, copyright and first amendment issues.

C A 450  Case Studies in Public Relations  Credit 3 hours
This course builds on the material presented in the previous public relations classes to acquaint students with the latest techniques in public relations management. Case studies will be used to examine issues of research, planning, budgeting, and timelines within the context of practice areas including employee relations, community relations, media relations, and public issues.

CRIMINAL JUSTICE

CJ 231  Introduction to Criminal Justice  Credit 3 hours
Overview of the process of American criminal justice and the agencies that contribute to it, focusing on the structure, function, and decision-making processes of agencies that deal with the management and control of crime and criminal offenders-police, courts, and correctional systems.

CJ 232  Police in America  Credit 3 hours
Roles of the police in American society, including nature of police organizations and police work and seeks to place these issues in a broader social, political, and legal framework. Focuses on the origin of policing, the nature of police organizations and police work, and patterns of relations between the police and the public. Prerequisite: CJ 231.

CJ 233  Law Enforcement Organization and Administration  Credit 3 hours
Structure and function of a variety of law enforcement organizations including city, county, state, and federal jurisdictions. Theories of both leadership and organizational structure and the complex relationship between leadership and organizational goals, efficiency, expectations, and employer/employee relations will be explored. Prerequisite: CJ 231.

CJ 234  Correctional Casework and Practice  Credit 3 hours
Overview of correctional theory, assessment, and practice. Special emphasis on strategies for classifying criminal offenders with respect to risks and needs and treatment methods currently used with offenders.

CJ 235  Fundamentals of Criminal Investigation  Credit 3 hours
Basic theoretical and philosophical underpinnings necessary to understand the investigatory process. Overview of the application of the scientific method to documentation and management of the crime scene. Particular emphasis is placed on the role of first responders to a crime scene, chain of custody for crime scene evidence, and interaction with victims, witnesses, and potential perpetrators. Prerequisite: CJ 231.

CJ 236  Introduction to Corrections  Credit 3 hours
Examines the historical context, philosophical concepts and major developments which have shaped corrections. Sentencing options, community and institutional correctional approaches and programs, the role of corrections in the larger criminal justice system and contemporary correctional issues will be examined. Prerequisite: CJ 231.
CJ 238    **Survey of Private Security**  Credit 3 hours
Focuses on the increasing role private security plays in the field of crime prevention, detection, and investigation. Forms of private security including armed protective services, retail loss prevention, and security surveys, issues related to the manufacture, sale, installation, and effectiveness of a variety of security system application, including fire prevention, protection of trade secrets, perimeter security, and workplace safety will be explored.

CJ 321    **Police and Community Relations**  Credit 3 hours
History and current issues of the relationship between police and their diverse communities, cross-cultural issues, interpersonal skills, changing demographics, political issues, and an appreciation of the difficult balance between policing and serving a community. Approaches to improving police and community relations will be explored. Prerequisite: CJ 231 and 232.

CJ 322    **Juvenile Crime and Gangs**  Credit 3 hours
An examination of juvenile delinquency in the context of subcultures. Explores gang history and variations of gang practices by race, class and gender. Examines crime trends, patterns of delinquent behavior, and factors of causation of delinquent behavior as related to subcultures. Policies and intervention strategies relevant to this type of crime are considered.

CJ 323    **Forensic Studies I**  Credit 3 hours
An overview of scientific crime detection and the major forensic disciplines. Students are introduced to theories and applications related to the collection, analysis, and interpretation, fingerprint evidence, questioned documents, soil, fibers, firearm, wound, and impression evidence. Emerging technologies that aid in the interpretation of crime scene evidence. Prerequisite: CJ 231.

CJ 331    **Criminal Law**  Credit 3 hours
Elements and proof of crimes which are of frequent concern in law enforcement with reference to principle rules of criminal liability. Importance of criminal law at the enforcement level is considered from crime prevention to courtroom appearance. Prerequisite: CJ 231 or LS 231. Cross-listed as LS 331.

CJ 332    **Juvenile Delinquency**  Credit 3 hours
History and concept of delinquency, nature and extent of delinquency, theories of delinquency, and environmental influences of delinquency, including child abuse and neglect, school-based crime, gang control efforts, and the relationship between delinquency and drug abuse. Prerequisite: CJ 231. Cross-listed as SOC 332.

CJ 333    **Judiciary and Constitutional Law**  Credit 3 hours
American law in action, the development of modern jurisprudence, structure and function of federal and state judicial systems, and the role of the legislature in the legal process. Development of the American governmental system through judicial interpretation of the Constitution. Cross-listed as LS 333 and PS 333.

CJ 334    **Criminal Procedures**  Credit 3 hours
Procedural problems that occur in processing an individual through the criminal justice system with special emphasis on search and seizure. Cross-listed as LS 334.

CJ 336    **Multicultural Issues in CJ**  Credit 3 hours
A broad overview of the current research that explores the impact of race, ethnicity, socioeconomic status, gender, geography and age as they relate to patterns of criminal behavior and victimization, police practices, court processing and sentencing. Prerequisite: CJ 231.

CJ 337    **Introduction to Law**  Credit 3 hours
Examines structures of our legal system, and considers the economic, social, and political implications as they influence the development of a rule of law. Historical and contemporary legal controversies will be examined. Cross-listed as LS 337 and PS 337.
CJ 338    Community Based Corrections    Credit 3 hours
Philosophical foundations of community-based corrections, including social and political forces which shape this philosophy, as well as the workings of present day practices and the ramifications of community-based corrections. Focuses on probation, parole, and other current community based strategies for dealing with the offender. Prerequisites: CJ 231 and CJ 236.

CJ 339    Criminology    Credit 3 hours
Introduction to the study of the nature and causes of criminal behavior. Theories of crime causation ranging through biological, psychological, sociological, and cultural theories are discussed in addition to the historical influences and thought which have led to criminology’s development as a contemporary science. Cross-listed as SOC 339.

CJ 390    Internship in Criminal Justice    Credit 1-12 hours
Practical experience in a criminal justice agency such as law enforcement courts or corrections. Open to upper division students majoring in the area of criminal justice. Interested students should contact the Internship and Career Services office to secure application materials. Application should be made prior to the semester the internship will be started. The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant, and the work hours.

CJ 400    Independent Study or Research    Credit 1-3 hours
Faculty-guided research in an area of mutual interest to the student and instructor. Students are responsible for selecting the area of inquiry prior to contacting the instructor. Prerequisite: 15 hours of Criminal Justice and permission of Instructor and Dean.

CJ 430    Topics in Corrections    Credit 1-3 hours
Topics selected to meet the needs of students in a special area of interest in corrections. Prerequisite: CJ 236 or permission of Instructor.

CJ 431    Institutional Corrections    Credit 3 hours
History and current status of jails and prisons, punishment rationales, institutional programs and procedures, inmates, social structures, the role of correctional officers and contemporary issues. Prerequisites: CJ 231 and CJ 236.

CJ 432    Juvenile Law    Credit 3 hours
A course focusing on the legal status of children. Studies the development of statutory law and constitutional rights for juvenile offenders and the impact of these laws on the juvenile and the juvenile process in the United States. Cross-listed as LS 432.

CJ 433    Rules of Evidence    Credit 3 hours
Evidence and rules governing the admissibility of evidence in court, and the effect of court decisions on acquisition and admissibility of evidence. Prerequisite: CJ 231 or LS 231. Cross-listed as LS 433.

CJ 434    Senior Seminar in CJ    Credit 3 hours
This capstone criminal justice course provides students with the opportunity to integrate and synthesize previous coursework in criminal justice. Drawing on the foundational and core courses, students will apply theory and knowledge to current problems in the justice system. Prerequisite: Criminal Justice senior or permission of instructor.

CJ 435    Drugs, Alcohol and Crime    Credit 3 hours
Investigation of the relationship of drugs and alcohol on the nature and incidence of crime with focus on issues for police, courts and corrections.

CJ 436    Seminar: Comparative CJ    Credit 3-6 hours
Focuses on the major criminal justice systems of the world, with special emphasis on Western Europe, the international Criminal Justice system, and terrorism. A field trip may be required.
CJ 437    Topics in Law Enforcement  Credit 1-3 hours
Topics selected to meet the needs of students in a special area of interest in law enforcement.  Prerequisite: CJ 232 or permission of Instructor.

CJ 438    Topics in Law  Credit 1-3 hours
Topics selected to meet the needs of students in a special area of interest in law. Prerequisite: CJ 337 or LS 337, or permission of Instructor. Cross-listed as LS 438.

CJ 439    Juvenile Corrections  Credit 3 hours
Identifies and explores the components of the juvenile correctional system and their philosophy, functions, and goals. The history and development of methods for responding to juvenile offenders will be covered, including intervention and treatment methods as well as correctional programs and facilities.

CJ 440    Topics in Juvenile Justice  Credit 1-3 hours
Topics selected to meet the needs of students in a special area of interest in juvenile justice.

CJ 441    Ethical Issues in Criminal Justice  Credit 3 hours
Examines ethical issues in the Criminal Justice system. Aids students in the comprehension of diverse ethical issues in both the social practice of criminal justice and the concerns faced by its professional practitioners.

CJ 442    Honors in Criminal Justice  Credit 1-3 hours
Selected courses and topics designed for upper division students with a grade point average of 3.25 in all course work. May be repeated up to a maximum of twelve (12) semester hours. Prerequisite: Permission of Instructor. Cross-listed as LS 442.

CJ 443    Correctional Law  Credit 3 hours
Examines major legal issues surrounding sentencing, incarceration, probation, parole, pardon, and related topics. Provides a general overview of the law relating to persons in prison, jail or within the corrections system. Also investigates how civil and criminal law affects facilities, community-based corrections, and personnel working in the correctional system.

CJ 444    Forensic Studies II  Credit 3 hours
Theories, techniques, and applications of forensic methodologies to the collection, preservation, and interpretation of crime scene evidence. Included will be an examination of DNA evidence, forensic odontology, forensic entomology, serology, fiber and hair, toxicology, and the technologies utilized in interpreting this data. Prerequisite: CJ 235 or 323.

CJ 445    Forensic Evidence  Credit 3 hours
Comprehensive understanding and analysis of legal, ethical, and practical issues involving forensic evidence in the courtroom with a special emphasis on scientific evidence and its admissibility. Special attention is given to emerging forensic evidence techniques and their use in the justice system specifically in civil and criminal trials.

CJ 450    Topics in Forensic Studies  Credit 1-3 hours
Topics selected to meet the needs of students in a special area of forensic sciences. Prerequisites: CJ 323 or 444, or permission of Instructor.

CJ 447    Applied Issues in Criminal Justice  Credit 1-6 hours
Projects, workshops, field experiences and seminars that focus on a specialized area in Criminal Justice. Permission of instructor is required.

CJ 448    Professional Semester  Credit 1-12 hours
The student will attend a certified law enforcement training academy to obtain certification as a professional law enforcement officer. Admission to the professional semester requires completion of all requirements in the Criminal Justice major. Prerequisites: Permission of Instructor and admission by a law enforcement training center.
DESIGN AND TECHNOLOGY EDUCATION

DTE 160  Special Topics  Credit 1-3 hours
Special topics appropriate for lower division credit. May be repeated with different emphases for up to six hours of credit.

DTE 230  Electrical and Electronic Systems  Credit 3 hours
Introduction to electricity and electronic systems as they relate to industry. Students learn about direct current and alternating current, Ohm's Law and the Power Law, series and parallel circuits, capacitance, inductance and filtering. The course also introduces students to solid-state devices such as diodes and transistors. Students learn by both discussion and experimentation in this course.

DTE 232a  Metal Manufacturing Processes and Systems: Welding Processes  Credit 2 hours
Fundamentals of metal manufacturing processes, materials and systems. Discussion and application focused on welding and cutting processes and materials. Special emphasis placed on GMAW, SMAW, GTAW, PAC, OAW and FGC.

DTE 232b  Metal Manufacturing Processes and Systems: Machining  Credit 1 hour
Fundamentals of metal manufacturing processes, materials and systems. Discussion and application focused on machining processes and materials. Special emphasis on lathe and mill practices as well as newer developments in industry technology.

DTE 232c  Metal Manufacturing Processes and Systems: Foundry and Forging  Credit 1 hour
Fundamentals of metal manufacturing processes, materials and systems. Discussion and application focused on forging and foundry processes and materials. Special emphasis on sand and investment casting as well as gas and coal forge work.

DTE 235a  Construction Processes & Systems: Tools and Materials  Credit 1 hour
Fundamentals of construction including wood, metal, and masonry materials. Topics include hand and power tool selection and operation, safety and material usage. Offered concurrently with DTE 235a and TH 245a.

DTE 235b  Construction Processes & Systems: Techniques and Organizational Materials  Credit 1 hour
Fundamentals of construction including wood, metal, and masonry materials. Topics include the application of safe and appropriate building and construction techniques and the organization and scheduling of projects. Special emphasis on alternative and sustainable practices. Offered concurrently with DTE 235b & TH 245b.

DTE 235c  Construction Processes & Systems: Material Selection and Estimation  Credit 1 hour
Fundamentals of construction including wood, metal, and masonry materials. Topics include the determination of appropriate materials and the development of cost estimates for small to medium size construction projects. Introduction to MS Excel as an estimating program. Special emphasis on alternative and sustainable practices. Offered concurrently with DTE 235c & TH 245c.

DTE 239  Energy, Power and Transportation: Processes and Systems  Credit 3 hours
Energy production, power transformation and transportation systems used in industry. A special emphasis is placed on efficiency and the appropriateness of the technology being used. Alternative forms of energy production, as well as a study of transportation systems, are also part of this course. Students learn by both discussion and experimentation in this course.

DTE 270  Special Topics  Credit 1-3 hours
Special topics appropriate for lower division credit. May be repeated with different emphases for up to six hours of credit.

<tbody>
<tr>
<td>DTE 331</td>
<td>Humankind, Society and Technology</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>This is a discussion course that deals with technology and its influence on the society in which we live. This course focuses on recent events occurring in the world that are related to technology usage and development. The course is structured to address technical issues that affect individual students’ lives and help them to make decisions regarding technology.</td>
<td></td>
</tr>
<tr>
<td>DTE 335</td>
<td>Construction Management</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Advanced study in management of construction projects. Topics include management of personnel and equipment engaged in earth moving and excavation, concrete forming and placement, wood and steel fabrication and finish. Activities include planning, scheduling, safety and quality control, print reading, and contracts. Prerequisite: DTE 235 or permission of instructor.</td>
<td></td>
</tr>
<tr>
<td>DTE 335a/339e/345j/360k</td>
<td>Special Projects</td>
<td>1-3</td>
</tr>
<tr>
<td></td>
<td>Designed for the highly-motivated, advanced student. The student must submit a plan of study to the instructor and have instructor approval the semester prior to enrollment. It is strongly recommended that students interested in construction take DTE 335a, students interested in mechanical systems take DTE 339e, students interested in electronics take DTE 345j and students interested in computer aided drafting take DTE 360k.</td>
<td></td>
</tr>
<tr>
<td>DTE 337</td>
<td>Computer Aided Drafting and Design – (3 Dimensional) – CADD (3-D)</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Advanced study in three-dimension drafting and design. Special emphasis on auxiliary views, revolutions, pictorial drawings, geometric dimensioning and tolerancing, and drawing applications particular to transfer to computer numerical control. Primary vehicle used for course is SolidWorks software.</td>
<td></td>
</tr>
<tr>
<td>DTE 339</td>
<td>Hydraulics and Pneumatics</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>This is an introductory course studying the basic foundations of fluid power. The course discusses both hydraulic and pneumatic systems including the components that make up these systems and devices that control such systems. Prerequisite: DTE 239.</td>
<td></td>
</tr>
<tr>
<td>DTE 341</td>
<td>Plant and Laboratory Design and Management</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Plant and laboratory design including organization of space; equipment selection, maintenance and production scheduling; as well as, purchasing and inventory procedures. Students are engaged in research discussion and project work during this course.</td>
<td></td>
</tr>
<tr>
<td>DTE 345e</td>
<td>Control Electronics</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Application of digital and analog programmable logic controls and smart circuits as they are used in residential and commercial settings. Additional emphasis is also given to sensors and transducers that are used in an industrial and commercial environments. Students learn by both discussion and experimentation in this course.</td>
<td></td>
</tr>
<tr>
<td>DTE 345k</td>
<td>Residential and Commercial Wiring</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Electrical wiring as it applies to residential and commercial structures and equipment. Prerequisite: DTE 230 or permission of instructor.</td>
<td></td>
</tr>
<tr>
<td>DTE 360b</td>
<td>Residential and Commercial Planning</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Advanced study in 2-D and 3-D computer aided drafting emphasizing the development of drawing sets for a residence or commercial construction project. Activities in drawing foundation and floor plans, elevations and perspectives utilizing AutoCad, Architectural Desktop, and SolidWorks software programs. Prerequisite: DTE 337 or permission of instructor.</td>
<td></td>
</tr>
<tr>
<td>DTE 360c</td>
<td>Architectural Design</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Advanced study in 2-D and 3-D computer aided drafting emphasizing the design and engineering of residential and commercial structures. Special emphasis placed on alternative construction designs and sustainability. Activities include individual and/or team development of complete architectural plans including complete drawing sets and model construction. Architectural Desktop and Chief Architect software programs are utilized in this course. Prerequisite: DTE 337 or permission of instructor.</td>
<td></td>
</tr>
</tbody>
</table>
DTE 360h  Civil Drafting  Credit 3 hours
Advanced study of mining, highway, metropolitan, and topographical mapping techniques. Activities include obtaining survey data for the development of maps and tables. Architectural Desktop and Chief Architect software programs are utilized in this course. Prerequisite: DTE 337 or permission of instructor.

DTE 360l  Landscape Design  Credit 3 hours
Site development plans will be drawn which will include plot plans and landscape plans. Landscape drawing may include residential, commercial, and recreation areas. Additional emphasis placed on xeriscapes and sustainability of vegetation. Architectural Desktop and Chief Architect software programs are utilized in this course. Prerequisite: DTE 337 or permission of instruction.

DTE 390  Internship in Design and Technology  Credit 1-12 hours
Provides practical work experience in an agency related to industrial technology. Interested students should contact the Internship and Career Services office to secure application materials. Application should be made prior to the semester in which the internship will be started. The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant, and the work hours.

DTE 400  Independent Study or Research  Credit 1-3 hours
Research in industrial technology. The problem selected and amount of work in its solution determine the number of credit hours. Prerequisite: Design and Technology Major and consent of advisor and dean.

DTE 432  Quality Assurance/Quality Control  Credit 3 hours
Quality Assurance in terms of its relationship to design, testing, construction, and applications. Procedures and methods for quality control systems for construction industries. Prerequisite: DTE 235abc or equivalent.

DTE 433  Occupational Safety  Credit 3 hours

DTE 435  Construction Estimation and Planning  Credit 3 hours
Capstone study in construction management, utilizing Timberline and MS Excel software for planning, estimating, scheduling, and managing a residential or commercial construction project. Activities include development of construction management teams, and application to a construction project. Prerequisites: DTE 235 and DTE 335 or permission of instructor.

DTE 439  Energy Generation and Sustainability  Credit 3 hours
Capstone study in energy generation and sustainability of energy resources. Topics include both traditional and alternative sources of energy. Activities include research, design, and construction of energy generation applications. Prerequisites: DTE 239 and DTE 339, or permission of instructor.

DTE 440  Special Topics in DTE  Credit 1-3 hours
Study of contemporary areas of DTE.

ECON 130  Survey of Economics  Credit 3 hours
Basic microeconomic and macroeconomic theories and concepts. Oriented towards the study of households, firms, and governments within regional, domestic, and global markets for goods and services and resources. Course involves variations (absolute and comparative) among regions, states and nations relative to resource-based economic systems, markets for goods and services, and measures of economics welfare.
ECON 160  Topics in Economics  Credit 1-3 hours
Topics or seminars will be selected as needed to keep students abreast of contemporary issues in economics.

ECON 231  Macroeconomics  Credit 3 hours
Economy in the aggregate including gross domestic product and its components, employment, inflation, business fluctuations, economic growth, global trade, monetary policy, fiscal policy, budget deficit, and public debt with primary application to the United States economy.

ECON 232  Microeconomics  Credit 3 hours
Components with the economy devoted to households, firms, governments, markets for products and services, and markets for resources, in the context of domestic and global consumers, producers and governments. Analysis of supply and demand, pricing functions, and income distribution with application to United States economy.

ECON 332  International Economics and Societies  Credit 3 hours
The development, understanding, and application of basic economic concepts and theories related to international economics, global trade, and variations between and among countries and their cultures. Will deal with different types of economic and political systems, types of markets, exchange rates, trade policies, trade agreements, and the economic and political reasons and impacts of globalization.

ECON 334  Agricultural Economics and Agribusiness  Credit 3 hours
Basic economic principles and theories focusing on product markets, resource markets, production costs, and market structures, conduct and performance of the agricultural sector from retail level, consumers’ demands, and resource sectors, production, domestically and globally within agriculture. Governments’ roles, functions and policies which impact domestic and global markets for agriculture. Prerequisites: Department’s Mathematics Requirement; ECON 232; or consent of the instructor.

ECON 338  Agricultural Marketing  Credit 3 hours
Market structure, conduct, and performance factors within the domestic and global marketing areas with specific emphasis on production components, agricultural resources, outputs and marketing through supply chains and channels. Specific attention involves governments’ roles in marketing, market basket, price spreads, price analysis, futures and options markets, and contract marketing. Prerequisites: Department’s Mathematics Requirement, ECON 231, 232, or consent of the instructor.

ECON 434  National Agricultural Policy  Credit 3 hours
The basics of agricultural production and marketing components within the domestic and global markets with the focus on the dynamics of the agricultural sector and economic system. Analysis focuses on traditional and current agricultural and economic policies within the context of positive and normative economics and a capstone course for agribusiness majors. Prerequisites: Department’s Mathematics Requirement; or consent of the instructor.

ECON 460  Topics in Economics  Credit 1-3 hours
Topics or seminars will be selected as needed to keep students abreast of contemporary issues in economics.

EDUC 131  Introduction to Teaching  Credit 3 hours
Surveys the work of a teacher, the public school system, and the qualities necessary for success in the profession. Fundamental to all work in the Department of Education. Includes a required field experience.

EDUC 224  Multimedia Support of Instruction/Learning  Credit 2 hours
Operation of the various teaching machines commonly found in the schools, ranging from projection devices to copiers and computers. Creation of audio-visual materials such as bulletin boards, mobiles, slide presentations, etc. Computer use is addressed via a review of the basics of computer operation; use of common educational databases; and use of computers to facilitate instruction. Prerequisite: EDUC 131, or by permission of instructor.
EDUC 231  Play, Art and Music for Early Childhood  Credit 3 hours
Develop coordinated programs in play, art, and music for preschool children as media for preschool growth, development and learning. Art and music are used as forms of play to teach developmental skills in the areas of math, social science, and language arts, as well as in developing skills in coordination, movement, rhythm, creative expressions, etc. Prerequisite: FCS 139.

EDUC 232  Science, Math, and Social Science for Early Childhood  Credit 3 hours
Development of programs in science, math, and social science for preschool children utilizing a variety of instructional materials. Emphasis is placed upon the development of innate interests, vocabulary, concepts, and readiness skills through concrete experiences as well as play activities. Prerequisite: FCS 139.

EDUC 233  Literature and Language Arts Program for Early Childhood  Credit 3 hours
Introduction to literature for preschool children using appropriate literature and language arts and activities to promote the development of language arts skills, with an emphasis on the development of reading readiness in preschool children. Prerequisite: FCS 139.

EDUC 270  Special Topics  Credit 1-3 hours
Enables individuals to become aware of trends, issues, and requirements in the educational fields that are not covered in the upper division course work.

EDUC 300  Secondary Observation and Participation  Credit 1-3 hours
Classroom observation and participation in the secondary major areas of specialization and endorsement, with emphasis on active involvement in high school settings. One hour required of all secondary majors, but students may register for up to three hours of credit. Prerequisites: PPST, EDUC 131, SPED 230, EDUC 224, and PSYC 231.

EDUC 320  Elementary/Middle School Observation and Participation  Credit 1-3 hours
Classroom observation and participation prior to student teaching at various grade levels or in the subject areas students might teach at the middle grades level. Students will observe and participate in two or three different classroom settings from primary to middle grades. Those students interested in rural school education are encouraged to select a rural school for one observation period. Prerequisite: PPST, EDUC 131, 224, 321, 322, 323, PSYC 231 or 334, and SPED 230.

EDUC 321  Teaching Elementary/Middle School Mathematics  Credit 2 hours
Survey of mathematics teaching methods for the elementary and middle school students. Children’s textbooks, resources, appropriate technology, techniques for exceptional learner, concrete materials and instructional procedures are emphasized. Prerequisite: EDUC 131 and PSYC 231 or 334.

EDUC 322  Teaching Elementary/Middle School Language Arts  Credit 2 hours
Survey of the teaching methods in the language arts for the elementary and middle school students. All major aspects of communication will be considered. Techniques for exceptional learner will be emphasized. Prerequisites: EDUC 131 and PSYC 231.

EDUC 323  Teaching Elementary/Middle School Social Studies  Credit 2 hours
Survey of teaching methods in the content areas of social studies for the elementary and middle school students. Academic areas of Social Science as well as current events, map and globe skills, grouping and creative activities will be addressed, including techniques for exceptional learner. Prerequisites: EDUC 131 and PSYC 231.

EDUC 360  Cross Cultural Studies in Education  Credit 3-6 hours
This course is designed to provide individuals interested in educational systems in other societies the opportunity to study and observe these systems through training experiences in the form of workshops, fellowships, and/or seminars. The course requires travel expenses as associated with the specific activity. Course may be repeated with different focus.
EDUC 390  Applied Internship in Education  Credit 1-3 hours
Provides practical experience in an agency related to education. Interested students should contact the Internship and Career Services office to secure application materials. Application should be made prior to the semester the internship will be started. The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant, and the work hours. The internship will not replace any observation or field experience requirements, or any required courses, and should not be done while the student is on Block or student teaching.

EDUC 400  Independent Study or Research  Credit 1-3 hours
Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Dean’s permission required.

EDUC 402  Library Education Resources  Credit 1 hour
Specific content will focus on print and electronic information sources that will assist students who are preparing to be teachers or who will be working with children in a professional setting. Emphasis will be placed on using a practical, hands-on approach to locate and evaluate education materials including multicultural and cross-curricular resources.

EDUC 411S  Reading/Writing in the Content Areas  Credit 1 hour
Assists teacher candidates to approach subject matter in such a way as to utilize and further develop instructional strategies. Study skills, reading/writing skills common to all content areas and reading/writing skills and vocabulary development in specific subject areas are covered. Taken as part of the professional year, Semester #1.

EDUC 412S  Secondary/Middle School General Methods  Credit 1 hour
Teaching strategies, development of curriculum units and lesson plans, questioning skills and motivation techniques. Taken as part of the professional year, Semester #1.

EDUC 413  Elementary/Middle School Curriculum & Counseling  Credit 1 hour
Principles and theories governing curriculum design, development, implementation, and evaluation at the K-6 and 4-9 levels with focus on the role and responsibility of the elementary/middle school teacher in the counseling and guidance process. Taken as part of the professional year, Semester #1.

EDUC 414S  Secondary/Middle School Classroom Management  Credit 1 hour
Classroom management as it relates to efficiently operated classrooms. Theory and practice precede practical implications and teaching strategies in areas such as the following: managing student behavior, time management, classroom routines, stress, and working with parents and paraprofessionals. Taken as part of the professional year, Semester #1.

EDUC 415  Human Relations/Multicultural  Credit 1 hour
Influence of human relationships upon learning, growth and development, including an examination of significant problems in education as they relate to multi-ethnic students. Emphasis will be placed on the development of interpersonal skills, classroom climate, and in meeting the emotional needs of students. Taken as part of the professional year, Semester #1.

EDUC 416  Elementary/Middle School Assessment  Credit 1 hour
Mechanics of deriving meaningful grades and reporting these grades to students, parents and administrators. The criteria for developing teacher-made tests will be explored as well as the basic statistics to interpret and compare scores. New methods of evaluation will be addressed. Taken as part of the Professional Year, Semester #1.

EDUC 417  Teaching Reading and Writing Diagnosis  Credit 1 hour
Diagnostic awareness and corrective skill development. Formal and informal tools used in assessing reading/writing progress, identifying reading/writing problems, planning reading correction and using remedial materials will be examined and used in experimental settings. Teacher observation skills and informal diagnostic and corrective procedures will be stressed. Follows EDUC 423 and 424. Taken as part of the Professional Year, Semester #1.
EDUC 418S  Secondary/Middle School Assessment  Credit 1 hour
Construction of valid and reliable teacher made tests and the interpretation of scores from these and standardized instruments. Performance-based assessment tools will be emphasized. Taken as part of the professional year, Semester #1.

EDUC 422  Teaching Elementary/Middle School Science & Health  Credit 2 hours
Teaching experiences with hands-on methods and materials used to teach science and health to children in grades K-9. Students will work with textbook materials, science equipment appropriate to this age group, audio-visual materials relating to science and health as well as the use of resource persons and field trips. Prerequisites: HPER 233, Biological Science Course, Physical Science Course. Taken in conjunction with the professional year, Semester #1.

EDUC 423  Teaching Primary Reading and Writing  Credit 2 hours
Current methods, materials and research findings related to the teaching of reading and writing at the primary level. Different approaches to word analysis and to reading and writing comprehension, laboratory projects and demonstrations in instructional techniques, and reading and writing principles and strategies of primary reading and writing programs, and instructional and organizational procedures. Taken as part of the Professional Year, Semester #1.

EDUC 424  Teaching Intermediate Reading and Writing  Credit 2 hours
Current methods, materials, and research findings related to the teaching of reading and writing at the intermediate level. Teaching advanced reading and writing skills in reading and writing programs and in content areas will be examined. Strategies to develop higher questioning skills and study skills, laboratory projects and demonstrations of instructional techniques, and reading and writing principles, program development, and instructional and organizational procedures. Taken as part of the Professional Year, Semester #1.

EDUC 431(A-S) Special Methods  Credit 3 hours
An instructional methods course in the major field(s) of content specialization required of secondary education majors pursuing content area endorsement(s) programs. Also required of middle school and elementary K-6 subject endorsed students in art, physical education, educational media, and music teacher education. The course must be taken prior to the Teaching Internship semester, students must consult advisors to schedule the course at the appropriate time. Includes techniques for working with exceptional population. Prerequisites: PPST, EDUC 131, EDUC 224, EDUC 300, PSYC 231, and SPED 230, 334.

EDUC 433  The Middle School  Credit 3 hours
Philosophy, implementation, and improvement of the middle school (grade 4-9) from a theoretical and practical basis. Emphasis is placed upon the development, behavior, and special issues of middle school students; overall school program; methods of instruction; and the evaluation process.

EDUC 440  Topics in Education  Credit 1-3 hours
Designed to allow students to study some aspect of Education not offered in the regular class. May be repeated with a change in emphasis for a maximum of 6 credit hours.

EDUC 480A  Field Experience  Credit 1-8 hours
Assists the non-certified teacher and/or the teacher seeking an additional endorsement program or renewal of an expired certificate to obtain a planned and supervised classroom experience. The total number of field experience hours will be determined by a transcript review. Prerequisites for the course include successful completion of Teacher Education requirements as outlined in the General Bulletin. Requires affirmation under oath that the student has no felony convictions or misdemeanor convictions involving abuse, neglect, or sexual misconduct, and affirmation under oath that the student is in sound mental capacity.

EDUC 480I  Teacher Internship Intermediate  Credit 8 hours
Encompasses grades 4 through 6 and taken in conjunction with eight additional student teaching hours.

EDUC 480K  Teacher Internship K-12  Credit 8-16 hours
Encompasses K-12 endorsements in art, music, physical education, and Mild/Moderate Disabilities (SPED). May be taken in conjunction with eight additional teacher internship hours.
EDUC 480L  Teacher Internship K-8  Credit 8 hours
Encompasses field experience for K-8 endorsement programs. Taken in conjunction with eight additional teacher internship hours.

EDUC 480M  Teacher Internship Middle School  Credit 8-16 hours
Encompasses grades 4 through 9 and may be taken in conjunction with eight additional student teaching hours.

EDUC 480P  Teacher Internship Primary  Credit 8 hours
Encompasses grades K through 3 and taken in conjunction with eight additional teacher internship hours.

EDUC 480R  Teacher Internship Early Childhood Education Unified  Credit 8 hours
Encompasses teacher internship in a field experience with young children birth to age 8 and is taken in conjunction with eight additional teacher internship hours at the elementary level.

EDUC 480V  Teacher Internship Mild/Moderate Disabilities K-12  Credit 8-16 hours
Encompasses grades K-12 and may be taken in conjunction with eight additional teacher internship hours.

EDUC 490S  Secondary Teacher Internship  Credit 8-16 hours
Sixteen weeks full-time in an off-campus center. A sixteen (16) hour load is the maximum number for which a student may enroll. Participation in campus activities is restricted and limited to weekends. Students participate in their assigned community school program on a full-time basis both in the classroom and in extra-classroom activities. Prerequisites: EDUC 411, 412, 414, 415, 418, 431.

ENGLISH

ENG 135  Composition I  Credit 3 hours
Instruction in the processes of writing well-organized essays and in the necessary critical thinking that precedes such writing. When necessary, the principles of grammar will be reviewed. Prerequisites: A minimal score of 19 on the ACT English test or 74 on the Compass Writing Test and a minimal score of 19 on the ACT Reading Test or 80 on the Compass Reading Test.

ENG 136  Composition II  Credit 3 hours
A continuation of Composition I with increased emphasis on the processes involved in developing essays requiring research. Prerequisite: ENG 135.

ENG 137  Technical Writing I  Credit 3 hours
Instruction in expository techniques, organization patterns, and realistic situations encountered in science and industry. Prerequisite: ENG 135.

ENG 160  Literary Explorations  Credit 1-3 hours
Special Topics in English. May be repeated with a change in emphasis.

ENG 232  History of American Literature  Credit 3 hours
(a) A study of American literature from its beginning to 1865.
(b) A study of American literature from 1865 to the present.

ENG 233  Elements of Literature  Credit 3 hours
A study of the elements of poetry, drama, and fiction. Prerequisite: A minimal score of 19 on the ACT Reading Test or 80 on the Compass Test.

ENG 235  Children’s Literature  Credit 3 hours
A study of literature written for children and adolescents that provides a critical background for interpreting, evaluating and teaching the literature.
ENG 236   History of English Literature   Credit 3 hours
(a) A study of English language and literature from its beginnings to 1795.
(b) A study of English literature from 1795 to the present.

ENG 249   Creative Writing   Credit 3 hours
Writing instruction designed to improve the students’ expression in (a) Nonfiction prose, (b) Fiction, or (c) Poetry.

ENG 331   Theory and Practice of Teaching Writing   Credit 3 hours
An examination of various methods and programs in teaching writing, including practical experience in responding to writing.

ENG 320   Grammar and Linguistics   Credit 3 hours
An introduction to the study of grammar and linguistics, with a focus on sociolinguistics and differing approaches to grammar as each applies to teaching.

ENG 337   Technical Writing II   Credit 3 hours
A continuation of English 137, Technical Writing I, with emphasis on reports and writing for specific application to individual problems and publications. Prerequisite: ENG 137 or permission of Instructor.

ENG 340   Contemporary Literature   Credit 3 hours
A study of various issues, authors and topics in contemporary English and/or American literature.

ENG 341   Literature of the Great Plains   Credit 3 hours
An exploration of writers and works of literature related to the American Great Plains.

ENG 342   Literature Across Borders   Credit 3 hours
An exploration of writers and works that confront and cross borders – geographical, cultural and ethnic – throughout American history.

ENG 343   Literature and Philosophy   Credit 3 hours
An examination of literary works at the intersection of philosophy and literature that raise such philosophical issues as the nature of reality, truth, knowledge, identity or vividly illustrates the meaning of abstract thought about those issues.

ENG 344   Literature of the Environment   Credit 3 hours
An examination of works in the American literary tradition that treat the relationship between people and their natural environments.

ENG 345   Gender and Literature   Credit 3 hours
A study of masculinity and femininity in literature and literary criticism.

ENG 400   Independent Study or Research   Credit 3 hours
Study or research in an area of special interest. Students of senior standing, under the guidance of a professor in their major, may complete a Thesis & Capstone Project in their area of study and present it publicly. The number of credit hours is determined by the topic and the amount of work required. Permission of Instructor and Dean is required.

ENG 431   Topics in English   Credit 3 hours
Special topics in English. May be repeated with a change of emphasis.

ENG 432   Shakespeare   Credit 3 hours
Shakespeare’s works, with particular attention paid to those plays most commonly taught in the middle and senior high schools. Field trips may be required.

ENG 435   Native American Literature   Credit 3 hours
A study of the history, themes, and/or genres of literature produced by and about Native Americans.
ENG 436 World Literature  
A study of representative poetry, drama, and prose fiction selected from global literature. Field trips may be required. Texts not originally published in the English language will be read in English translation.

ENG 438 Adolescent Literature  
A study of literature suitable for grades 7-12 that provides a critical background for interpreting, evaluating, and teaching that literature.

ENG 440 Theory and Practice of Literary Criticism  
A study of selected theories that provide the foundations for literary criticism and the application of those theories to specific texts.

ENG 441 English and American Novels  
A study of selected English and American novels.

FAMILY AND CONSUMER SCIENCES

FCS 122 Perspectives in Family and Consumer Sciences  
History, philosophy, and professional perspectives of the field as well as career exploration and academic planning. Lecture and discussion.

FCS 123 Principles of Apparel  
Principles of design as well as consumer and merchandising principles of apparel are explored, including the historical, economic, and sociological aspects of apparel. Lecture and discussion.

FCS 135 Alteration and Construction Techniques  
Adaptation of commercial patterns as well as custom-fitting techniques for ready-made items. The processes of sewing technologies, including selection and use of equipment, patterns, fabrics, notions, and fundamental techniques are utilized. Construction techniques will be applied to apparel and home interior fashions. Student learning objectives will build upon prior knowledge and skills.

FCS 139 Child Growth and Development  
Human development from conception through adolescence is analyzed from physiological, cognitive, and socio-emotional perspectives. Emphasis is on wellness. A combination of lecture, practical application and observation of the stages of development.

FCS 160 Special Topics  
Special topics appropriate for lower division credit. May be repeated with different emphases for up to six hours of credit.

FCS 224 Housing and Interior Design  
Architectural elements as well as design elements and principles are applied to commercial and residential design and decor. Computer design will be explored.

FCS 234 Human Services  
Exploration of careers within various human service areas. Provides awareness, information, and competencies necessary to facilitate entry into the human services. Topics of study include organizational management, planning services to clients, needs analysis, and principles of human services.

FCS 235 Food for Wellness  
The theory and practice of food preparation. Study will include principles of food preparation related to nutrition, flavor, texture, color and safety, as well as the chemical composition of food. This class is appropriate for students interested in nutrition or wellness related careers. Includes a lab component and fee.
FCS 236  Meats Across the Lifespan  Credit 3 hours
Learn to plan, purchase, prepare and serve foods which promote nutrition and wellness for individuals and families. This class is appropriate for students interested in nutrition or wellness related careers. Includes a lab component and fee.

FCS 237  Guidance Techniques in Human Relations  Credit 3 hours
Principles and techniques for understanding effective conflict resolution and guidance. Will focus on identifying common behaviors, teaching social-emotional skills, distinguishing positive guidance approaches, and developing abilities to support self-control and self-discipline in building human relations. Includes field experiences where students will demonstrate skills in observation, documentation, assessment and evaluation for appropriate guidance practices.

FCS 238  Prenatal and Infant Development  Credit 3 hours
Social, emotional, intellectual/cognitive, and physical development of the child between the ages of 0 and 3, including pregnancy. Theoretical concepts, developmental stages, and develop skill competencies necessary to enhance the growth and development of the infant. Integration of knowledge base skills and competencies through observation and practical laboratory experiences.

FCS 239  Partnerships in Early Childhood Education  Credit 3 hours
Focuses on principles, methods and practical techniques for creating optimal working relationships which empower and strengthen partnerships among individuals, families, and communities. Students will gain an understanding of the process involved with establishing natural, inclusive environments and community building through service-learning.

FCS 247  Nutrition  Credit 3 hours
Study of the nutrients and their relationship to health and wellness. Major topics include the functions and sources of each of the nutrients; diseases and conditions associated with deficiencies and toxicities of nutrients, including obesity and eating disorders; nutrient needs of special populations, such as athletes, children, and pregnant women; and wellness lifestyles.

FCS 270  Special Topics  Credit 1-3 hours
Special topics appropriate for lower division credit. May be repeated with different emphases for up to six hours of credit.

FCS 314abcd  Focusing on the Future  Credit 1 hour
Discussion of current trends or topics and their impact on individuals and families. Emphasis will be on the process of asking questions and seeking answers from a wide range of perspectives, especially focusing on the future. May be repeated for up to a total of four hours credit. First year students will enroll in 314a, second years students 314b, juniors 314c, and seniors 314d. Upper-class students will be expected and encouraged to assume leadership roles in class discussions.

FCS 320  Aging and Death  Credit 3 hours
The life cycle as related to aging, the dying process, aging theories, and the psychological, social, and economic dimensions of bereavement. Emphasis will be placed on the economic and social needs of individuals involved with an aging and dying person.

FCS 321a  Curriculum Development in FCS Education for Preschool Programs  Credit 2 hours
Examines curriculum models and developmental needs of preschool-age children in natural, inclusive environments. Students apply skills in planning, organizing and developing activities, lesson plans and unit plans through knowledge base content and laboratory experiences.

FCS 321b  Curriculum Development in FCS Education for Secondary Programs  Credit 2 hours
Examines the curriculum needs of students in junior and senior high. Curriculum materials, including unit plans and lesson plans, are developed.

</thead>
<tbody>
<tr>
<td>FCS 324</td>
<td>Interior Environments</td>
<td>2 hours</td>
</tr>
<tr>
<td></td>
<td>Study and applications of interior furnishing, finishing materials, and design treatments for commercial and residential interiors. Studio. Prerequisite: FCS 224 OR permission of instructor.</td>
<td></td>
</tr>
<tr>
<td>FCS 329a</td>
<td>Patternmaking</td>
<td>2 hours</td>
</tr>
<tr>
<td></td>
<td>Flat pattern as well as draping techniques in construction of apparel or interior fashions. Construction of a fitted basic or original design will be created. Prerequisites: FCS 1235 OR permission of instructor.</td>
<td></td>
</tr>
<tr>
<td>FCS 329b</td>
<td>Historic Fashion and Costumes</td>
<td>2 hours</td>
</tr>
<tr>
<td></td>
<td>Period designs and techniques for theater design and construction and authentic construction features. Involves research and design development or restoration. Prerequisites: FCS 135 OR permission of instructor.</td>
<td></td>
</tr>
<tr>
<td>FCS 329c</td>
<td>Adaptive Fashions: Apparel and Home</td>
<td>2 hours</td>
</tr>
<tr>
<td></td>
<td>Apparel and personal care accessories for a variety of special needs and/or handicapping conditions. Ready-to-wear redesign or modification as well as original design and construction. Prerequisites: FCS 135 OR permission of instructor.</td>
<td></td>
</tr>
<tr>
<td>FCS 329d</td>
<td>Visual Display/Production</td>
<td>2 hours</td>
</tr>
<tr>
<td></td>
<td>The organization and arrangement of three-dimensional designs and fashion productions. Merchandising effects will be analyzed as well as created.</td>
<td></td>
</tr>
<tr>
<td>FCS 331</td>
<td>Family Systems Management</td>
<td>3 hours</td>
</tr>
<tr>
<td></td>
<td>Exploration of the decision-making process of planning, implementing, and evaluating the use of resources to meet individual and family goals throughout the lifespan. Resources to be addressed include time, energy, money, human capital, and public services. Wellness and quality of life issues will be considered.</td>
<td></td>
</tr>
<tr>
<td>FCS 332</td>
<td>Family Studies</td>
<td>3 hours</td>
</tr>
<tr>
<td></td>
<td>A family study investigating functions of the family throughout the life cycle, including communications, relationships, socialization, and conflict resolution within the family. Lecture, discussion, and case study methods.</td>
<td></td>
</tr>
<tr>
<td>FCS 335</td>
<td>Families in Society</td>
<td>3 hours</td>
</tr>
<tr>
<td></td>
<td>Investigation into the roles and expressions of familial arrangements across various cultures and within distinct subgroups of society in order to promote understanding of individuals from diverse backgrounds.</td>
<td></td>
</tr>
<tr>
<td>FCS 341</td>
<td>Textiles</td>
<td>4 hours</td>
</tr>
<tr>
<td></td>
<td>Natural and man-made fibers, yarns, and methods of fabrication, fabric finishes, and their performances. Legislation, merchandizing, and consumer issues are also investigated.</td>
<td></td>
</tr>
<tr>
<td>FCS 390</td>
<td>Internship in Family &amp; Consumer Sciences</td>
<td>1-12 hours</td>
</tr>
<tr>
<td></td>
<td>Provides practical experience in an agency related to Family and Consumer Sciences. Interested students should contact the Internship and Career Services office to secure application materials. Application should be made prior to the semester the internship will be started. The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant, and the work hours.</td>
<td></td>
</tr>
<tr>
<td>FCS 400</td>
<td>Independent Study or Research</td>
<td>1-3 hours</td>
</tr>
<tr>
<td></td>
<td>Selected problems of interest to advanced students. Prerequisite: Consent of the instructor and the academic Dean of the school.</td>
<td></td>
</tr>
<tr>
<td>FCS 417</td>
<td>Lifespan Wellness</td>
<td>3 hours</td>
</tr>
<tr>
<td></td>
<td>Students will use wellness models and developmental models as a basis for learning skills and strategies which promote a lifetime of wellness. Emphasis is on empowering students to work with individuals across the lifespan (birth through old age) in promoting optimal wellness choices.</td>
<td></td>
</tr>
<tr>
<td>Course Code</td>
<td>Course Title</td>

<tr>
<td>FCS 421</td>
<td>Organization &amp; Administration of FCS</td>
<td>2 hours</td>
</tr>
<tr>
<td></td>
<td>Departmental management and funding, community activities and relations, youth organizations, and facility/equipment maintenance.</td>
<td></td>
</tr>
<tr>
<td>FCS 422</td>
<td>Professional Career Development</td>
<td>2 hours</td>
</tr>
<tr>
<td></td>
<td>Seminar class designed as a capstone course for students preparing to graduate. Networks, job-searches, professional etiquette, professional organizations, certification, and the history and mission of Family and Consumer Sciences. Completion of a professional portfolio.</td>
<td></td>
</tr>
<tr>
<td>FCS 423</td>
<td>Program Management</td>
<td>3 hours</td>
</tr>
<tr>
<td></td>
<td>Management of program operations, funding, community relations, organization of personnel, and administration of programs. Integrates a basic understanding of techniques and skills necessary for managing and administering programs/organizations in a practical, hands-on format. Students will demonstrate knowledge-based and skill-based competencies in developing a program/organization. This includes stages from preplanning to finalizing the necessary requirements for successful program operations.</td>
<td></td>
</tr>
<tr>
<td>FCS 424</td>
<td>Housing Issues</td>
<td>2 hours</td>
</tr>
<tr>
<td></td>
<td>Current issues regarding social, political, and economic factors as related to family housing are investigated through research and discussion. Seminar style.</td>
<td></td>
</tr>
<tr>
<td>FCS 434</td>
<td>Seminar in Current Issues in Human Services</td>
<td>2 hours</td>
</tr>
<tr>
<td></td>
<td>Provides an opportunity to concentrate on current issues in the human services field including policies, programs, funding, consumer rights, and administrative issues.</td>
<td></td>
</tr>
<tr>
<td>FCS 435</td>
<td>Consumer Science</td>
<td>3 hours</td>
</tr>
<tr>
<td></td>
<td>Goods and services available to the individual or family including information analysis, consumer communication skills, commodity exchanges, and merchandise standardization are analyzed to maximize financial wellness across the lifespan.</td>
<td></td>
</tr>
<tr>
<td>FCS 436</td>
<td>Global Food Systems</td>
<td>3 hours</td>
</tr>
<tr>
<td></td>
<td>Analysis of various world-wide food patterns and associated health status as well as food production and distribution patterns around the world. Understanding and appreciation of the international perspective will be approached with critical thinking strategies.</td>
<td></td>
</tr>
<tr>
<td>FCS 437</td>
<td>Family Strengths</td>
<td>3 hours</td>
</tr>
<tr>
<td></td>
<td>Advanced study in the dynamics of successful family relationships. Investigation into the attributes of vital families which contribute toward the resolution of stressors in meaningful and positive ways. Lecture, discussion, and case study.</td>
<td></td>
</tr>
<tr>
<td>FCS 440</td>
<td>Special Topics in Family and Consumer Sciences</td>
<td>1-3 hours</td>
</tr>
<tr>
<td></td>
<td>Contemporary concepts and issues in Family and Consumer Sciences. May be repeated with different emphases for up to six hours of credit.</td>
<td></td>
</tr>
<tr>
<td>FCS 447</td>
<td>Nutrition for Sport &amp; Wellness</td>
<td>3 hours</td>
</tr>
<tr>
<td></td>
<td>A study of the nutrients and their relationship to sport and wellness. Special nutritional and training needs of athletes and all individuals who are physically active will be addressed. Major topics include the function and sources of each of the nutrients; fueling for pre exercise, during exercise and after exercise; specific meal planning, nutrient needs for specific athletes and wellness lifestyles; and more.</td>
<td></td>
</tr>
<tr>
<td>FCS 448</td>
<td>Early Childhood Practicum</td>
<td>3 hours</td>
</tr>
<tr>
<td></td>
<td>An association of principles, theory, structure, function, and operation of programs for young children. Includes application of principles to development of daily and weekly unit plans, menus, and curriculum for coordination of a total program. The course requires laboratory experiences in an early childhood setting. Prerequisites: FCS 139, 237, 239, 321a, and 423 OR permission of instructor. Concurrent enrollment in FCS 448L required.</td>
<td></td>
</tr>
</tbody>
</table>
FCS 448L  Early Childhood Practicum Laboratory  Credit 1 hour
Accompanies FCS 448. Concurrent enrollment in FCS 448 required. Additional fees will be assessed.

FCS 457  Nutrition for Community Wellness  Credit 3 hours
An evidence-based study of the science of nutrition and its relationship to improving public health. Focus will be on the campus-community based approach to improving health. Special emphasis will be on the relationship between nutritional epidemiology and research, policies, and programs regarding prevention and treatment as well as lifestyle and hereditary diseases.

FINANCE

FIN 160  Topics in Finance  Credit 1-3 hours
Topics or seminars will be selected as needed to keep students abreast of contemporary issues in finance.

FIN 238  Risk Management and Insurance  Credit 3 hours
Examines the principal’s risk and insurance, the components of an insurance contract, and the insurance market; and reviews the typical commercial lines of insurance policies. Topics include the principles of indemnity, utmost good faith, insurable interest, stock and mutual insurers, insurance intermediaries, and property, liability, and estate planning.

FIN 330  Principles of Finance  Credit 3 hours
An introductory course emphasizing the basic financial principles and practices essential to managing a business. Among the topics introduced are the time value of money, working capital management, financial analysis, financial planning, cash-flow analysis, operating and financial leverage, capital budgeting, long-term financing, cost of capital, and capital structure. Prerequisites: ACTG 241 and ECON 232 or equivalencies.

FIN 331  Financial Markets and Institutions  Credit 3 hours
Inquiry into, and analysis of, the various financial markets and institutions (including debt, derivatives, equity, insurance, government-based and foreign financial markets) operating in the U.S. and the international economy. Emphasis is placed on providing the analytical tools needed to assess financial institution and market response to microeconomic and macroeconomic factors. Prerequisite: FIN 330 or equivalent.

FIN 335  Agricultural Finance  Credit 3 hours
Economic and financial theories and concepts related directly to the capital markets and associated production and marketing costs and revenues within the agricultural sectors including financial institutions. Deals with study and analysis of firms with a focus on financial statements, financing enterprises, and sources of agricultural credit including private and governmental financial institutions. Prerequisites: Department’s Mathematics Requirement; ACTG 241.

FIN 339  Personal Finance  Credit 3 hours
Basic principles of finance as relating to the individual, including an introduction to investments, insurance, taxes, consumer purchasing, real estate, financial planning and recordkeeping, retirement, and estate planning.

FIN 430  Real Estate Investments  Credit 3 hours
Focuses upon technical skills required to value, finance and structure real estate transactions. Topics include: investment analysis for existing income-properties (pro-forma cash flow projections, financial ratios, alternative debt and equity financing structures, and risk analysis); ownership, taxation and financial structures; financing of real estate development; real estate in a portfolio context and the securitization of debt and equity interests in real property. Prerequisite: FIN 330 or equivalent.

FIN 432  Financial Management  Credit 3 hours
Examines various structures and operations of financial management of the firm including the sources and methods of financing, capital structure, dividend policy, leasing, mergers and acquisitions, working capital management, effects of taxation on financial decisions and international aspects of finance. Prerequisites: BA 336 and FIN 330 or equivalencies.
FIN 439  Investment Analysis  Credit 3 hours
Provides an understanding of active portfolio evaluation and management, including the following: the investment environment, portfolio theory, capital asset pricing model and arbitrage pricing theory, fixed-income securities, equities, and derivatives. Prerequisite: FIN 330 or equivalent.

FIN 460  Topics in Finance  Credit 1-3 hours
Topics or seminars will be selected as needed to keep students abreast of contemporary issues in finance.

GEOGRAPHY

GEOG 231  Physical Geography  Credit 3 hours
Survey of the atmosphere, lithosphere, hydrosphere, and biosphere including a topical analysis of land forms, weather and climate, soils, and vegetation. Emphasis is on understanding processes of and relationships between the spheres. This course meets the General Studies Physical Science non-lab requirement.

GEOG 232  Cultural Geography  Credit 3 hours
Geographical relationships and interactions of cultural, social, economic, ethnic, and political phenomena. Topical approach to population sub-groups, migration, religions, languages, urban and rural settlements, and other attributes of the cultural landscape.

GEOG 300  World Cultures  Credit 3 hours
Study of various elements and spatial variations of culture around the world through topical, regional, and comparative analysis. Topics include concepts of culture, regional patterns, resource use, population, religion, language and communication, rural and urban settlements, and other attributes of the cultural landscape.

GEOG 324  World Regional Geography  Credit 3 hours
Survey of physical, cultural, and economic aspects of world regions. An introduction to how constituent parts of the world differ from one another in their associated resources, cultures, and economics. Prerequisite: GEOG 232.

GEOG 330  Geography of Nebraska  Credit 3 hours
A study of the major physical and cultural characteristics of Nebraska. Emphasis on settlement history, changing perceptions and utilization of the environment, the evolution of the contemporary landscape, and geographic regions of the state.

GEOG 331  Economic Geography  Credit 3 hours
Locational aspects of human economic activities. Examines the geographical distribution of the world’s natural resources and the relationship between this distribution and national development and trade activities. Explores urban affairs, regional problems, regional development, and community planning. Students will conduct field research during the course.

GEOG 334  Political Geography  Credit 3 hours
Analyzes the geographic factors influencing historical and contemporary international relations and the policies of nations as political units. Consideration given to aspects of geopolitics, racial and ethnic groupings, religion and language, boundaries, and territorial changes.

GEOG 335  Resource Geography  Credit 3 hours
Ecological and environmental concepts through selected conservation and resource management topics including resource exploitation and methods of wise use of soils, forests, waters, minerals, wildlife, and recreational areas. Focus is on the relationship between human society and Earth systems especially how people identify, interpret, assess, and use resources from a geographic perspective.
GEOG 336  Map Use and Geographic Information Systems (GIS)  Credit 3 hours
A hands-on approach to acquiring skills in geographic techniques, introducing common characteristics and use of map media including topographic map interpreting, map and compass study, and thematic maps use and application. An introduction to basic geographic information systems structure that focus on location and resource analysis; a layering technique used for multiple interpretation, evaluation, and analysis using manual and computer environments.

GEOG 337  Community Structure and Change  Credit 3 hours
Study of rural and urban communities. Includes focus on social and spatial characteristics, community change, and planning. Includes field trips. Cross-listed as SOC 337.

GEOG 339  Geography of the Great Plains  Credit 3 hours
Examines physical and cultural features of the Great Plains. The climate, soils, landforms, and vegetation of the region will be interrelated with the sequence of human occupancy and activities from prehistoric times to the present. Emphasis upon changing perceptions and utilization of the Great Plains environment and the emergence of a distinctive contemporary region. Field trips may be a part of course activities.

GEOG 340  Geography of North America  Credit 3 hours
Regional analysis of the physical, demographic, economic, and cultural characteristics of the continent. A study of interactions of different groups of people and the resulting regional differentiation within North America.

GEOG 390  Internship in Geography  Credit 1-12 hours
Provides practical experience within some area of geography such as regional or community planning, Geographical Information Systems (GIS), or environmental/conservation work within a governmental agency, business, or industry. Interested students should contact the Internship and Career Services office to secure application materials. Application should be made prior to the semester the internship will be started. The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant, and the work hours.

GEOG 400  Independent Study/Research  Credit 1-3 hours
Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Permission of Instructor and Dean is required.

GEOG 430  Topics in Geography  Credit 1-3 hours
Special topics in geography. May be repeated with a change of emphasis.

GEOG 438  Seminar in Cultural Geography  Credit 1-3 hours
Examines various aspects of human cultural behavior and environmental space and helps students develop their awareness of the extent to which their feelings, behavior, and thoughts are influenced by their physical surroundings. Topics include environmental attitudes, environmental cognition, mental maps, personal space, territoriality, crowding, and psychological landscapes. Field research will be an important part of this course. Prerequisite: GEOG 232 or consent of Instructor.

GEOG 466  Field Experience in Geography  Credit 1-3 hours
Field observations concerning the cultural landscape. Noted especially are the spatial phenomena of landforms, soils, natural vegetation, and how different cultures change and adapt to these various natural environments. The study of the cultural landscapes involve the synthesis of cultural activity including: land use, urban and rural settlements, economic, political, and social activities. May require a tour.

GEOSCIENCE

GEOS 110  Careers in Science  Credit 1 hour
Introduction for Physical Sciences majors to career options. Students will conduct independent research of selected firms or agencies. A required field trip to a major metropolitan area will provide knowledge opportunities and challenges of the technical job market.
GEOS 130 Earth Science  Credit 3 hours
Introductory survey of the four earth sciences; geology, oceanography, meteorology, and astronomy. Designed to help non-scientists gain a greater appreciation of the global physical environment, and to understand interactions of society with that environment. One or more field trips may be required. Credit cannot be applied toward an earth science subject endorsement, physical science major, or any geoscience minor.

GEOS 137 Environmental Geology  Credit 3 hours
Considers effects of human interaction with the physical environment, both in terms of natural phenomena such as earthquakes and floods, which affect human lives, and resource use, in which humans change their environment. One or more field trips will be required.

GEOS 231 Physical Geology  Credit 3 hours
Introduction to the fundamentals and language of physical geology, to aid in understanding the solid Earth, its origin, constituents, and surficial features, and the appreciation of the dynamic nature of our planet. Concurrent enrollment in GEOS 231L required.

GEOS 231L Physical Geology Laboratory  Credit 1 hour
Laboratory exercises will introduce the tools geologists use to interpret Earth processes: minerals and rocks, maps, and aerial photographs. One or more field trips will be offered. Concurrent enrollment in GEOS 231 required.

GEOS 234 History of the Earth System  Credit 3 hours
Highlights changes through time in the Earth system, including the solid Earth, the oceans and water on land, evolution of the atmosphere, and evolution of life as seen through the fossil record. The systems approach seeks out and analyzes interactions between these different components. Concurrent enrollment in GEOS 234L required.

GEOS 234L History of the Earth System Laboratory  Credit 1 hour
Laboratory exercises will introduce the tools used to understand changes in the Earth system through time. Includes identification of the major fossil groups, and analysis of geologic, oceanographic, atmospheric and paleontologic data. Taken concurrently with GEOS 234.

GEOS 270 Topics in Geoscience  Credit 1-3 hours
Special topics appropriate for lower division credit. May be repeated with different emphases for up to six hours of credit.

GEOS 310 Capstone I: Research Seminar  Credit 1 hour
The student will choose a topic for research and conduct a literature survey of that topic. Preliminary results and a plan for conducting further independent research on the topic will be presented in oral and written form during the semester. Normally taken during the student’s Junior year.

GEOS 320 Supervised Study in Laboratory and Field Methods  Credit 1-2 hours
Students will prepare, supervise, and evaluate laboratory and field exercises under the direction of faculty members. Designed to give students practical experience teaching in the laboratory and field setting.

GEOS 321 Introduction to GPS  Credit 1 hour
Principles and applications of the global positioning system. Emphasis is on mapping and other uses applied to geoscience field problems. Field trips may be required.

GEOS 322 Introduction to GIS  Credit 3 hours
Principles and applications of geographic information systems with emphasis on ArcView® software. Students will address solutions to real-world problems using Geographic Information Systems. Field trips may be required. Recommended prerequisite: GEOS 321.

GEOS 337 Paleontology  Credit 3 hours
A systematic survey of invertebrate phyla and vertebrate classes most important in the fossil record. Concurrent enrollment in GEOS 337L required. Prerequisite: GEOS 234/234L or approval of instructor.
<table>

The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant, and the work hours.</td>
<td></td>
</tr>
<tr>
<td>GEOS 400</td>
<td>Independent Study or Research</td>
<td>1-3 hours</td>
<td>Study or research in an geoscience area of special interest. The number of credit hours is determined by the topic and the amount of work required. Permission of instructor and School Dean is required.</td>
<td></td>
</tr>
<tr>
<td>GEOS 401</td>
<td>Capstone II: Senior Research</td>
<td>2 hours</td>
<td>Independent research projects based on the results presented in GEOS 310. Data collection, analysis, and presentation of scientific papers. Normally taken during the student’s Junior or Senior year. May be repeated for a total of up to six hours of credit. Prerequisite: GEOS 310.</td>
<td></td>
</tr>
<tr>
<td>GEOS 410</td>
<td>Capstone III: Senior Research Thesis</td>
<td>1 hour</td>
<td>Research thesis is completed and presented at the Nebraska Academy of Sciences or other regional or national scientific forum approved by the faculty. Required field trip in late April. Normally taken during the student’s Senior year. Prerequisite: GEOS 401.</td>
<td></td>
</tr>
<tr>
<td>GEOS 426</td>
<td>Research Microscopy</td>
<td>3 hours</td>
<td>Microscopic principles and techniques and research methods. Students will plan and carry out a research project using light microscopy and present their findings in a public seminar. Prerequisite: 12 hours of Geoscience credit, or approval of the instructor. Cross-listed as BIOL 436.</td>
<td></td>
</tr>
<tr>
<td>GEOS 430</td>
<td>Special Topics in Geoscience</td>
<td>1-3 hours</td>
<td>To meet special needs of Geoscience students. May be repeated with different topics and approval of instructor for a total of 6 credit hours.</td>
<td></td>
</tr>
<tr>
<td>GEOS 431</td>
<td>Geology of Water Resources</td>
<td>3 hours</td>
<td>An introduction to the origin and nature of groundwater, its interaction with surface water, geological methods of groundwater exploration, and factors affecting water supply and quality. One or more field trips required.</td>
<td></td>
</tr>
<tr>
<td>GEOS 432</td>
<td>Structural Geology</td>
<td>3 hours</td>
<td>Description and analysis of geologic structures and the regional and global tectonic forces that produce them. Possibly one or more field trips required. Prerequisite: GEOS 231/231L or approval of instructor.</td>
<td></td>
</tr>
<tr>
<td>GEOS 435</td>
<td>Field Experience in Geoscience</td>
<td>1-3 hours</td>
<td>Typically a one to three week workshop. Field excursions to study major geologic features and provinces in North America or elsewhere. Prerequisite: Approval of Instructor.</td>
<td></td>
</tr>
<tr>

<tbody>
<tr>
<td>HPER 100</td>
<td>Individualized Fitness</td>
<td>1 hour</td>
<td>An independently designed program to allow students to individually follow programs to meet their fitness needs.</td>
</tr>
<tr>
<td>HPER 101</td>
<td>Adapted Physical Education</td>
<td>1 hour</td>
<td>Designed for students who have physical limitations which prevent participation in any other activity courses. Physical and recreation activities are adapted to special needs of the students enrolled. Recommendation from a physician is required.</td>
</tr>
<tr>
<td>HPER 102</td>
<td>Archery/Riflery/Skeet and Trap Shooting</td>
<td>1 hour</td>
<td>To develop skills and knowledge of archery, riflery, skeet, and trap shooting.</td>
</tr>
<tr>
<td>HPER 103</td>
<td>Golf</td>
<td>1 hour</td>
<td>The rules of play, golf etiquette, woods, short iron shots, approach shots, putting, and regular play are emphasized. Additional fees required.</td>
</tr>
<tr>
<td>HPER 104</td>
<td>Tennis</td>
<td>1 hour</td>
<td>The rules, etiquette, grip, forehand strokes and backhand strokes, serving, volleying, and singles and doubles play are emphasized.</td>
</tr>
<tr>
<td>HPER 110</td>
<td>Physical Fitness</td>
<td>1 hour</td>
<td>Fundamentals, concepts, and design of individual fitness programs and participation in a variety of fitness activities.</td>
</tr>
<tr>
<td>HPER 111</td>
<td>Social Dance</td>
<td>1 hour</td>
<td>To develop skills in a wide variety of social dances.</td>
</tr>
<tr>
<td>HPER 112</td>
<td>Aquatics</td>
<td>1 hour</td>
<td>To develop an intermediate level of swimming ability.</td>
</tr>
<tr>
<td>HPER 114</td>
<td>Canoeing/Casting and Angling</td>
<td>2 hours</td>
<td>Casting and spinning techniques, maintenance of equipment, and practical application of fishing skills, such as identifying and locating pan and game fish, types of uses of lures and live bait, and retrieving methods. To develop the skills of canoeing, skills of carrying, launching, and positioning as well as the different types of strokes.</td>
</tr>
<tr>
<td>HPER 117</td>
<td>Volleyball/Soccer</td>
<td>1 hour</td>
<td>To develop skills and knowledge in the sports of volleyball and soccer.</td>
</tr>
</tbody>
</table>
HPER 118  Basketball/Softball  Credit 1 hour
To develop skills and knowledge in the sports of basketball and softball.

HPER 119  Aerobic Dance  Credit 1 hour
To develop the necessary skills to participate in aerobic dance and utilize the activity to enhance physical fitness.

HPER 122  Foundations of Health and Physical Education  Credit 2 hours
Overview of latest thinking and research that form the foundations of Health and Physical Education and exploration of career preparation and opportunities in the field.

HPER 124  Anatomical Kinesiology  Credit 1 hour
Detailed work on the skeletal muscular system with direct applications to movement, stretching and strengthening of skeletal muscles. Must be taken concurrently with HPER 124L.

HPER 124L  Anatomical Kinesiology Lab  Credit 1 hour
Lab experience. Must be taken in conjunction with HPER 124.

HPER 134  Introduction to Athletic Training  Credit 1 hour
Prevention and basic first aid skills necessary to manage common injuries associated with sports, as well as provide techniques in emergency life support. This course will not fulfill any requirements for departmental endorsements.

HPER 202  Handball  Credit 1 hour
To develop skills and knowledge of handball.

HPER 203  Orienteering and Backpacking  Credit 1 hour
To develop the skills and knowledge to properly utilize the compass and topographical map in orienteering and the skills and knowledge required for backpacking.

HPER 205  Triathlon  Credit 1 hour
To develop the skills and knowledge necessary for a mini-triathlon, swimming, cycling, and running. Training for a class triathlon at the end of the semester. (Students must have access to a ten-speed bicycle.)

HPER 206  Advanced Weightlifting  Credit 1 hour
Individualized instruction to accommodate the advanced lifters in Olympic lifting, power lifting, body building, and program development and evaluation.

HPER 210  Badminton/Pickleball  Credit 1 hour
To develop skills and knowledge of badminton and pickleball.

HPER 212  Racquetball  Credit 1 hour
To develop the skills and knowledge of racquetball.

HPER 213  Bowling  Credit 1 hour
To develop skills and knowledge of bowling. Additional fees required.

HPER 214  Advanced Swimming  Credit 1 hour
The correct techniques in swimming nine basic strokes, front dives, and surface dives. Also includes basic rescue skills and survival swimming.

HPER 215  Fencing  Credit 1 hour
To develop skills and knowledge of fencing.

<td>3 hours</td>
</tr>
<tr>
<td></td>
<td>An overview of Adapted Physical Education. Designed to introduce students to the requirements of special needs in Physical Education as required in IDEA Amendments of 1997. Emphasis on all types of movement experiences for special populations.</td>
<td></td>
</tr>
</tbody>
</table>
CHADRON STATE COLLEGE

HPER 423  Coaching Techniques—Wrestling  Credit 2 hours
Fundamentals and coaching techniques in wrestling. Prerequisite: HPER 220.

HPER 424  Coaching Techniques—Track  Credit 2 hours
Fundamentals and coaching techniques in track. Prerequisite: HPER 220.

HPER 425  Coaching Techniques—Golf & Tennis  Credit 2 hours
Fundamentals and coaching techniques in golf & tennis. Prerequisite: HPER 220.

HPER 426  Coaching Techniques—Baseball & Softball  Credit 2 hours
Fundamentals and coaching techniques in baseball & softball. Prerequisite: HPER 220.

HPER 427  Elementary Rhythmics  Credit 2 hours
Review of rhythmic activities and the methods of teaching rhythmics to the elementary school student. Students will learn to perform a variety of rhythmic activities and the methods of teaching educational dance.

HPER 428  Curriculum in Health Education  Credit 3 hours
A foundation in school health education, including health services, healthful school living, and health instruction. To develop skills in organizing and presenting comprehensive and sequential health curriculum of standard and controversial topics. Prerequisites: PSYC 131, HPER 232, 236, FCS 332, and 337.

HPER 429  Basic Movement Education for Children  Credit 2 hours
Practical experience in designing and implementing physical education activities which develop fundamental and sport-related movement skills. Prerequisite: HPER 339.

HPER 430  Seminar in HPER  Credit 1-3 hours
Investigation of special topics in health, physical education, or recreation through group study. Attempts will be made to meet the needs of groups of students. The seminar may be repeated.

HPER 431  Community and Environmental Health  Credit 3 hours
Survey of community and public health, including the basics of health organizations, environmental health problems, and dilemma of health care delivery, selected diseases, and innovations in community health. Prerequisite: HPER 236.

HPER 432  Tests and Measurements in Physical Education  Credit 3 hours
The history of measurements in physical education, the selection and administration of appropriate tests, and the integration of their results by statistical procedures.

HPER 433  Advanced Athletic Training  Credit 3 hours
Designed for students who want to pursue a career in athletic training; required for NATA certification. Prerequisite: HPER 134.

HPER 435  Curriculum Planning in Physical Education  Credit 3 hours
History and trends in Physical Education. Principles and procedures for curriculum construction and criteria for selection of activities and judging outcomes. Students will develop a K-12 Physical Education Curriculum.

HPER 436  Outdoor Adventure Skills  Credit 3 hours
To acquaint prospective teachers and recreationists with the concepts of outdoor adventure skills. To better understand the use of personal leisure time in the out-of-doors. Prerequisite: HPER 234 and 333. Additional fees required.

HPER 437  Legal Aspects of Sports and Recreation  Credit 3 hours
Study of the law and implications relative to physical education and sport. Emphasis on safety procedures, preventive measures and legal responsibilities of the coach/administrator. Prerequisite: HPER 335.
HPER 439  Biomechanics of Sports  Credit 2 hours
Improve ability to teach physical education and to coach athletic teams by learning to analyze a variety of sports activities in terms of fundamental principles of mechanics. Must be taken concurrently with HPER 439L. Prerequisite: HPER 124, 124L, 232, and 232L or permission of Department Chair.

HPER 439L  Biomechanics of Sports Lab  Credit 1 hour
Lab experience in Biomechanics of Sports. Must be taken concurrently with HPER 439.

HPER 440  Prevention and Care of Athletic Injuries  Credit 3 hours
Knowledge and practice in the care of athletic injuries and physical conditioning.

HPER 453  Sports Officiating  Credit 3 hours
This course is designed to acquaint the student with the qualifications, philosophies, principles, and techniques governing the art of officiating sports. Prerequisite: HPER 220.

HPER 490  Internship in Health, Physical Education, Recreation  Credit 1-12 hours
Provides practical experience in physical education, recreation, coaching or athletic training. Interested students should contact the Internship and Career Services office to secure application materials. Application should be made prior to the semester the internship will be started. The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant, and the work hours. Prerequisites: Identification of required internships and prerequisites for each as follows:
a. Recreation: HPER 226, 234, and 333
b. Coaching: HPER 220, 335, and appropriate techniques courses (Note: Education students should not do their coaching internship while on Block or student teaching.)
c. Athletic Training: HPER 226

HISTORY

HIST 231  U.S. History to 1877  Credit 3 hours
Political, social, and economic development of the United States from the earliest explorations through the Civil War: colonial settlements, the formation of the Republic, the growth of nationalism, territorial expansion, the development of sectionalism, Civil War, and Reconstruction.

HIST 232  U.S. History Since 1877  Credit 3 hours
Continuation of HIST 231, from the end of Reconstruction to the present: the emergence of modern America, the rise of the city, the growth of industry, the organization of labor, the growth of democracy, and the evolution of foreign policy.

HIST 233  Western Civilization I  Credit 3 hours
Survey of Western Civilization and its relations with other world civilizations from the prehistoric and ancient periods to 1648 with emphasis upon political, cultural, social, economic, and religious movements.

HIST 234  Western Civilization II  Credit 3 hours
Survey of Western Civilization and its relations with other world civilizations from 1648 to the present with reference to political, social, economic, and cultural developments including emphasis on the ascendancy of Europe in world affairs.

HIST 320  The Asian Cultural Realm  Credit 3 hours
East Asian realm of China, Japan, Korea, and Indochina is treated in political, social, economic, and cultural areas, including not only the indigenous development of traditional Confucian societies but also the dynamics of modernization as a result of the impact of the West.

**HIST 331 Latin American History**

History of Latin American nations covering the periods of conquest, colonization, and independence, with emphasis on social, political, and educational developments.

**HIST 332 History of England**

Development of the political, social, and economic institutions of England.

**HIST 335 Imperial Russia**

Russian history from the coming of the Varangians, through the Mongol invasion, to the evolution of the Muscovite state and the Romanov dynasty. Social, political, economic, and cultural developments receive attention.

**HIST 336 The Soviet Union**

Last days of Imperial Russia, the Bolshevik Revolution of 1917, Soviet economic, social and political reforms, Stalinist totalitarianism, the ideological conflict, Soviet foreign policy, and the end of the Soviet state.

**HIST 337 Modern Germany**

History of Modern Germany covering the period of the German Empire and of the German Republics. Emphasis is placed upon political and economic development, the influence of German culture, and international relations.

**HIST 338 The World Since 1945**

Selected topics in World History since World War II. The evolution of the Cold War, the function of the United Nations, and the revolt against colonialism are emphasized.

**HIST 339 Nebraska History**

History of Nebraska with emphasis on geographical, social, political, and economic factors. May require field trips.

**HIST 344 U.S. Political History in the 20th Century**

History of American politics and political movements between 1896 and 2001. Particularly focuses on how changes to an increasingly urban and internationally powerful country changed its political processes and values. Cross-listed as PS 344.

**HIST 390 Internship in History**

Provides practical historical experience while employed with a museum or historical society, government agency, business, or industry. Open to upper division students major in one of the social sciences. Interested students should contact the Internship and Career Services office to secure application materials. Application should be made prior to the semester the internship will be started. The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant, and the work hours.

**HIST 400 Independent Study**

Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Permission of Instructor and Dean is required.

**HIST 429 Civil Rights and the Vietnam War**

A study of the origins, rationales, and results of the Civil Rights movement and the background, strategies, reasons for failure, and long-term effects of the Vietnam conflict.

**HIST 430 History of the American Indian**

A survey of Indian-white relations from American pre-history to the present. The course will emphasize the contributions made by American Indians to the general historical development of the United States.

**HIST 431 Europe: Waterloo to World War I**

European history in the 19th century, emphasizing the rise of nationalism and industrialism, and the resultant changes in European society.
HIST 432   Europe Since 1914   Credit 3 hours
The end of the old order in Europe, the age of conflict and ideology, and the rise of mass movements from World War I to the present.

HIST 435   History of Historical Writing   Credit 3 hours
Methods of historical research, writing, and criticism, with emphasis on bibliography and historical interpretation.

HIST 436   America in the Twentieth Century   Credit 3 hours
A study of the growth of the United States during the last century with an emphasis on the evolution of political institutions, the United States as a world power, civil rights issues, and the main intellectual and cultural currents in this century of rapid change.

HIST 437   Issues in European History   Credit 3 hours
Selected topics of investigation in European history. May be repeated with different emphasis.

HIST 441   Issues, Topics, and Workshops in History   Credit 1-3 hours
Selected topics or issues appropriate for study in a traditional classroom setting, seminar, or workshop format. May be taken more than once with different content with the permission of the instructor and Dean. Current topics include, but are not limited to: Women’s History, Mari Sandoz Workshop, History of Sports in the United States, and Topics in United States Military History.

HIST 442   Europe in the Middle Ages   Credit 3 hours
History and culture of Western Europe from the late Roman Era to the crises of the late Middle Ages including the transition from ancient to medieval civilization, Latin Christianity, the Carolinian Era, the papacy, feudal and manorial society, and the early emergence of the nation-state.

HIST 443   The Era of World War II   Credit 3 hours
Study of the era of World War II as the pivotal and defining era of United States history in the Twentieth Century.

HIST 444   History of the American Colonies and the American Revolution   Credit 3 hours
Study of the rich variety of themes in Early America from Indian cultures to the appearance and development of European colonies in America and the evolution of these colonies through the period of the American West of Independence.

HIST 445   The United States: The Early Republic   Credit 3 hours
Study of the issues and themes in the history of the United States from the nation’s founding to the era of sectionalism that led to the Civil War.

HIST 446   The American West, 1500-1890   Credit 3 hours
Study of the American West to 1890, emphasizing the region as a contested meeting ground for various people. Significant Western themes, including expansion, violence, and the role of the federal government will be examined.

HIST 447   The American West, 1890 to Present   Credit 3 hours
Study of the American West from 1890 to the present, emphasizing the contributions of Native Americans, Anglos, Hispanics, African Americans, and Asian Americans to the region’s rich history. Prominent themes, including aridity, “the mythic West,” and conflict with the federal government, will be investigated.

HIST 448   Sectionalism, Civil War and Reconstruction   Credit 3 hours
Traces the history of sectionalism in the United States from the Missouri Compromise through the Civil War, closing with the end of military reconstruction in 1877.

HIST 449   Turn of the Century America   Credit 3 hours
A study of the years 1865 to 1915. Included topics will be reconstruction of the post-war South, immigration, urbanization, the labor movement, American settlement of the west, Populism and Progressivism, the Spanish-American/Theodore Roosevelt era growth in American international power, and the drift towards world war.
### HIST 450  World War I
A study of the first world war from the perspective of Europe and the United States.

HUM 432  World Mythology  Credit 3 hours
A survey of world mythology as major sources of inspiration, allusion, and imagery in the expressive arts.

INFORMATION SCIENCE AND TECHNOLOGY

IST 102  Cisco Networking Basics  Credit 3 hours
Introduction to network terminology and protocols, local-area networks (LANs), wide-area networks (WANs), Open System Interconnection (OSI) models, cabling, routers, Ethernet, Internet Protocol (IP) addressing, and network standards. This is one of the four course series that prepares a student for the Cisco Certified Network Associate (CCNA) certification.

IST 110  Introductory Seminar  Credit 3 hours
Introduction to information systems, including basic applications, programming, and technology.

IST 130  Introduction to Computer Applications  Credit 3 hours
Introduction to common practical uses of the personal computer including word processing, spreadsheet, data base, presentation, Internet, and electronic mail applications.

IST 133  Programming Concepts I  Credit 3 hours
Overview of program methodology and accepted programming practices. Emphasis on algorithm development, top-down design, and data abstraction. Topics include files, arrays, records, pointers, and dynamic data.

IST 134  Programming Concepts II  Credit 3 hours
A continuation of the software engineering and data abstraction principles from IS 133. Emphasis on object-oriented design and data abstraction. Prerequisite: IST 133.

IST 201  Cisco Advanced Routing  Credit 3 hours
Theory and application of advanced routing protocols for internetworking, including BGP, EIGRP, OSPF, and IS-IS. This is one of the four course series that prepares a student for the Cisco Certified Network Professional (CCNP) certification. Prerequisite: CCNA (Cisco Certified Network Associate) certificate, or CCNA courses 1-4, or permission of instructor. This course is cross-listed as DTE 201.

IST 202  Cisco Routers and Routing Basics  Credit 3 hours
Routing configurations, Cisco IOS Software management, routing protocol configurations for TCP/IP, and access control lists (ACLs). This is one of the four course series that prepares a student for the Cisco Certified Network Associate (CCNA) certification. Prerequisites: IST 102.

IST 230  Web Page Development  Credit 3 hours
Provides a foundation for establishing and maintaining a Web site. The first part of the course is devoted to creating, designing, and publishing content on the Web. The second part of the course covers tools and techniques for maintaining a Web site, such as version control, document validation, and page and site analysis. In addition, dynamically generated Web sites and database-driven Web sites are discussed. Prerequisites: Computer literacy.

IST 235  Web Programming  Credit 3 hours
Fundamental principles and technologies behind the World Wide Web including how information on the WWW is generated, represented, transmitted, and manipulated. The course will concentrate on key client-side and server-side technologies that are essential for dynamic content generation and interactivity. Prerequisite: IST 133, 230 or equivalent.
IST 251 Operating Systems Credit 3 hours
An operating system (OS) is a program that provides a convenient and efficient environment for the user(s) of a computer, computer-based, or non-computer system. The OS is the interface between the user and application software and the hardware. This course introduces process/task/thread management, scheduling, deadlock-handling, memory management, file systems, networking, security issues, and embedded/real-time operating systems (RTOS). Prerequisite: IST 133.

IST 270 Topics in Information Science and Technology Credit 1-3 hours
Special topics appropriate for lower division credit. May be repeated with different emphases for up to six hours of credit.

IST 301 Cisco Advanced Remote Access Credit 3 hours
Design, operation and management of remote access networks, including WAN protocols such as ISDN, Frame-Relay and PPP on remote access networks. This is one of the four course series that prepares a student for the Cisco Certified Network Professional (CCNP) certification. Prerequisites: IST/DTE 201 or permission of instructor. This course is cross-listed as DTE 301.

IST 302 Cisco Advanced Multilayer Switching Credit 3 hours
Design, operation, and management of large scalable and reliable local area networks based on multiplexer switching. This is one of the four course series that prepares a student for the Cisco Certified Network Professional (CCNP) certification. Prerequisites: IST/DTE 301, or permission of instructor. This course is cross-listed as DTE 302.

IST 303 Cisco Switching Basics and Intermediate Routing Credit 3 hours
Advanced IP addressing techniques, intermediate routing protocols, command-line interface configuration of switches, Ethernet switching, Virtual LANs, Spanning Tree Protocol, and VLAN Trunking Protocol. This is one of the four course series that prepares a student for the Cisco Certified Network Associate (CCNA) certification. Prerequisites: IST 102, 202.

IST 304 Cisco WAN Technologies Credit 3 hours
Advanced IP addressing techniques (Network Address Translation, Port Address Translation, Dynamic Host Control Protocol), and Wide Area Network technologies and terminology (PPP, ISDN, DDR, Frame Relay, network management). This is one of the four course series that prepares a student for the Cisco Certified Network Associate (CCNA) certification. Prerequisites: IST 102, 202, 304.

IST 305 Web Server Administration Credit 3 hours
Provides students with an in-depth knowledge of Web server administration. The material will cover initial system configuration, Web server installation, Web server configuration, administering the Web server, Web users and hosting accounts, automating user account management, security issues, and troubleshooting. Prerequisites: IST 133 or equivalent, IST 251 or equivalent.

IST 334 Wireless Application Development Credit 3 hours
Provides students with an in-depth knowledge of wireless application development. The material will cover a mobile agent’s platforms and systems, including mobile agent-based service implementation, middleware and configuration. In addition, wireless local area networks, wireless protocols, network architecture supporting wireless applications, and routing protocols will be covered. Prerequisite: IST 230.

IST 340 Human-Computer Interaction Credit 3 hours
Provides a foundation for assessing usability by quantitative and qualitative methods. Students will conduct task analyses, usability tests, expert reviews, and continuing assessments of working products by interviews, surveys, and logging. In addition, students will apply design processes and guidelines to develop professional, quality user interfaces. Prerequisites: IST 133 or equivalent, IST 230 or equivalent.
IST 390  Internship in Information Science and Technology  Credit 1-12 hours
Provides practical experience in Information Science and Technology. Open to upper division students with course credit in Information Science and Technology. Interested students should contact the Internship and Career Services office to secure application materials. Application should be made prior to the semester the internship will be started. The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant, and the work hours.

IST 400  Independent Study  Credit 1-3 hours
Individual problems in a selected area of the general field of Information Science and Technology. Course can be repeated for up to 6 credit hours total. Prerequisite: Permission of instructor and School Dean.

IST 402  Cisco Internetwork Troubleshooting  Credit 3 hours
Complex networking problem-solving involving integrated LAN and WAN environments that include advanced routing protocols, remote access, internetworking and large or complex LAN configurations. This course is the culminating course in preparation for the Cisco Certified Network Professional (CCNP) certification. Prerequisites: IST/DTE 201, 301, and 302. This course is cross-listed as DTE 402.

IST 430  Topics in Information Science and Technology  Credit 1-3 hours
Special topics in the general field of Information Science and Technology are studied in-depth. Course can be repeated for up to 6 credit hours total. Prerequisites: IST 133 and appropriate background for topics covered.

IST 431  Computer Networks  Credit 3 hours
In-depth study of modern computer networks, including analog and digital data and signals, asynchronous and synchronous transmission, circuit switching and packet switching, local and metropolitan area networks, networking, ISDN, and frame relay and cell relay. Prerequisite: IST 133.

IST 433  Dynamic Web Page Development  Credit 3 hours
Provides the concepts and skills necessary to design and develop Web-based database applications. Students build a working database application and a client application to serve the information needs of some enterprise. Students build, populate, query, and write transactions for a relational database and then develop a client application to access their database. Prerequisites: IST 235 or equivalent, MIS 331 or equivalent.

IST 435  Capstone Seminar  Credit 3 hours
This is a seminar that draws upon the knowledge acquired by the student in previous information systems courses and focuses it on issues of current professional interest.

IST 440  Computer Science Curriculum and History  Credit 2 hours
Historical perspectives, research trends, societal impact, ethics of computer science, and the organization and management of computer science instruction. Prerequisite: Fifty percent of endorsement completed or permission of instructor.

LEGAL STUDIES

LS 231  Introduction to Legal Studies  Credit 3 hours
A comprehensive overview of the law office environment; a general knowledge of legal assistant and lawyer roles; and an understanding of substantive areas of law, ethics, and legal analysis.

LS 232  Litigation/Civil Procedures  Credit 3 hours
The federal and state rules of civil procedures, including the drafting of complaints, answers, pre-trial motions, interrogatories, depositions and other documents, discovery, jurisdiction, and the aspects of trial practice.

<td></td>
</tr>
<tr>
<td>LS 338</td>
<td>Legal Research and Writing II</td>
<td>Credit 3 hours</td>
</tr>
<tr>
<td></td>
<td>Focuses on advanced research and writing principles including case synthesis, the creation of factual and policy arguments, and counteranalysis. Emphasis is placed upon completion of legal research projects including preparation of interoffice memoranda, court briefs and legal correspondence. Prerequisite: LS 238 or permission of instructor.</td>
<td></td>
</tr>
<tr>
<td>LS 343</td>
<td>Commercial Law</td>
<td>Credit 3 hours</td>
</tr>
<tr>
<td></td>
<td>Study of the Uniform Commercial Code and related federal and state laws and their relevance to the law office environment and commercial practice. Emphasis is placed on the sale of goods, negotiable instruments, bank deposits and collections, security agreements, and transactions in which personal property, such as equipment, inventory, or accounts receivable, serve as collateral for a debt.</td>
<td></td>
</tr>
</tbody>
</table>
LS 390  Internship in Legal Studies  Credit 1-12 hours
Provides practical experience in a law office, court, judicial office, or other law related agency. Open to upper division students majoring in the area of legal studies. Interested students should contact the Internship and Career Services office to secure application materials. Application should be made prior to the semester the internship will be started. The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant, and the work hours.

LS 400  Independent Study or Research  Credit 1-3 hours
Faculty-guided research in an area of mutual interest to the student and instructor. Students are responsible for selecting the area of inquiry prior to contacting the instructor. Prerequisite: 15 hours of Legal Studies and permission of instructor and Dean.

LS 431  Introduction to Estates and Trusts  Credit 3 hours
Procedures, techniques, substantive law, and the administration of estates and trusts, with special emphasis on the drafting of wills, simple trusts, and pleadings and documents for probated administration.

LS 432  Juvenile Law  Credit 3 hours
A course focusing on the legal status of children. Studies the development of statutory law and constitutional rights for juvenile offenders and the impact of these laws on the juvenile and the juvenile process in the United States. Cross-listed as CJ 432.

LS 433  Rules of Evidence  Credit 3 hours
Evidence and rules governing the admissibility of evidence in court and the effect of court decisions on acquisition and admissibility of evidence. Prerequisites: LS 231 or CJ 231. Cross-listed as CJ 433.

LS 434  Law of Real Estate  Credit 3 hours
Introduction to the substantive law of real property, including legal descriptions, real estate finance, types of ownership, mechanics of transferring ownership, abstracts, title insurance, legal forms, and contract drafting.

LS 435  Law of Business Organizations  Credit 3 hours
Sole proprietorships, partnerships, corporations and limited liability companies, emphasizing the advantages and disadvantages of different business entities and the formation and financial structure of each.

LS 436  Ethics/Professional Responsibility  Credit 3 hours
An overview of ethical considerations in the legal profession, including canons of ethics and ethical standards governing lawyers and Legal Assistants. The course examines client confidentiality, unauthorized practice of the law, conflicts of interest and disqualification, attorney-client privilege, the work product rule, financial matters, zealousness within the bounds of the law, and competence.

LS 438  Topics in Law  Credit 1-3 hours
Topics selected to meet the needs of students in a special area of interest in law. Prerequisite: LS 337 or CJ 337 or permission of instructor. Cross-listed as CJ 438.

LS 442  Honors in Legal Studies  Credit 1-3 hours
Selected courses and topics designed for upper division students with a grade point average of 3.25 or above in all course work. May be repeated up to a maximum of twelve (12) semester hours. Prerequisite: Permission of Instructor. Cross-listed as CJ 442.

LS 444  Topics in Commercial Law  Credit 3 hours
Topics selected to meet the needs of students in a special area of interest in commercial law. Prerequisite: LS 231 or permission of instructor.

LS 447  Applied Issues in Legal Studies  Credit 1-9 hours
Projects, workshops, field experiences and seminars that focus on a specialized area of Legal Studies. Cross-listed as CJ 447. Permission of instructor is required.
LIBRARY INFORMATION MANAGEMENT

LMS 150  Introduction to Libraries  Credit 3 hours
Orientation to the library and the concept of information, including history and development, types of libraries and career opportunities, basic library concepts and issues, technology, terminology and trends.

LMS 332  Organization of Resources  Credit 3 hours
Basic tools and techniques of cataloging and bibliographic control are introduced through the identification and application of the elements of bibliographic description, subject analysis, and classification with emphasis on the formation of MARC records for automated catalogs and cataloging systems.

LMS 333  Library Administration  Credit 3 hours
Introduces the basic principles of library management, including policies, planning, standards, budgeting, assessment, communications, public relations, staff supervision, cooperation, and library services.

LMS 334  Information Resources  Credit 3 hours
Selection and use of basic electronic and print resources appropriate to reference and information services. Understanding the nature, theory, and objectives of information services work, including evaluation, selection, and use the most appropriate resources. Special attention is paid to the process of question negotiation and diversity of customer needs.

LMS 335  Selection and Assessment of Resources  Credit 3 hours
Fundamental principles of collection development. Characteristics and functions of media with an emphasis on the selection and evaluation of resources. Examines needs and interest, selection criteria, acquisitions procedures, collection assessment, as well as the implications of resource sharing and electronic sources for the collection development process.

LMS 390  Internship in Library Media  Credit 1-12 hours
Provides practical work experience in college, public, school, or special libraries. Interested students should contact the Internship and Career Services office to secure application materials. Application should be made prior to the semester the internship will be started. The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant, and the work hours.

LMS 400/500  Independent Study of Library and Media  Credit 1-3 hours
Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Dean’s approval required.

LMS 432/532  Current Topics in Library Media  Credit 1-3 hours
Offered in three sections—a, b, c,—with a change of emphasis in each offering. The student researches in depth and discusses current developments with the attendant problems and promises in areas of a) Library and Media Customers, b) Information Services, and c) Current Library and Media Technology. Available to upper-level LMS students and to others with the approval of instructor.

LMS 434  Electronic Information Technology  Credit 3 hours
Consideration and use of electronic information resources and systems, including construction of searches, use of appropriate search systems/engines, evaluation of information sites, and evaluation and interpretation of search results.

LMS 439  Procedures and Practice in Library Media  Credit 3 hours
Application of principles and techniques of educational library media to actual media programs. The college library and other libraries serve as laboratories and provide real practice under trained supervision. Prerequisites: LMS 332, 333, 334, and 335.
MANAGEMENT

MGMT 160  Topics in Management  Credit 1-3 hours
Topics or seminars will be selected as needed to keep students abreast of contemporary issues in management.

MGMT 230  Principles of Management  Credit 3 hours
Introduction to theories, principles and functions of current management practice. Special focus is given to management for a world in transition.

MGMT 330  Organizational Theory and Behavior  Credit 3 hours
Examines implications of organizational theory and organizational behavior for achievement of effective management. Organizational theory topics (a macro approach) include: structural design and its adaptations to goals, strategy, technology, environment, uncertainty, and social change. Organizational behavior topics (a micro approach) include: motivation, learning, leadership, communications, power and politics, decision making, and planned change. Prerequisite: MGMT 230 or equivalent.

MGMT 430  Human Resource Management  Credit 3 hours
Principles and techniques of personnel management, including legislation affecting employers today, and practical applications of various personnel functions. The course covers the personnel functions of procurement, development, compensation, integration, and separation. Prerequisite: MGMT 230 or equivalent.

MGMT 432  Production and Operations Management  Credit 3 hours
Methods for managing ongoing operations of a firm, with emphasis on operations of a manufacturing organization with applications to service organizations. Topics include forecasting, master production scheduling, material requirements planning, purchasing, just-in-time inventory control, shop floor control, quality control, maintenance, and productivity. Prerequisites: BA 241, 336; and MGMT 230 or equivalencies.

MGMT 434  Strategic Management  Credit 3 hours
Capstone course for all business administration majors, providing a conceptual and methodological basis for integrating knowledge of the various business disciplines. Skills developed are applied to formulation and implementation of strategic and operating plans. The case method is used extensively throughout the course. Prerequisite: Senior standing and all business core courses completed.

MGMT 460  Topics in Management  Credit 1-3 hours
Topics or seminars will be selected as needed to keep students abreast of contemporary issues in management.

MANAGEMENT INFORMATION SYSTEMS

MIS 130  Principles of Information Systems  Credit 3 hours
Information systems concepts and principles applied to business uses of technology. Conceptual areas include: fundamentals of information systems, data resource management, telecommunications and networks, ebusiness, e-commerce, decision support systems, information technology management, developing business and information technology solutions, security, and ethical challenges.

MIS 160  Topics in MIS  Credit 1-3 hours
Topics or seminars will be selected as needed to keep students abreast of contemporary issues in MIS.

MIS 235  Business Programming  Credit 3 hours
Introduction to programming techniques used in business reporting, utilizing hands-on exercises in database programming to create and maintain relational databases; specifically creating tables, sorting data, retrieving data, updating data, and placing security settings. Designed to provide beginners with the tools essential for learning how to read and write Structure Query Language (SQL).

MKTG 334  Entrepreneurship — Imagination and Opportunity  Credit 3 hours
Explores the creative process and help students identify their own creative problem-solving styles. Students will have to develop innovative solutions centered around new product, service and process development. Students will learn to judge the quality of their creative solutions. Explore opportunities for product/service. Analyze the new product/service development process.

MKTG 335  Entrepreneurship — Business Start-Up  Credit 3 hours
Provides an opportunity for students to identify characteristics necessary for a successful entrepreneur and assess their personal skills, attitudes, education, and experience. Explore opportunities for product/service. Analyze the new venture creation and funding avenues. Prerequisite or co-requisite: MKTG 231 or equivalent or consent of instructor.

MKTG 336  Entrepreneurship — Promotions and Advertising  Credit 3 hours
The use of advertising in marketing programs. Formulation, management, and evaluation of communication channels to achieve marketing objective. Advertising design, media selection, public relations, sales promotion, and advertising plans. Prerequisite: MKTG 231 or equivalent.

MKTG 338  Buyer Behavior  Credit 3 hours
The application of conceptual material to marketing strategies to reach both consumer and industrial buyers. Incorporates the behavioral sciences to marketing including theoretical concepts of buyer behavior. Prerequisite: MKTG 231 or equivalent.

MKTG 435  Business and Marketing Strategy  Credit 3 hours
A capstone course designed to acquaint the student with current business and marketing problems. Current readings on related business materials, indepth studies of business/marketing plans and strategies, and/or business cases/business simulation. Prerequisites: MKTG 231 and MGMT 230; and Senior status, or equivalencies.

MKTG 439  Business and Marketing Research  Credit 3 hours
Examines marketing research information for management decision making. Provides an understanding of marketing research. Examines alternative research strengths and weaknesses. Prerequisites: BA 336 and MKTG 231 or equivalencies.

MKTG 460  Topics in Marketing/Entrepreneurship  Credit 1-3 hours
Topics or seminars will be selected as needed to keep students abreast of contemporary issues in marketing/entrepreneurship.

MATHEMATICS

MATH 100  Pre-College Algebra  Credit 3 hours
Problem-solving skills, applied algebra and geometry, and basic data analysis. The goal is to develop readiness for a college algebra or statistics course. This course does not meet General Studies or specific program requirements. Prerequisite: MATH ACT greater than 15 or permission of instructor.

MATH 132  Applied Mathematics  Credit 3 hours
Mathematics with problem solving as the focus. Mathematical functions, measurement, the metric system, ratios, proportion, direct and inverse variation, graphing, and applications to technology. History of mathematics.

MATH 133  Introduction to Mathematics  Credit 3 hours
Everyday mathematics with practical applications. Relationship of mathematics to the larger encompassing structure of mathematics. History of mathematics.

MATH 134  Plane Trigonometry  Credit 3 hours
Angle measurement, circular functions, inverse trigonometric functions, trigonometric functions of an acute angle, solutions of right triangles, law of sines, law of cosines, additional theorems and related formulas, trigonometric identities, and applications. Prerequisite: two years high school algebra or equivalent.

<td></td>
</tr>
</tbody>
</table>
MATH 433  Statistical Methods and Data Analysis  Credit 3 hours
Statistical research methods and modeling of statistical problems. Chi-square tests, analysis of variance, one-way and multi-factorial designs, multiple regression and correlation. Nonparametric methods. Use of calculators and personal-computer software. Prerequisite: MATH 232 or equivalent.

MATH 434  Introductory Analysis  Credit 3 hours
Structure of the real number line. Completeness, compactness, connectedness. Rigorous treatment of limits, sequences, series, convergence, functions and continuity, derivatives, and selected topics on measure and integration theory. Prerequisites: MATH 237 and 252, or permission of instructor.

MATH 435  Sampling Techniques  Credit 3 hours
Statistical survey methods, sampling techniques, point and interval estimation of population parameters, population size determination, and communication of sample survey results. Applications from business, the natural sciences, and the social sciences. Prerequisite: MATH 232 or equivalent.

MATH 437  Modern Algebra  Credit 3 hours
Axiomatic approach to groups, rings, integral domains, polynomials, fields, selected topics in abstract algebra, and an introduction to vector spaces and algebraic coding theory. MATH 429 or equivalent.

MATH 438  Numerical Analysis  Credit 3 hours
Numerical modeling of phenomena using interpolation and approximation, systems of linear equations, integration, and numerical solutions of differential equations. Prerequisite: MATH 252 or permission of instructor.

MATH 440  Mathematics Education Standards  Credit 3 hours
An integrated content/pedagogy course on mathematics teaching, assessment, and curriculum standards, based on major content areas of the K-12 curriculum. Prerequisite: Fifty percent of endorsement completed.

MILITARY SCIENCE LEADERSHIP

MSL 101  Leadership and Personal Development  Credit 1 hour
Make your first peer group at college one committed to performing well and enjoying the experience. Increase self-confidence through team study and activities in basic drill, physical fitness, rappelling, leadership reaction course, first aid, making presentations and basic marksmanship. Learn fundamental concepts of leadership in a profession in both classroom and outdoor laboratory environments. Corequisite: MSL 101L.

MSL 101L  Leadership and Personal Development Lab  Credit 1 hour
Designed to accompany MSL 101. Provides the students with hands-on experience to supplement and reinforce classroom instruction. Subjects addressed include drill and ceremonies, physical fitness training, marksmanship, first aid, rappelling and basic mountaineering skills, voluntary off campus activities reinforce course work. Corequisite: MSL 101.

MSL 102  Introduction to Tactical Leadership  Credit 1 hour
Learn and apply principles of effective leadership. Reinforce self-confidence through participation in physically and mentally challenging exercise with upper-division ROTC students. Develop communication skill to improve individual performance and group interaction. Relate organizational ethical values to the effectiveness of a leader. Corequisite: MSL 102L.

MSL 102L  Introduction to Tactical Leadership Lab  Credit 1 hour
Designed to accompany MSL 102. Provides the students with hands-on experience to supplement and reinforce classroom instruction. Subjects addressed include drill and ceremonies, physical fitness training, marksmanship, first aid, rappelling and basic mountaineering skills, voluntary off campus activities reinforce course work. Corequisite: MSL 102.

</tbody>
</table>
MSL 401  Development Adaptive Leaders  Credit 2 hours
Introduces formal management skills including problem analysis, planning techniques, and the delegation and control of activities, providing an understanding of the command and staff organization used in the modern army and creating a forum for discussing professional and ethical decisions faced by commissioned officers. Corequisite: MSL 401L.

MSL 401L  Development Adaptive Leaders Lab  Credit 2 hours
Provides practical experience supplementing and reinforcing classroom instruction, including drill and ceremonies, physical fitness training, instruction techniques, and operation of the cadet battalion. Off-campus training required. Corequisite: MSL 401.

MSL 402  Leadership in a Complex World  Credit 2 hours
Provides information for transition to active or reserve commissioned service, developing administrative controls essential in managing a military organization, introducing the management of financial and personal affairs, and allowing time for discussion and analysis of the ethical decision-making process. Corequisite: MSL 412.

MSL 402L  Leadership in a Complex World Lab  Credit 2 hours
Provides practical experience supplementing and reinforcing classroom instruction, including drill and ceremonies, physical fitness training, instructional techniques, small unit leadership and familiarization with duties of commissioned officers. Off-campus training is required. Corequisite: MSL 402.

MUSEUM STUDIES

MS 160  Special Topics in Museums  Credit 1-3 hours
Special topics of current interest are considered in depth. Topics may include caring for photographs, textiles, and historic costumes. Students may take more than one topics course for credit. There are usually no prerequisites for these courses. This course may be taken multiple times, when topics have different content. Multiple sections of this course cannot be substituted for another course in the Museum Studies Program.

MS 231  Introduction to Museums  Credit 3 hours
This course is an introduction to and survey of the history and philosophy of the development of the museum in America and Western Europe. In addition, students will learn about the different types of museums and influential people who helped in the development of the modern museum profession.

MS 235  Introduction to Archival Collections  Credit 3 hours
This course will introduce students to the history and social value of records and archives, the theory of archival practice, and to the application of archival theory in the digital world.

MS 330  Management and Care of Collections Credit  Credit 3 hours
This course will introduce students to the professional principles and practices in the care and management of collections housed in museums and research facilities. Topics covered will include collections development, museum registration methods, cataloging, collections care, agents of deterioration, and application of the rules of properly handling, storing, and caring for museum collections.

MS 331  Exhibit Design  Credit 3 hours
This course provides a theoretical and practical approach to the development, planning, design, and installation of museum exhibitions. Students will develop an understanding of approaches to presenting museum exhibits, and learn basic principles of exhibit design, fabrication and preparation techniques. Students are also introduced to exhibition-related conservation issues and assessment of visitor needs.

MS 333  Museum Administration  Credit 3 hours
This course is an introduction to the legal and operational structure of museums, personnel issues, and financial management aspects of museum administration. Topics covered in course will also include ethical and legal issues in museums, professional standards, and challenges of museum administration.
MS 340    Museum Education    Credit 3 hours
This survey of museum education introduces students to the educational role of museums and informal learning centers. A variety of methods available to museums, including hands-on activities, self-teaching materials, technology, outreach, tours, and drama are explored through exercises, projects, museum visitor observation, and in-museum classes. Issues covered include current trends, learning theories and styles, learning from objects, diverse audiences, museum/school partnerships, and the role of education in exhibit development.

MS 390    Internship in Museum Studies    Credit 1-12 hours
Students will gain practical experience while working with a museum or collection. Open to upper division students. Interested students should contact the Internship and Career Services office to secure application materials. Application should be made prior to the semester the internship will be started. The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant, and the work hours.

MUSIC

MUS 016  Chadron State Community Chorus    Credit 0-1 hour
Open to all students and community members without audition. This choir performs a wide array of literature from standard to contemporary choral repertoire and gives at least one concert performance each semester.

MUS 018  Chadron State Community Symphonic Band    Credit 0-1 hour
Open to all students and community members. This ensemble gives a minimum of one concert performance each semester.

MUS 100  Elective Private Music Instruction    Credit 1 hour
Open to nonmajors as well as to majors studying on a secondary basis, according to instructor availability. Individual instruction in piano, organ, voice, percussion, brass instruments, woodwind instruments, stringed instruments, and composition. Attendance at a number of concert events required. Prerequisite: permission of instructor.

MUS 101  Student Recital    No Credit
Course includes selective student performances by music majors and minors and supplemental instruction related to private music lessons. Registration is required each semester for music majors and minors.

MUS 102  Wind Symphony    Credit 1 hour
Open to all students who qualify by audition. This ensemble gives a minimum of one concert performance each semester.

MUS 103  Concert Choir    Credit 1 hour
Open to all students who qualify by audition. This ensemble performs works representing standard and contemporary literature for its regular concerts covering a variety of styles and musical genres.

MUS 104  Vocal Jazz Ensemble    Credit 1 hour
Open to all students who qualify by audition. This ensemble is a select mixed group that performs vocal jazz pieces accompanied by a small jazz combo.

MUS 105  Jazz Ensemble    Credit 1 hour
Open to all students who qualify by audition. This ensemble gives a minimum of one concert performance each semester.

MUS 106  Jazz and Pop Combo    Credit 1 hour
Open to all students who qualify by auditions. This ensemble gives a minimum of one concert performance each semester.
MUS 107  Woodwind Ensemble  Credit 1 hour
Open to all students who qualify by audition. This ensemble gives a minimum of one concert performance each semester.

MUS 108  Brass Ensemble  Credit 1 hour
Open to all students who qualify by audition. This ensemble gives a minimum of one concert performance each semester.

MUS 109  Percussion Ensemble  Credit 1 hour
Open to all students who qualify by audition. This ensemble gives a minimum of one concert performance each semester.

MUS 110  Keyboard Ensemble  Credit 1 hour
Open to all students who qualify by audition. This ensemble gives a minimum of one concert performance each semester.

MUS 112  Music Fundamentals  Credit 2 hours
The development of the basic skills of music fundamentals for the classroom teacher. Required as prerequisite for MUS 333. (Requirement may be met by test-out examination.)

MUS 115  Private Music Instruction  Credit 1-2 hours
Open to majors and minors by audition. Individual instruction in piano, organ, voice, percussion, brass instruments, woodwind instruments, and stringed instruments. Student must enroll simultaneously in MUS 101. Prerequisite: Permission of instructor.

MUS 116  Piano Class for Nonmajors  Credit 1 hour
Introduction to keyboarding for students having limited or no piano background or experience. Emphasis will be placed on gaining physical coordination and familiarity with the keyboard. This course does not serve to fulfill piano proficiency requirements for the music major or minor.

MUS 117  Piano Class I  Credit 1 hour
Instruction in basic keyboard skills, including major scales and arpeggios, specified chord progressions, sight-reading, and harmonization of simple melodies.

MUS 118  Piano Class II  Credit 1 hour
Continuation of MUS 117. Further development of keyboard skills, including harmonic minor scales and arpeggios, more advanced sight-reading, harmonization, and chord progressions, score reading, and basic accompanying skills. Prerequisite: MUS 117 or permission of instructor.

MUS 124  Women’s Vocal Ensemble  Credit 1 hour
Open to all women by audition. This ensemble performs regular concerts covering a variety of styles and musical genres.

MUS 125  Men’s Vocal Ensemble  Credit 1 hour
Open to all men by audition. This ensemble performs regular concerts covering a variety of styles and musical genres. Members must also enroll in Concert Choir.

MUS 126  Showband  Credit 1 hour
Open to all students who qualify by audition. The Showband is a select group of students for the purpose of representing the music program and the school at college and community functions, including football games and other athletic events.
MUS 131  Theory I  Credit 3 hours
This course focuses on the rudiments of Western classical music, including intervals, chords, and scales, and introduces students to the principles of tonal harmony and voice leading as practiced during the eighteenth and nineteenth centuries. Must be taken concurrently with MUS 131L.

MUS 131L  Theory I Laboratory  Credit 1 hour
This course focuses on the development of aural skills through singing and active listening and is coordinated with the content of Theory I. Must be taken concurrently with MUS 131.

MUS 132  Theory II  Credit 3 hours
This course builds on the basic principles of Western harmony, utilizing analytical and compositional skills to develop an understanding of structural components in tonal music. Must be taken concurrently with MUS 132L. Prerequisite: a grade of C or better in MUS 131.

MUS 132L  Theory II Laboratory  Credit 1 hour
This course focuses on the development of aural skills through singing and active listening and is coordinated with the content of Theory II, including examination of phrase structure. Must be taken concurrently with MUS 132.

MUS 199  Admission to Candidacy  No Credit
Performance assessment required of all music majors during the second semester of enrollment in private music instruction. Must be taken concurrently with MUS 115. Prerequisite: At least one prior semester of MUS 115 or permission of instructor.

MUS 215  Private Music Instruction  Credit 1-2 hours
Individual instruction in piano, organ, voice, percussion, brass instruments, woodwind instruments, and stringed instruments. Student must enroll simultaneously in MUS 101. Prerequisite: MUS 199 or permission of instructor.

MUS 216  Guitar Class  Credit 1 hour
Designed for the music major and general college student. The basic techniques of playing the guitar, including both choral and solo techniques. Guitars are furnished.

MUS 220  Piano Class III  Credit 1 hour
Continued development of skills in harmonization, improvisation, sight-reading, score reading, and accompanying at the keyboard. Completion of this course with a grade of B or better will meet the piano proficiency requirement for all music majors and elementary music minors. Prerequisite: MUS 118 or permission of instructor.

MUS 221  Keyboard Skills for the Classroom Teacher  Credit 1 hour
Refinement of keyboard skills with direct application to the music education environment, with emphasis in harmonization, score reading and accompanying. Prerequisite: MUS 220 or permission of instructor.

MUS 230  Voice Class for Nonmajors  Credit 1 hour
Beginning vocal instruction and master class for nonmusic majors. Includes a study of vocal techniques and their application in selected vocal literature.

MUS 231  Theory III  Credit 3 hours
This course applies the skills learned in Theory I and II to the structural level, exploring the techniques of modulation and applying them through analysis of Baroque and Classical forms. Must be taken concurrently with MUS 231L. Prerequisite: MUS 132.

MUS 231L  Theory III Laboratory  Credit 1 hour
This course focuses on the development of aural skills through singing and active listening and is coordinated with the content of Theory III, including aural recognition of structure. Must be taken concurrently with MUS 231.
MUS 232  Theory IV  Credit 3 hours
This course explores chromatic techniques of tonal harmony and continues to investigate forms. Techniques of counterpoint and sonata form will be explored in literature from the 18th through the 20th centuries. Jazz harmonies are also introduced. Must be taken concurrently with MUS 232L. Prerequisite: MUS 231.

MUS 232L  Theory IV Laboratory  Credit 1 hour
This course focuses on the development of aural skills through singing and active listening and is coordinated with the content of Theory IV, including aural recognition of structure. Jazz improvisation techniques are also introduced. Must be taken concurrently with MUS 232.

MUS 235  Elements of Music  Credit 3 hours
How to listen to and appreciate the human and cultural values of various styles of music as well as learning the significance of music as cultural and aesthetic expression. For non-music majors.

MUS 236  Topics in Music  Credit 1-3 hours
To meet the specific needs of a group of students by studying areas of music not presented in the curriculum. The class will include lecture, demonstrations, writing, and performance. May be repeated with different emphasis.

MUS 238  Diction for Singers  Credit 2 hours
This course covers the study of diction for singers in four languages. The International Phonetic alphabet will be used in analyzing song texts in terms of diction and pronunciation.

MUS 240  Principles of Conducting  Credit 2 hours
A study of basic conducting techniques. Emphasis is placed upon the mastery of simple patterns, cues, and expressive gestures, and on common problems in leading group singing and in directing musical ensembles.

MUS 299  Sophomore Qualifying Examination  No Credit
Performance assessment required of all music majors prior to enrollment into upper-division private music instruction. A student must have a cumulative GPA of 3.00 on his/her major instrument or voice (MUS 115/215) to present the qualifying exam. Must be taken concurrently with MUS 215. Prerequisite: At least one prior semester of MUS 215 or permission of instructor.

MUS 300  Elective Private Music Instruction  Credit 1 hour
Open to nonmajors as well as to majors studying on a secondary basis, according to staff availability. Individual instruction in piano, organ, voice, percussion, brass instruments, woodwind instruments, stringed instruments, and composition. Prerequisite: permission of instructor.

MUS 302  Wind Symphony  Credit 1 hour
Open to all students who qualify by audition. This ensemble gives a minimum of one concert performance each semester.

MUS 303  Choir  Credit 1 hour
Open to all students who qualify by audition. This ensemble performs works representing standard and contemporary literature for its regular concerts covering a variety of styles and musical genres.

MUS 304  Vocal Ensemble  Credit 1 hour
Open to all students who qualify by audition. This ensemble is a select mixed group that performs vocal jazz pieces accompanied by a small jazz combo.

MUS 305  Jazz Ensemble  Credit 1 hour
Open to all students who qualify by audition. This ensemble gives a minimum of one concert performance each semester.

<tr>
<td>MUS 326</td>
<td>Showband</td>
<td>1 hour</td>
</tr>
<tr>
<td></td>
<td>Open to all students who qualify by audition. The Showband is a select group of students for the purpose of representing the music program and the school at college and community functions, including football games and other athletic events.</td>
<td></td>
</tr>
<tr>
<td>MUS 329</td>
<td>Developing Music Literacy in Children</td>
<td>3 hours</td>
</tr>
<tr>
<td></td>
<td>A progression to music literacy from singing and dancing to playing, identifying tonal and rhythmic patterns from known repertoire as building blocks for writing and reading music notation.</td>
<td></td>
</tr>
<tr>
<td>MUS 330</td>
<td>African-American Popular Music, 1619-1980</td>
<td>3 hours</td>
</tr>
<tr>
<td></td>
<td>Study of the music of African-Americans from the arrival of the first African in 1619 to the 1980s. The course details seven Pan-African musical characteristics and traces the effects on European music. The course views the progression of these characteristics through the development of blues, popular music, jazz, country music, and rock.</td>
<td></td>
</tr>
<tr>
<td>MUS 333</td>
<td>Music for the Classroom Teacher</td>
<td>3 hours</td>
</tr>
<tr>
<td></td>
<td>Materials and methods pertaining to the integration of music in the elementary classroom. Stresses demonstration and class participation. Required for all elementary education majors. Prerequisite: MUS 112.</td>
<td></td>
</tr>
<tr>
<td>MUS 335</td>
<td>Recording Techniques</td>
<td>2 hours</td>
</tr>
<tr>
<td></td>
<td>An introduction to recording techniques using computer-based digital recording with standard software. This course will prepare students to produce demo recordings and include training in studio setup, signal flow, microphone placement, editing, plug-ins, and mixing. Open to all music majors or by permission of the instructor.</td>
<td></td>
</tr>
<tr>
<td>MUS 336</td>
<td>Jazz Improvisation I</td>
<td>2 hours</td>
</tr>
<tr>
<td></td>
<td>Development of basic improvisational skills in the area of jazz performance. Tunes designed to work on a specific problem will be practiced. Ear training methods and patterns will serve to encourage creativity and facility for the tunes to be played.</td>
<td></td>
</tr>
</tbody>
</table>
MUS 337  Jazz Improvisation II  Credit 2 hours
Continuation of the development of improvisational skills as they apply to specific problems of jazz performance, with particular emphasis on improvising to specific tunes or progressions. Ear training and theory as they apply to jazz will be discussed at a more advanced level. Prerequisite: MUS 336.

MUS 390  Internship in Music  Credit 1-12 hours
Provides practical experience in the music products industry or the entertainment industry. Interested students should contact the Internship and Career Services office to secure application materials. Application should be made prior to the semester the internship will be started. The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant, and the work hours.

MUS 399  Solo Half-Recital  No Credit
A 25- to 30-minute solo performance. The performing student must have a cumulative GPA of 3.00 on his/her major instrument or voice (MUS 115/215/315) in order to present the recital. Additionally, the student must receive the recommendation of the private instructor and the collective music faculty at a pre-recital hearing held at least three weeks prior to the scheduled recital date. Must be taken concurrently with MUS 315. Prerequisite: at least one prior semester of MUS 315.

MUS 400  Independent Study or Research  Credit 1-3 hours
Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Permission of Instructor or Dean is required.

MUS 412  The Techniques of the Marching Band  Credit 1 hour
Comparative techniques of movement and music.

MUS 413  Songwriting/Arranging and MIDI I  Credit 1 hour
An introduction to general arranging and composing skills, applied through writing songs and arrangements utilizing MIDI (Musical Instrument Digital Interface) Technology.

MUS 414  Arranging II  Credit 1 hour
Continuation of MUS 413, involving the development and practice of arranging skills as they apply to professional and teaching situations. A large ensemble arrangement will be done.

MUS 415  Private Music Instruction  Credit 1-2 hours
Individual instruction in piano, organ, voice, percussion, brass instruments, woodwind instruments, and stringed instruments. Student must enroll simultaneously in MUS 101. Prerequisite: MUS 399.

MUS 419  Music Business  Credit 3 hours
How the music industry operates, with emphasis on the record industry, publishing/songwriting, copyright, merchandising, retail, and marketing. Musical aspects as well as business and legal aspects are examined.

MUS 420  Music Products Seminar  Credit 3 hour
Study of the music products industry including manufacturing, print publishing, and sales.

MUS 421  Advanced Conducting  Credit 2 hours
Advanced baton technique, score study, interpretation, rehearsal techniques, and repertoire. Prerequisite: MUS 321 or MUS 322.

MUS 423  Piano Studio Literature  Credit 1 hour
Study of piano literature for use in the independent piano studio that extends beyond the methods materials and progresses sequentially through late-intermediate and early-advanced literature.

MUS 424  Piano Studio Technique and Theory  Credit 1 hour
The study of piano technique and theory for use in the independent piano studio that extends beyond the methods materials and progresses sequentially through late-intermediate and early-advanced concepts and skills.

</table>
PHIL 433  Biomedical Ethics  Credit 3 hours
A philosophical study of ethical issues that arise within the practice of medicine and the biological sciences. Topics to be covered might include abortion, euthanasia, relationships with patients, ethics of research, or social funding of health care.

PHIL 435  Environmental Ethics  Credit 3 hours
A philosophical study of ethical issues that involve the relationship between humans and their natural environment. Topics to be covered might include theories of nature, animal rights, pollution, consumption patterns, and multicultural perspectives.

PHYSICS

PHYS 110  Careers in Science  Credit 1 hour
Introduction for Physical Sciences majors to career options. Students will conduct independent research of selected firms or agencies. A required field trip to a major metropolitan area will provide knowledge of opportunities and challenges of the technical job market.

PHYS 135  Physical Science  Credit 3 hours
An integrated course in physical sciences including astronomy, earth science, geology, physics, and chemistry.

PHYS 151  College Physics I  Credit 4 hours
Principles of mechanics, sound, thermodynamics, and fluid mechanics. Concurrent enrollment in PHYS 151L required. Prerequisites: 2 years of high school algebra or MATH 135, 138 or 142, or consent of instructor.

PHYS 151L  College Physics I Laboratory  Credit 1 hour
Laboratory exercises in College Physics I. Concurrent enrollment in PHYS 151 required.

PHYS 152  College Physics II  Credit 4 hours
Principles of electricity, magnetism, light, optics and modern physics. Concurrent enrollment in PHYS 152L required. Prerequisites: MATH 135, 138, or 142 AND either high school trigonometry or MATH 134.

PHYS 152L  College Physics II Laboratory  Credit 1 hour
Laboratory exercises in College Physics II. Concurrent enrollment in PHYS 152 required.

PHYS 230  Introduction to Physics  Credit 3 hours
Introduction to the concepts of Physics, including selected topics in mechanics, properties of matter, heat, sound, electricity & magnetism, light, and nuclear physics. Designed to address the needs of the non-physics major. Not for credit towards physical science major or any physical science minor.

PHYS 241  University Physics I  Credit 4 hours
The principles of mechanics, heat and sound. Differential and integral calculus applied. Concurrent enrollment in PHYS 241L required. Prerequisite: MATH 138 or 151, or consent of instructor.

PHYS 241L  University Physics Laboratory I  Credit 1 hour
Laboratory exercises in University Physics I. Concurrent enrollment in PHYS 241 required.

PHYS 242  University Physics II  Credit 4 hours
Principles of magnetism, electricity, and optics. Differential and integral calculus applied. Concurrent enrollment in PHYS 242L required. Prerequisite: PHYS 241/241L.

PHYS 242L  University Physics Laboratory II  Credit 1 hour
Laboratory exercises in University Physics II. Concurrent enrollment in PHYS 242 required.
PHYS 251  Statics  
Systems of force, static equilibrium, friction, center of gravity, moment of inertia, vector algebra, and central forces. Prerequisites: PHYS 151 or 241, and MATH 151.

PHYS 252  Dynamics  
Displacement force, velocity and acceleration of rigid bodies, kinematics of planar motion, rotation and moment of inertia, work and energy, impulse and momentum, and lagrangian dynamics. Prerequisite: PHYS 251.

PHYS 270  Topics in Physics  
Special topics appropriate for lower division credit in physics. May be repeated with different emphases for up to six hours of credit.

PHYS 310  Capstone I: Research Seminar  
The student will choose a topic for research and conduct a literature survey of that topic. Preliminary results and a plan for conducting further independent research on the topic will be presented in oral and written form during the semester. Normally taken during the student’s Junior year.

PHYS 320  Supervised Study in Laboratory and Field Methods  
Students will prepare, supervise, and evaluate laboratory exercises under the direction of faculty members. The course is designed to give students practical experience teaching in the laboratory setting.

PHYS 330  Physical Science for the Elementary and Middle Grades Teacher  
A laboratory oriented course intended to strengthen the physical science background of the elementary and middle grades teacher.

PHYS 333  Astronomy  
A descriptive study of the solar system, stars, and galactic systems, including theories of the origin of the universe and the solar system. Concurrent enrollment in PHYS 333L required.

PHYS 333L  Astronomy Laboratory  
Laboratory experience in astronomy. Held in the evening either outdoors or in the planetarium. Concurrent enrollment in PHYS 333 required.

PHYS 334  Meteorology  
The physical behavior of the atmosphere including the causes of weather and the elements of forecasting.

PHYS 370a  Modern Physics  
Special relativity, quantum mechanics, nuclear physics, atomic physics, and additional topics concerning physics in the twentieth century. Prerequisite: PHYS 152 or 242.

PHYS 370c  Modern Physics Laboratory  
Experiments dealing with modern physics.

PHYS 370d  Scientific Computer Applications  
A computer based laboratory designed to familiarize students with physical science related computer applications.

PHYS 370e  Math for the Physical Sciences  
The application of analytic geometry, calculus, vectors, and partial differential equations to the solutions of problems in the physical sciences. Prerequisite: MATH 138 or 151.
PHYS 390  Internship in Physics  Credit 1-12 hours
Provides practical experience as a physicist in government, business, or industry. Open to upper division students majoring in the area of physics. Interested students should contact the Internship and Career Services office to secure application materials. Application should be made prior to the semester the internship will be started. The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant, and the work hours.

PHYS 400  Independent Study or Research  Credit 1-3 hours
Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Permission of Instructor and Dean is required.

PHYS 401  Capstone II: Senior Research  Credit 2 hours
Independent research projects based on the results presented in PHYS 310. Data collection, analysis, and presentation of scientific papers. Normally taken during the student’s Junior or Senior year. May be repeated for a total of up to six hours of credit. Prerequisite: PHYS 310.

PHYS 410  Capstone III: Senior Research Thesis  Credit 1 hour
Research thesis is completed and presented at the Nebraska Academy of Sciences or other regional or national scientific forum approved by the faculty. Required field trip in late April. Normally taken during the student’s Senior year. Prerequisite: PHYS 401.

PHYS 430  Topics in Physics  Credit 1-3 hours
A course on selected science topics. Course content will vary to meet the special needs of students. The course may involve classroom and/or field oriented activity. Credit is dependent upon length of course and depth of study. May be repeated with different topics.

PHYS 434  Mechanics  Credit 3 hours
Principles of Newtonian mechanics including Lagrangian and Hamiltonian formalism. Prerequisite: PHYS 241.

PHYS 435  World Environmental Issues  Credit 3 hours
Exploration of world environmental problems. Discussion participation setting emphasizes library research, accessing information, critical analysis of media news, and information and global prescriptive measures. The course culminates in student action plans that may effect environmental change.

PHYS 444  Thermodynamics  Credit 3 hours
Principles of statistical physics and applications to the laws of thermodynamics. Prerequisite: MATH 151 and PHYS 151 or 241.

PHYS 454  Electricity and Magnetism I  Credit 3 hours
Special methods in electromagnetic theory, static fields, introduction to Maxwell’s equations, and electric fields in the presence of matter. Prerequisite: PHYS 152 or 242.

PHYS 464  Quantum Mechanics I  Credit 3 hours
Current methods in quantum mechanics, wave nature of matter, symmetry laws, and development of state function.

PHYS 471d  Electricity and Magnetism II  Credit 3 hours
Dynamic fields, magnetic fields in the presence of matter, propagation of electromagnetic radiation, and advanced use of Maxwell’s equations. Prerequisite: PHYS 454.

PHYS 471e  Optics  Credit 1 hour
A study of optical phenomena including ray optics and wave optics.

PHYS 471g  Quantum Mechanics II  Credit 3 hours
Time development of wave functions, perturbation theory, spin functions, the hydrogen atom, and the WKB approximation. Prerequisite: PHYS 464.
PHYS 471h  Advanced Astronomy  Credit 1-3 hours
A quantitative study of topics introduced in PHYS 333. Includes astrophotography, deep sky viewing, planetarium. Prerequisite: PHYS 333/333L.

PHYS 471j  Independent Study or Research  Credit 1-3 hours
Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Permission of instructor and School Dean is required.

PHYS 471k  Advanced Physics Laboratory  Credit 1-2 hours
Experiments in optics, electronics, mechanics, and modern physics. Credit 1 or 2 hours each semester, with maximum of 4 hours total allowable.

PHYS 471m  Topics in Physics  Credit 1-3 hours
Designed to meet the needs of students in a special area of interest. May be repeated for up to six hours.

POLITICAL SCIENCE

PS 231  American National Government  Credit 3 hours
Fundamentals of the federal system of government in the United States, including background, organization, processes, functions, political thought, public opinion in relation to politics, and politico-economic relations.

PS 332  International Politics  Credit 3 hours
Structure of the nation-state system and the process of international political activity with an emphasis on the questions: How do states behave toward one another? Why do they behave these ways? Topics treated are diplomacy, ideology, economic and security objectives of states, disarmament, international law, international organizations with emphasis on the United Nations, war and prospects for peace, and current international problems.

PS 333  The Judiciary and Constitutional Law  Credit 3 hours
American law in action, development of modern jurisprudence, structure and function of federal and state judicial systems, and the role of legislature in the legal process. Development of the American governmental systems through judicial interpretation of the Constitution. Cross-listed as CJ 333 and LS 333.

PS 334  Public Opinion and Propaganda  Credit 3 hours
This course includes analysis of influences on public opinion, influences of public opinion on the political process, and measurement of public opinion. Specific topics included are techniques of attitude change, the influence of the media, and demographic correlates of public opinion. Students will participate in a study measuring public opinion. Cross-listed as SOC 334.

PS 337  Introduction to Law  Credit 3 hours
Structures of our legal system, considering the economic, social, and political implications as they influence the development of a rule of law, historical and contemporary legal controversies will be examined. Cross-listed as CJ 337.

PS 341  Comparative Politics  Credit 3 hours
Examines various types of political systems in the world today, including parliamentary democracy, authoritarian rule, theocratic, and communist government. Looks at larger transnational and global trends, such as the population explosion in the developing world and the rise of multinational corporations. The governments of countries such as China, France, Mexico, and India will be covered.

PS 344  U.S. Political History in the 20th Century  Credit 3 hours
History of American politics and political movements between 1896 and 2001. Particularly focuses on how changes to an increasingly urban and internationally powerful country changed its political processes and values. Cross-listed as HIST 344.
PS 390   Internship in Political Science  
Credit 1-12 hours  
Provides practical experience in political science in a state or federal agency or other relevant office. Open to upper division students majoring in one of the social sciences or a minor in political science. Interested students should contact the Internship and Career Services office to secure application materials. Application should be made prior to the semester the internship will be started. The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant, and the work hours.

PS 400   Independent Study/Research  
Credit 1-3 hours  
Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Permission of the Instructor and Dean is required.

PS 420   American Political Thought  
Credit 3 hours  
Main lines of American political thought and ideology will be examined. The Founding era, especially the debates between the Federalists and the Antifederalists, will be emphasized, as will developments in the post-WWII era.

PS 421   Contemporary Political Ideologies  
Credit 3 hours  
Most important contemporary political ideologies will be examined, with an emphasis upon those most prevalent in the United States. Central ideologies discussed will include social conservatism, libertarianism, and populism.

PS 430   Topics in Political Science  
Credit 3 hours  
Special topics in Political Science. May be repeated with a change of emphasis.

PS 431   History of Political Thought  
Credit 3 hours  
Various themes in political philosophy will be covered, such as political obligation, rights, freedom, and justice. Major philosophers covered will include Plato, Locke, and Rousseau.

PS 432   The Legislative Process  
Credit 3 hours  
Analysis of the legislative process in Congress and American state legislatures. Emphasis on statute-law making, oversight of the executive and representative function of the legislature, concurrent with an examination of decision-making, and legislative norms and roles.

PS 435   The Presidency  
Credit 3 hours  
This course examines the institutional development of the Presidency. Special emphasis is placed on presidential decision making, presidential leadership, and the growth of executive power.

PS 436   Field Study in Political Science  
Credit 3 hours  
This course provides an opportunity for direct observation of governmental officials and other political participants. A typical session is a two-week stay in Washington, D.C. examining the activities of the Federal Government. Registration by permission of Instructor only.

PSYCHOLOGY

PSYC 131   General Psychology  
Credit 3 hours  
An overview of psychology, with introduction to perspectives and research findings in subfields which are part of psychology, including sensation and perception, motivation and emotion, learning and memory, thinking and intelligence, developmental psychology, abnormal psychology, and social psychology are also covered.

PSYC 160   Special Topics in Psychology  
Credit 1-3 hours  
Special topics of current interest in psychology are considered in depth. Students make take more than one special topics course for credit when topics have different course content.

</tbody>
</table>
PSYC 430  Introduction to Physiological Psychology  Credit 3 hours
Surveys neural morphology and physiology and addresses biology’s multifaceted role in fundamental psychological processes. Prerequisite for psychology majors: PSYC 131.

PSYC 432  Research Design in Psychology  Credit 3 hours
Introduction to the research cycle in psychology. Students develop research questions, choose research methodologies, collect and analyze data, and report findings through written reports and oral presentations. Qualitative and quantitative research designs, ethical issues in research and a discussion of the philosophical issues related to social science research. Prerequisites for psychology majors: PSYC 131 and PSYC 238.

PSYC 433  Abnormal Psychology  Credit 3 hours
Survey of major mental and behavioral disorders by classification and categorical domains, and proposed genetic, neurological, behavioral, cognitive, emotional, social, and interpersonal influences that might contribute or be causative factors of mental health disorders. Prerequisite for psychology majors: PSYC 131.

PSYC 434  Organizational Psychology  Credit 3 hours
Examines work-group behavior, developing individuals in organizations, appropriate supervisory behavior, intergroup relations, and managing change within organizations. Explored from both an individual perspective and an organizational perspective, clarifying major theories and their applications. Prerequisite for psychology majors: PSYC 131.

PSYC 435  Theories of Personality  Credit 3 hours
Major theoretical orientations and research findings in personality psychology. Prerequisite for psychology majors: PSYC 131.

PSYC 438  Advanced Behavioral Statistics  Credit 3 hours
Computational and graphical techniques in descriptive and inferential data analysis. Primary topics include the scales of measurement, shapes and types of distributions, measures of central tendency and variability, correlation, regression, hypothesis testing; analysis of variance, interval estimation, sampling, and probability theory. Course will also be include an introduction to statistical software and multivariate methods. Prerequisite: PSYC 238.

PSYC 442  Modern and Historical Psychological Perspectives  Credit 3 hours
An examination of the development of psychology from early concepts to its present status, including historical roots within the major schools of psychology, and relationships to other disciplines. Consideration is given to career paths for the psychology major. Prerequisite for psychology majors: PSYC 131.

PSYC 449  Advanced Forensic Psychology  Credit 3 hours
An in-depth look at the promises and problems of forensic psychology, including the application of psychological research, methods, theory, and practice as it applies to the legal system. Prerequisite for psychology majors/minors: PSYC 131.

READING

READ 400  Special Topics in Reading  Credit 1-3 hours
Recent trends and issues in the field of reading.

READ 430  Reading and Writing in the Middle and Secondary Schools  Credit 3 hours
The nature of reading, pertinent research in the field, reading and writing as applicable to the middle and secondary reading curriculum, management of the middle and secondary reading and writing programs, application of reading and writing skills to the various subject areas, the selection of effective materials of teaching methods and techniques, and the use of various types of tests. Prerequisites: student teaching or teaching experience.
SOCIAL SCIENCE

SS 323  Law and the American Society  Credit 3 hours
Nature, functions, and limits of law and its impact on economic, political, and social institutions.

SS 390  Internship in Social Science  Credit 1-12 hours
Provides practical experience in social science in a social or governmental agency. Open to upper division students majoring in one of the social sciences. Interested students should contact the Internship and Career Services office to secure application materials. Application should be made prior to the semester the internship will be started. The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant, and the work hours.

SS 400  Independent Study/Research  Credit 1-3 hours
Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Permission of Instructor and Dean is required.

SS 430  Topics in Social Science  Credit 1-3 hours
Special topics in Social Science. May be repeated with a change of emphasis.

SS 436  Seminar in Social Science  Credit 1-6 hours
Offered in any of the Social Science disciplines. Designed to meet the specific needs of a group of students, analogous to the way in which Independent Study or Research is designed to meet the needs of a specific student. Permission of the Instructor is required.

SOCIAL WORK

SW 230  Topics in Social Work  Credit 1-3 hours
Special topics in Social Work. May be repeated with a change of emphasis.

SW 231  Professional Social Work  Credit 3 hours

SW 251  Human Behavior in the Social Environment I  Credit 3 hours
Examines theories of human development from prenatal to old age using a multidimensional, multicultural perspective that includes bio-physical, psychological, social, economic, and spiritual. Students apply developmental knowledge.

SW 252  Human Behavior in the Social Environment II  Credit 3 hours
Examines theories and perspectives on human behavior in organizations and communities, including political-economic motivations, expectation sets, and joining behaviors. Students apply developmental knowledge and multidimensional perspectives through self-reflection, observations, interviews, and written analyses. Prerequisite SW 251.

SW 271  Social Welfare History and Service Delivery Systems  Credit 3 hours
Examines the developmental history of social welfare with a focus on political, social, cultural ideologies and systems during periods in European and American history. Examines the context for the development of social programs and the treatment of various out-groups, including persons considered poor, developmentally disabled, mentally retarded, ethnic and racial minorities, women, disabled, children, gay men and lesbian women, and religious minorities within the international community. Students analyze policy implementation of local social service delivery systems using a descriptive model of policy analysis.
SW 330  Diversity in the Rural Environment  Credit 4 hours
Examines social issues (poverty, isolation, transportation, and housing) and theories related to the life experience of African Americans, Native Americans, Asian Americans, and Hispanic Americans. Explores cultures and heritages of these groups along with other social groups such as women and sexual minorities in the rural context. Discusses factors of service provision with emphasis on capacity building of rural communities and issues of accommodation, acculturation, and assimilation. Advanced Professional Social Work Program course. Prerequisite: SW 231, 251, 252, 271.

SW 331  Services to Children and Families  Credit 3 hours
Needs of children and families and services appropriate to satisfy these needs. Focuses on difficulties, strategies for intervention based upon a multi-cultural strengths perspective. Social Services for children and families are identified. Field trips and/or agency guest lecturers provide an opportunity for on-site observation.

SW 332  Services to Elderly and Differently Abled  Credit 3 hours
Needs of the elderly as well as the physically and mentally differently abled are explored. Current services and alternatives will be considered. Myths and values will be discussed along with specific treatment modalities.

SW 338  Cross Cultural Practice Skills  Credit 3 hours
Explores the practice skills and cultural competencies necessary to practice Social Work with peoples of color, specifically Native Americans, African Americans, Hispanic Americans, and Asian Americans. Examines the historical context of social service interventions, current areas of need, and skills required to provide Social Work interventions within a cross-cultural setting. Prerequisite: SW 271.

SW 339  Alcohol and Substance Abuse  Credit 3 hours
Examines the current state of knowledge associated with alcohol and substance use, abuse, and dependency, including the physical and pharmacological effects on the human body. Explores Social Work roles and values related to assessment and interventions with substance abuse issues in the context of individuals, families, organizations, and communities. Focus includes alcohol use, alcohol abuse, alcohol dependence, the disease concept, social issues, other chemicals abuse, and dual diagnosis of substances and mental illness. Ethno cultural factors in substance dependency are examined.

SW 340  Mental Health Social Work  Credit 3 hours
Examines the current state of knowledge in the field of mental health and mental health treatment, including theories of mental health and health illness and concepts of: case management, determination of need, mental health service systems, scope and variety of interventive methods, role of the interdisciplinary team, evaluation, and impact of discrimination.

SW 343  Research Methods  Credit 3 hours
Introduces qualitative and quantitative world views, basic research methods, including developing single subject, survey, and grounded theory research designs to evaluate practice. Critiques of research articles and application of existing Social Work knowledge and empirical research to design interventions with individuals, families, groups, communities, and organizations. Students apply knowledge and skills through individual and group projects. Advanced Professional Social Work Program course. Prerequisite: PSYC 238; SW 231, 251, 252, 271; Co-requisite: SW 343L.

SW 343L  Research Methods Lab  Credit 1 hour
Students apply a knowledge of SPSS and Qualitative software involving data entry and data analysis on data generated from group projects developed in SW 343 Social Work Research Methods. Students complete developmental assignments on use of SPSS and qualitative analysis. Advanced Professional Social Work Program course. Co-requisite: SW 343.

SW 400  Independent Study/Research  Credit 1-3 hours
Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Prerequisite: Permission of Instructor and Dean is required.

</tr>
<tr>
<td>SW 433</td>
<td>Methods II: Therapeutic and Task Groups</td>
<td>3</td>
<td>Examines a broad range of groups, with emphasis on group theory, the nature and uses of therapeutic and task groups, including: group development, group dynamics, group facilitation skills, group assessments and outcomes. Students apply knowledge, skills, and values in simulations and role plays with emphasis on assessment, design, and interventions with multi-cultural individuals, families, organizations and communities. Advanced Professional Social Work Program course. Co-requisite: SW 343 and 432.</td>
</tr>
<tr>
<td>SW 434</td>
<td>Policy Analysis and Advocacy</td>
<td>3</td>
<td>Examines theories on the development of public social welfare policy in the United States and explores the mechanisms and methods that sustain discrimination and oppression within policy processes. Examines historical, content, process, political-economic, comparative, and constructivist models of policy analysis and applies these models to national and global social welfare issues for at-risk populations. Students complete a policy analysis of a national policy with local relevance, recommend proposed changes, and identify strategies for changing social welfare policies and practices. Advanced Professional Social Work Program course. Co-requisite: SW 433.</td>
</tr>
<tr>
<td>SW 435</td>
<td>Methods III: Organizations and Communities</td>
<td>3</td>
<td>Explores strategies and tactics for organizational and community change using a strength’s perspective with attention to changing barriers to out-group participation in society and with attention to building systems responsive to the physical, psychological, social and economic needs of minority populations. Students complete organizational and community assessments, identify change targets, propose strategies and tactics for creating change. Advanced Professional Social Work Program course. Co-requisite: SW 434.</td>
</tr>
<tr>
<td>SW 436</td>
<td>Forensic Social Work</td>
<td>3</td>
<td>Examines the application of Social Work knowledge and skills to law and the justice system, specifically in working with adjudicated individuals in clinics, prisons, juvenile and adult services, diversion programs, corrections, court mandated treatment, and psychiatric hospitals. Explores perspectives on issues of responsibility and competence to stand trial as juveniles and adults.</td>
</tr>
<tr>
<td>SW 458</td>
<td>Methods: Integrative Seminar</td>
<td>2</td>
<td>Based on case studies presented by the instructor and community professionals, students conduct multidimensional assessments, develop multi-level interventions, and propose evaluation methods using Social Work empirical knowledge, existing research, and practice theories of individuals, families, groups, organizations, and communities. Issues associated with race/ethnicity, minority status, disabilities, and economic status involving vulnerable populations or at-risk population are emphasized. Advanced Professional Social Work Program course. Co-requisite: SW 435.</td>
</tr>
</tbody>
</table>
SW 459  Pre-Field and Orientation  Credit 1 hour
Examines ethical dilemmas and ethical decision making, Social Work Code of Ethics, professional behavior, organizational entry, use of supervision, and field instruction policies and procedures. Field instructors and students complete written learning agreements with identified tasks that permit measurement of student attainment of social work program knowledge, skill and value objectives. Students complete a 16 hour orientation to assigned field agency. Advanced Professional Social Work Program course. Co-requisite: SW 458.

SW 463  Professional Seminar  Credit 2 hours
Explores ethical issues and dilemmas and skills in collegial support and feedback through mutual problem-solving. Examines life long learning, job seeking, job interviewing, professional networking, state certification, state licensure and Social Work licensing boards, NASW membership, professional memberships, and graduate MSW applications. Students report progress on achievement of learning tasks and demonstrate use of empirical knowledge to guide practice based assessments and interventions. Advanced Professional Social Work Program course. Prerequisite: SW 459; Co-requisite: SW 464.

SW 464  Social Work Field Practicum  Credit 5 - 10 hours
Provides a structured educational experience in an approved social service agency with an approved field instructor based upon a written learning contract. Students complete a variety of learning tasks that demonstrate knowledge, skills, and values of a beginning generalist Social Work Professional. Students should enroll for 10 credit hours and expect to work 40 hours per week for the semester. In special situations and with the approval of the Field Coordinator, a student may register for 5 credit hours in each of two consecutive semesters and expect to work 20 hours per week. May be repeated to a total of 10 credit hours. Advanced Professional Social Work Program course. Prerequisite: SW 459; Co-requisite: SW 463.

SOCIOLOGY

SOC 230  Society: Global Comparison  Credit 3 hours
This course involves study and comparison of several societies including that of The United States. Specific areas of comparison include family structure, conflict resolution, economic activity, history and demography, education, and religion.

SOC 231  Introduction to Sociology  Credit 3 hours
An introductory survey of the field of Sociology, including major theories, contemporary methods, examination of research and writing in subfields of Sociology, and participation in a class research project.

SOC 270  Topics in Sociology  Credit 1-3 hours
Special Topics appropriate for lower division credit. May be repeated with different emphases for up to six hours of credit.

SOC 332  Juvenile Delinquency  Credit 3 hours
History and concept of delinquency, nature and extent of delinquency, theories of delinquency, and environmental influences of delinquency, including child abuse and neglect, school-based crime, gang control efforts, and the relationship between delinquency and drug abuse. Cross-listed as CJ 332.

SOC 333  Marriage and the Family  Credit 3 hours
A study of relations in dating, courtship, marriage, and parenting. Includes focus on the life cycle, conflict and divorce, sex, and non-traditional relationships.

SOC 334  Public Opinion and Propaganda  Credit 3 hours
This course includes analysis of influences on public opinion, influences of public opinion on the political process, and measurement of public opinion. Specific topics included are techniques of attitude change, the influence of the media, and demographic correlates of public opinion. Students will participate in a study measuring public opinion. Cross-listed as PS 334.
SOC 335  Ethnic and Minority Group Relations  Credit 3 hours
Analyzes relations of minority groups and dominant groups in the United States and selected other countries. Theories and research findings are included. Field trips may be required.

SOC 336  The Sociology of Religion  Credit 3 hours
Sociological study of religion including questions of the relations between religion and other social institutions, and the function of religious beliefs and practices for the individual, groups, and society.

SOC 337  Community Structure and Change  Credit 3 hours
Study of rural and urban communities. Includes focus on social and spatial characteristics, community change, and planning. Includes field trips. Cross-listed as GEOG 337.

SOC 339  Criminology  Credit 3 hours
Introduction to the study of the nature and causes of criminal behavior. Theories of crime causation ranging through biological, psychological, sociological, and cultural theories are discussed in addition to the historical influences and thought which have led to criminology’s development as contemporary science. Cross-listed as CJ 339.

SOC 340  Social Change  Credit 3 hours
Examines theories of social change and selected cases of social change, including revolutions, social movements, collective behavior, and social activism. Course requirements include individual or group participation in some effort to bring about social change.

SOC 343  Research Methodology  Credit 3 hours
Logic, design, and procedures of social research including questionnaire design and analysis, evaluation research, field research, participant observation, single case design, and experimental design. Students will conduct quantitative and qualitative research.

SOC 390  Internship in Sociology  Credit 1-12 hours
Provides practical experience in a setting relevant to the discipline of sociology. Open to upper division students pursuing a major or minor in sociology. Interested students should contact the Internship and Career Services office to secure application materials. Application should be made prior to the semester the internship will be started. The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant, and the work hours.

SOC 400  Independent Study/Research  Credit 1-3 hours
Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Permission of Instructor and Dean is required.

SOC 430  Topics in Sociology  Credit 3 hours
Special topics in Sociology. May be repeated with a change of emphasis.

SOC 433  Sociological Theory  Credit 3 hours
Sociological thought primarily from the 18th century to the present, with emphasis on selected classical theorists and major contemporary theories.

SOC 439  Sociology of Deviance  Credit 3 hours
Examination of deviant behavior as an element of the social world, including focus on patterns of non-criminal as well as criminal deviance, and on explanations of deviant behavior.

SPANISH

SPAN 101  Beginning Spanish I  Credit 4 hours
Introduction to Spanish with the purpose of developing intelligent recognition and imaginative self-expression in the language. Total immersion in the Spanish language with the goal of learning several basic grammatical tenses, building vocabulary and becoming familiar with important aspects of Peninsular and Latin American culture.

</table>
SPAN 400  Independent Study or Research  Credit 1-3 hours
Open to students who wish to do advanced work in a special field of Spanish. Conferences to be arranged. Permission of Instructor and Dean is required.

SPAN 430  Advanced Topics in Spanish  Credit 1-3 hours
An advanced study of different topics of special interest, taught in Spanish. Prerequisite: One 300 level Spanish course.

SPAN 438  Advanced Summer Program Abroad  Credit 3 hours
Intense exposure to the Spanish language and to the culture of one of the countries in which it is spoken. This advanced course is only offered in conjunction with a four week residence in a Spanish speaking country. Repeatable for up to 6 credit hours.

SPECIAL EDUCATION

SPED 230  Introduction to the Exceptional Learner  Credit 3 hours
Provides an overview of the exceptionalities, their definitions, prevalence, etiology, characteristics, and related instructional needs and accommodations for special needs and exceptional populations. Emphasis is on current educational methods and placements to understanding the impact of teaching practices and curriculum, considerations. Required of all Education Majors. Prerequisite: EDUC 131.

SPED 231  Survey of Effects of Mild/Moderate Disabilities  Credit 3 hours
Examines the academic, social, vocational, adaptive and behavioral characteristics and related needs of persons with mild/moderate levels of exceptionalities (including gifted and talented). Emphasis is on the identification, diagnosis, and instructional needs of learners with exceptionalities. Prerequisite: SPED 230.

SPED 232  Interpersonal Communications Skills for Special Educators  Credit 3 hours
Involves the study and application of communication skills special education teachers may utilize in conferencing with parents, staff members, and other professionals concerning planning and implementing special education programs for infants, preschool, school-age learners, and adults with mild/moderate disabilities. Prerequisite: SPED 230.

SPED 316e  Microteaching in Preschool/Elementary/Middle School Special Education  Credit 1 hour
Promotes the hands-on application of methods learned in accordance with teaching students with special needs at the preschool, elementary or middle grades level. Various techniques of instruction are emphasized in the design and implementation of individual and small group programs.

SPED 316s  Microteaching in Secondary Special Education  Credit 1 hour
Promotes the hands-on application of methods learned in accordance with teaching students with special needs at the secondary level (7-12). Various techniques of instruction are emphasized in the design and implementation of individual and small group programs.

SPED 331  Behavior Interventions  Credit 3 hours
Behavior management theories for individuals and groups are compared with and contrasted to behavioral theory. The focus is on behavior and behavior modification strategies or techniques that will facilitate behavior change. The emphasis is how the behavior change can help in academic production, time management, classroom routines, social participation, and character development. This course will help the special education teacher better serve the school district by gaining training in behavior modification and being able to develop Functional Behavioral Assessments for students within the school environment.

SPED 332  Language and Learning Disorders  Credit 3 hours
Introductory course for undergraduate students on the subject of language and associated learning disorders. Provides students with an opportunity for integrating information from several content areas (e.g., language development, learning disorders, and anatomy) and applying that knowledge to a child presenting a language-based learning disorder.
SPED 334 Differentiated Instruction for Diverse Classrooms  Credit 2 hours
This course covers teaching strategies, laws, strategies and procedures for working with special needs students within a diverse and inclusive classroom environment. Students will participate in hands-on activities, identify key instructional strategies and accommodations for special needs students, and become familiar with laws and policies governing special education practices in today’s schools. This course is a required Education course for all students wishing to be teachers, and should be taken as part of the student’s junior year, prior to the Professional Year. Prerequisite: PSYC 231 and SPED 230.

SPED 335 Elementary/Middle School/Secondary Methods and Materials for Mild/Moderate Disabilities  Credit 4 hours
Instructional, curricular, and adaptive or assistive technological approaches to accommodate the academic, social, cognitive, linguistic, and physical needs of learners with mild/moderate disabilities are reviewed. Based on learning theories, information obtained from this course will center on the use of methods and materials to facilitate learning of elementary/middle grades/secondary students with mild/moderate disabilities.

SPED 337 Program Development, Implementation, and Management  Credit 3 hours
Development, implementation, and management of special education programs, which include individual education plans (IEP), individual family service plan (IFSP), and transition plans. This course will include (a) a background of laws leading up to IDEA, (b) a working knowledge of IDEA and related amendments, (c) hands-on experience in the formulation and development of IEP’s, IFSP’s, transition plans, and (d) techniquesстратегии in adapting curriculum for students with special needs.

SPED 390 Internship in Special Education  Credit 1-3 hours
Provides practical experience in an agency related to education/special education. Interested students should contact the Internship and Career Services office to secure application materials. Application should be made prior to the semester the internship will be conducted. The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant, and the work hours. The internship will not replace any Special Education or Education observation and/or field experience requirements, or any required courses, and should not be done while the student is in their Professional Year.

SPED 400 Independent Study or Research  Credit 1-3 hours
Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Approval of Academic Dean required.

SPED 412E/S Special Education Practices and Strategies  Credit 1 hour
This course covers teaching strategies, development of curriculum units and lesson planning, questioning skills and motivation techniques for teachers teaching within inclusive classroom environments. This course is taken as part of the Professional Semester, and is part of a “Block” of courses that are taken in the same semester.

SPED 416 Clinical Experience in Appraisal of Exceptional Children  Credit 1 hour
Learning opportunities to develop the understanding of how assessment instruments and equipment is used in the screening of students. The screening can be used for academic achievement, development, assistive technology, and/or rehabilitation. The emphasis will be on the screening of students with special needs, but not exclusive to this purpose.

SPED 435 Assessing Individuals with Mild/Moderate Disabilities  Credit 3 hours
Assessment procedures and practices used to obtain information about the learning and development of students with mild/moderate needs, including administering, interpreting, and reporting test results and formulating instructional objectives and subsequent learning programs. Understanding how information obtained from quantitative/qualitative measures and teachers’ experiences influence their abilities to interpret strengths and needs, formulate instructional objectives, develop curriculum, and select appropriate teaching strategies.
SPED 437  Special Topics in Special Education  Credit 1- 3 hours
Development, implementation, and management of *Inclusive Classrooms* in the K-12 school environment. This course will include (a) a background of laws leading up to IDEA & “Least Restrictive Environment” requirements, (b) a working knowledge of IDEA and related amendments, (c) classroom management & inclusive behavior interventions, (d) techniques/strategies in adapting curriculum for all students, including those with special needs, and (e) setting or beginning exclusionary practices.

SPED 438  Consultation/Collaboration  Credit 3 hours
Consulting and collaborating skills will be developed for special educators working with parents, para-educators, and other professionals working with students with special needs. Emphasis will be given to formal and informal meetings & conferences in planning, developing, and implementing special education programs. This course will cover consultation/collaboration theory, group dynamics, the special educator as a consultant, the importance of consultation/collaboration in an inclusive setting, needs assessment research and staff development, and dealing with conflict.

THEATRE

TH 015  Theatre Practicum  Credit 1 hour
Participation in theatre department productions. Repeatable up to eight (8) hours.

TH 134  Principles of Acting  Credit 3 hours
Study of the principles and techniques of acting with practice in improvisation, monologues, and scene work.

TH 159  Technical Theatre  Credit 2 hours
Study of the technical elements of stagecraft. This includes construction techniques, theory of light and sound, and an introduction to theatrical drafting. Students will be taught the fundamentals of safely operating construction tools, lighting instruments, sound equipment, and other theatrical equipment. Students will be required to purchase supplies. Must be taken concurrently with TH 159L.

TH 159L  Technical Theatre Lab  Credit 1 hour
Laboratory experience. Must be taken concurrently with TH 159.

TH 222  Stage Make-Up  Credit 2 hours
Theory and techniques of theatrical make-up. In addition to practical application projects, students will develop research and morgues for make-up applications geared toward creating theatrical characters.

TH 226a  Metal Manufacturing Processes and Systems: Welding Processes  Credit 2 hours
Fundamentals of metal manufacturing processes, materials and systems. Discussion and application focused on welding and cutting processes and materials. Special emphasis placed on GMAW, SMAW, GTA, PAC, OAW and FGC.

TH 226b  Metal Manufacturing Processes and Systems: Machining  Credit 1 hour
Fundamentals of metal manufacturing processes, materials and systems. Discussion and application focused on machining processes and materials. Special emphasis on lathe and mill practices as well as newer developments in industry technology.

TH 226c  Metal Manufacturing Processes and Systems: Foundry and Forging  Credit 1 hour
Fundamentals of metal manufacturing processes, materials and systems. Discussion and application focused on forging and foundry processes and materials. Special emphasis on sand and investment casting as well as gas and coal forge work.

TH 234  Audition Techniques and Practices  Credit 2 hours
Intensive practicum on the selection, preparation and presentation of audition materials. This will include headshots and resumes, music selection, monologue selection, and presentation.

<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>TH 235</td>
<td>Elements of Theatre</td>
<td>3 hours</td>
<td>Overview of history and techniques employed in theatrical production and criticism. Lecture, demonstration, participation in theatrical experiences, and attendance of theatrical performances.</td>
</tr>
<tr>
<td>TH 237</td>
<td>Beginning Directing</td>
<td>3 hours</td>
<td>Theory and practice of play direction, including blocking, analysis, organization, rehearsal, working with actors, and collaboration. Designed for theatre majors, minors, and language arts students. Prerequisites: TH 134 and/or permission of instructor.</td>
</tr>
<tr>
<td>TH 243</td>
<td>Introduction to Set and Light Design</td>
<td>2 hours</td>
<td>Introduction to the processes used to create a set or lighting design for the stage and the process of synthesizing a design into a theatrical production. Emphasis will be on working from a production team’s concept to create a design that will communicate the concept to an audience. Students will be required to purchase equipment. Prerequisites: TH 159 and/or permission of the instructor. Must be taken concurrently with TH 243L.</td>
</tr>
<tr>
<td>TH 243L</td>
<td>Introduction to Set and Light Design Lab</td>
<td>1 hour</td>
<td>Laboratory experience. Must be taken concurrently with TH 243.</td>
</tr>
<tr>
<td>TH 245a</td>
<td>Construction Processes &amp; Systems: Tools and Materials</td>
<td>1 hour</td>
<td>Fundamentals of construction including wood, metal, and masonry materials. Topics include hand and power tool selection and operation, safety and material usage. Offered concurrently with DTE 235a and ART 245a.</td>
</tr>
<tr>
<td>TH 245b</td>
<td>Construction Processes &amp; Systems: Techniques and Organizational Materials</td>
<td>1 hour</td>
<td>Fundamentals of construction including wood, metal, and masonry materials. Topics include the application of safe and appropriate building and construction techniques and the organization and scheduling of projects. Special emphasis on alternative and sustainable practices. Offered concurrently with DTE 235b &amp; ART 245b.</td>
</tr>
<tr>
<td>TH 245c</td>
<td>Construction Processes &amp; Systems: Material Selection and Estimation</td>
<td>1 hour</td>
<td>Fundamentals of construction including wood, metal, and masonry materials. Topics include the determination of appropriate materials and the development of cost estimates for small to medium size construction projects. Introduction to MS Excel as an estimating program. Special emphasis on alternative and sustainable practices. Offered concurrently with DTE 235c &amp; ART 245c.</td>
</tr>
<tr>
<td>TH 300/400</td>
<td>Independent Study or Research</td>
<td>1 - 3 hours</td>
<td>Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Permission of the Instructor, Chair, and Dean is required.</td>

</tbody>
</table>
TH 339  Children’s Theatre Workshop  Credit 4 hours
Workshop geared toward the mounting and production of a performance for young audiences. Workshop participants will be responsible for the production and performance of a selected work. Activities include: rehearsal and characterization, set, costume design and construction, marketing and publicity, and theatre organization. Permission of Instructor required.

TH 359  Computer Applications for the Theatre  Credit 3 hours
Designed to give the student practical experience in using current computer technology for theatre design, including experience in computer aided drafting, rendering, recording, editing, creating of a sound effects CD, and using computers to create light plots and related paperwork. Prerequisites: Permission of the instructor.

TH 390  Internship in Theatre  Credit 1-12 hours
Provides practical experience in theatre at the Post Playhouse or other professional theatre, in either performance or nonperformance areas. Interested students should contact the Internship and Career Services office to secure application materials. Application should be made prior to the semester the internship will be started. The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant, and the work hours. Internship credits may be substituted for other required credit in Theatre at the discretion of the Theatre faculty.

TH 412  Senior Assessment Jury  Credit 1 hour
Students will present professionally prepared audition material, portfolios, resumes, models, and designs to the theatre faculty. The course is designed to prepare students for the job market by requiring them to give a formal audition/presentation. This will serve as part of the final authentic assessment for exiting seniors in Theatre. Prerequisites: 2.5 cumulative GPA and consent of the Theatre faculty.

TH 429  Playscript Analysis  Credit 3 hours
Studies in structure of the playscript and script analysis. Students will do playscript analysis for performance, directing, and design with its specific relationship to production concept and/or research.

TH 434  Advanced Acting (periods and styles)  Credit 3 hours
Study of period styles of acting from Greek Classics and Elizabethan Tragedy to Restoration Comedy and Farce. Prerequisites: TH 134 and TH 334 and permission of the Instructor.

TH 435  Topics in Theatre  Credit 3 hours
Special topics in theatre. May be repeated with a change of emphasis. Permission of Instructor and Program Director required. Areas of emphasis may include stage combat, scene painting, and acting for the camera.

TH 437  Directing for the Stage  Credit 3 hours
Study of the theories and techniques of stage direction. Student will direct a one-act play. Prerequisites: TH 237 and permission of the Instructor and Program Director.

TH 445  Advanced Set Design  Credit 3 hours
Study of the theories, techniques, and styles of drawing for scenic design and construction. Students will develop concepts through the beginning sketch, formal perspective, working drawings, and models to a fully realized design. Prerequisites: TH 243 and permission of the Instructor.

TH 459  Advanced Light and Sound Design  Credit 2 hours
Study of the theories, techniques, and styles of light and sound design and execution, including development of concepts based on script analysis and research. Based on these concepts students will then develop light designs from concept sketches through light-plot and accompanying dimmer-plots, circuit-plots, and cue-sheets. Students will also develop sound designs from verbal “sketches” through “cut” lists, sample tapes, and cue-sheets. Must be taken concurrently with TH 459L. Prerequisites: TH 243, 359 and permission of instructor.

TH 459L  Advanced Light and Sound Design Lab  Credit 1 hour
Laboratory experience. Must be taken concurrently with TH 459.
MASTER’S DEGREE PROGRAMS OF STUDY

The Master of Arts in Education is offered to students interested in:
1. Community Counseling
2. History
3. Science/Mathematics

The Master of Business Administration is offered to individuals interested in:
1. Business Administration

The Master of Education degree is offered for students interested in:
1. Curriculum and Instruction – Elementary
   General Education Option
   Field Option (Concentration in Subject Area)
   Language Arts    Science
   Mathematics    Social Science
   Physical Education    Special Education
   Reading    Educational Technology

2. Curriculum and Instruction - Secondary
   Business Education
   Career and Technical Education
   Education
   Educational Technology
   Industrial Technology
   Mathematics
   Physical Education
   Reading
   Social Science
   Science

3. Educational Administration – Elem/Middle/Sec
4. Educational Administration – Special Education Coordinator P-12
5. Education Administration – Curriculum/Assessment Coordinator
6. School Counseling

The Master of Science in Organizational Management degree is offered to individuals interested in:
1. Human Services
2. Natural Resources
3. Sports Management

A non-degree graduate program offering is available to students interested in the Reading Specialist endorsement.

The Specialist in Education degree is offered to students interested in:
1. Superintendent of Schools

PURPOSE

The primary purpose of the graduate program at Chadron State College is to provide opportunities for elementary and secondary teachers, administrators, counselors, business persons, and others to further their education so that they might be better qualified to fulfill their personal, occupational, and professional goals.

The program is established primarily for candidates for the degrees Master of Arts in Education, Master of Business Administration, Master of Education, and Master of Science in Organizational Management, but some courses are open to unclassified students not intending to complete work toward a master’s or a specialist degree.

All courses on the graduate level shall require of students greater intellectual effort, more independence in reading and investigation, and more constructive thinking than do the undergraduate courses offered for the baccalaureate degree.
OBJECTIVES

The specific learning objectives of the graduate program are as follows:

• Students will acquire and be able to apply principle qualities of leadership.
• Students will obtain a broader and deeper knowledge base, both within their field of specialization and in broader areas, to increase their professional effectiveness.
• Students will gain intellectual stimulation and foundations for more advanced study.
• Students will understand and apply research techniques to interpret current thinking and practices in their fields of specialization.
• Candidates will understand the nature and significance of research, and have opportunities to apply research techniques.
• Students will be provided with a rigorous core program of advanced courses in a flexible arrangement to meet their individual needs.
• Students will be prepared for professional positions in education, business, counseling, and other areas.

GRADUATE COUNCIL AND FACULTY

The Graduate Council is responsible to the college administration for directing the graduate program under the regulations of the Board of Trustees of the Nebraska State Colleges. This Council, on behalf of the Graduate Faculty, supervises all graduate work in the college, establishes policy, and recommends to the President all candidates for conferring of graduate degrees.

Graduate faculty members may teach graduate courses, supervise and serve on supervisory committees for students working toward post-baccalaureate degrees, vote on all matters presented to the Graduate Faculty, serve on the Graduate Council, and vote on nominations to the Graduate Council.

GRADUATE COMMITTEE

A Contact Advisor will be assigned for initial advising before a student is accepted for graduate study. A permanent advisor in the area(s) of concentration will be appointed when they have been accepted into a program. The permanent advisor will be sent the Notice of Appointment Form by the Graduate Office. After the permanent advisor is appointed, a Graduate Committee should be selected in consultation with the student and the advisor. The Graduate Committee will consult with the student on the "Plan of Study" and conduct the Oral Examination.

ASSESSMENT

Chadron State College is committed to the improvement of teaching and learning, as part of a continual effort to monitor institutional effectiveness. This effort includes the assessment of student academic achievement as made evident by nationally normed examinations; capstone courses; demonstrations of acquired proficiency in disciplinary-based skills; development of portfolios; oral examinations; surveys of students and alumni; and other assessment measures. The College requires all graduate students participate in the assessment program for the duration of their enrollment.
Prior to being considered for “Graduate Study,” all students must hold an earned baccalaureate degree from a regionally accredited institution of higher education. Students seeking the Master of Arts in Education (M.A.E.), or Master of Education (M.E.), and Master of Science (M.S.) will be required to submit an application. Students interested in science programs will be required to attain required scores on the Graduate Record Examination (GRE) General Test. Those seeking the Master of Business Administration Degree (M.B.A.) will be required to submit an application, attain required scores (see formula under M.B.A. requirements) on the Graduate Management Aptitude Test (GMAT), and meet other stipulated entrance requirements.

Students taking graduate coursework belong in one of two categories:

1. Degree-Seeking Graduate Student: A student pursuing a program of study leading to an advanced degree is considered to be a degree-seeking graduate student. To be classified as a degree-seeking graduate student, the student must have applied and been accepted for admission to graduate study.

2. Non-Degree Seeking Graduate Student or professional development student: The student who does not wish to pursue a degree, who is not permitted to do so, or has not yet met the requirements for admission to graduate study is classified as a non-degree seeking graduate student. A student in this classification may take graduate courses for purposes such as certification, self-improvement, or employment requirements. The non-degree seeking graduate student must submit a non-degree seeking application the first time they register for classes at CSC. Limited hours completed by a non-degree seeking student may apply toward a degree program.

Undergraduate students must obtain permission to take graduate classes. Petition forms are available from the Graduate Office.

The following prerequisites exist for students taking graduate coursework:

<table>
<thead>
<tr>
<th>Course Level</th>
<th>Prerequisite</th>
</tr>
</thead>
<tbody>
<tr>
<td>500 level</td>
<td>Completion of a baccalaureate degree or within 16 credit hours of completion.</td>
</tr>
<tr>
<td>600 level</td>
<td>Completion of a baccalaureate degree.</td>
</tr>
<tr>
<td>700 level</td>
<td>Completion of or within 12 semester hours of completing a master’s degree. A student may complete no more than 6 semester hours of 700 level coursework prior to completing a master’s degree.</td>
</tr>
</tbody>
</table>

In the student’s program leading toward any master’s degree there are four important steps to be followed:

1. Admission to graduate study
2. Admission to graduate status
3. Application for oral examination
4. Application for graduation

Students must apply for each step by completing the appropriate forms, which are available from the Graduate Office. After submission of appropriate forms each graduate student will be notified officially in writing concerning his/her admission or failure to be admitted at each of the four steps.

ADMISSION TO GRADUATE STUDY

Admission requirements are specific to the Degree program being sought, and are listed under the respective degree programs.
ADMISSION TO GRADUATE STATUS  
(FOR ALL MASTER’S DEGREES)

After being accepted for graduate study and between 9 and 18 hours into a program, the prospective candidate for the master’s degree should make application for admission to graduate status. At this time the student must:
1. Have earned at least nine hours of Chadron State College graduate credit with a 3.0 grade point average or higher.
2. Prepare and submit a “Plan of Graduate Study,” signed by the advisor and committee, to the Graduate Office for approval.

APPLICATION FOR ORAL EXAMINATION  
(FOR ALL MASTER’S DEGREES)

All candidates for all master's degrees are required to pass a final oral examination in their area of concentration. Students choosing the thesis or scholarly project paper option will have questions relating to the thesis or scholarly project paper included in this examination.

Following successful completion of the oral examination, approval forms will be signed by the student's committee and presented to the Dean of Graduate Studies.

APPLICATION FOR GRADUATION AND CONFERRING OF DEGREE
(FOR ALL MASTER’S DEGREES)

The formal application for the degree should be filed with the Dean of Graduate Studies at the beginning of the term prior to which the student expects to graduate. Candidates who plan to complete requirements for graduation in December must file formal application prior to April 15th. Those who plan to graduate in the spring must file prior to November 15th. Those students who plan to complete their degree during the summer and officially graduate in December must file prior to June 1st. Application forms are available in the Graduate Office. At the time the application is submitted all indebtedness to the College and the graduation fee must be paid.

Graduate degrees will be conferred upon successful candidates at the spring or winter commencement.

INTERNATIONAL STUDENTS

Qualified students from other countries are welcome to apply for admission to Chadron State College. Inquiries concerning international undergraduate student admission may be directed to the Admissions Office or the Multicultural and International Services Coordinator in the office of Extended Campus Programs in Crites Hall.

☐ Complete the International Student Application form and submit the non-refundable admission/matriculation fee in U.S. dollars to the Admissions Office. Applicants residing in a foreign country should make application no later than six months prior to the anticipated enrollment date. Students in the United States should allow four months to complete the admission process.

☐ Transfer students in the United States must submit transfer authorization from the appropriate immigration officials. Complete transcripts from each college attended must be filed with the Registrar’s Office.

☐ Demonstrate competency in the English language which will be determined by the Graduate Program Director.

☐ Provide evidence of capability to finance a program of study without assistance from Chadron State College.

☐ Provide written proof of insurance valid for one entire academic year. Minimum coverage for medical and hospital expense insurance is $50,000 (U.S.). Minimum coverage of $10,000 for medical evacuation and $7,500 for repatriation of remains is also required. The insurance deductible may not exceed $500 (U.S.). Proof of adequate coverage must be in English and submitted to Chadron State College prior to admission each year.
Health Form Requirement: All students entering any institution of the Nebraska State College System must show a physician-validated immunization record for two doses of measles, rubella, diphtheria, and tetanus. International students are required to present a record of skin testing for tuberculosis within six (6) months prior to first enrollment. Exemptions may be available for qualifying students. Contact the Health Services office in Crites Hall for more information.

International students must provide three letters of recommendation from instructors, sponsors, or other persons who may be responsible for the applicant. These recommendations should be completed on forms provided by the Chadron State College Graduate Office and returned to the same office.

Issuance of the Certificate of Eligibility, Form I-20, will be made only upon completion of all admission requirements and required payments. The applicant assumes full responsibility to make all necessary arrangements through official channels for entrance into the United States.

Transcripts for students who do not have an earned baccalaureate degree from a foreign institution with a formal memorandum of understanding with Chadron State College must be translated and evaluated under U.S. education standards.

STUDENT REGISTRATION

ADVISING

Although the student is responsible for meeting all conditions and requirements of Chadron State College, faculty engage in program advising to assist students in attaining their academic goals.

CLASS REGISTRATION

Responsibility for planning one’s course of study and for the fulfillment of all requirements and regulations lies with the student. The College General Bulletin is the authoritative source of information on program and graduation requirements and regulations. Advisors are assigned to aid the student in understanding the requirements and in planning his/her academic program.

Registration days are specified in the published class schedules. Students are encouraged to register for classes during the early enrollment period to ensure course availability. The College reserves the right to cancel courses with low enrollment. Furthermore, the College reserves the right to modify the published schedule without prior notice.

Courses numbered 500 through 599 are open to qualified seniors who have completed a baccalaureate degree or are within 16 semester hours of baccalaureate graduation. Undergraduate students wishing to register for graduate courses must complete a petition to the Dean of Graduate Studies. (Forms are available in the Graduate Office.) Courses in the 600 series are open only to graduate students. Courses numbered 700 through 799 are for students who have completed the Master’s degree or are within 12 hours of completing the Masters degree.

On-line courses meet as regular classes except in a virtual setting and follow the calendar established by Chadron State College. They are not independent study courses.

Section 01 courses are on-campus, but may be sent to distance sites by ITV.
Section 40 courses are offered by ITV to Scottsbluff.
Section 60 courses are offered by ITV to Alliance.
Section 62 courses are offered by ITV to Sidney.
Section 65 courses are offered by ITV to North Platte.
Section 68 courses are offered by ITV to McCook.
Section 79 courses are delivered via the internet: no classroom attendance required.
Section 89 courses are designed to accommodate both on-campus and distance learners. Campus based learners have online access to all course materials, but are required to attend regularly scheduled face-to-face classroom instruction. Distance learners access all course materials online-no classroom attendance requirement.
Section 99 courses require periodic traditional face-to-face classroom or ITV attendance with additional instruction offered online. Students are expected to participate in both modes.
Course Load
A full load during the Fall and Spring Semester is considered to be nine graduate semester hours. During the Fall and Spring terms, twelve semester hours of graduate coursework is considered the maximum load without receiving permission from the Dean of Graduate Studies.

The maximum load for a full-time resident graduate student during each summer session is six semester hours.

Late Registration
No students may register for a current semester after classes have been in session for five days (one week) without permission from the appropriate academic School Dean. After the tenth day of the semester (two weeks), approval of the Vice President for Academic Affairs is required.

Audit Registration
Any student may elect to audit a class. An audited class does not count toward any graduation requirements at Chadron State College and is recorded as an “AU” on the academic transcript. Current tuition and fees are charged for audited courses.

Students may change from credit to audit until the seventh week of the semester, or before the midterm of non-semester offerings. However, changing a course from audit to credit is not allowed following the first two weeks of courses in a semester, or the first day of summer classes.

Persons 65 years of age and older who audit one course per semester on a space-available basis may petition for a waiver of tuition for that course. Fees will not be waived. Self-paced study (correspondence), private lessons, and other courses with no available space are not available for this program. Waiver forms are available from the Vice President for Enrollment Management and Student Services in Crites Hall.

Changes of Registration and Withdrawal
Any change of registration must be initiated by the student at the Graduate Office. The effective date of the change is the date on which the completed forms are processed by the Graduate Office.

1. Adding or withdrawing from classes during the drop-add period: During the first five days of a 16 week term, the first three days of an eight (8) week session and during the first two days of a summer session, a student may add or drop courses without academic penalty.

2. Withdrawing from classes: A student who withdraws from a course after the 100% refund period but before the end of the eleventh full week (or before the midterm of a non-semester offering) receives a grade of W. This grade is not computed into the grade point average. After the eleventh week (or after the midterm of a non-semester offering) a student may not withdraw and a grade other than W must be recorded.

3. Withdrawing from the College: A student who withdraws from the College after the 100% refund period but before the end of the eleventh week (or before the midterm of a non-semester offering) will receive a grade of W for each course. A student who withdraws from the College after the eleventh week (or after the midterm of a non-semester offering) will receive a grade of W for courses the student is passing and F for courses the student is failing.

TUITION, FEES AND FINANCIAL AID

COST AND REFUND

The Board of Trustees for the Nebraska State Colleges has established a schedule of tuition and fees to be charged by the State Colleges. This may be obtained from the Business Office.

Refunds on tuition for the academic year are pro-rated, based on a schedule available in the Business Office. Students who are recipients of Title IV funds will be subject to the student refund procedure requirements of the Higher Education Authorization Act of 1998. Details regarding this requirement are available at both the Business Office and the Financial Aid Office.
FINANCIAL AID

Financial aid is available for those seeking a degree or teacher certificate program from Chadron State College. Students seeking financial aid must complete the admissions requirements for the degree program and the Free Application for Federal Student Aid (FAFSA) to qualify for consideration of financial aid. Applications for financial assistance will provide consideration for the Stafford Loan, Perkins Loan, Work Study, and the Supplemental Loan for Students. Contact the Financial Aid Office for further information.

GRADUATE ASSISTANTSHIPS

A limited number of Graduate Assistantships, which cover tuition and provide a stipend, are available for students enrolled in a graduate degree program. Assistantships offer assignments designed to provide opportunities for supervised educational experiences at the graduate level. Students interested in Graduate Assistantships should contact the Graduate Office for further information and application forms. Graduate assistants must maintain full time status while serving as assistants.

NON-RESIDENT CLASSIFICATION FOR ADMISSION AND FEE ASSESSMENT

The statutes of Nebraska provide that all state educational institutions shall charge a non-resident fee for each non-resident of Nebraska who matriculates at any state institution policies, based upon evidence provided in the Application for Admission and related documents. Additional written documents, affidavits, verification, or other evidence may be required as deemed necessary to establish the status of an applicant. The burden of establishing exemption from non-resident fees is the responsibility of the student. Erroneous classification as a resident or willful evasion of non-resident fees may result in disciplinary action, which may include dismissal as well as payment of required fees for each semester attended.

A student classified as a non-resident retains this status until he/she is officially approved for reclassification as a resident by completing the Application for Residency Classification Form, which is available in the Admissions Office.

STUDENT ACADEMIC PERFORMANCE

GRADES

The following grades are currently used at Chadron State College:

A  — Superior performance
B  — Excellent performance
C  — Average performance
D  — Below average performance
F  — Failure to meet minimum requirements, or student failed to officially withdraw from course.
I  — Incompletes indicates some portion of the student’s work was unfinished due to a justifiable reason. Issued at the discretion of the faculty member and academic School Dean, the “I” is replaced with a grade when the work is completed. If a grade is not submitted within twelve months or a shorter time frame as specified on the Request for an Incomplete Form completed by the instructor and student, the grade of incomplete remains permanently on the record (effective August 26, 1974).
IP — In Progress indicates a course continuing into the next term. Grades are recorded at the end of the course.
P  — Passing performance; requires previous registration as Pass/Fail.
W  — Indicates official withdrawal from a course with a passing grade; requires form filed by deadline.
AU — Indicates non-graded, audit participation in a course; requires previous registration for an Audit
With the exception of the Thesis or Scholarly Project, students have one year to complete a course and have an “I” changed to a letter grade. After such time, the “I” becomes permanent and may not be removed. The “IP” is issued only when the course is still in progress at grade reporting time.

No grade of “C” or lower may be transferred into a graduate program from other institutions. Additionally, grades of pass/fail or satisfactory/unsatisfactory are not accepted on a graduate program. A maximum of six hours of “C” are permitted in any graduate program. No grade of “D”, “F”, “I”, “W”, “AU”, or “IP” will count toward meeting graduation requirements.

**Grade Point Average**

Chadron State College assigns quality points to letter grades as follows:

- A = 4 points
- B = 3 points
- C = 2 points
- D = 1 points
- F = 0 points

To determine grade point average, the total number of quality points earned for each attempted credit hour is divided by the total credit hours attempted (including semester hours passed and failed). The grade point average is computed only for courses taken at Chadron State College for non-teaching majors, but utilizes all courses from all institutions attended for teaching majors (Bachelor of Science in Education degree). Contact the Registrar’s office for more information.

**STANDARDS OF SCHOLARSHIP**

**Master’s Degree**

An average grade of 3.0 (B) is required on all work presented in fulfillment of the requirements for the master’s degree. Not more than six semester hours of graduate work with a grade of “C” will be accepted. The candidate must have established an academic average of at least 3.0 (B) for the entire graduate program, which shall not exceed six semester hours beyond the approved program.

No grade lower than “C” will be accepted for graduate study toward the master’s degree. A graduate student who has not demonstrated the ability to do satisfactory work following one semester or two summer terms may, upon the recommendation of the advisor and with the concurrence of the Graduate Dean and/or Council, be requested to withdraw from the program.

**Specialist Degree**

The candidate must have established an academic average of at least 3.25 for the entire Specialist program, which shall not exceed six semester hours beyond the approved program. Not more than six semester hours of graduate work with a grade of “C” will be accepted toward the Specialist degree. No grade lower than “C” will be accepted for graduate study toward the Specialist degree. A graduate student who has not demonstrated the ability to do satisfactory work, following one semester or two summer terms may, upon the recommendation of the advisor and with the concurrence of the Graduate Council, be requested to withdraw from the program.

**STUDENT CONDUCT**

**ACADEMIC HONESTY**

Students are encouraged and expected, with the assistance of the faculty, to conduct themselves in conformity with the highest standards with regard to academic honesty. Violation of college, state, or federal standards with regard to plagiarism, cheating, or falsification of official records will not be tolerated. Students violating such standards will be advised and disciplined. Violations of these standards may result in course failure, suspension, or dismissal from the college. Students are recommended to seek the advice of instructors as to the proper procedures to avoid such violations.
CIVILITY

Civil behavior enhances the academic setting, and is expected at all times. Courtesy and respect for others are essential elements of the academic culture. The academic environment welcomes a difference of opinion, discourse, and debate within a civil environment.

CLASS ATTENDANCE

Faculty provide added value to individual study, facilitating understanding, interpretation, and application of information available to students through assigned readings, external learning opportunities, and in-class presentation. Attendance during regularly-scheduled class presentations significantly facilitates academic success, and students are expected to be present during scheduled class periods. Students who are absent from class should consult their professors, as any absence jeopardizes the student’s understanding of the course material. Faculty members are encouraged to assist students with make-up work if the absence was for college-related activities or approved by the faculty member as an unavoidable absence. Responsibility for arranging make-up study rests with the student.

Lists of students anticipating absence for college-related activities will be distributed to faculty. These students will be excused from their classes but not from the work required in those classes.

PETITION FOR WAIVER OR EXCEPTION OF COLLEGE ACADEMIC REGULATIONS

Any request for waiver or exception to the graduate academic policies and regulations stated in the Chadron State College General Bulletin must be submitted as a written petition to the Office of the Dean of Graduate Studies. Consideration will be given to the petition by the Graduate Council, Graduate Dean, or Vice President, as appropriate. A written response will be returned to the petitioning student.

Appeals of decisions pertaining to a graduate student’s program may be initiated by the student and addressed to the Dean of Graduate Studies.

The student should submit a dated and signed letter which addresses:
1. What decision is being appealed.
2. Date of decision being appealed.
3. Justification for the appeal.
4. Desired outcome.

If the student is not satisfied with the decision, then the formal Grievance Procedure may be utilized, if appropriate.

GENERAL GRADUATE PROGRAM REQUIREMENTS

PROGRAMS OF STUDY

To serve the educational needs of western Nebraska and adjoining areas, Chadron State College offers programs of study leading to:
- Master of Arts in Education
- Master of Business Administration
- Master of Education
- Master of Science in Organizational Management
- Specialist in Education
REGULATIONS GOVERNING GRADUATION

The following regulations apply to graduation from all graduate programs.

1. Course application toward graduation
   a. Credit earned by correspondence (self-paced) study will not be accepted in fulfilling requirements for a master’s or specialist degree.
   b. No coursework carrying the INS (in-service) prefix may be applied toward a master’s or specialist degree.
   c. A graduate student may apply up to six semester hours of coursework taken on an independent study basis toward a master’s degree or a specialist degree program.

2. Transfer of Credit
   a. Master’s Degree: A maximum of nine semester hours of graduate credit may be transferred from other approved colleges or universities. All transfer credit must carry a grade of “B” or higher. Transfer credit with grades of “P” or “S” will not be accepted. Acceptance of transfer credit is contingent upon approval of the Graduate Committee, Dean of Graduate Studies, and the Graduate Council. Transfer credit may not be counted toward meeting the minimum residence requirement.
   b. Specialist Degree: A maximum of six (6) semester hours of graduate credit may be transferred from other approved colleges or universities. All transfer credit may be used for “elective” credit only. All transfer credit must carry a grade of “B” or higher. Transfer credit with grades of “P” or “S” will not be accepted. Acceptance of transfer credit is contingent upon approval of the graduate committee, Dean of Graduate Studies, and the Graduate Council. Transfer credit may not be counted toward meeting the minimum residence requirement.

3. Time Limit on Coursework
   a. Master’s Degree: All requirements for the master’s degrees must be met within a period of seven years from the year the student completes the first graduate course that is to apply toward the degree.
   b. Specialist Degree: All requirements for the Specialist degree must be met within a period of five years from the year the student completes the first graduate course that is to apply toward the degree.
   c. Validation of Out-of-Date Credit: Coursework that has been taken prior to the specified time limit before completion of the degree is considered to be outdated. This coursework may be applied to the graduate degree if a grade of “B” or higher was attained and if one of the following occurs:
      1. the equivalent CSC course is audited with the stipulation that the professor teaching the course must sign a statement verifying regular attendance, satisfactory performance on the final examination (if one is given), and performance at a level to warrant validation of the course OR
      2. a written or oral examination covering the subject matter is successfully completed as certified by an appropriate faculty member(s). If an oral examination is given, at least two graduate faculty members must be present. The Dean of Graduate Studies and the graduate committee chairperson will appoint the faculty to administer the examination. Details of the time and place of the examination must be registered with the Graduate Office. Approval to validate credit must be obtained through the graduate committee and Dean of Graduate Studies.

4. Course Level Requirements
   a. Master’s Degree: At least one-half of the semester hours required for the master’s degree must be taken in classes in which only graduate students may enroll (600 level or higher).
   b. Specialist Degree: The student must complete, including the thesis or field study, not fewer than 30 semester hours of graduate work beyond the master’s degree. At least 12 semester hours of coursework must be comprised of courses numbered at the 700 level, and at least 21 semester hours must be at the 600 or 700 levels.

5. Curriculum Patterns
   a. Master’s Degree: All graduate students seeking the degree of Master of Arts in Education, Master of Education, or Master of Science in Organizational Management should complete EDCI 631, “Introduction to Graduate Study,” within the first 12 hours of their program of study. All graduate students (including those seeking the M.B.A. Degree) must select one of the following plan options:
Plan I (Thesis with Oral Examination)

Plan I - Requires a thesis pertaining to the field of specialization. Six semester hours of credit are awarded for successful completion of the thesis.

Following are general guidelines for preparation and submission of the thesis and accompanying oral examination.

1. After acceptance into graduate study and successful completion of Introduction to Graduate Study7 or its equivalent and at least two-third’s of total number of program hours are completed, the student presents a thesis proposal under the guidance of the advisor. This presentation is to be made in a formal meeting with the student’s graduate committee. The thesis must convey conclusions on some subject directly related to the candidate’s area of specialization. Although the topic does not necessarily have to be original or to seek new answers, it should attempt to establish a point previously unsupported or to verify existing knowledge. The thesis topic should be so designed that the student receives training in the art and techniques of scientific inquiry, employing one or more of the commonly accepted tools of educational research.

2. The student’s committee has the responsibility to carefully scrutinize, make recommendations and accept, accept with modifications, or not accept the proposal.

3. After acceptance by the committee, the proposal and outline will be submitted to the Dean of Graduate Studies for approval.

4. Those choosing the thesis option must register for a total of six (6) semester hours of thesis credit. Registration for all six hours or any portion thereof may be made at the beginning of any semester or summer term following approval of the thesis proposal. Written approval from the Institutional Review Board is required if the student will be using a data collection tool that involves human or animal subjects.

5. The student is ultimately responsible for the progress and completion of the thesis.

6. The thesis will be written under the direct supervision or guidance of the advisor.

7. The accepted writing style is APA, however some disciplines may require their particular style.

8. When the student and advisor are satisfied with the thesis, it is to be submitted to the student’s committee for review and approval.

9. After acceptance of the thesis by the advisor and committee, an oral examination will be scheduled. Copies of the thesis must be presented to the committee members at least two weeks before the scheduled date of the oral examination. The oral examination will include questions regarding the thesis, coursework, and other material relevant to the student’s field of study. The oral examination must be taken at least FOUR weeks prior to the date of graduation or granting of the degree. (The final date for oral examinations is posted each term in the Graduate Office.) Students completing oral examinations after the specified date will not be eligible for graduation until the next graduation or diploma granting date. Approval forms will be signed by the committee after successful completion of the thesis and oral examination.

10. All Plan I students must include an abstract of 150 words in their thesis.

11. The examining committee members will sign a statement verifying the outcome of the oral examination. This statement is to be presented to the Dean of Graduate Studies.

12. After the candidate has successfully passed the oral examination, he/she will deposit four copies of the thesis and one additional copy of the abstract to the Dean of Graduate Studies. One copy will be placed in the Library, one copy will be archived, one copy will be presented to the thesis committee chairperson, and one copy will be returned to the student. The remaining abstract will be retained in the student’s file. The expense of binding is the responsibility of the student. Contact the Graduate Office for specific instructions.

Plan II (Scholarly Project with Oral Examination)

Plan II requires a scholarly project pertaining to the field of specialization. Three (3) semester hours of credit are awarded for successful completion of the scholarly project.
The project is to be designed in consultation with the student’s graduate committee. Following are general guidelines for preparation and submission of the project and accompanying oral examination.

1. After acceptance into graduate study and successful completion of “Introduction to Graduate Study” or its equivalent, the student should present a scholarly project proposal under the guidance of the advisor. This presentation is to be made in a formal meeting with the student's graduate committee. The scholarly project must convey conclusions on some subject directly related to the candidate's area of specialization. Although the topic does not necessarily have to be original or to seek new answers, it should attempt to establish a point previously unsupported, or verify existing knowledge. The scholarly project topic should be so designed that the student receives training in the art and techniques of scientific inquiry, employing one or more of the commonly accepted tools of educational research.

2. Those choosing the project option must register for three (3) semester hours of credit. This registration may be made at the beginning of any semester or summer term following the approval of the project topic.

3. The student is ultimately responsible for the progress of the project.

4. The accepted writing style is APA, however some disciplines may require their particular style.

5. When the student and advisor are satisfied with the project it is to be submitted to the student's committee for review and approval.

6. After acceptance of the project by the advisor and committee, an oral examination will be scheduled. Copies of the project paper and related materials must be presented to the committee members at least two weeks before the scheduled date of the oral examination. The oral examination will include questions regarding the scholarly project, coursework, and other material relevant to the student’s field of study. The oral examination must be taken at least FOUR weeks prior to the date of graduation or granting of the degree. (The final date for oral examinations is posted each term in the Graduate Office.) Students completing oral examinations after the specified date will not be eligible for graduation until the next graduation or diploma granting date. Approval forms will be signed by the student’s committee and presented to the Dean of Graduate Studies after successful completion of the oral examination.

7. All Plan II students must include an abstract of approximately 150 words in their scholarly project.

8. After the candidate has successfully passed the oral examination, he/she will present FOUR copies of the project paper plus one additional copy of the abstract to the Dean of Education Graduate Studies. Each project paper should be contained in an approved black theme binder (not a three ring binder). One copy will be placed in the Library, one copy will be archived, one copy will be presented to the supervising professor, and one copy will be returned to the student. The remaining abstract will be retained in the student’s file. The expense of binding is the responsibility of the student. Contact the Graduate Office for specific information.

Plan III (Coursework with Oral Examination)

Plan III does not require a scholarly project or thesis. Students are required to complete the designated coursework in their area of specialization.

Students choosing this option will be required to successfully pass an oral examination. The oral examination will include questions regarding coursework and other material relevant to the student’s field of study. Approval forms will be signed by the student’s committee and presented to the Dean of Graduate Studies after successful completion of the oral examination.

The oral examination must be taken at least FOUR weeks prior to the date of graduation or granting of the degree. (The final date of oral examinations is posted each term in the Graduate Office.) Students completing oral examinations after the specified date will not be eligible for graduation until the next graduation or diploma granting date.

Note: Plan III is not available in all departments. Contact the Dean of Graduate Studies for more information.
b. **Specialist Degree:** A student at the Specialist degree level may choose between a thesis or field study option on a topic approved by the committee and related to the area of specialization. For either option, the student must submit three copies of the unbound document to the Graduate School at least 15 days before the close of the semester or summer term in which he/she is certified for graduation. Four copies of the thesis, suitable for publication, must be presented to the Graduate Office within the same time limitation during the semester or term in which the student is planning to graduate.

All field experience classes require:
1. Affirmation under oath that the student has no felony conviction or misdemeanor conviction involving abuse, neglect, or sexual misconduct (Guide to Nebraska Teacher Education Institutions, Nebraska Department of Education, Code Section 004.01, subsection 00411D).
2. Affirmation under oath that the student does not have an order or determination currently in effect by a court or any other government body which finds the student to be any of the following: mentally incompetent to stand trial, acquitted of criminal charges because of insanity, an incapacitated person in need of a guardian, or unable to manage his/her property due to mental illness, mental deficiency, chronic use of drugs or chronic intoxication; or is currently an inpatient or resident in a mental health facility due to a determination by a qualified mental health professional (Guide to Nebraska Teacher Education Institutions, Nebraska Department of Education, Code Section 004.01, subsection 004.01L).

6. **Residence Requirements**
   a. **Master’s Degree:** At least twelve of the semester hours required for advanced degrees must be classified as “residence credit.” “Residence credit” courses are those taught by a member of the Chadron State College Graduate Faculty, either on or off-campus.
   b. **Specialist Degree:** At least one-half of the courses required for the Specialist degree must be taught by a member of the Chadron State College Graduate Faculty, either on or off-campus.

7. **Oral Examination**
   All candidates for the master’s degree are required to pass a final oral examination in their area of concentration. Students choosing the thesis or research project paper option will have questions relating to the thesis or research project paper included in this examination.

   The student's graduate committee will conduct the oral examination. If a member of the committee is unavailable and rescheduling is inappropriate, a substitute may be appointed by the Dean of Graduate Studies. With the candidate’s knowledge, the examining committee may invite other individuals to be present at the oral examination.

   The oral examination must be taken at least **FOUR** weeks prior to the date of graduation or granting of the degree. Students completing oral examinations after the specified date will not be eligible for graduation until the next graduation or diploma granting date.

   Prior to the oral examination, a personal data sheet is to be prepared by the student and distributed to all members of the examination committee. It should include such items of information as professional and educational background; courses completed, and anticipated educational and career goals.

   Following successful completion of the oral examination, approval forms will be signed by the student’s committee and presented to the Dean of Graduate Studies.

8. **Portfolio**
   All candidates for the Master’s and Specialist in Education degrees are required to compile a professional and academic portfolio in their area of concentration. The portfolio is a purposeful, collaborative, self-reflective collection of the student’s work generated during the process of the graduate program. The portfolio should include a personal data sheet including such items of information as professional and educational background; courses completed, and anticipated educational and career goals.

   The procedures and content needed for portfolio construction are outlined in materials obtained from the Graduate Office.

   The student will submit the completed portfolio, for assessment by his/her graduate committee, prior to the final oral examination. Upon review and acceptance of the student’s portfolio, approval forms will be signed by the student’s committee and presented to the Dean of Graduate Studies.
SECOND MASTER’S DEGREE

Students holding a master’s degree may seek a second master’s degree in another program area. The student should apply as stated under “Admission to Graduate Study.” A second master’s requires appointment of a graduate committee; additional coursework; acceptance into Graduate Study, Graduate Status and Applications for Oral Examination and Graduation. No more than twelve semester hours of approved coursework from the previous degree may be applied toward a second master’s degree.

MASTER OF ARTS IN EDUCATION

DESCRIPTION OF PROGRAM OFFERINGS

The Master’s of Arts in Education degree program consists of an integrated knowledge core complemented by a coherently-focused academic program tailored to meet the needs of students. Based upon the communication and service core of education, this professional degree program provides an integrated master’s degree for students pursuing non-educational career choices. Areas of study include Community Counseling, History, and Science/Mathematics.

APPLICATION FOR ADMISSION TO GRADUATE STUDY IN THE MASTER OF ARTS IN EDUCATION PROGRAM

Following are criteria for acceptance into Graduate Study in the M.A.E. Program:

1. Application for admission to graduate study must be completed on forms available from the Graduate Office or on the CSC website.
2. Students must possess an earned baccalaureate degree from a regionally accredited institution. General education at the baccalaureate level is a prerequisite for admission to all Master of Arts in Education degree programs at Chadron State College.
3. Students must submit to the Graduate Office an official transcript from each college or university previously attended. (In order to be considered an official transcript, it must be sent directly to Chadron State College from the college or university.) Transcripts from Chadron State College need not be submitted.
4. Students must submit three satisfactory recommendations completed by school administrators, college instructors, or other appropriate persons. These recommendations are to be placed on an official “Recommendation Form” available from the Graduate Office, which will be sent to the student upon receipt of an application.
5. Applicants must have a 2.75 undergraduate GPA or above on a 4.0 scale.
6. Applicants must submit GRE Scores for application to the science area only. Minimum satisfactory GRE scores have been set at the following levels: Verbal = 350, Quantitative = 410, Analytical Writing = 3.0. Students performing unsatisfactorily on the GRE may be accepted by the Graduate Council on a conditional basis. Students accepted on a conditional basis will have terms of the condition stated in writing. These terms may include maintenance of a stated grade point average, additional coursework, or another method of remediation. Students may retake the GRE to improve their scores.
7. Students admitted to graduate study may be required to spend more than the minimum time to complete the work for the master’s degree. The Graduate Council may require students to make up any deficiencies in preparation by completing specified courses without credit toward the desired degree.

Graduate Study, Graduate Status, Applications for Oral Examination and Application for Graduation are separate and independent levels in the degree program. Students must apply for and be approved for each level.

Note: The graduate student must complete at least 24 semester hours of graduate coursework after being accepted for graduate study.
The Dean of Graduate Studies and the Graduate Council will examine documents submitted and make one of the following determinations.

Acceptance: The Graduate Dean approves the application and the student advances into Graduate Study. If the Dean and/or Council have areas of concern, those concerns will be stated. Additional coursework or other appropriate requirements may be required.

Conditional Acceptance: The Dean and/or Graduate Council recognize certain deficiencies and may require additional coursework, evaluative testing or other appropriate requirements. The student may then advance to Graduate Study on a conditional basis and progress is monitored.

Non-Acceptance: The Graduate Dean and/or Council do not approve the application at this time and the student does not advance into Graduate Study. Reasons for non-approval and possible avenues toward acceptance will be stated.

MASTER OF ARTS IN EDUCATION DEGREE PROGRAMS

The degree of Master of Arts in Education,

COMMUNITY COUNSELING

The Community Counseling Program offers a Master of Arts in Education degree. This degree program requires the successful completion of 48 credit hours of graduate education. EDCI 631, Introduction to Graduate Study, should be completed within the first 12 hours of a student’s program of study.

Mission

The mission of the Community Counseling program of the Counseling, Psychology and Social Work Department of Chadron State College is to prepare quality professionals to pursue careers as community counselors in various public and private agencies and systems.

Student Learning Outcomes

Upon completion of the Community Counseling Program students will be able to:

• demonstrate knowledge of human growth and development, social and cultural foundations, helping relationships, groups and group procedures, career and lifestyle development, appraisal, research and program evaluation, and professionalism;
• be employed as an entry level professional counselor with entry level professional skills;
• demonstrate knowledge and application of the principles of the American Counseling Association (ACA) Code of Ethics;
• apply the ACA ethical principles professionally;
• fulfill the pre-graduation requirements of Title 172, Nebraska Department of Health Professional and Occupational Licenses Regulations in the areas of course content and supervised clinical experience;
• analyze the need of rural populations and develop appropriate referral and networking skills;
• demonstrate empathy and skill in counseling diverse cultural, social and gender groups;
• reflect on personal and professional strengths and weakness and identify needs for growth through supervisor consultation and peer relationships;
• provide consultation services to local, state and professional communities;
• read and comprehend professional journal literature.
Program of Study

The Community Counseling Program prepares students to work professionally in various public and private counseling agencies. In Nebraska, as well as most states, persons must be licensed by the state to engage in counseling or therapy. A teaching degree is not required for admittance into the Community Counseling Program.

COURSES:

- COUN 531 Counseling and Communication Skills .............. 3
- COUN 532 Treatment Issues in Addictions ......................... 3
- COUN 533 Ethical and Legal Issues ................................ 3
- COUN 534 Tests and Measurements ................................. 3
- COUN 535 Multicultural Counseling ............................... 3
- COUN 536 Foundation of Professional Identity .............. 3
- COUN 541 Counseling Theories ..................................... 3
- COUN 631 Consultation and Program Development ...... 3
- COUN 632 Career and Lifestyle Development .................. 3
- COUN 633 Internship in Counseling .......................... 3
- COUN 634 Group Counseling ................................. 3
- COUN 635 Multicultural Counseling ........................... 3
- COUN 636 Family Counseling ................................... 3
- COUN 637 Advanced Developmental Psychology ....... 3
- COUN 638 Practicum in Counseling I ....................... 3
- COUN 639A Practicum in Counseling I ....................... 3
- COUN 639B Practicum in Counseling II ..................... 3
- EDCI 631 Introduction to Graduate Studies ............... 3

Total 48

Course Requirements: Counseling Practicum is a key course in the curriculum of the counseling department. Therefore, certain courses are instrumental for the experience of practicum. As practicum is a developmental process it will be offered for 3 credit hours both fall and spring. In order to register for COUN 639A or 639B a student needs to have completed the following courses with a grade of “A” or “B”:

- COUN 531 Counseling & Comm Skills ........................ 3
- COUN 533 Ethical and Legal Issues .............................. 3
- COUN 541 Counseling Theories ..................................... 3
- COUN 535 Multicultural Counseling ........................... 3
- COUN 634 Group Counseling ................................. 3
- EDCI 631 Introduction to Graduate Studies ............... 3

Total 48

The following courses may be taken concurrently with COUN 639A, Practicum I only:

- COUN 535 Multicultural Counseling ........................... 3
- COUN 634 Group Counseling ................................. 3

All other courses may be taken at any point in the program prior to COUN 633, Internship, which is the capstone course and must be the last course completed.

*Note: Students who are unable to finish their Internship in 3 credit hours may need to enroll in additional hours for completion of this requirement. The Credentialing Division of the Department of Regulation and Licensure, Nebraska Health and Human Services System, generally approves our counseling courses for professional counseling continuing education (CE) credit.

The degree Master of Arts in Education,

HISTORY

NOTE: EDCI 631, Introduction to Graduate Study, should be completed within the first 12 hours of a student’s program of study.

Basic Education Core:

- EDCI 631 Introduction to Graduate Study .................. 3
- EDCI 633 Educational Philosophy .............................. 3
- PSYC 636 Advanced Educational Psychology ............ 3

REQUIRED:

- HIST 635 Research Seminar in History .................. 3
- HIST 660 Thesis ............................................ 6

Electives:

Courses in History (including HIST 535, History of Historical Writing, unless taken at the Undergraduate level) ....... 18

Total 36
**The degree Master of Arts in Education, SCIENCE/MATHEMATICS**

**NOTE:** EDCI 631, Introduction to Graduate Study, should be completed within the first 12 hours of a student’s program of study.

*Students who have taken the undergraduate equivalent of these courses will work with their advisors and committees to determine appropriate value-added courses.

**Program Learning Outcomes**

The following Program Learning Outcomes apply to the Master of Arts in Education, Science/Mathematics. Upon completion of this program, students will:

- Have developed the mathematical/scientific ability and knowledge of the depth and breadth of mathematics/science. As appropriate, apply this knowledge in the field of mathematics/science education.
- Be able to communicate both about mathematics/science and by utilizing mathematics/science.
- Use technology appropriately to do mathematics/science and to communicate about mathematics/science.
- Apply mathematical sciences, including statistics and computer use, in other disciplines.

**MASTER OF BUSINESS ADMINISTRATION DEGREE**

Accredited by the Association of Collegiate Business Schools and Programs (ACBSP)

**VISION**

The Business Academy at Chadron State College provides competitive professional preparation in business Administration.

**MISSION**

Deliver a program designed for supervisory and mid-level managers which develops practices consistent with the adaptability required for high performance management in the dynamic western high plains region. The program will be delivered in an innovative and flexible format emphasizing both an internal and external decision focus as well as an experiential learning component.
APPLICATION FOR ADMISSION TO THE MASTER OF BUSINESS ADMINISTRATION DEGREE

Individuals applying for admission into the M.B.A. program at CSC shall meet the following entrance requirements:

1. Application for admission to graduate study must be completed on forms available from the Graduate Office or at the CSC website.

2. Applicants must possess an earned baccalaureate degree. Those having graduated from an unaccredited institution may be accepted conditionally, provided all other college and departmental requirements have been met.

3. Applicants must have a 2.75 undergraduate GPA or above on a 4.0 scale or have completed 12 graduate hours at CSC with a GPA of 3.25 or higher.

4. Applicants must submit three satisfactory recommendations from individuals qualified to testify to the probable success of the applicant in the program. These recommendations are to be placed on the official “Recommendation Form” available from the Graduate Office, which will be sent upon receipt of the application.

5. Admission may be determined by one of two methods.
   A. The student must have accumulated 1000 points or greater based upon the following formula: 200 times
      the undergraduate GPA (on a 4.00 system) plus the GMAT score.
   OR
   B. The student must receive a GMAT score of 400 or greater.

6. Applicants without a business degree or significant business experience may be required to demonstrate additional competencies before full admission into the program will be granted. These competencies may be fulfilled through a variety of mediums such as: CLEP, course challenge, self study, correspondence, portfolio or specified coursework.

Note: The MBA graduate student is to complete at least 24 semester hours of graduate coursework after being accepted for graduate study. A student may transfer a maximum of nine (9) graduate credit hours from an accredited institution.

MASTER OF EDUCATION

The Master of Education degree is designed for individuals who hold teaching certificates at the baccalaureate level. Teaching certificates from the State of Nebraska are at one of the following levels: "Initial," "Standard," or "Professional." Initial certificates are valid for five years. Standard certificates are renewable every seven years and Professional Certificates are renewable every ten years. "Professional certification" is not required for continued endorsement, as the "standard certificate" is renewable.

The following programs will normally entitle recipients to be certified at the "professional" level for positions in teaching. An undergraduate degree in teacher education is a prerequisite for entrance into these programs.

APPLICATION FOR ADMISSION TO THE MASTER OF EDUCATION DEGREE

Following are criteria for acceptance into Graduate Study in the M.Ed. program:

1. Application for admission to graduate study must be completed on forms available from the Graduate Office or online on the csc.edu website.

2. Students must possess an earned baccalaureate degree from a regionally accredited institution. General education at the baccalaureate level is a prerequisite for admission to all Master of Education degree programs at Chadron State College.

3. Students must submit to the Graduate Office an official transcript from each college or university previously attended. (In order to be considered an official transcript, it must be sent directly to Chadron State College from the college or university.) Transcripts from Chadron State College need not be submitted.

4. Students must submit three satisfactory recommendations completed by school administrators, college instructors, or other appropriate persons. These recommendations are to be placed on an official "Recommendation Form" available from the Graduate Office, which will be sent upon receipt of the application.

5. Applicants must have a 2.75 undergraduate GPA or above on a 4.0 scale.

6. Applicants pursuing a concentration in science must submit GRE Scores. The GRE is not required for other programs or concentrations. See the graduate office for minimum scores.

7. Experience requirements:
   - M.Ed: School Administrators - 18-24 hours of professional education courses is a prerequisite for admission. The Certification Officer should be consulted to determine whether a satisfactory PPST score and courses in Special Education and Human Relations may be required.
   - M.Ed: School Counseling - a teaching certificate is required for admission.

8. Students admitted to graduate study may be required to spend more than the minimum time to complete the work for the master’s degree. The Graduate Council may require students to make up any deficiency in preparation by completing specified courses without credit toward the desired degree.

Graduate Study, Graduate Status, Application for Oral Examination and Application for Graduation are separate and independent levels in the degree program. Students must apply and be approved for each level.

Note: The graduate student must complete at least 24 semester hours of graduate coursework after being accepted for graduate study.

The Dean of Graduate Studies and the Graduate Council will examine documents submitted and make one of the following determinations.

Acceptance: The Graduate Dean approves the application and the student advances into Graduate Study. If the Dean and/or Council have areas of concern, those concerns will be stated. Additional coursework or other appropriate requirements may be required.

Conditional Acceptance: The Dean and/or Graduate Council recognize certain deficiencies and may require additional coursework, evaluative testing or other appropriate requirements. The student may then advance to Graduate Study on a conditional basis and progress is monitored.

Non-Acceptance: The Graduate Dean and/or Council do not approve the application at this time and the student does not advance into Graduate Study. Reasons for non-approval and possible avenues toward acceptance will be stated.
The degree Master of Education,  
CURRICULUM AND INSTRUCTION - ELEMENTARY

Curriculum and Instruction Program Statement  
Elementary and Secondary Curriculum and Instruction

The Curriculum and Instruction program at the Master’s Degree level prepares candidates to build upon their undergraduate preparation as teachers. Persons enrolled in these programs are committed to the design, development, and delivery of classroom instruction. Courses prepare candidates to identify and use research-based practices in elementary or secondary schools; design curriculum for a variety of levels; and understand the broader functions of schooling in the United States. The program is a blend of theoretical and practical knowledge that can be immediately applied to the classroom setting.

As Visionary Leaders in educational settings, the graduate-level candidate has integrated in their Curriculum and Instruction program the knowledge, skills, and dispositions necessary for success in communication, thinking skills, methodology/technology, professionalism, assessment, and human relations/diversity.

Candidate Competencies (Outcomes)

Candidates for the Masters of Education in Elementary and Secondary Curriculum and Instruction will provide leadership in the school setting through demonstrating the following competencies:

Candidates will
1. apply principle qualities of leadership
2. develop and implement curriculum based on central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches; diverse learner needs and abilities; cognitive and developmental levels; and community and curricular goals. (methodology/technology; human relations/diversity)
3. develop and implement curriculum using a variety of instructional strategies to encourage students’ development of critical thinking, problem solving, and performance skills. (methodology/technology; thinking skills)
4. design and facilitate a learning environment that encourages individual and group motivation, positive social interaction, and active engagement in learning. (methodology/technology; professionalism, assessment)
5. demonstrate cultural awareness, gender sensitivity, and racial and ethnic appreciation in fostering an inclusive learning environment. (human relations/ methodology/technology)
6. communicate clearly using listening, writing, speaking, and media skills in a manner that is consistent with and responsive to the specific audience. (communications; professionalism)
7. utilize assessment strategies and data to improve student learning and social development at the individual and program level. (assessment; methodology/technology)
8. improve instruction based on reflective practice and research-based “best practices.” The candidate will continuously seek to grow as a professional educator. (professionalism; methodology/technology)
9. foster relationships with school colleagues, parents, and agencies of the larger community based on an understanding of the impacts of philosophy, sociology, political and legal forces on public education. (professionalism; communication/ human relations/diversity)

The degree Master of Education
EDUCATIONAL ADMINISTRATION

Education Administration Program Statement
Elementary, Middle, and Secondary School Administration

The Educational Administration program at the Master’s Degree level prepares individuals to be either elementary or secondary school principals. This program is designed to focus on the leadership role of administrators in providing the best educational climate for students and staff. Therefore, graduate students are trained in the knowledge, skills, and attitudes necessary to be effective administrators.

As Visionary Leaders in educational settings, the graduate candidates have integrated in their Educational Administration program the knowledge, skills, and attitudes necessary for success in communication, thinking skills, methodology/technology, professionalism, assessment, and human relations/diversity.

Candidate Competencies (Outcomes)
Candidates for the Masters of Education in Elementary, Middle School, Secondary Administration or other specialized administrative positions will provide leadership in the school setting through demonstrating the following competencies:

Candidates will
1. apply principle qualities of leadership (leadership)
2. lead and organize the collaborative development, articulation, implementation, and stewardship of a school or district vision of learning supported by the school community. (Communication, thinking skills, human relations/diversity)
3. lead and promote a positive school culture, providing an effective standards based instructional program, applying best practice to student learning, and designing comprehensive professional growth plans for staff based on identified needs. (Methodology/technology, professionalism, assessment, thinking skills, human relations/diversity)
4. lead and promote the success of all students by managing the organization, operations, and resources in a way that promotes a safe, efficient, and effective learning environment. (Communication, thinking skills, methodology/technology, professionalism)
5. demonstrate the knowledge, ability and dispositions to promote the success of all students by collaborating with families and other community members, responding to diverse community interests and needs, and mobilizing community resources. (Communication, methodology/technology, human relations/diversity)
6. demonstrate the skill, knowledge, and ability to promote the success of all students by acting fairly, with integrity, and in an ethical manner. (Human relations/diversity, communication, professionalism)
7. demonstrate the skill, knowledge, and ability to respond to, and influence the larger political, social, economic, legal, and cultural context. (Professionalism, thinking skills, human relations/diversity)
8. demonstrate the ability to accept genuine responsibility for leading, facilitating, and making decisions typical of those made by educational leaders. (Communication, thinking skills, methodology/technology, professionalism, assessment, and human relations/diversity)

*The programs of study meet the requirements for Nebraska Principal Administrative certification. If seeking certification, candidates must have met all State of Nebraska requirements for a teaching certificate, as well as a minimum of two years full time teaching experience. Two hundred fifty clock hours of experience(s) in approved or accredited elementary, middle, secondary, special education, activities director, or curriculum/assessment director practicum/internship is required for certification. To be certified in more than one focus area, the practicum/internship would be designed with at least 50% of the experiences focused in one of the two areas and 50% of the experiences focused on a second area (i.e., middle school, special education, activities director, or curriculum/assessment director).

---

**The degree Master of Education, SCHOOL COUNSELING**

The School Counseling Program offers a Masters of Education degree. This degree program requires the successful completion of 39 credit hours of graduate education. EDCI 631, Introduction to Graduate Study, should be completed within the first 12 hours of a student’s program of study.

**Mission**

The mission of the School Counseling program of the Counseling, Psychology and Social Work Department of Chadron State College is to prepare quality professionals to be endorsed as school counselors who will meet the needs of students and educational settings of tomorrow.

**Student Learning Outcomes**

Upon completion of the School Counseling Program students will be able to:
- demonstrate knowledge of human growth and development, social and cultural foundations, helping relationships, groups and group procedures, career and lifestyle development, appraisal, research and program evaluation, and professionalism;
- be employed as an entry level professional counselor with entry level professional skills;
- demonstrate knowledge and application of the principles of the American Counseling Association (ACA) Code of Ethics and the Ethics of the American School Counseling Association (ASCA);
- apply the ACA ethical principles professionally;
- fulfill the pre-graduation requirements of Rule 24, Nebraska Department of Education in the areas of course content and supervised clinical experience;
- analyze the need of rural populations and develop appropriate referral and networking skills;
- demonstrate empathy and skill in counseling diverse cultural, social and gender groups;
• reflect on personal and professional strengths and weaknesses and identify needs for growth through supervisor consultation and peer relationships;
• provide consultation services to local, state and professional communities;
• read and comprehend professional journal literature.

Program of Study

The School Counseling Program prepares students to work professionally as elementary or as secondary school counselors. Students seeking endorsement as school counselors in Nebraska must have at least two years of teaching experience and a valid teaching certificate.

A class in this Program, "Internship in Counseling" (COUN 633), requires affirmation by the graduate student under oath that he/she has no felony or misdemeanor convictions involving moral turpitude (Guide to Nebraska Teacher Education Institutions, Nebraska Department of Education, Code Section 004.01, subsection 004.11D). Furthermore, enrollment in COUN 633 requires a student's affirmation under oath that he/she does not have any order or determination currently in effect by a court or any other government body of criminal charges because of insanity; or of incapacity and in need of a guardian; or of an inability to manage his/her property due to mental illness, mental deficiency, chronic use of drugs or chronic intoxication; or because he/she is currently an in-patient or resident in a mental health facility due to a determination by a qualified mental health professional (Guide to Nebraska Teacher Education Institutions, Nebraska Department of Education, Code Section 004.01, subsection 1004.01L).

For K-6 school counseling endorsement, students must take one 450-hour elementary school counseling internship. For 7-12 school counseling endorsement, students must complete one 450-hour secondary school counseling internship. Students seeking K-12 school counseling endorsement must complete one 900-hour internship. Regardless of the number of hours, students should register for COUN 633. Students may need to take additional credit hours for completion of this requirement.

**NOTE:** For School Counseling students who wish to obtain licensure as Licensed Professional Counselors from the State of Nebraska, the following courses are needed to complete the requirement: COUN 532, 536, 633, 636, and 639B. Contact a Counseling faculty member for additional information.

**MASTER OF SCIENCE IN ORGANIZATIONAL MANAGEMENT**

The Master of Science in Organizational Management degree is designed to serve the needs of the Chadron State College service region by providing a master’s level education designed to prepare individuals for management, administrative, supervisory, or leadership positions within corporate, government, or not-for-profit settings. This degree is offered by the Nebraska State College System with online courses available, not only from Chadron State College, but also from Wayne State College and Peru State College. See the Dean of Graduate Studies for more information.
APPLICATION FOR ADMISSION TO THE
MASTER OF EDUCATION DEGREE

Following are criteria for acceptance into Graduate Study in the M.S. program:

1. Application for admission to graduate study must be completed on forms available from the Graduate Office or online on the CSC website. Deadline for admission to the graduate study program is April 1 for the summer and fall terms, and October 1 for the spring term.

2. Students must possess an earned baccalaureate degree from a regionally accredited institution. General education at the baccalaureate level is a prerequisite for admission to all Master of Education degree programs at Chadron State College.

3. Students must submit to the Graduate Office an official transcript from each college or university previously attended. (In order to be considered an official transcript, it must be sent directly to Chadron State College from the college or university.) Transcripts from Chadron State College need not be submitted.

4. Students must submit three satisfactory recommendations completed by school administrators, college instructors, or other appropriate persons. These recommendations are to be placed on an official “Recommendation Form” available from the Graduate Office.

5. Applicants must have a 2.75 undergraduate GPA or above on a 4.0 scale.

6. Students admitted to graduate study may be required to spend more than the minimum time to complete the work for the master’s degree. The Graduate Council may require students to make up any deficiency in preparation by completing specified courses without credit toward the desired degree.

Graduate Study, Graduate Status, and Applications for Oral Examination and Graduation are separate and independent levels in the degree program. Students must apply and be approved for each level.

Note: The graduate student must complete at least 24 semester hours of graduate coursework after being accepted for graduate study.

THE SPECIALIST IN EDUCATION DEGREE
A COHORT MODEL

All candidates entering a Specialist degree program must have completed or will complete the necessary prerequisite courses for the program. Credits to ameliorate deficiencies may apply toward elective program areas in some cases. A field practicum is required.

Programs of study at the Specialist degree level include preparation for the position of Superintendent of Schools. Each program pursued will require some specific coursework, although considerable flexibility will be allowed in planning programs to meet the individual needs of those enrolling in the Specialist degree program. Satisfactory scores on the PPST may be required for Nebraska certification. To make this determination, please contact either the Graduate Office or the Nebraska Department of Education.

APPLICATION FOR ADMISSION TO THE SPECIALIST IN EDUCATION DEGREE COHORT PROGRAM

1. Complete an Application for Admission to Graduate Study. Applications are available from the Graduate Office or online at CSC site. Deadline for admission to the graduate study is April 1 program for the summer and fall terms, and October 1 for the spring term.
2. Students must have earned a master's degree from a regionally accredited college or university. A master's level degree is a prerequisite to admission to the Specialist in Education degree program at Chadron State College.

3. Students must submit to the Graduate Office an official transcript from each college and/or university previously attended. (In order to be considered an official transcript, it must be sent directly to Chadron State College from the college or university.) Transcripts from Chadron State College need not be submitted.

4. Students must submit three satisfactory recommendations completed by school administrators, college instructors or other appropriate persons. These recommendations are to be placed on the official "Recommendation Form" available from the Graduate Office.

5. Students must submit a written statement from the candidate outlining her/his goals for seeking the superintendency.

6. Students must have had at least two or more years of successful teaching experience.

7. Students must show high scholastic potential including:
   a. A graduate grade point average of 3.4 or above on a 4.0 scale
   OR
   b. A graduate grade point average of not lower than 3.25 on an 4.0 scale and satisfactory performance scores on
      The GRE, as follows:
      (1) Verbal Portion (410 or greater)
      (2) Quantitative Portion (480 or greater)
      (3) Analytical Writing Portion (3.0 or greater)

   Students may retake the GRE to improve their scores.

8. An initial review of the entire application packet is completed by the Initial Review Committee during the initial (or first?) on campus cohort week.

9. Students may be accepted on a conditional basis. These students will have terms of the condition stated in writing. The terms may include maintenance of a stated grade point average, additional coursework or other methods of remediation.

10. Students admitted to the program may be required to spend more than the minimum time to complete the work for the Specialist degree. The Dean of Professional and Graduate Studies and/or Graduate Council may require students to make up any deficiencies in preparation by completing specified courses without credit toward the desired degree.

   Graduate Study, Graduate Status, and Application for Oral Examination and Graduation are separate and independent levels in the degree program. Students must apply for and be approved for each level.

   In exceptional circumstances entrance requirements may allow for alternatives to the established admission procedures to encourage participation of individuals from under-represented groups and other students as determined by Chadron State College.

   The Dean of Graduate Studies and the Graduate Council will examine documents submitted, and one of the following determinations will be made:

   Acceptance: The Graduate Dean approves the application and the student is advanced into Graduate Study. If the Graduate Dean and/or Council has areas of concern they will be stated and may require additional coursework or other appropriate requirements.

   Conditional Acceptance: The Graduate Dean and/or Council recognizes certain deficiencies and may require additional coursework, evaluative testing, or other appropriate requirements. The student may then be advanced to Graduate Study on a conditional basis and progress is monitored.

   Non-Acceptance: The Graduate Dean and/or Council does not approve the application at this time and the student is not advanced into Graduate Study. Reasons for non-approval and possible avenues toward acceptance will be stated.
Admission to Graduate Status

After being accepted for graduate study and prior to the completion of 15 semester hours of graduate coursework, the prospective candidate for the Specialist degree should make application for admission to graduate status. At this time the student must:

1. Have earned at least a 3.25 grade point average on coursework completed;
2. Prepare and submit a "Plan of Graduate Study" to the Graduate Council for approval;
3. Receive notification from the Dean of Graduate Studies of approval.

The advisor is to inform the Graduate Office of any prerequisites and/or deficiencies the student may have. The advisor and other graduate faculty members in the area of a student's concentration will outline with the student any deficiencies the student may have and a plan for remediation of these deficiencies prior to the granting of a degree.

Application for the Specialist Degree

The formal application for the degree should be filed with the Dean of Graduate Studies during the term prior in which the student expects to graduate. Candidates who plan to complete requirements for graduation in December must file formal application prior to April 15. Those who plan to graduate in spring must file prior to November 15. Those who plan to complete requirements during the summer session and graduate in December must apply by June 1. Application forms are available in the Graduate Office.

At the time the application is submitted all indebtedness to the college and the graduation fee must be paid.

Conferring of the Specialist Degree

Specialist in Education degrees will be conferred upon successful candidates at the commencement following cohort completion.

Program Research Requirements

The successful candidate will complete either a Field Study or a Thesis.

Field Study

The Field Study must be written in connection with an area of training or specialization for which a student has had coursework and, when possible, experience. The student's committee and Graduate Council must approve the topic selected. It must also have practical value to the student and should relate to some specific professional objective. If the study involves human or animal subjects, approval of the project must be granted by the Institutional Review Board prior to the commencement of the study.

Although it may be a study of a specific operation in a specific setting, the Field Study should involve the collection and analysis of data, documentation of supporting evidence, and drawing of sound conclusions. The study itself should be reported in a scholarly manner, with items of form and style determined by the nature of the study and approved by the student's advisor.

Those choosing the Field Study option must register for a total of three semester hours of Field Study credit. Registration for all three hours or any portion thereof may be made at the beginning of any semester or summer term following approval of the Field Study topic. His/her committee, the Graduate Council and Institutional Review Board must approve the student's topic before the investigation may begin.

The Field Study will be written under the direct supervision and guidance of the advisor. The student is ultimately responsible for the progress of the Field Study.

Upon final completion of the Field Study and its review by the advisor and the committee, an oral examination is scheduled. Copies of the Field Study must be presented to the committee members at least two weeks before the scheduled date of the oral examination. The oral examination will include questions regarding the Field Study, coursework, and other material relevant to the student's field of study. The committee will sign approval forms after successful completion of the Field Study and oral examination. The oral examination must be taken at least FOUR weeks prior to the date of graduation or granting of the degree. (The final date for oral examinations is posted each term in the Graduate Office.) Students completing the oral examination after the specified date will not be eligible for graduation until the next graduation or diploma granting date. See the next section for more details regarding the oral examination.

The student must submit four copies of the unbound document to the Graduate Office at least 15 class days before the close of the semester or summer term in which the student is certified for graduation.
Program Examination

Oral
Candidates for the Specialist degree are required to pass a final oral examination in their area of concentration. Students must have submitted the completed thesis or Field Study to the committee at least two weeks prior to the oral examination. The student's graduate committee will conduct the oral examination. If a member of the committee is unavailable and rescheduling is inappropriate, a substitution may be appointed by the Dean of Graduate Studies. With the candidate's knowledge, the examining committee may invite other individuals to be present at the oral examination.

The oral examination must be taken at least FOUR weeks prior to the date of graduation or granting of the degree. The final date on which oral examinations may be taken is posted each term in the Graduate Office. Students completing the oral examination after the specified date will not be eligible for graduation until the next graduation or diploma granting date.

Following successful completion of the oral examination, approval forms will be signed by the student's committee and presented to the Dean of Graduate Studies.

The degree of Specialist in Education,
SUPERINTENDENT OF SCHOOLS

Candidate Competencies (Outcomes)
Candidates for the Masters of Science in Elementary and Secondary Administration will provide leadership in the school setting through demonstrating the following competencies:

Candidates will
1. lead and organize the collaborative development, articulation, implementation, and stewardship of a school or district vision of learning supported by the school community. (Communication, thinking skills, human relations/diversity)
2. lead and promote a positive school culture, providing an effective standards based instructional program, applying best practice to student learning, and designing comprehensive professional growth plans for staff based on identified needs. (Methodology/technology, professionalism, assessment, thinking skills, human relations/diversity)
3. lead and promote the success of all students by managing the organization, operations, and resources in a way that promotes a safe, efficient, and effective learning environment. (Communication, thinking skills, methodology/technology, professionalism)
4. demonstrate the knowledge, ability and dispositions to promote the success of all students by collaborating with families and other community members, responding to diverse community interests and needs, and mobilizing community resources. (Communication, methodology/technology, human relations/diversity)
5. demonstrate the skill, knowledge, and ability to promote the success of all students by acting fairly, with integrity, and in an ethical manner. (Human relations/diversity, communication, professionalism)
6. demonstrate the skill, knowledge, and ability to respond to, and influence the larger political, social, economic, legal, and cultural context. (Professionalism, thinking skills, human relations/diversity)
7. demonstrate the ability to accept genuine responsibility for leading, facilitating, and making decisions typical of those made by educational leaders. (Communication, thinking skills, methodology/technology, professionalism, assessment, and human relations/diversity)

The Cohort Model Rationale
The Chadron State College Department of Education 2 year Specialist in Education Cohort Program provides the professional PK-12 school administrator with a user-friendly avenue to complete advanced leadership degrees. The program allows current school administrators to obtain a Nebraska Superintendent certification with strands of emphasis useful for the candidate’s specific situation. The cohort model allows like-minded administrators to further develop their personal network of resources while honing their administrative skills.
This program is designed for a cohort of students to progress through the entirety of coursework together and complete the program within a two year period. Any extensions of the timeline will be considered only in the severest of circumstances. **Withdrawal from a cohort will require the student to reapply for admission to a new cohort. No spots in future cohorts can be guaranteed for re-entering degree seekers.** (Please read the Graduate Bulletin for more detailed instructions.)

### Emphasis Strands
A Cohort Member may create an area of emphasis within the Ed.S. Degree plan by picking specific elective courses that will complement their plan of study. Areas of emphasis for the Specialist Degree include:

- The Balanced Superintendency,
- The Superintendentcy with emphasis in Curriculum and Instruction Administration,
- The Superintendentcy with emphasis in Special Education Administration,
- The Superintendentcy with emphasis in Assessment and Accountability
- The Superintendentcy with emphasis in Administration of Literacy programs.
NON-DEGREE PROGRAM OFFERING
ENDORSEMENT FOR READING SPECIALIST

Students planning to complete a reading specialist endorsement must complete the sequence outlined below. Technical advances in reading instruction are addressed in the Reading Endorsement where appropriate. In addition to the endorsement the student must have completed the following: (a) an endorsement in Elementary or Secondary Education, including child and/or adolescent psychology, (b) requirements for a valid Nebraska teaching certificate, and (c) successful teaching experience.

REQUIRED:
COUN 534 Tests and Measurements ......................... 3
COUN 637 Advanced Developmental Psychology ........ 3
ENG 538 Adolescent Literature ......................... 3
READ 530 Reading in the Middle/Secondary Schools . 3
READ 531 Improvement of Instruction in Reading .... 3
READ 635 Diagnosis and Correction ..................... 3
READ 636 Practicum in Reading ......................... 3

Select three (3) hours to meet the supporting work requirements:
READ 533 Approaches & Techniques for Teaching Reading
OR
READ 535 Reading and the At-Risk Student.................. 3

Select six (6) hours from the following electives:
EDCI 637 Impr of Instr in the Lang Arts in Elem/MS . 3
READ 532 Read in the Content Field .................... 3
READ 634 Linguistic Found of Reading Instr .............. 3
SPED 533 Char of Learning Disabilities .................. 3

Total 30

COURSE DESCRIPTIONS

ACCOUNTING

ACTG 531 Financial Accounting Credit 3 hours
Conceptual and technical material designed to enable students to read, analyze, and interpret financial information on financial statements.

ACTG 532 Managerial Accounting Credit 3 hours
An introduction to the fundamentals of management accounting with an emphasis on the use of accounting information in cost accumulation, decision making, and planning and control. Prerequisites: ACTG 531 or equivalent.

ACTG 560 Topics in Accounting Credit 1-3 hours
Topics or seminars will be selected as needed to keep students abreast of contemporary issues in accounting.

ACTG 600 Independent Study or Research Credit 1-3 hours
Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Permission of instructor, department chair and academic dean required.

AGRICULTURE

AGRI 500 Independent Study or Research Credit 1-3 hours
For student seeking an individual problem in agriculture. Permission from instructor and academic Dean required.

<td></td>
</tr>
</tbody>
</table>
AGRI 547   Animal Breeding and Reproduction  Credit 3 hours
Reproduction processes of domestic animals, including anatomy, physiology, and endocrinology of reproduction, breeding systems, and artificial insemination principles. Prerequisite: AGRI 132 or consent of the instructor.

AGRI 560   Topics in Agriculture  Credit 1-3 hours
Meets the needs of changing conditions in agriculture. Topics may change from semester to semester. This course may be repeated for up to 6 hours of credit.

AGRI 600   Independent Study or Research  Credit 1-3 hours
Designed to permit individual students to participate in a progressively more complex series of investigations and independent studies in agriculture, range management, natural resources, or wildlife management at the graduate level. Permission of instructor and academic Dean required.

AGRI 630   Topics in Agriculture/Range Management/Wildlife  Credit 1-3 hours
Designed to meet special needs of individual students or groups and offered when demand can be demonstrated.

AGRI 655   Scholarly Project  Credit 1-3 hours
Scholarly project pertaining to a field of specialization. Designed in consultation with student’s graduate committee and includes an extensive paper summarizing the project. Required for students selecting Plan II as listed in the Graduate catalog. Must complete 3 hours.

AGRI 660   Thesis Research  Credit 1-6 hours
Original investigations in science leading to the master’s thesis. Must complete 6 hours. Proposal must be approved by the student’s committee and Dean of Professional and Graduate Studies prior to registration.

AGRI 690   Internship in Agriculture/Range Management/Wildlife  Credit 1-3 hours
Provides practical work experience in an agency or organization related to agriculture, rangeland management, natural resources, or wildlife management. Interested students should contact the Internship and Career Services office to secure application materials. Application should be made prior to the semester in which the internship will be started. The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant and the work hours.

ANTH 530   Topics in Anthropology  Credit 1-3 hours
Special topical studies that may include: art and religion, Native American culture, impact of technology on culture, agricultural systems, cultures of the Middle East, exploration and cultures, linguistics, and nomadism. Student may enroll in the course for a maximum 9 hours credit. Field research is possible.

ANTH 535   Northern Plains Indian Cultures  Credit 3 hours
Survey of Northern Plains Indian cultures with a focus upon aspects of cultures from both a historical and contemporary perspective, but with emphasis being placed on the contemporary cultures. The impact of modern technology and Euro-American contact on Northern Plains Indians will also be examined as well as the continuing functions of traditional Native beliefs in contemporary social, economic, political, and religious contexts.

ANTH 655   Scholarly Project  Credit 1-3 hours
Project pertaining to a field of specialization. Designed in consultation with student’s graduate committee. Includes paper summarizing the project. Required for students completing Plan II. Must complete three hours.

ART 500   Independent Study  Credit 1-3 hours
Open to students who wish to research some aspect of art or art education through directed readings and independent investigation. Discussion with the department and written evidence of the ability to do independent research required. May be repeated with a different topic. Permission of instructor and academic Dean required.

BIOL 531L  Entomology Laboratory Credit 1 hour
Laboratory and field experience in insect morphology and taxonomy. Must be taken concurrently with BIOL 531.

BIOL 532 Developmental Biology Credit 2 hours
Molecular and cellular aspects of development, including the regulation and expression of the genome during development, fertilization, cleavage, gastrulation, morphogenesis, and organogenesis. Must be taken concurrently with BIOL 532L. Prerequisite: BIOL 332

BIOL 532L Developmental Biology Laboratory Credit 1 hour
Laboratory experience in vertebrate embryology and morphological development. Must be taken concurrently with BIOL 532.

BIOL 533 Analysis of Human Movement Credit 2 hours
The utilization of anatomy, physiology, biochemistry, and physics in the study of human movement, with emphasis on biomechanics, control and integration of muscle groups in maintaining posture and producing complicated movements, bioenergetics, adaptation of the body to stress and exercise, and training regimens. Must be taken concurrently with BIOL 533L. Prerequisite: BIOL 342/342L and either PHYS 151/151L or 241/241L.

BIOL 533L Analysis of Human Movement Laboratory Credit 1 hour
Laboratory experience in human movement. Technology and donor bodies will be used. Must be taken concurrently with BIOL 533.

BIOL 535 Mammalogy Credit 2 hours
The systematics, life history, physiology, and behavior of mammals. Must be taken concurrently with BIOL 535L. Field trips required. Prerequisite: BIOL 139/139L or equivalent.

BIOL 535L Mammalogy Laboratory Credit 1 hour
Laboratory experience in mammal structure and function. Must be taken concurrently with BIOL 535.

BIOL 536 Research Microscopy Credit 3 hours
Microscopic principles and techniques and research methods. Students will plan and carry out a research project using light microscopy and present their findings in a public seminar. Cross-listed as GEOS 526.

BIOL 537 Wildlife Management Practicum Credit 3 hours
A seminar style course that will bring together wildlife professionals, natural resource managers, livestock producers, environmentalists and others interested in wildlife management. Participants will describe, discuss, and debate existing programs and issues on private and public lands. Field trips required. Cross-listed as AGRI 537. Prerequisite: BIOL/AGRI 235, 426.

BIOL 538 Taxonomy of Plants Credit 2 hours
The taxonomy of vascular plants with emphasis on the local flora, agriculturally important plants, and range plants. Field trips required. Must be taken concurrently with BIOL 538L. Prerequisite: BIOL 138/138L or equivalent.

BIOL 538L Taxonomy of Plants Laboratory Credit 1 hour
Laboratory experience in plant phylogeny and identification. Must be taken concurrently with BIOL 538.

BIOL 539 Plant Physiology Credit 2 hours
The physiological and developmental processes occurring in cells, tissues, and organs of plants, with emphasis on hormonal, environmental and other control mechanisms of plant behavior and development. Must be taken concurrently with BIOL 539L. Prerequisite: Basic Plant Science course required; chemistry recommended.

BIOL 539L Plant Physiology Laboratory Credit 1 hour
Laboratory experience in plant structure and function, with an emphasis on applied plant biochemistry. Must be taken concurrently with BIOL 539.

BIOL 620  Ethology  Credit 3 hours
A study of animal behavior, particularly under natural conditions. Consideration will be given to the three different experimental approaches to the study of animal behavior; comparative psychology, ethology, and sociobiology. Considerable time will be spent on making observations and analyzing the behaviors of selected invertebrate and vertebrate animals.

BIOL 630  Topics in Biology  Credit 1-3 hours
Designed to meet special needs of individual students or groups and offered when demand can be demonstrated.

BIOL 632  Topics in Advanced Human Biology  Credit 1-3 hours
Designed to meet the needs of different groups of people desiring advanced work in gross and living anatomy, physiology, embryology, histology, and neurobiology. Study topics and credit will be arranged to meet the needs of the students. Can be repeated with a change in emphasis for a total of twelve hours of credit.

BIOL 638  Systematics of Plants  Credit 3 hours
The principles of taxonomy and the identification and classification of plants. Considerable time will be spent on a survey on representative flowering plant families, hybridization, and evolution of plant groups. Prerequisite: BIOL 538/538L or equivalent recommended.

BIOL 639  Plant Anatomy and Morphology  Credit 3 hours
Origin and structure of plant cell types, tissues, and organs along with a survey of the plant world illustrated by specific examples from both living and fossil plants.

BIOL 655  Scholarly Project  Credit 1-3 hours
Scholarly project pertaining to a field of specialization. Designed in consultation with students’ graduate committee and includes an extensive paper summarizing the project. Required for students selecting Plan II as listed in the Graduate catalog. Must complete 3 hours.

BIOL 660  Thesis Research  Credit 1-6 hours
Original investigations in science leading to the master’s thesis. Must complete 6 hours. Proposal must be approved by the student’s committee and Dean of Professional and Graduate Studies prior to registration.

BIOL 690  Internship in Biology  Credit 1-3 hours
Provides practical experience as a biologist in government, business, or industry. Credits cannot be counted in the basic 36 hours for a Master’s degree. Interested students should contact the Internship and Career Services office to secure application materials. Application should be made prior to the semester the internship will be started. The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant, and the work hours.

BUSINESS ADMINISTRATION

BA 560  Topics in Business  Credit 1-3 hours
Topics or seminars will be selected as needed to keep students abreast of contemporary issues in business.

BA 600  Independent Study or Research  Credit 1-3 hours
Research in an area of special interest or need. The topic and the amount of work required are determined by the number of credit hours. Permission of instructor, department chair, and dean required prior to registration.

BA 655  Scholarly Project  Credit 1-6 hours
Project pertaining to a field of specialization. Designed in consultation with student’s graduate committee. Includes paper summarizing the project. Proposal must be approved by the student’s committee and Dean of Professional and Graduate Studies prior to registration.
B A  660  Thesis  
Original research as prescribed under Plan I of the General Requirements for the Master’s Degree in the Graduate Bulletin. Must complete 6 hours. Proposal must be approved by the student’s committee and Dean of Professional and Graduate Studies prior to registration.

B A  690  Internship in Business/Professional Experience  
Provides practical work experience in business. Interested students should contact the Internship & Career Services office to secure application materials. Application should be made prior to the semester the internship will be started. The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant, and the work hours.

CAREER AND TECHNOLOGY EDUCATION

CTE  500  Independent Study or Research  
The problem selected and the amount of work in its solution determine the number of hours credit. May be repeated for up to six hours credit. Permission of instructor and academic Dean required.

CTE  531  Introduction to Special Needs Programs in CTE  
Designed to help high school career and technical education teachers and special education teachers determine the work based and school based needs of learners identified as special populations. The course includes transition to work curriculum and program plans.

CTE  534  Principles & Philosophy of Career and Technical Education  
The principles, philosophy, and history of career and technical education are presented in this course.

CTE  535  Adult Education  
Study of adult learner, adult learning theory and adult programming.

CTE  538  Coordination in Occupational Training Program  
Foundation and scope of current and projected career and technical cooperative education programs and general studies work experience. Emphasis on coordination techniques, selection and placement, instructional procedures, youth leadership activities, organization and administration, and evaluation of cooperative occupational education.

CTE  540  Topics in Career and Technical Education  
Contemporary topics within career and technical education.

CTE  552  Program Developments, Implementation and Assessment  
A course that studies the development, implementation, and assessment of programs within an organization. The course examines the leadership necessary to accomplish the goals and mission of the organizations programs.

CTE  600  Independent Study or Research  
Research or study in the area of career and technical education will be conducted either on or off campus. Reading of literature in this area or creative projects culminating in the writing of special papers and reports will be required.

CTE  632  Organizational Leadership  
A study of leadership theories, characteristics, styles, and effectiveness as related to growth of an organization and the development of the personnel within the organization.

CTE  633  Legislation and Budgeting in Career and Technical Education  
Indepth look at career and technical legislation and its implications for financial support and budgeting for career and technical programs and schools.
CTE 655 Scholarly Project  Credit 1-3 hours
Project pertaining to a field of specialization. Designed in consultation with student’s graduate committee. Includes paper summarizing the project. Required for students completing Plan II. Must complete 3 hours.

CTE 660 Thesis  Credit 1-6 hours
Original research as prescribed under Plan I of the Master’s Degree Program. Must complete 6 hours. Proposal must be approved by the student’s committee and Dean of Professional and Graduate Studies prior to registration.

CTE 690 Internship  Credit 1-3 hours
Provides practical work experience in an agency related to career and technology education. Interested students should contact the Internship and Career Services office to secure application materials. Application should be made prior to the semester the internship will be started. The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant, and the work hours.

CHEMISTRY

CHEM 500 Independent Study or Research  Credit 1-3 hours
Designed for the graduate student participating in investigations and/or independent studies in chemistry required at the graduate level. Permission of instructor and academic Dean required. May be repeated.

CHEM 501 Chemistry Research  Credit 1-3 hours
A laboratory research experience for chemistry students. Project responsibilities assigned and supervised by chemistry faculty. Prerequisite: BIOL 332.

CHEM 512 Biotechnology  Credit 3 hours
Hands-on procedures with discussions and readings to provide theoretical understanding and historical background of biotechnology work.

CHEM 517 Topics in Chemistry  Credit 1-3 hours
Designed to meet the needs of students in a special area of interest. May be repeated for up to 6 hours.

CHEM 519 Special Topics in Chemistry  Credit 1-3 hours
Offered to meet special needs of chemistry majors. May be repeated.

CHEM 530 Inorganic Chemistry  Credit 3 hours
Advanced principles of inorganic chemistry. Prerequisite: CHEM 132/132L.

CHEM 533 Environmental Chemistry  Credit 3 hours
A detailed study of the chemical processes that influence the environment, including processes which affect the quality and use of land, water, and atmosphere. Focuses on topics of current concern. Concurrent enrollment in CHEM 533L required. Prerequisite: either CHEM 140/140L or 132/132L.

CHEM 533L Environmental Chemistry Laboratory  Credit 1 hour
Laboratory experience. Concurrent enrollment in CHEM 533 required.

CHEM 535 Biochemistry  Credit 3 hours
Covers the components and reactions of living matter. Topics include metabolism of major macromolecules including carbohydrates, lipids, proteins, and nucleic acids. Enzyme function and regulation will be studied. Concurrent enrollment in BIOL 535L recommended. Prerequisite: CHEM 231/231L or 233/233L.

CHEM 535L Biochemistry Laboratory  Credit 1 hour
Laboratory experiments in purification, quantiation, and characterization of biological molecules. Accompanies Biochemistry. Concurrent enrollment in 544 required.
### CHEM 544   Physical Chemistry
Fundamental principles of thermodynamics, kinetics, and quantum mechanics as related to chemical concepts. Concurrent enrollment in CHEM 544L required. Prerequisites: CHEM 132/132L and either MATH 138 or MATH 151.

### CHEM 544L   Physical Chemistry Laboratory
Laboratory experience. Concurrent enrollment in CHEM 544 required.

### CHEM 564   Physical Chemistry II
Fundamental principles of kinetics, and quantum mechanics as related to chemical concepts. Prerequisites: CHEM 544/544L and MATH 151.

### CHEM 600   Independent Study or Research
Research investigations in chemistry. Permission of instructor and academic Dean required.

### CHEM 640   Topics in Chemistry
Selected chemistry topics. Course content will vary to meet the special needs of students. The course may involve classroom, and/or field oriented activity. Credit is dependent upon length of course and depth of study. May be repeated with different topics for up to six hours.

### CHEM 655   Scholarly Project
Scholarly project pertaining to a field of specialization. Designed in consultation with students’ graduate committee and includes an extensive paper summarizing the project. Required for students selecting Plan II. Must complete 3 hours.

### CHEM 660   Thesis Research
Original investigations in chemistry leading to the master’s thesis. Must complete six hours. Proposal must be approved by the student’s committee and Dean of Professional and Graduate Studies prior to registration.

### COMMUNICATION ARTS

#### C A 500   Independent Study/Research
Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Permission of instructor and academic Dean required.

#### C A 520   Relational and Family Communication
Advanced interpersonal course designed to give students the opportunity to explore current interpersonal research in modern family relationship situations. In-depth exploration of intimate communication, parent-child communication, child-child communication, and extended family communication in the western tradition and interculturally.

#### C A 530   Communication Research Methods
A review of research methods used in the discipline of Communication wherein students can gain an understanding of and practice in research design. Students will be exposed to both quantitative and qualitative methodologies.

#### C A 535   Advanced Topics in Communications
Special topics in communications. May be repeated with change of emphasis.

#### C A 536   Seminar in Communication
Designed to meet the specific needs of a group of students. May be repeated with a different topic. Admission by permission of Communication Arts faculty.

#### C A 540   Gendered Communication
Explores gender as a communication variable in settings ranging from interpersonal relationships, organizational settings, to public or mass communication.
C A  600  Independent Study/Research  
Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Permission of instructor and academic Dean required.

C A  610  Theories of Conflict Resolution & Mediation  
Approaching conflict resolution and mediation from a skills perspective. Effective conflict mediation and resolution skills in both personal and professional settings will be discussed.

C A  630  Organizational Communication  
This course investigates the nature, content and effects of communication in organizations. The course takes a practical approach focusing on typical communication situations experienced in many organizations. A variety of learning methods will be employed in the course to examine how communication theory can effectively be applied. Students will participate in presentations, group activities, and case studies. The material for looking at organizations will be from a variety of academic disciplines, and the focus will be on how meaning is created, transmitted, and shared.

COUNSELING  

COUN  501  Topics in Counseling  
To meet the individual needs of students, it may become necessary to offer seminars or special topics that are not within the range of counseling courses described in this Bulletin.

COUN  520  Psychopharmacology, Social and Medical Issues in Addictions  
This course will explore and review issues of medical and psychological aspects of alcohol/drug use, abuse and addition. This course is designed to meet the requirements to apply for addictions counseling licensure.

COUN  523  Diagnoses and the DSM  
Major mental and behavioral disorders are studied within the framework of the Diagnostic and Statistical Manual of Mental Disorders. Case management issues presented with emphasis on addictions. Recommended Prerequisite: PSYC 433.

COUN  531  Counseling and Communication Skills  
Introduction to counseling and interviewing skills.

COUN  532  Treatment Issues in Addictions  
Substance abuse issues explored in the variety of counseling settings.

COUN  533  Ethical and Legal Issues in Counseling and Psychotherapy  
Surveys the ethical, legal, and professional issues facing the counseling professional. Topics on professional conduct, decision-making, and the legal requirements for licensure will be studied.

COUN  534  Tests and Measurements  
Introduction to the uses of psychological and educational tests, including methods of test construction, test reliability and validity application, interpretation, and evaluation of common tests. Prerequisite: PSYC 438 or permission of instructor.

COUN  535  Multicultural Counseling  
Individual differences, cultural characteristics, culture-appropriate and culturally sensitive intervention imperative for those preparing to enter the counseling profession.

COUN  536  Foundations of Professional Identity  
Introductory to counseling or human services career. Topics will include but not be limited to professional identity, history of counseling, self exploration, career options in human services, counseling trends, and psychology and characteristics of counselors.

<tr>
<td>COUN 635</td>
<td>School Counseling</td>
<td>3 hours</td>
</tr>
<tr>
<td></td>
<td>Introduces topics to prepare potential school counselors to function effectively at the elementary or secondary level. Topics include but are not limited to school law, program development and evaluation, consultation, appraisal, ethics, and use of the American School Counseling National Comprehensive Model as applied to school counseling.</td>
<td></td>
</tr>
<tr>
<td>COUN 636</td>
<td>Family Counseling</td>
<td>3 hours</td>
</tr>
<tr>
<td></td>
<td>Examines the dynamics of family counseling and family systems. Satisfactory completion of this course gives students a fundamental understanding of family systems theory and other leading theories of family counseling and their application in the counseling process.</td>
<td></td>
</tr>
<tr>
<td>COUN 637</td>
<td>Advanced Developmental Psychology</td>
<td>3 hours</td>
</tr>
<tr>
<td></td>
<td>Case studies interwoven with empirical findings, theory, research methodology, explanations of technical concepts, and practical issues to clarify how biological, perceptual, cognitive, social, and emotional development either lead to or avert psychopathology.</td>
<td></td>
</tr>
<tr>
<td>COUN 639A</td>
<td>Practicum in Counseling I</td>
<td>3 hours</td>
</tr>
<tr>
<td></td>
<td>Provides students with opportunities to work with clients in on-going counseling situations under the direct supervision of a qualified faculty member. Students will see individual clients and/or group clients in counseling clinic setting and will accumulate a minimum of 20 hours of direct client contact. Offered in the Fall semester. Prerequisites: Successful completion of COUN 531, 533, 541, and School Counseling students COUN 635 and permission of the instructor.</td>
<td></td>
</tr>
</tbody>
</table>
COUN 639B Practicum in Counseling II  
Advanced practicum for students in the Community Counseling program or others who desire to develop clinical skills before their internship. Students will see individual clients and/or group clients in counseling clinic setting and will accumulate a minimum of 20 hours of direct client contact. Offered in the Spring semester. Prerequisites: COUN 531, 533, 541, and School Counseling students COUN 635 and permission of instructor.

COUN 655 Scholarly Project  
The student engages in a major project related to his/her area of specialization. The design of the paper and the project is in cooperation with the student’s graduate committee. Prerequisite: Permission of the advisor. Must complete three hours.

COUN 660 Thesis  
The student designs and implements an extensive research project. The research and the paper are designed in cooperation with the student’s graduate committee. Prerequisites: Permission of the Dean of Professional and Graduate Study and the advisor.

CRIMINAL JUSTICE

C.J. 500 Independent Study or Research  
Faculty-guided research in an area of mutual interest to the student and instructor. Students are responsible for selecting the area of inquiry prior to contacting the instructor. Prerequisite: 15 hours of Criminal Justice and permission of instructor and academic Dean required.

C.J. 536 Seminar: Comparative CJ  
Focuses on the major criminal justice systems of the world, with special emphasis on Western Europe, the international Criminal Justice system, and terrorism. Field trip may be required.

C.J. 600 Independent Study or Research  
Faculty-guided research in an area of mutual interest to the student and instructor. Students are responsible for selecting the area of inquiry prior to contacting the instructor. Prerequisite: 15 hours of Criminal Justice and permission of instructor and academic Dean required.

C.J. 655 Scholarly Project  
Projects pertaining to a field of specialization. Designed in consultation with student’s graduate committee. Includes paper summarizing the project. Required for students completing Plan II. Must complete three hours.

DESIGN AND TECHNOLOGY EDUCATION

DTE 500 Independent Study or Research  
Research in industrial technology. The problem selected and the amount of work in its solution determine the number of hours of credit. May be repeated up to 6 hours. Permission of instructor and academic Dean required.

DTE 532 Quality Assurance/Quality Control  
Quality Assurance in terms of its relationship to design, testing, manufacturing, and applications. Procedures and methods for quality control systems for manufacturing industries. Prerequisite: DTE 232 or DTE 233 or equivalent.

DTE 534 Automated Manufacturing  
Concepts in computer integrated manufacturing. Experiences in communication of data via networks to CNC machines and robots will provide a foundation by applying those concepts to actual industrial situations.

DTE 540 Topics in DTE  
Study of contemporary areas of DTE.
DTE 600 Independent Study or Research  Credit 1-3 hours
Research or study in the area of Industrial Education will be conducted either on or off campus. The reading of literature in this area or projects culminating in the writing of special papers and reports will be required. Permission of instructor and academic Dean required.

DTE 631 Recent Trends in Industrial Technology  Credit 3 hours
To acquaint teachers of industrial technology with an overview of the recent trends, new developments, the current problems involved in the organizing, administering, and teaching of industrial technology. Each student will be required to make a written report on some problem or phase of work considered in this class.

DTE 655 Scholarly Project  Credit 1-3 hours
Project pertaining to a field of specialization. Designed in consultation with student’s graduate committee. Includes paper summarizing the project. Required for students completing Plan II. Must complete 3 hours.

DTE 690 Internship in Design and Technology Education  Credit 1-3 hours
Provides practical work experience in an agency related to industrial technology. Interested students should contact the Internship and Career Services office to secure application materials. Application should be made prior to the semester the internship will be started. The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant, and the work hours.

ECON 537 Managerial Economics  Credit 3 hours
Analysis of the economic decisions made by firm managers, estimation of demand, government agencies, and other organizations. The course focuses on the practical application of economic principles to economic problems of managers. Prerequisites: Department’s Mathematics Requirement; BA 241, 336; and ECON 130 or equivalencies.

ECON 560 Topics in Economics  Credit 1-3 hours
Topics or seminars will be selected as needed to keep students abreast of contemporary issues in economics.

ECON 600 Independent Study or Research  Credit 1-3 hours
Research in an area of special interest or need. The topic and the amount of work required are determined by the number of credit hours. Permission of instructor, department chair, and dean required prior to registration.

EDUC 500 Independent Study or Research  Credit 1-3 hours
Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Permission of instructor and Academic Dean is required.

EDUC 531 Planning Technical Support for Educational Environments  Credit 3 hours
Explores planning technical support for teaching and learning environments through committees and planning documents; hardware and software systems in relation to supporting instructional and administrative activities; and training and support needed to use these technologies.

EDUC 532 Computer Managed Instruction  Credit 3 hours
Explores instructor use of hardware/software systems for producing word processing, data management, authoring systems for web pages, presentation software, teacher utilities, digital cameras, digital scanners, and other tools that are valuable in the production of instructional materials.

EDUC 533 The Middle School  Credit 3 hours
Philosophy, implementation, and improvement of the middle school from a theoretical and practical basis. Emphasis is placed upon the development, behavior, and special problems of middle school students; overall school program; methods of instruction; and the evaluation process.
EDUC 534  Technology in Instructional Design  Credit 3 hours
Focuses on concepts and tools for applying systems theory to K-12 instructional design. Concepts include needs, instructional, learner, and context analysis; objective, assessment, strategy development, and evaluation. Course also applicable to business, industry, government, health care, and not-for-profit organizations.

EDUC 535  Computer Assisted Instruction  Credit 3 hours
Applies pedagogically sound instructional design and current pedagogical practices for developing K-12 online course materials and teaching methodologies that create an effective learning environment.

EDUC 536  Problem Solving with Technology  Credit 3 hours
Stresses video, hypermedia, the Internet, and other technologies as learning tools. Utilizes several specific media tools for problem solving, engaging students in personally and socially constructed meaning, community building, and developing interactive information literacy.

EDUC 538  Contemporary Teaching Practices  Credit 3 hours
Examines contemporary teaching practices including but not limited to: constructivist methods, information processing methods, looping, multi-age teaching, and matching instruction to performance standards. Teaching with technology will be a strong emphasis. Instruction suited to the Internet and distance learning systems will be practiced.

EDUC 539  Advanced Methods of Performance Assessment  Credit 3 hours
Builds on fundamental assessment knowledge and skills with emphasis on developing advanced competencies, particularly in the areas of performance-based assessment, assessment in standards-based environments, and applying current philosophies and practices to classroom teaching.

EDUC 540  Topics in Educational Technology  Credit 1-3 hours
Designed to allow students to study some aspect of educational technology not offered as a regular class. May be repeated with a change of emphasis for a maximum of 6 hours credit. Graduate students must check with their advisor to determine if the course is acceptable for their Plan of Study.

EDUC 580  Field Experience  Credit 1-8 hours
Assists the non-certified teacher and the teacher seeking an additional endorsement or renewal of an expired certificate through a planned and supervised field experience. The total number of field experience hours will be determined by a transcript review. Prerequisites for the course include successful completion of Teacher Education requirements as outlined in the General Bulletin. Requires affirmation under oath that the student has no felony convictions or misdemeanor convictions involving abuse, neglect, or sexual misconduct.

EDAD 600  Independent Study or Research  Credit 1-3 hours
Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Permission of instructor and academic Dean required.

EDAD 631  Public Relations  Credit 3 hours
An overview of current theory and practice in public relations indicating principles and models to help understand how to sell an idea, build a coalition, and manage crises. Working with various sources to develop a public relations plan will be addressed.

EDAD 632  Supervision of Instruction  Credit 3 hours
Reviews current philosophy and practices in supervision at both the elementary and the secondary school levels. Emphasis will be placed upon a developmental model of improvement of instruction and the domains of the principalship. A course designed for prospective mentors, principals, supervisors, and school superintendents.
**EDAD 633  School Administration**
Credit 3 hours
Examines the role of the school principal as building manager, instructional leader, creator for a learning environment, and decision maker. Focus on scheduling, co-curriculum activities, cultivating and maintaining collegial relationships, developing a school district vision, public and human relations, supervision of instruction, auxiliary services, working with community, and the school improvement process. Prerequisite: EDAD 636.

**EDAD 634  School Business Management and Finance**
Credit 3 hours
Study the functions of business management for schools including, budgetary considerations, auditing and reporting, management of funds, purchasing procedures and inventory, insurance, auxiliary services, a background of school finance, various levels of governmental financing of public schools, judicial decisions and their effects, bond issues, school finance forms, and finance of schools in the future.

**EDAD 636  Fundamentals of School Administration**
Credit 3 hours
A study concerning the organization and control of American schools. Discussion will include federal and court mandates; state and local control; teacher, parent, and special interest groups; and college and/or university influences.

**EDAD 637  School Plant Planning and Maintenance**
Credit 3 hours
Principles and processes of developing functional educational facilities. Procedures and techniques for each phase of facility planning are included. Topics include: survey of needs, the Master Plan, site selection, the Educational and equipment selection along with a proactive maintenance plan and operations.

**EDAD 638  Personnel Administration**
Credit 3 hours
Theories, principles, and practices of school personnel administration with the focus including that of various personnel administration tasks including selection, in-service, performance evaluation, and professional negotiations.

**EDAD 639  Practicum/Internship in Educational Administration**
Credit 3 hours
Provides practical learning experiences inherent to the elementary/middle/secondary school principalship and special education curriculum supervisor. Seminar sessions will include discussion of current research and practices based on building principals’ needs and concerns. Separate and appropriate experiences will be designed wherever possible for students preparing in each of the areas – elementary, middle, secondary administration and special education curriculum supervisor. Should be taken as close to the end of the program as possible. Required: at least 200 hours in a practicum setting at two school sites.

**EDAD 639B  Advanced Practicum/Internship**
Credit 3-6 hours
Provides for additional hours of experience under the direction of a practicing principal at either the secondary or elementary level or both. Additional hours may be necessary for certification in other states. The experience will be guided by the student’s chairperson and an administrator in the field. Prerequisites: EDCI 638, EDAD 635 or EDAD 633, EDAD 632, EDAD 636, and EDAD 638.

**EDAD 640  Special Topics for Administrators**
Credit 1-3 hours
Development, implementation, and management of Inclusive Classrooms in the K-12 school environment. This course will include (a) a background of laws leading up to IDEA & “Least Restrictive Environment requirements, (b) a working knowledge of IDEA and related amendments, (c) classroom management & inclusive behavior interventions, (d) techniques/strategies in adapting curriculum for all students, including those with special needs, and (e) setting or beginning exclusionary practices.

**EDAD 655  Scholarly Project**
Credit 1-3 hours
Provide a scholarly project for students choosing Plan II for Graduate Study. This project will utilize research skills. Must complete 3 hours.

**EDAD 660  Thesis**
Credit 1-6 hours
An extensive research study conducted under the guidance of the student’s advisor. Required of those candidates for the Master’s degree who elect Plan I and recommended for all who plan to do further advanced work in education. Must complete 6 hours. Proposal must be approved by the student’s committee and Dean of Professional and Graduate Studies prior to registration.
EDAD 730  Seminar in Educational Leadership  Credit 1-3 hours
Provides learning experiences inherent to leadership and management roles in education. Responsibilities, problems, challenges, and trends which face administrators will be covered in a seminar approach. Individual and appropriate experiences will be designed whenever possible for students preparing for different roles in educational leadership. This course will be taken in conjunction with EDAD 763. Prerequisites: EDAD 631, EDAD 634, and EDAD 637.

EDAD 731  The School Administrator and the Law  Credit 3 hours
Designed to provide the educational administrator with a view of the law governing the operation of schools in Nebraska, Wyoming, and South Dakota. An emphasis will be placed on preventative law through building an understanding of legal issues facing the school administration and avoiding possible litigation. Issues will include school district organization, meeting of the board of education, personnel administration, conducting hearings, developing board of education policies, students’ rights, discrimination, religious issues, and other current legal issues.

EDAD 732  Field Study  Credit 1-3 hours
Conducted in an area of specialization in which a student has had course work and, when possible, experience. The topic selected should be one of highly practical value to the student and should relate to specific professional objective. The topic of Field Study must be approved by the committee before the study is undertaken.

EDAD 734  Public and Human Relations  Credit 3 hours
Designed to provide the educational administrator effective skills focused on meeting the Nebraska state legislation on required human relations course for certification along with a focus on public relations. The course includes an analysis of principles, practices, and materials that facilitate the adjustment and interpretation of schools to their internal and external publics, process to organize, administer, and evaluate the public and human relations program along with a school district’s development of a public relations plan.

EDAD 762  Thesis  Credit 1-6 hours
Conveys conclusions on some subject directly related to the candidate’s area of specialization. It should attempt to establish a point previously unsupported or verify existing knowledge, employing one or more of the commonly accepted tools of educational research. The thesis topic must be approved by the candidate’s committee before he/she commences the investigation. Must complete 6 hours.

EDAD 763  Internship/Field Experience  Credit 3-6 hours
Prospective educational administrators will gain an understanding of school management through an internship in the field. Consideration will be given to antecedents of change, change models, the roles of different levels of government, forces that restrict or stimulate management, tools to implement instructional programs, and evaluation. The experience will be guided by the student’s chairperson and an administrator in the field.

EDUCATIONAL CURRICULUM AND INSTRUCTION

EDCI 536  Seminar/Topics in Education  Credit 1-3 hours
Investigation of special topics in education. Attempts will be made to meet the individual needs of those registering in the program.

EDCI 600  Independent Study or Research  Credit 1-3 hours
Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Permission of instructor and academic Dean required.

EDCI 631  Introduction to Graduate Study  Credit 3 hours
Develop competencies in producing and utilizing research to improve professional practice. Quantitative and qualitative methods will be presented. Quantitative methods will be the primary emphasis including basic statistical methods. Students will produce a research plan and literature review.

EDCI 632 Improvement of Instruction in Health and Science in Elementary/Middle Schools

Emphasis on curriculum and methodology in effective science and health education classes. Investigation of the aims of the science programs, acquaintance with the materials, techniques of instruction, and experiences that may help children gain the skills, understanding, and attitudes desirable in this subject area. Prerequisite: Student teaching or other teaching experience.

EDCI 633 Educational Philosophy

Philosophical beliefs underlying the democratic school system, its objectives, and the means of obtaining them is reviewed. It provides a basis for a philosophy of life and of education in a democratic society.

EDCI 634 Improvement of Instruction in Mathematics in Elementary/Middle Schools

Study methods and the value of teaching mathematics in the elementary school curriculum. Improved instructional materials are considered. Special consideration is given to exceptional children. Trends as noted in the professional literature are reviewed. Prerequisite: Student teaching or other teaching experience.

EDCI 635 Curriculum Development

K-12 school curriculum including pupil needs in everyday life situations, the curriculum writing process including standards based on research, objectives/skills, assessments, and evaluation along with an appraisal of new curriculum practices. Emphasis placed on the process of staff-developed curriculum.

EDCI 636 Improvement of Instruction in the Social Studies in Elementary/Middle Schools

The objectives of social education, organization of content, the unit activity approach, and a critical analysis of ways of improving instruction in the classroom are explored. Various types of teaching aids will be considered. Prerequisite: Student teaching or other teaching experience.

EDCI 637 Improvement of Instruction in the Language Arts in Elementary/Middle Schools

Principles and techniques of effective instruction in the areas of handwriting, spelling, oral and written language, and reading. Prerequisite: Student teaching or other teaching experience.

EDCI 638 School Law

Evaluation and current status of the law pertaining to the teacher in the classroom. Specific school situations will be analyzed as to applicable Nebraska, Wyoming, and South Dakota statutory and constitutional provisions and the rationale for the judicial interpretations of legal mandates.

EDCI 639 Systemic Change: Process for School Improvement

Seminar designed to follow and apply research focusing on systemic change. Student concerns and interests are part of this class.

EDCI 655 Scholarly Project

Scholarly project pertaining to a field of specialization. Designed in consultation with the student’s graduate committee and includes an extensive paper summarizing and related to the project. Required for students selecting Plan II. Must complete 3 hours.

EDCI 660 Thesis

The completion of a research project of considerable scope. The report of a study conducted under the guidance of the student’s advisor. Required of those candidates for the master’s degree who elect Plan I and recommended for all who plan to do further advanced work in education. Must complete 6 hours. Proposal must be approved by the student’s committee and Dean of Education and Graduate Studies prior to registration.
ENGLISH

ENG 500 Independent Study or Research  Credit 3 hours
Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Permission of instructor and academic Dean is required.

ENG 531 Topics in English  Credit 3 hours
Special topics in English. May be repeated with a change of emphasis.

ENG 532 Shakespeare  Credit 3 hours
Shakespeare’s works, with particular attention paid to those plays most commonly taught in the middle and senior high schools. Field trips may be required.

ENG 535 Native American Literature  Credit 3 hours
A study of the history, themes, and/or genres of literature produced by and about Native Americans.

ENG 536 World Literature  Credit 3 hours
A study of representative poetry, drama, and prose fiction selected from global literature. Field trips may be required. All texts not originally published in the English language will be read in English translation.

ENG 538 Adolescent Literature  Credit 3 hours
A study of literature suitable for grades 7-12 that provides a critical background for interpreting, evaluating, and teaching that literature.

ENG 540 Theory and Practice of Literary Criticism  Credit 3 hours
An overview of current theoretical trends, such as psychoanalysis, ethnicity and race studies, structuralism, post-structuralism, and Marxism, as they relate to the practice of various forms of literary criticism.

ENG 541 English and American Novels  Credit 3 hours
A study of selected English and American novels.

ENG 600 Independent Study or Research  Credit 3 hours
Study or research in an area of special interest. The number of credit hours determined by topic and amount of work required. Permission of instructor and academic Dean required.

ENG 631 Seminar in English  Credit 3 hours
Study in any of the disciplines included under the language arts and designed to meet the specific needs of a group of students. Permission of instructor required.

FAMILY AND CONSUMER SCIENCES

FCS 500 Independent Study or Research  Credit 1-3 hours
Selected problems of interest to advanced students. Permission of the instructor and academic Dean required.

FCS 517 Wellness Across the Lifespan  Credit 3 hours
Students will use wellness models and developmental models as a basis for learning assessment skills and creative intervention strategies which promote a lifetime of wellness. Emphasis is on empowering students to work with individuals across the lifespan (birth through old age) in assessing current states of wellness and promoting optimal wellness choices. Among the topics to be studied are wellness behaviors of individuals across the lifespan and the relationship to longevity, core values and life-defining decisions, critical thinking and creative problem-solving for individuals of all ages. Students will focus on the theory and practice of wellness assessments, interventions, and outcomes in working with individuals and families of various ages and stages.
### FCS 532 Trends in Family and Consumer Sciences Credit 3 hours
The course will focus on updating students in one of the following areas of Family and Consumer Sciences: a) consumer and home management, b) housing and home furnishings, c) textiles and clothing, d) nutrition and foods, e) child development, or f) family issues and relations.

### FCS 534 Seminar in Current Issues in Human Services Credit 3 hours
Provides an opportunity to concentrate on current issues in the human services field including policies, programs, funding, consumer rights and administrative issues.

### FCS 537 Family Strengths Credit 3 hours
Advanced study in the dynamics of successful family relationships. Investigation into the attributes of vital families which contribute toward the resolution of stressors in meaningful and positive ways. Lecture, discussion, and case study.

### FCS 540 Special Topics in Family and Consumer Sciences Credit 1-3 hours
Contemporary concepts and issues in Family and Consumer Sciences. May be repeated with different emphases for up to six hours of credit.

### FCS 547 Nutrition for Sports & Wellness Credit 3 hours
A study of the nutrients and their relationship to sport and wellness. We will address the special nutritional and training needs of athletes and all individuals who are physically active. Major topics include the function and sources of each of the nutrients; fueling for pre exercise, during exercise and after exercise; specific meal planning, nutrient needs for specific athletes and wellness lifestyles; and more.

### FCS 557 Nutrition for Community Wellness Credit 3 hours
An evidence-based study of the science of nutrition and its relationship to improving public health. An emphasis will be made on the campus-community based approach to improving health. Special emphasis will be made on the relationship between nutritional epidemiology and the research, policies, and programs regarding prevention and treatment and lifestyle and hereditary diseases.

### FCS 600 Independent Study or Research Credit 1-3 hours
Selected problems of interest to advanced students. Permission of the instructor and academic Dean required.

### FCS 690 Internship Credit 1-3 hours
Provides practical experience in an agency related to Family and Consumer Sciences. Interested students should contact the Internship and Career Services office to secure application materials. Application should be made prior to the semester the internship will be started. The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant, and the work hours.

### FINANCE

### FIN 560 Topics in Finance Credit 1-3 hours
Topics or seminars will be selected as needed to keep students abreast of contemporary issues in finance.

### FIN 600 Independent Study or Research Credit 1-3 hours
Selected problems of interest to advanced students. Permission of the instructor, department chair and academic dean required.

### FIN 631 Managerial Finance Credit 3 hours
Covers advanced financial principles, focusing on the application and case studies of financial theory to business and corporate problems and solving problems. Prerequisite: FIN 330 or equivalent.

CHADRON STATE COLLEGE

HPER 532  Tests and Measurements in Physical Education  Credit 3 hours
The history of measurements in physical education, the selection and administration of appropriate test, and the integration of their results by statistical procedures.

HPER 533  Physical Education in the Elementary School  Credit 3 hours
An investigation of research and current practices in Elementary Physical Education.

HPER 535  Curriculum Planning in Physical Education  Credit 3 hours
History and trends in Physical Education. Principles and procedures for curriculum construction and criteria for selection of activities and judging outcomes. Students will develop a K-12 Physical Education Curriculum.

HPER 537  Sport Law  Credit 3 hours
Study of the law and implications relative to physical education and sport. Emphasis on safety procedures, preventive measures and legal responsibilities of the coach/administrator.

HPER 539  Biomechanics of Sports  Credit 2 hours
Improve ability to teach physical education and to coach athletic teams by learning to analyze a variety of sports activities in terms of fundamental principles of mechanics. Must be taken concurrently with HPER 539L. Prerequisite: HPER 122, 124, 124L, 232, and 232L or permission of Department Chair.

HPER 539L  Biomechanics of Sports Lab  Credit 1 hour
Lab experience in Biomechanics of Sports. Must be taken concurrently with HPER 539.

HPER 590  Internship in Health, Physical Education, Recreation  Credit 1-12 hours
Provides practical experience in physical education, recreation, coaching or athletic training. Interested students should contact the Internship and Career Services office to secure application materials. Application should be made prior to the semester the internship will be started. The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant, and the work hours. Prerequisites: Identification of required internships and prerequisites for each as follows:
- Recreation: HPER 226, 234, and 333
- Coaching: HPER 220, 335, and appropriate techniques courses (Note: Education students should not do their coaching internship while on Block or student teaching.)
- Athletic Training: HPER 226

HPER 600  Independent Study or Research  Credit 1-3 hours
Research or study in the area of health, physical education, and recreation will be conducted either on or off campus. The reading of literature in this area or carrying projects culminating in the writing of special papers and reports will be required. Permission of instructor and Academic Dean required.

HPER 626  Advanced Motor Skill Learning  Credit 3 hours
An advanced course designed for the exploration of materials, methods, and mechanisms that underlie the learning and performance of motor skills.

HPER 631  Topics in HPER  Credit 3 hours
This course is designed to give the master physical educator and awareness of recent trends and issues in the school setting and to discuss other contemporary concerns affecting the master physical educator.

HPER 632  Current Studies in Administration of Physical Education  Credit 3 hours
Research and research techniques in the field of administration of physical education.

HPER 634  Measurement of Human Performance  Credit 3 hours
A review of various instruments used to measure human performance. The study related to these instruments includes but is not limited to the use, construction, presentation, and statistical analysis required for interpretation.
### GRADUATE STUDIES

**HPER 637  Sports Management**  
Credit 3 hours  
This course provides students the opportunity to explore the dynamic world of sports from a management perspective. This perspective offers a comprehensive coverage of business trends, career options, and leadership training in the world of sport.

**HPER 638  Problems in Interschool Athletics**  
Credit 3 hours  
Examination and the discussion of problems which are encountered and related to the administration of an interscholastic athletic program. Current problems concerning athletics on a national, state, and local level.

**HPER 639  Advanced Methods of Sports Training**  
Credit 3 hours  
A study of advanced methods used in sports training for special populations. These populations include but are not limited to differences in training youth, aged, hypobaric, hyperbaric, gender, heat, cold, athletes and the general population.

**HPER 655  Scholarly Project**  
Credit 1-3 hours  
Scholarly project pertaining to a field of specialization. Designed in consultation with students’ graduate committee and includes an extensive paper summarizing and related to the project. Required for students selecting Plan II. Must complete 3 hours.

**HPER 660  Thesis**  
Credit 1-6 hours  
The completion of a research project of considerable scope. The report of a study conducted under the guidance of the student’s advisor. Required of those candidates for the master’s degree who elect Plan I and recommended for all who plan to do further advanced work in education. Must complete 6 hours. Proposal must be approved by the student’s committee and Dean of Professional and Graduate Studies prior to registration.

**HPER 690  Internship**  
Credit 1-3 hours  
Provides practical experience in managing physical education, recreation, coaching or athletic training. Interested students should contact the Internship and Career Services office to secure application materials. Application should be made prior to the semester the internship will be started. The amount of credit will be based on the availability of a suitable work position, the qualifications of the applicant, and the work hours.

### HISTORY

**HIST 500  Independent Study**  
Credit 1-3 hours  
Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Permission of instructor and academic Dean required.

**HIST 529  Civil Rights and The Vietnam War**  
Credit 3 hours  
A study of the origins, rationales, and results of the civil rights movement and the background, strategies, reasons for failure, and long-term effects of the Vietnam conflict.

**HIST 530  History of the American Indian**  
Credit 3 hours  
A survey of Indian-white relations from American pre-history to the present. The course will emphasize the contributions made by American Indians to the general historical development of the United States.

**HIST 531  Europe: Waterloo to World War I**  
Credit 3 hours  
European history in the 19th century, emphasizing the rise of nationalism and industrialism and the resultant changes in European society.

**HIST 532  Europe Since 1914**  
Credit 3 hours  
The end of the old order in Europe, the age of conflict and ideology, and the rise of mass movements from World War I to the present.

<td></td>
</tr>
</tbody>
</table>
### HIST 550  World War I
Study of the First World War from the perspective of Europe and the United States.  

Credit 3 hours

### HIST 600  Independent Study or Research
Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Permission of instructor and academic Dean required.  

Credit 1-3 hours

### HIST 635  Research Seminar in History
Research and writing on a major topic required.  

Credit 3 hours

### HIST 655  Scholarly Project
Project pertaining to a field of specialization. Designed in consultation with student’s graduate committee. Includes paper summarizing the project. Required for students completing Plan II. Must complete three hours.  

Credit 1-3 hours

### HIST 660  Thesis
An extensive research and writing experience which serves as the capstone course for the Master of Education degree with emphasis in History. Must complete 6 hours. Proposal must be approved by student’s committee and Dean of Professional and Graduate Studies prior to registration.  

Credit 1-6 hours

### HUMANITIES

### HUM 500  Independent Study or Research
Study of research in an area of special interest. Permission of instructor and academic Dean required.  

Credit 1-3 hours

### HUM 532  World Mythology
A survey of world myth and folklore as major sources of inspiration, allusion, and imagery in the expressive arts.  

Credit 3 hours

### HUM 534  Exploration in the Humanities
Exploration of visual, performing, or language arts. Previous experience and background are desirable but not necessary. Field trips may be required.  

Credit 3 hours

### INFORMATION SCIENCE AND TECHNOLOGY

### IST 500  Independent Study
Individual problems in a selected area of the general field of Information Science and Technology. Course can be repeated for additional credit (up to 6 credit hours total). Prerequisite: Permission of instructor and academic Dean required.  

Credit 1-3 hours

### IST 530  Topics in Information Science and Technology
Special topics in the general field of Information Science and Technology are studied in-depth. Course can be repeated for additional credit (up to 6 credit hours total). Prerequisites: IST 133 and appropriate background for topics covered.  

Credit 1-3 hours

### IST 533  Dynamic Web Page Development
Overview of the world wide web including advanced internet programming concepts and applications; design and publication of team oriented web projects. Prerequisites: IST 230 or equivalent.  

Credit 3 hours
MANAGEMENT

MGMT 560  Topics in Management  Credit 1-3 hours
Topics or seminars will be selected as needed to keep students abreast of contemporary issues in management.

MGMT 600  Independent Study or Research  Credit 1-3 hours
Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Permission of instructor, department chair and academic dean required.

MGMT 620  High Performance Leadership  Credit 3 hours
Review current theory and practice of leadership with emphasis on developing skills relevant to prospective and practicing mid-level managers. Topical subjects may include participative leadership, delegation, empowerment; current leadership theories and practice; change leadership; leadership for group decision-making; team building leadership; leadership for quality performance; developing leadership skills; and building effective relationships. Leadership experiential exercise and/or experience will be integrated with contextual material as relevant and practical. Prerequisite: MGMT 230 or equivalent.

MGMT 630  Organizational Behavior  Credit 3 hours
The determinants and organizational consequences of both individual and group behavior within formal organizations, with emphasis on theories, concepts, and empirical findings from the behavioral sciences that will help managers to understand, predict, and influence the behavior of members of an organization. Prerequisite: MGMT 230 or equivalent.

MGMT 634  Business Strategy  Credit 3 hours
A variety of decision methods or techniques applicable to corporate level strategic decisions are developed. In-depth case analysis for a wide variety of businesses and industries. Readings in business strategy. Prerequisite: CPC courses or equivalent.

MGMT 639  Legal and Social Environment of Business  Credit 3 hours
Examines the legal and social environments as they developed up to present situations, emphasizing current trends.

MANAGEMENT INFORMATION SYSTEMS

MIS 560  Topics in MIS  Credit 1-3 hours
Topics or seminars will be selected as needed to keep students abreast of contemporary issues in MIS.

MIS 600  Independent Study or Research  Credit 1-3 hours
Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Permission of instructor, department chair and academic dean required.

MIS 632  Information Systems for Managers  Credit 3 hours
Overview of Information Systems. Stresses role of the manager and the strategic use of technology in business.

MARKETING

MKTG 560  Topics in Marketing/Entrepreneurship  Credit 1-3 hours
Topics or seminars will be selected as needed to keep students abreast of contemporary issues in marketing/entrepreneurship.

MKTG 600  Independent Study or Research  Credit 1-3 hours
Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Permission of instructor, department chair and academic dean required.
MKTG 630  Marketing Management  Credit 3 hours
Management of the marketing process to include planning, pricing, promotion, and distribution of ideas, products, and services to give the organization a competitive edge. Prerequisite: MKTG 231 or equivalent.

MATHEMATICS

MATH 500  Independent Study or Research  Credit 1-3 hours
Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Permission of instructor and academic Dean required.

MATH 530  Topics in Mathematics  Credit 1-3 hours
Topics to meet the needs of students who have completed the regular course of study. Can be repeated with different emphasis for a maximum of 6 hours credit.

MATH 533  Statistical Methods and Data Analysis  Credit 3 hours
Statistical research methods and modeling of statistical problems. Chi-square tests, analysis of variance, one-way and multi-factorial designs, multiple regression and correlation. Nonparametric methods. Use of calculators and personal-computer software. Prerequisite: MATH 232 or equivalent.

MATH 534  Introductory Analysis  Credit 3 hours
Structure of the real number line. Completeness, compactness, connectedness. Rigorous treatment of limits, sequences, series, convergence, functions and continuity, derivatives, and selected topics on measure and integration theory. Prerequisites: MATH 237 and 252, or permission of instructor.

MATH 535  Sampling Techniques  Credit 3 hours
Statistical survey methods, sampling techniques, point and interval estimation of population parameters, population size determination, and communication of sample survey results. Applications from business, the natural sciences, and the social sciences. Prerequisite: MATH 232 or equivalent.

MATH 537  Modern Algebra  Credit 3 hours
Axiomatic approach to groups, rings, integral domains, polynomials, fields, selected topics in abstract algebra, and an introduction to vector spaces and algebraic coding theory. Prerequisite: MATH 429 or equivalent.

MATH 538  Numerical Analysis  Credit 3 hours
Numerical modeling of phenomena using interpolation and approximation, systems of linear equations, integration, and numerical solutions of differential equations. Prerequisite: MATH 252 or permission of instructor.

MATH 540  Mathematics Education Standards  Credit 3 hours
An integrated content/pedagogy course on mathematics teaching, assessment, and curriculum standards, based on major content areas of the K-12 curriculum. Prerequisite: Fifty percent of endorsement completed.

MATH 600  Independent Study or Research  Credit 1-3 hours
Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Permission of instructor and academic Dean required.

MATH 630  Mathematics Topics for Teachers  Credit 1-3 hours
Mathematics topics of interest to classroom teachers at all grade levels. Credit variable with topic. Can be repeated with different emphasis for a maximum of 6 hours credit.

MATH 631  Mathematics for Management  Credit 3 hours
Quantitative methods for managerial, educational administration, and public policy applications. Topics from discrete math, data analysis, and operations research areas.
MATH 634  Mathematics Curriculum  Credit 3 hours
Mathematics curriculum in elementary and secondary schools, with emphasis on current trends and issues in mathematics education. Permission of instructor required.

MATH 655  Scholarly Project  Credit 3 hours
Scholarly project pertaining to a field of specialization. Designed in consultation with a student’s graduate committee and includes an extensive paper summarizing the project. Required for students selecting Plan II as listed in the Graduate Catalog.

MATH 660  Thesis Research  Credit 1-6 hours
Original investigations in mathematics leading to the master’s thesis. Must complete six hours. Proposal must be approved by the student’s committee and Dean of Professional and Graduate Studies prior to registration. Must complete 6 credit hours.

MUSIC

MUS 513  Performance Ensemble  Credit 1 hour
Offers graduate credit to participation in music ensembles.

MUS 515  Private Instruction  Credit 1 hour
Individual instruction in piano, voice, percussion, brass instruments, woodwind instruments, and stringed instruments.

MUS 530  Topics in Music  Credit 1-3 hours
Examines a special topic in music. Topics vary from semester to semester. May be repeated.

MUS 600  Independent Study or Research  Credit 1-3 hours
Individual study in a selected area of music.

MUS 615  Private Instruction  Credit 1 hour
Individual instruction in piano, organ, voice, percussion, brass instruments, woodwind instruments, and stringed instruments. Must have at least two hours of MUS 515.

MUS 655  Scholarly Project  Credit 1-3 hours
Project pertaining to a field of specialization. Designed in consultation with student’s graduate committee. Includes paper summarizing the project. Required for students completing Plan II. Must complete 3 hours.

PHYSICS

PHY 500  Independent Study or Research  Credit 1-3 hours
Designed for the graduate student seeking an individual problem in science. Permission of instructor and academic Dean required. May be repeated.

PHYS 530  Topics in Physics  Credit 1-3 hours
A course on selected science topics. Course content will vary to meet the special needs of students. The course may involve classroom and/or field oriented activity. Credit is dependent upon length of course and depth of study. May be repeated with different topics.

PHYS 534  Mechanics  Credit 3 hours
Principles of Newtonian mechanics including Lagrangian and Hamiltonian formalism.

</table>
POLITICAL SCIENCE

PS 520 American Political Thought Credit 3 hours
The main lines of American political thought and ideology will be examined. The Founding era, especially the debates between the Federalists and the Antifederalists, will be emphasized, as will developments in the post-WWII era.

PS 521 Contemporary Political Ideologies Credit 3 hours
The most important contemporary political ideologies will be examined, with an emphasis upon those most prevalent in the United States. Some of the central ideologies discussed will include social conservatism, libertarianism, and populism.

PS 530 Topics in Political Science Credit 3 hours
Special topics in Political Science. May be repeated with a change of emphasis.

PS 531 History of Political Thought Credit 3 hours
Various themes in political philosophy will be covered, such as political obligation, rights, freedom and justice. Major philosophers covered will include Plato, Locke, and Rousseau.

PS 532 The Legislative Process Credit 3 hours
The analysis of the legislative process in Congress and American state legislatures. Emphasis on statute-law making, oversight of the executive and representative function of the legislature, concurrent with an examination of decision-making and legislative norms and roles.

PS 535 The Presidency Credit 3 hours
This course examines the institutional development of the presidency. Special emphasis is placed on presidential decision making, presidential leadership, and the growth of executive power.

PS 655 Scholarly Project Credit 1-3 hours
Project pertaining to a field of specialization. Designed in consultation with the student’s graduate committee. Includes paper summarizing the project. Required for students completing Plan II. Must complete three hours.

PSYCHOLOGY

PSYC 538 Advanced Behavioral Statistics Credit 3 hours
Computational and graphical techniques in descriptive and inferential data analysis. Primary topics include the scales of measurement, shapes and types of distributions, measures of central tendency and variability, correlation, regression, hypothesis testing; analysis of variance, interval estimation, sampling, and probability theory. Course will also include an introduction to statistical software and multivariate methods. Prerequisites: Permission of Dean or Department Chair.

PSYC 541 Advanced Organizational Psychology Credit 3 hours
This course provides a detailed look at psychological research and theories as applied to human performance in organizational settings, with special emphasis on issues surrounding diversity and organizational training. Prerequisite for psychology majors/minors: PSYC 131.

READING

READ 500 Special Topics in Reading Credit 1-3 hours
Recent trends and issues in the field of reading.
### READ 530  Reading in the Middle and Secondary Schools  Credit 3 hours
The nature of reading, pertinent research in the field, reading as applicable to the middle and secondary reading curriculum, management of the middle and secondary reading programs, application of reading skills to the various subject areas, the selection of effective materials of teaching methods and techniques, and the use of various types of tests. Prerequisites: student teaching or teaching experience.

### READ 531  Improvement of Instruction in Reading  Credit 3 hours
The nature of reading, the pertinent research in the field, the curriculum in reading from the preparatory period through the intermediate grades, the management of the reading program, emphasis on specific reading skills taught in the elementary grades, the selection of effective materials, of teaching methods and techniques, and the use of various types of tests.

### READ 532  Reading in the Content Fields  Credit 3 hours
Assists teachers in the content areas to teach subject matter in such a way as to utilize and further develop fundamental reading. Special consideration will be given to effective reading skills, vocabulary development in specific subject areas, and study skills.

### READ 533  Approaches and Techniques for Teaching Reading  Credit 3 hours
Reading programs in which specific criteria for evaluating reading programs are examined and applied to determine the effectiveness and suitability for meeting the needs of those requiring instruction in reading.

### READ 535  Reading and the At-Risk Student  Credit 3 hours
Effective models of reading programs serving at-risk students, explores innovative and imaginative approaches for teaching reading to at-risk students, and builds teachers’ confidence in their ability to provide appropriate programs for at-risk students.

### READ 600  Independent Study  Credit 1-3 hours
Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Permission of instructor and Academic Dean required.

### READ 634  Linguistic Foundations of Reading Instruction  Credit 3 hours
Phonic structure of the English language, vocabulary development, sentence, and intonation patterns. Emphasis is placed on developing teacher competence in understanding linguistic foundations of reading instruction.

### READ 635  Diagnosis and Correction  Credit 3 hours
Causes of reading disabilities, and demonstrates the ability to use diagnostic instruments, interview procedures, methods, and materials of remediation. Prerequisites: READ 530 or 531 or consent of instructor.

### READ 636  Practicum in Reading  Credit 3 hours
Supervised practicum with children and youth in developmental and remedial reading instruction, includes the diagnosing and treatment of reading disabilities under supervision. Prerequisite: READ 635 or consent of instructor.

### READ 638  Seminar in Reading: Issues, Trends and Programs  Credit 3 hours
Trends, issues and programs are analyzed through historical and current research in reading. Topics will vary according to the interests and needs of the students.

### SOCIAL SCIENCES

#### SS 500  Independent Study/Research  Credit 1-3 hours
Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Permission of instructor and academic Dean required.

#### SS 530  Topics in Social Science  Credit 1-3 hours
Special topics in Social Science. May be repeated with a change of emphasis.
SS 536 Seminar in Social Science  Credit 1-6 hours
Offered in any of the Social Science disciplines. Designed to meet the specific needs of a group of students, analogous to the way in which Independent Study or Research is designed to meet the needs of a specific student. Permission of the instructor required.

SS 600 Independent Study or Research  Credit 1-3 hours
Advanced directed readings in selected problems to meet the special needs of the graduate student.

SS 655 Scholarly Project  Credit 1-3 hours
Project pertaining to a field of specialization. Designed in consultation with student’s graduate committee. Includes paper summarizing the project. Required for students completing Plan II. Must complete three hours.

SOCIAL WORK

SW 530 Topics in Social Work  Credit 1-3 hours
Examines advanced topics (knowledge and skills) in professional Social Work practice. May be repeated with a change in emphasis. Prerequisite: Permission of Instructor.

SOCIOLOGY

SOC 500 Independent Study/Research  Credit 1-3 hours
Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Permission of instructor and academic Dean required.

SOC 530 Topics in Sociology  Credit 3 hours
Special topics in Sociology. May be repeated with a change of emphasis.

SOC 535 Advanced Social Psychology  Credit 3 hours
A study of four perspectives in Social Psychology: two primarily psychological, Gestalt and Freudian, and two primarily sociological, Exchange and Symbolic Interaction. The course includes student reading and interpretation of primary and secondary sources in these four areas.

SOC 655 Scholarly Project  Credit 1-3 hours
Project pertaining to a field of specialization. Designed in consultation with student’s graduate committee. Includes paper summarizing the project. Required for students completing Plan II. Must complete three hours.

SPANISH

SPAN 500 Independent Study or Research  Credit 1-3 hours
Conferences to be arranged. Open to students who wish to do advanced work in a special field of Spanish. Permission of Instructor and academic Dean is required.

SPAN 530 Advanced Topics in Spanish  Credit 1-3 hours
An advanced study of different topics of special interest, taught in Spanish. Prerequisite: One 300 level Spanish course.

SPAN 538 Advanced Summer Program Abroad  Credit 1-6 hours
Extensive exposure to Spanish language and to one of the countries where it is spoken. Stresses functional use of contemporary Spanish in conversation and composition. Course offered only in conjunction with four weeks residence in a Spanish speaking country.
SPECIAL EDUCATION

SPED 500 Independent Study or Research Credit 1-3 hours
Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Permission of instructor and academic Dean required.

SPED 516 Clinical Experience in Appraisal of Exceptional Children Credit 1 hour
Class and field experiences to observe clinicians using assessment instruments and equipment with students in screening and assessment of academic achievement, development, assistive technology, and rehabilitation. Pre- or co-requisite: SPED 435.

SPED 530 Characteristics of Behavioral and Emotional Disabilities Credit 3 hours
Social, behavioral, and emotional disabilities of learners. Identification of characteristics will be examined as well as all aspects of the total environment of these learners.

SPED 532 Survey of Special Education Credit 3 hours
Overview of special education, laws, and services related to general education. Characteristics of students with disabilities, gifted, and talented students at risk, and students who are culturally and linguistically different. Current, future, and critical issues in the field of special education.

SPED 533 Characteristics of Learning Disabilities Credit 3 hours
Social, emotional, physical, and cognitive characteristics of learning disabilities, identification, diagnosis, learning characteristics, and behavioral problems presented by learners with learning disabilities in the general education classroom.

SPED 535 Assessing Individuals with Mild/Moderate Disabilities Credit 3 hours
Assessment procedures and practices used to obtain information about the learning and development of students with mild/moderate needs, including administering, interpreting, and reporting test results and formulating instructional objectives and subsequent learning programs. Understanding how information obtained from quantitative/qualitative measures and teachers’ experiences influence their abilities to interpret strengths and needs, formulate instructional objectives, develop curriculum, and select appropriate teaching strategies.

SPED 536 Methods and Materials for Mild/Moderate Disabilities Credit 3 hours
Methods and materials used for teaching learners with mild/moderate disabilities are presented, and evaluated in terms of practical application. Prerequisite: Permission of instructor.

SPED 537 Special Topics in Special Education Credit 1-3 hours
Development, implementation, and management of Inclusive Classrooms in the K-12 school environment. This course will include (a) a background of laws leading up to IDEA & “Least Restrictive Environment requirements, (b) a working knowledge of IDEA and related amendments, (c) classroom management & inclusive behavior interventions, (d) techniques/strategies in adapting curriculum for all students, including those with special needs, and (e) setting or beginning exclusionary practices.

SPED 538 Consultation/Collaboration Credit 3 hours
Consulting and collaborating skills for special educators working with parents and other professionals involved with children with disabilities. Emphasis is given to formal and informal meetings and conferences in planning, developing, and implementing special education programs, along with adaptations, special equipment, accommodations, or collaborative teaching with other professional and paraeducators.

SPED 600 Independent Study or Research Credit 1-3 hours
Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Permission of instructor and Academic Dean required.
THEATRE

TH 500 Independent Study or Research Credit 1-3 hours

Study or research in an area of special interest. The number of credit hours is determined by the topic and the amount of work required. Permission of instructor, and academic Dean required.
ADMINISTRATION AND FACULTY

ADMINISTRATION

Board of Trustees of Nebraska State Colleges

Hon. Doug Christensen ................................................................. Lincoln
Hon. Richard Halbret ............................................................... Falls City
Hon. Willa Kosman ................................................................. Scottsbluff
Hon. Gary Bieganski ............................................................... McCook
Hon. Carter “Cap” Peterson ..................................................... Wayne
Hon. William Roskens .......................................................... Omaha
Hon. Larry Teahon ................................................................. Chadron
Hon. Stan Carpenter, Chancellor .............................................. Lincoln

Three student representatives, one from each of the state colleges, serve one year terms on the Board of Trustees. They are recommended by each campus President and appointed by the Governor.

Officers of Administration

Dr. Janie Park .................................................................................. President
Dr. M. Lois Veath ........................................................................... Vice President for Academic Affairs
Dr. R. Randy Rhine ........................................................................ Vice President Enrollment Management and Student Services
Mr. Dale Grant ................................................................................ Vice President for Administration and Finance
Dr. Charles E. Snare .................................................................... Dean, School of Arts and Sciences
Dr. Gary A. White ........................................................................ Dean, School of Business, Economics, Applied and Mathematical Sciences
Dr. Margaret R. Crouse .................................................. Dean, School of Education, Human Performance, Counseling Psychology and Social Work
Ms. Theresa Dawson .................................................. Assistant Vice President for Enrollment Management
Mr. Steve Taylor ................................................................. Assistant Vice President for Extended Campus Programs

FACULTY

Humphrey A. Amukamara .................................................. Assistant Professor of Social Work
B.S.C., M.A., University of Nebraska-Kearney; Ph.D., Arizona State University. (2008)

*Timothy E. Anderson .................................................. Professor of Business
B.S.E., M.S.E., Chadron State College; Ed.D., University of Nebraska. (1977)

Jonathan Austad ........................................................................ Assistant Professor of Humanities

Victoria R. Badura .................................................................... Assistant Professor of Business
B.S.B.A., M.A., University of Nebraska-Omaha. (2008)

*Katherine E. Bahr ................................................................. Professor of English
A.B., University of Georgia; M.A., Valdosta State College; Ph.D., University of Georgia. (1994)

*Laura A. Bentz ....................................................................... Assistant Professor of Art
B.F.A., University of Nebraska-Lincoln; M.S., M.F.A., University of New Mexico. (2005)

*Richard J. Bird ........................................................................ Professor of Art

*E. Patricia Blundell ................................................................. Professor of Education
B.S.E., M.S.E., Chadron State College; Ed.D., University of Nebraska-Lincoln. (1997)
*Mike P. Bogner ................................................................. Associate Professor of Justice Studies
B.A., Chadron State College; M.S., University of Cambridge; J.D., The University of South Dakota School of Law. (1994)

Dawn D. Brammer ............................................................. Instructor of Physical Education
B.S.E., M.S.E., Chadron State College. (2006)

*August P. Bruchman ................................................... Associate Professor of Management
B.S., University of Wisconsin; M.S., Ph.D., Colorado State University. (2005)

Mathew L. Brust ........................................................... Assistant Professor of Biology
B.S., University of Wisconsin; M.S. University of Nebraska-Kearney; Ph.D., University of Nebraska-Lincoln. (2006)

*Ann Marie Buchmann ................................................... Assistant Professor of Biology
B.A., Saint Mary’s College; Ph.D., Northwestern University. (2007)

*Ronald L. Burke ............................................................. Professor of Economics
B.S., M.S., West Virginia University; Ph.D., University of Minnesota. (1987)

*Charles H. Butterfield ................................................ Associate Professor of Agriculture
B.S., University of Wyoming; M.S., Texas A&M University; Ph.D., University of Nebraska. (1999)

*Mary Jo Carnot ............................................................ Associate Professor of Psychology
B.S., Carroll College; M.A., Ohio State University. (2003)

Philip G. Cary .............................................................. Assistant Professor of Information Science and Technology
B.S.E., Chadron State College; M.S., University of Missouri-Kansas City. (2001)

Scott B. Cavin ............................................................... Assistant Professor of Theatre

*Charles L. Cressy ........................................................... Professor of Business Education
B.S.E., Chadron State College; M.Ed., Ed.D. University of Nebraska-Lincoln. (1970)

LaVida K. Dickinson ....................................................... Instructor of English
B.S., South Dakota State University; M.A.E., Chadron State College. (1984)

Zane B. Dickinson ......................................................... Assistant Professor of English
B.S., South Dakota State University; M.S., Iowa State University. (1984)

*Mary P. Donahue .......................................................... Associate Professor of Art

*Timothy D. Donahue ................................................... Associate Professor of Business
B.A., M.B.A., University of Saint Thomas; Ed.D., University of South Dakota. (2005)

Michael W. Engel .......................................................... Assistant Professor of Education
B.S.E., Peru State College; M.A.E., University of Nebraska-Kearney. (2004)

Karen A. Enos .............................................................. Assistant Professor of Elementary Education
B.A., California State University; M.A.E., University of South Dakota. (2004)

*Matthew Q. Everson ................................................... Associate Professor of English
B.A., M.A., University of Nebraska-Lincoln; Ph.D., Arizona State University. (2003)

*Monty G. Fickel ............................................................ Professor of Mathematics
B.S., University of Oklahoma; B.S.E., Chadron State College; M.S., Navy Postgraduate School at Monterey, California; Ph.D., University of Nebraska-Lincoln, Nebraska. (1981)

Twila J. Fickel ................................................................. Assistant Professor of Biology
B.S., Peru State College; D.P.M., Des Moines University. (2008)

*Laura L. Gaudet ............................................................ Professor of Psychology
B.S., University of Texas-Austin; M.Ed., Antioch College; Ph.D., University of Northern Colorado. (1998)

*George V. Griffith ........................................................ Professor of English
B.A., LaSalle College; M.A., Ph.D., Southern Illinois University. (1975)

*Joyce M. Phillips Hardy ............................................... Professor of Science
B.A., M.A.E., Chadron State College; Ph.D., Brigham Young University. (1992)

*Jerry L. Haugland ......................................................... Associate Professor of Accounting
B.S., M.A., University of Nebraska-Lincoln; Ph.D., Oklahoma State University. (2005)

Bruce L. Hoem ............................................................ Assistant Professor of Social Work
B.A., Eastern Montana College; M.A., M.S.W., University of Southern Mississippi. (2006)

Lorie L. Hunn ............................................................... Assistant Professor of Education

B.A., Metropolitan State College, M.S.W., Colorado State University. (2004)

Jay T. Sutliffe .................................................... Assistant Professor of Family and Consumer Sciences
B.S., North Dakota State University; M.S., University of Nebraska-Lincoln. (2006)

*Una D. Taylor ..................................................... Instructor of Music
B.M.E., University of Rhode Island; M.M., University of Connecticut. (2006)

*Thomas D. Tucker ............................................... Professor of Humanities
B.A., M.A., University of West Florida; Ph.D., Florida State University. (1998)

Zachary B. Varpness ............................................. Assistant Professor of Chemistry
B.S., Northwestern College; Ph.D., Montana State University. (2007)

James C. Wada .................................................... Assistant Professor of Criminal Justice

*Jamie S. Waldo ................................................... Associate Professor of Business

*George D. Watson, Jr. ........................................... Professor of Justice Studies
B.A., Hastings College, Nebraska; J.D., University of Nebraska College of Law; University of Exeter; Harvard Law School. (1976)

Don E. Watt .......................................................... Professor of Physical Education
B.S.E., Chadron State College; M.S., Central Missouri State University. (1994)

*Wendy L. Waugh ............................................... Professor of Management Information Systems
B.S.E., B.A., Wayne State College; M.A., University of Nebraska-Kearney; M.B.A., Chadron State College; Ph.D., Capella University. (1992)

*Ronald R. Weedon .............................................. Professor of Biology
B.S., College of Idaho; M.A., Ph.D., University of Kansas; Kansas State Teachers College; Washington State University; Idaho State University; University of Idaho. (1971)
Beth R. Wentworth .......................................................... Assistant Professor of Mathematics
  B.S., Minot State University; M.A., Northern State University. (2004)
*Brad K. Wilburn .......................................................... Assistant Professor of Philosophy
  B.A., Washington University; Ph.D., Stanford University. (2005)
Karl V. Winton .......................................................... Assistant Professor of Communication Arts
  B.A., Bethel College; M.A. Texas Tech University; Ph.D. University of Oklahoma. (2008)
*James A. Wright .......................................................... Professor of Computer Systems
  B.A., Anderson College; M.A.E., Ball State University; Ed.S., Chadron State College; Ed.D., University of Nebraska-Lincoln. (1983)
*Georgia A. Younglove .................................................. Professor of Agriculture
  B.S., Oklahoma State University; M.S., Texas A&M University; Ph.D., University of Wyoming. (1998)
Teresa Zimmerman .................................................. Assistant Professor of Agriculture
  B.S., University of Nebraska-Lincoln; M.S., South Dakota State University. (2008)

(Date indicates first year at Chadron State College)

*Graduate Faculty
EMERITUS FACULTY AND PROFESSIONAL STAFF

Charles L. Bare, Emeritus Professor of Mathematics, 1988-2007
G. Bruce Bartels, Emeritus Professor of Education, 1962-1992
Terrence Brennan, Emeritus Director of Library and Learning Resources, 1980-2004
Michael P. Cartwright, Emeritus Professor of English, 1985-2008
Charollene Coates, Emeritus Professor of Education, 1985-2000
Patrick Thomas Colgate, Emeritus Dean for the School of Educ. & Grad. Studies; Prof. of Physical Educ., 1965-2002
Clifford H. Cox, Emeritus Associate Professor of Chemistry, 1990-2002
Terence E. Davis, Emeritus Professor of Mathematics, 1984-2003
Donald L. Deselms, Emeritus Professor of Psychology and Guidance, 1963-1992
Thomas P. Detwiler, Emeritus Professor of Education, 1965-1994
Rolland L. Dewing, Emeritus Professor of History, 1969-2004
John E. Dillon, Emeritus Assistant Professor of Art, 1966-1995
Dr. Robert L. Doxtator, Emeritus Professor of English, 1968-2008
Donald J. Duncan, Emeritus Director of Physical Facilities, 1968-1991
Frank Ferguson, Emeritus Professor of Mathematics, 1967-1998
Loren H. Froehlich, Emeritus Professor of Psychology, 1982-2006
James C. Gibson, Emeritus Professor of Biology, 1972-2004
R. Dorset Graves, Emeritus Professor of English, 1958-1990
Noel Gray, Emeritus Professor of Art, 1966-1997
Merlyn L. Gramberg, Emeritus Professor of Industrial Technology Education, 1966-1997
Duane A. Grimme, Emeritus Professor of English, 1970-1995
Donald E. Green, Emeritus Dean for the School of Liberal Arts, 1990-2002
Ernest L. Hall, Emeritus Associate Professor of Industrial Technology Education, 1987-2005
Jackson Hammitt, Emeritus Professor of Music, 1967-1998
Clifford N. Hanson, Emeritus Associate Professor of Business, 1969-2004
Harry Holmberg, Emeritus Professor of Music, 1953-1982
Alvin Holst, Emeritus Professor of Education, 1983-1996
Carl Horst, Emeritus Associate Professor of Business Education, 1961-1989
Lee N. Hulm, Emeritus Professor of Business, 1969-2004
Delbert Hussey, Emeritus Director for Cooperative Education and Internships, 1969-2002
Jerry L. Ingram, Emeritus Director of Instructional Resources and Telecommunications, 1980-1996
Doralie Lawson, Emeritus Assistant Director of the Child Development Center Laboratory, 1979-2004
H. Randy Lawson, Emeritus Professor of Biology, 1974-2008
Hermine Loghry, Emeritus College Nurse, 1966-2002
Hilda Lopez-Laval, Emeritus Professor of Spanish, 1995-2006
Carl Lukkes, Emeritus Associate Professor of Mathematics, 1965-1994
Roger MacNeill, Emeritus Professor of Music, 1982-2005
James S. McCafferty, Emeritus Associate Professor of Chemistry, 1960-1990
Ronald J. Miller, Emeritus Associate Professor of Sociology, 1976-2008
Leland Moeller, Emeritus Professor of Industrial Technology Education, 1972-2004
Amabella S. Muller, Emeritus Tutor-Coordinator, 1975-1992
Christof Muller, Emeritus Assistant Professor of Social Work, 1982-1992
James T. O’Rourke, Emeritus Professor of Agriculture, 1988-2002
Samuel H. Rankin, Emeritus President, 1986-1998
Jacque Schmiedt, Emeritus Dean of Students, 1970-1987
Walter O. Scholl, Emeritus Professor of Humanities, 1967-1992
James Sheaffer, Emeritus Professor of Political Science, 1958-1996
Margie Ann Smith, Emeritus Associate Professor of Physical Education, 1980-2005
Royce L. Smith, Emeritus Associate Professor of Business, 1990-2005
Dirl Steffe, Emeritus Associate Professor of Physics, 1962-1985
Jack L. Swanson, Emeritus Professor of Chemistry, 1971-1995
Darryl Tharalson, Emeritus Professor of Earth Science, 1975-1996
Roger Wess, Emeritus Professor of Education, 1970-2004
William Winkle, Emeritus Professor of Music, 1971-2005
