

# CHADRON STATE COLLEGE

---

Nov. 9, 2020

Dear Campus,

As you know, we are less than 14 days from the conclusion of the fall 2020 semester. I truly appreciate the efforts from everyone across campus to comply with the health measures in place for campus. Your efforts have contributed directly to Chadron State College's ability to remain open and operational.

The number of COVID-19 cases in our community and the Panhandle are increasing, therefore, I ask again for your support and compliance with our health measures for campus and the broader community. Please limit social interactions and anytime you are around others, wear a mask, wash your hands frequently, and practice social distancing.

Earlier today, Governor Ricketts issued revised Directed Health Measures (DHMs) for the State of Nebraska. Please [review the DHMs](#) and support the efforts needed to reduce the spread of COVID-19 within our community and on our campus.

Again, I appreciate your efforts thus far to "Protect Our Nest" and protect each other from the spread of COVID-19. I cannot stress how important it is for all of us to limit our social gatherings, wear a mask whenever we are around others, and practice good hygiene and social distancing. If we all do that, we can end the fall semester as healthy as we started it.

Let's continue to work together, maintain our optimism and responsibility, and lead by following the health measures for our state and campus.

Be well,

President Randy Rhine
