# CONTRACT FOR SERVICES

## GUIDANCE AND INSTRUCTIONS

The following information is intended to assist each College with their contracts. We have provided a general overview of the terms and concepts in contracts as well as forms and checklists for your use. Following these guidelines will ensure that the interests of the College, faculty, and staff and ultimately, our students are protected.

### ***What Is A Contract?***

Whether a document is titled as a contract, an agreement, a memorandum of understanding, or any other type of cooperative undertaking, any written arrangement wherein parties exchange value, such as the exchange of services for payment, is legally considered to be a contract. The relationship's legal status does not change just because the document is labeled as something other than a contract.

### ***Do I Need A Contract?***

The Colleges should use a Contract for Services form (either the Nebraska State College System (NSCS) long form or the short form) to document agreements between the College and a party, *other than an employee*, who provides services to the College.

Pursuant to Board Policy 7015, you do NOT need a contract for the following when the purchase is below fifty-thousand dollars (\$50,000): lodging, airfare, advertising, and repairs for vehicles, equipment, furnishings, facilities/grounds, and information technology products and services.

NSCS employees must be paid through the payroll system, not through "accounts payable" as a contractor.

Board Policies. The Board Policies listed below provide more information for certain types of contracts and are available online for reference.

- 7015- Contracts; Limitations, Exemptions
- 7016- Contracts; Consulting Services
- 8064- Capital Construction and Information Technology (IT); Bids
- 8065- Capital Construction; Contracts; Approvals
- 8066- Capital Construction; Contracts; Professional Consulting Services
- 8067- Capital Construction; Contracts; Works of Art
- 8068- Capital Construction; Contracts; Forms, Payments

### ***How do I know if the party should be a Contractor or Employee?***

A Contract for Services is appropriate only when the contracting party will be treated as an independent contractor, rather than as an employee, under federal tax law. The determination is based on criteria established by the Internal Revenue Service: The parties' characterization of their relationship is not conclusive. Incorrectly treating a contracting party as an independent contractor can cause substantial federal tax problems for both the College and the Contractor. If the Contractor is an employee under federal tax law, do NOT use the Contract for Services. Hire

the Contractor as an employee through Human Resources. Paragraphs 1-5 below provide guidance to make the determination.

1. *Independent Business Entity.* If the Contractor is a corporation, limited liability company, partnership, or other business entity not affiliated with the College, then in most cases, the Contractor will be an independent contractor under federal tax law. See paragraph 2 below, if the business entity is affiliated with a current or former College employee.
2. *Affiliated Business Entity.* If (a) the business entity is owned or controlled by a current or former College employee, or (b) a substantial portion of the work under the contract is to be performed by a current or former College employee, the contractual relationship should be analyzed as though it were a contract directly with the current or former employee under paragraph 3 or 4 below.
3. *Current College Employee.* If the Contractor is currently a full-time or part-time College employee, do NOT use the Contract for Services form, even if the contracted work is entirely different from the employee's current duties. Consult with Human Resources about modifying the employee's existing employment contract.
4. *Former College Employee.* Under federal tax law, a former College employee who contracts with the College is likely to be deemed an employee, rather than an independent contractor, particularly if the work to be performed under the contract is similar to the former employee's prior duties at the College. In most cases, a proposed contract with a former employee should be referred to Human Resources with a request to hire the individual as a temporary employee under Board Policy 5010. A Contract for Services should not be used unless the Contractor is determined to be an independent contractor using the analysis in paragraph 5 below.
5. *Individual Contractor.* If the Contractor is an individual, use the checklist in the Appendix to evaluate whether the Contractor will be treated as an independent contractor or an employee. If the analysis using the checklist is inconclusive, hire the Contractor as an employee through Human Resources, and do NOT use the Contract for Services.

***Conflict of Interest.***

Nebraska state statutes and Board policy restrict the award of contracts and other financial benefits to a College employee or a family member of a College employee. Under Board Policy 5002, "family member" includes spouse, child, parent, brother, sister, grandchild, or grandparent, by blood, marriage, or adoption.

Specifically, Board Policy 5002 provides:

No employee, employee's family member, or business with which the employee is associated shall enter into a contract valued at two thousand dollars (\$2,000) or more, in any one (1) year, with a governmental body unless the contract is

awarded through an open and public process in compliance with Neb. Rev. Stat. §49-14,102.

No employee involved in an advisory or decision making capacity relating to College or System purchases and no employee's family member shall be financially interested, or have any beneficial personal interest, either directly or indirectly in such purchase or in any bidder, contractor, lessor, or vendor for such purchase.

### ***Liability Insurance Considerations.***

The College maintains property insurance, liability insurance, and other types of insurance pertinent to its operation. State statutes and Board policies do not dictate any minimum insurance requirements for Contractors. The College should require adequate insurance from a Contractor as necessary to protect the College in the event of damage or injury during the Contractor's performance of the contract. The Long Form provides four (4) liability insurance options for the College to consider in a risk/benefit analysis when entering into a contractual relationship.

Situations exist in which it may be unreasonable to require the Contractor to fully insure for a project. For example, if the contract is for a small remodeling job in a multimillion dollar building, it may be impossible or cost-prohibitive for the Contractor to obtain sufficient insurance to replace the building in the event the Contractor accidentally burns it down. In situations like this, the College may decide to assume the risk to get the work done.

On the other hand, in some situations it is essential for the Contractor to provide insurance. One example is a dangerous activity such as a bungee jump or inflatable bounce house. The College's liability insurance specifically excludes "trampolines and rebound devices," so the College must require the Contractor to maintain insurance that protects both the Contractor and the College. If you have questions regarding the coverage provided by the College's liability insurance, the Vice President for Administration and Finance or the Vice Chancellor for Student Affairs and Risk Management will provide guidance.

## **Drafting the Contract**

The NSCS has provided two (2) contract forms for your use: a long form and a short form. The NSCS forms are preferred whenever possible, however, if the contractor requires the use of a different/external form, the guidance and checklists provided in these instructions should be used to make changes that may be necessary for the contractor's form.

### ***Do I use the Long Form or Short Form?***

It is always acceptable to use the Long Form Contract for Services when contracting with a non-employee. However, neither of these forms should be used for employment contracts.

The Short Form Contract for Services may be used when the Contractor is an individual providing a one-time service, services of a short duration, or occasional services, with payment

in full upon completion. Some examples of circumstances in which the Short Form Contract for Services could be used are a guest lecturer, or a simple construction task (e.g., painting a room, pouring a concrete slab, or replacing a window or door).

The Short Form Contract for Services should also be used when the College will pay an honorarium or reimburse expenses to a volunteer. A documented contract is required to justify the payment. Current College employees are not eligible for honoraria. Any additional payment to a current employee must be reflected in a modification to the employee's existing employment contract or a request for reimbursement of employee expenses.

The Long Form Contract for Services must be used if (a) the Contractor's performance of the Contract will require the use of other people, such as contractor employees or subcontractors; (b) the work is complex or will require substantial time to complete, such as a typical construction or remodeling project; (c) the provisions for payment are unusual, such as an advance payment for purchase of materials or a progress payment schedule based on milestones; or, (d) the College will require the Contractor to maintain liability insurance coverage for the protection of the College.

### ***Modifications to Contract Forms.***

The College should complete the Contract for Services by adding information where required. Detailed notes and instructions are provided on the following pages. If necessary, an addendum can be created to add contract terms. Appendices can also be added/attached to the Contract form. Any time an appendix is added, the Contract form must specifically note that the appendix "is attached and is incorporated by reference into the contract." Appendices to a contract can include a scope of work, a response to a request for proposal or other documents that provide further detail regarding the services to be provided or the terms of payment.

As a general rule, provisions should not be deleted from the Contract for Services form. Proposed deletions may be discussed with the General Counsel.

If at all possible, use the appropriate NSCS Contract for Services form. The use of a Contractor's form will require the addition of numerous provisions to comply with the restrictions that apply to the NSCS. Please refer to the *Contract Review Checklist* for the review of contracts for specific provisions.

### ***Arbitration.***

Arbitration is a relatively streamlined procedure under which a dispute is submitted to an arbitrator (usually an expert in the field that is the subject matter of the contract), and the parties agree to abide by the arbitrator's decision. By agreeing to arbitration, the College gives up recourse to the court system. As a general matter, governmental agencies fare better in court than in arbitration. It is generally in the College's best interests to resist the inclusion of arbitration clauses in contracts.

### ***Indemnification.***

Contractors frequently seek to include so-called "hold harmless," limitation of liability, or indemnification clauses in contracts. These clauses attempt to transfer liability from the contractor to the College. Do not offer to indemnify the Contractor, and always resist the

addition of indemnification language. When presented with proposed indemnification language, the best response is, “Under our contract, each party is responsible for its own performance. If there is litigation, the court will determine who is liable.” The Contractor may be able to purchase insurance to cover a risk the Contractor is uncomfortable taking. If the Contractor insists on indemnification, the Contract should include mutual indemnification provisions (each party will indemnify the other).

***Statutory Requirements.***

The Nebraska Public Records statutes (Neb. Rev. Stat. §§84-712 through 84-713) provide citizens and other interested persons the right to obtain access to, and copies of, public records in the custody of the Nebraska State Colleges. Service contracts are public records.

In addition to being subject to public disclosure under the Nebraska Public Records statutes, most contracts that expend state funds are subject to Neb. Rev. Stat. §84-602.04 which requires contract information be included in a public, searchable database. The public website provides access to a copy of the full contract including any amendments and all documents incorporated by reference in the contract. Limited information, such as social security numbers, federal tax identification numbers, and signatures will be redacted.

The Prompt Payment Act applies to the NSCS under Neb. Rev. Stat. §§81-2401 through 81-2408.

Nebraska Interlocal Cooperation Act, Neb. Rev. Stat. §§13-801 through 13-827 may also be applicable to contracts between two (2) public entities.

Other statutes may apply. If you have any questions regarding the statutory obligations relating to contracts, please contact the General Counsel.

## Section-by-Section Notes – Long Form Contract

A copy of the Long Form Contract is included in the Appendix. The following instructions are intended to assist you in completing the form, but do not take the place of a complete review. Please contact the General Counsel, if you have questions regarding the contract necessary for your particular circumstance.

***Parties.*** Insert College name. Insert Contractor name and organizational form (“an individual,” “a Nebraska corporation,” etc.) If the College does not have a Form W-9 on file, the Contractor should complete a Form W-9, a copy of which is included in the Appendix. A form is also available on the DAS website, however, it is a dual form that includes ACH enrollment information. Due to the fact that the W-9 is uploaded into SAP, the Colleges should not use a combined form, but should instead complete a separate W-9.

If the Contractor is another governmental agency, the Nebraska Interlocal Cooperation Act, Neb. Rev. Stat. §§13-801 through 13-827, includes specific requirements that must be met. Interlocal agreements must be reviewed by the General Counsel and must always be approved by the

Board of Trustees. The Long Form Contract will likely require substantial modifications to address all Interlocal agreement requirements. The Short Form Contract is not appropriate for Interlocal Cooperation Act Contracts

- ***Section 1. Effective Date.***

Please note a beginning date and an ending date. The Contract is enforceable when it is signed by all parties. No work should be done under the Contract until it has been signed by all parties. If Board approval is required, the Contract cannot be signed and work cannot be performed until Board approval has been obtained.

- ***Section 2. Services.***

Describe in detail the services to be provided by the Contractor (*be sure to include all elements addressing “who, what, when, where and how”*). If the description refers to an attachment, be sure to include the attachment and language incorporating the attachment by reference (*e.g., “the provisions of which are incorporated by reference”*). If the attachment is an existing document, it is advisable to import an electronic version of the existing document to the end of the Contract form. It is far better to attach a referenced document than to refer to an unattached document that may be difficult to find or reproduce if a dispute arises.

- ***Section 3. Consideration.***

Include the amounts and times of payment from the College to the Contractor. If the College will pay or reimburse expenses, the Contract should include specific descriptions (for example, travel, meals, or mileage) and maximum amounts of the expenses to be paid or reimbursed. If the Contract is for more than twenty-five thousand dollars (\$25,000), or if multiple payments will be made to the Contractor during a year, payment will be made by electronic transfer (ACH). ACH payment is optional for other contracts. To establish an electronic payment process, the Contractor must complete the State of Nebraska ACH Enrollment Form, available in fillable form at <http://das.nebraska.gov/accounting/forms/forms.htm>. A copy of the ACH Enrollment Form is also included in the Appendix.

- ***Section 4. Prompt Payment Act.***

The Prompt Payment Act applies to the NSCS under Neb. Rev. Stat. §§81-2401 through 81-2408.

- ***Section 5. Independent Contractor and Liability Insurance.***

See the general discussion above under “Contractor or Employee?” and refer to the *Checklist to Determine Employee/Contractor Status*. This section also includes the options related to liability insurance. If you are uncertain as to which option you should choose, please contact your Vice President for Administration and Finance or the Vice Chancellor for Student Affairs & Risk Management. Also, if you are requiring that the Contractor provide insurance related to the Contract, make sure you receive the certificate of insurance referenced in this section. If the College is required to provide a certificate of insurance, please contact Vice Chancellor for Student Affairs & Risk Management in the System Office to make that request.

- ***Section 6. Access to Records.***  
The funding federal agency and the Comptroller General will have access to the Contractor's records under this section, only if the Contract is for the expenditure of federal funds. In addition to the specific provisions of this section, the Contract and attachments (with narrow exceptions) are public records under Neb. Rev. Stat. §§84-712 through 84-713. The Nebraska Auditor of Public Accounts has broad authority to review State College contracts under Neb. Rev. Stat. §§84-304 through 84-315.
- ***Section 7. New Employee Work Eligibility Status.***  
State statute requires this provision for all State contracts for services physically performed within the state. See Neb. Rev. Stat. §§4-106 through 4-114. It is non-negotiable, and the language cannot be changed. If the Contractor is an individual or a sole proprietorship, the Contractor must complete the Department of Administrative Services United States Citizenship Attestation Form, available at [http://das.nebraska.gov/lb403/attestation\\_form.pdf](http://das.nebraska.gov/lb403/attestation_form.pdf). A copy of the United States Citizenship Attestation Form is included in the Appendix.
- ***Section 8. Non-Discrimination.*** Self-explanatory.
- ***Section 9. ADA & Drug-Free Workplace Requirements.***  
This provision is based upon federal law and applies to all Contracts and Contractors within the United States.
- ***Section 10. Debarment/Suspension Certification.***  
Applies only in the limited circumstances stated. Because the language is conditional, the paragraph does not need to be removed when it does not apply.
- ***Section 11. Use of Information; Property Ownership.***  
This section has two purposes – to prevent the Contractor from using the College's information outside of the scope of its duties under the Contract, and to avoid future disputes about the ownership of property created under the contract. The assignment of copyright is especially important to make sure the College has unrestricted rights to use the Contractor's work product.
- ***Section 12. Parties; Subcontractors; Assignment.*** Self-explanatory.
- ***Section 13. Cancellation.***  
If the Contractor cancels, the College will only pay for completed work. If the College cancels, the College will pay for completed work and work in progress.
- ***Section 14. Default; Remedies.*** Self-explanatory.
- ***Section 15. Unavailability of Funding.***  
Board Policy 7015 requires this provision in Contracts that extend beyond the current fiscal year.

- ***Section 16. Complete Agreement; Governing Law; Amendment.***  
Contractors often ask to change the state whose law will govern. As an agency of the State of Nebraska, it is difficult for the State Colleges to consent to the jurisdiction of another state, to become familiar with that state's law, and to pursue or defend litigation in the other state. Do NOT change the state in the Contract for Services form, and if a Contractor submits a form that specifies another state's law will apply, change it to Nebraska, whenever possible.

After the Contract is in effect, a change in circumstances, facts, or conditions that affects performance of the Contract may require an amendment to the Contract. The amendment can be made using the Contract for Services form. It is the responsibility of the designated College representative to monitor the parties' performance under the Contract and to make sure the Contract amendment is approved and signed by the Board, Chancellor, President, or Vice President as appropriate.

- ***Section 17. Technology Access.*** Self-explanatory.
- ***Section 18. Confidentiality and Privacy.***  
This section addresses the legal confidentiality and privacy requirements associated with Contracts whereby the Contractor is provided with user data from the College.
- ***Section 19. Designated College Representative.***  
Add name and contact information for designated College representative responsible for implementation, monitoring and oversight of the contract. The designated College representative must also be identified in the Board of Trustees materials. The designated College representative can be an administrator, faculty member or professional staff member. Support staff may not be designated as a College Representative.
- ***Section 20. Party Signatures.***  
The Contractor should typically sign the document first. Refer to Board Policy 7015 to see who is authorized to sign the Contract for the College. Contracts may be signed electronically through DocuSign or other similar services. The Colleges are piloting the use of DocuSign for a limited number and type of documents. For more information regarding the availability and use of DocuSign, please contact the Vice Chancellor for Student Affairs and Risk Management.
- ***For College Office Use Only.***  
This area allows a space for the College to note the appropriate budget code related to the contract.

## Short Form Notes

A copy of the Short Form Contract is included in the Appendix. The following instructions are intended to assist you in completing the form but do not take the place of a complete review.

Please contact the General Counsel, if you have questions regarding the contract necessary for your particular circumstance.

- ***Contract Terms.***

Insert College name. Insert Contractor name and organizational form (“an individual,” “a Nebraska corporation,” etc.). If the College does not have a Form W-9 on file, the Contractor should complete a Form W-9, a copy of which is included in the Appendix. The form is also available on the DAS website; however, it is a dual form that includes ACH enrollment information. Due to the fact that the W-9 is uploaded into SAP, the Colleges should not use a combined form, but should instead complete a separate W-9.

Describe in detail the services to be provided by the Contractor (*be sure to include all elements addressing “who, what, when, where and how”*). If the description refers to an attachment, be sure to include the attachment and language incorporating the attachment by reference (*e.g.*, “the provisions of which are incorporated by reference”). If the attachment is an existing document, it is advisable to import an electronic version of the existing document to the end of the Contract form. It is far better to attach a referenced document than to refer to an unattached document that may be difficult to find or reproduce if a dispute arises.

If the Contract is for more than twenty-five thousand dollars (\$25,000), or if multiple payments will be made to the Contractor during a year, payment will be made by electronic transfer (ACH). To establish an electronic payment process, the Contractor must complete the State of Nebraska ACH Enrollment Form, available in fillable form at <http://das.nebraska.gov/accounting/forms/forms.htm>. A copy of the ACH Enrollment Form is also included in the Appendix.

If the College will pay or reimburse expenses (for example, travel, meals, or mileage), the Contract should include specific descriptions and maximum amounts of the expenses to be paid or reimbursed.

- ***New Employee Work Eligibility Status.***

State statute requires that all State contracts for services physically performed within the state include the new employee work eligibility status provision set forth in the second through seventh paragraphs. See Neb. Rev. Stat. §§4-106 through 4-114. It is non-negotiable, and the language cannot be changed. If the Contractor is an individual or a sole proprietorship, the Contractor must complete the Department of Administrative Services United States Citizenship Attestation Form, available at [http://das.nebraska.gov/lb403/attestation\\_form.pdf](http://das.nebraska.gov/lb403/attestation_form.pdf). A copy of the United States Citizenship Attestation Form is included in the Appendix.

- ***Non-Discrimination.*** Self-explanatory.

- ***ADA & Drug-Free Workplace Requirements.***

This provision is based upon federal law and applies to all contracts and contractors within the United States.

- ***Technology Access.*** Self-explanatory.
- ***Confidentiality and Privacy.***  
This section addresses the legal confidentiality and privacy requirements associated with Contracts whereby the Contractor is provided with user data from the College.
- ***Designated College Representative.***  
Add name and contact information for the designated College representative responsible for administering and monitoring the Contract. The designated College representative must also be identified in the Board of Trustees materials. The designated College representative can be an administrator, faculty member or professional staff member. Support staff may not be designated as a College Representative.
- ***Signatures.***  
The Contractor should typically sign the document first. Refer to Board Policy 7015 to see who is authorized to sign the Contract for the College. Contracts may be signed electronically through DocuSign or other similar services. The Colleges are piloting the use of DocuSign for a limited number and type of documents. For more information regarding the availability and use of DocuSign, please contact the Vice Chancellor for Student Affairs and Risk Management.
- ***For College Office Use Only.***  
This area allows a space for the College to note the appropriate budget code related to the Contract.

## Student Organization Contracts

Under Board Policy 3300, “Student organizations wishing to enter into agreements or contracts with persons, corporations or organizations, external to the College community, must have approval by the College’s Vice President for Administration and Finance, or his or her designee, prior to entering into such an agreement or contract in order to ensure that the contract does not create inappropriate or unanticipated liability for the College and the Board of Trustees.” This approval does NOT mean that the College’s Vice President for Administration and Finance, or his or her designee should sign the agreements or contract. Student organization contracts cannot be signed by College faculty or staff on behalf of the student organizations. Contracts on behalf of student organizations must be signed by the appropriate student organization officer. The individual signing the contract on behalf of the student organization must be nineteen (19) years of age or older.

We have provided two (2) example contract forms to assist student organizations: one (1) for agreements between the student organization and a vendor and one (1) for agreements which include the use of College resources and would require the College to be included as a party. Copies of these examples are provided in the Appendix.

Because student organizations will often use College facilities and their activities will be associated with the College in the public perception, the College's review of student organization contracts may extend beyond a narrow legal definition of "liability."

Contracts proposed by student organizations should be reviewed for the following:

- ***Funding.***  
What is the source of payment the student organization expects to use? If the plan is to sell tickets or merchandise to cover the cost of an event, does the student organization have a backup source of funds to meet its obligations under the Contract in the event sales are insufficient? If the costs of the Contract are to be paid from student trust funds, do sufficient funds exist to cover the cost? If the College and a student organization are co-funding an event or activity, any portion of the costs allocated to the student organization must be paid from student activity fees.
- ***Risks to the Public.***  
Does the student organization or contractor carry adequate insurance to cover common or foreseeable risks of the activity? Will the student organization and the College be designated as "additional insureds" on the Contractor's policy? The College's insurance will cover some risks, such as the risk of someone being injured because of a dangerous condition in a College building. In other cases, such as rebound devices and trampolines, the College's insurance policies do not cover the risk.
- ***Risks to the College.***  
Does the activity put participants, onlookers, other people, or College property in unreasonable danger? Will the activity cast an unfavorable light on the reputation of the College? (If this is a concern, it should be discussed with the Vice President for Student Affairs.) Does the Contract attempt to make the College a financial guarantor for the student organization? Will the Contract require extraordinary or overtime work of College personnel or otherwise strain the resources of the College?
- ***Scheduling.***  
Does the activity conflict with academic or College-sponsored activities? Will the activity disrupt the reasonable expectations of others in the community (*e.g.*, excessive noise during classes or late at night)?
- ***Liability Insurance Considerations for Student Organizations.***  
The College maintains property insurance, liability insurance, and other types of insurance pertinent to its operation; however, the College's insurance coverage does not extend to Student Organizations. Student Organizations should conduct business with this understanding.

Student Organizations should be encouraged to require adequate insurance from a Contractor, as necessary, to protect the Student Organization (and the College if the services are held on the College's campus) in the event of damage or injury during the Contractor's performance of the Contract. The Student Organization should evaluate any insurance policy it has in relation to the Contract. The Student Organization Contract for

Services examples provide four (4) liability insurance options for Student Organizations to consider in a risk/benefit analysis when entering into a contractual relationship.

Situations exist in which it may be unreasonable to require the Contractor to fully insure for a Contract for Services. For example, if the Contract is for a speaking engagement in a multimillion dollar College building, it may be impossible or cost-prohibitive for the Contractor to obtain sufficient insurance to replace the building in the event the Contractor accidentally burns it down. In situations like this, the College may decide to assume the risk in order to allow for the Student Organization's service/event.

On the other hand, in some situations it is essential for the Contractor to provide insurance. One example is a dangerous activity such as a bungee jump or inflatable bounce house. Liability insurance policies often specifically exclude "trampolines and rebound devices," so the Student Organization must require the Contractor to maintain insurance that protects both the Student Organization and the College (if service is on the College's campus). If the Student Organization has questions regarding the level of liability insurance that should be required of Contractors, the Student Organization may contact the Vice President for Administration and Finance for additional guidance.

If a Student Organization is contracting for the use of space at an off-campus location, the Student Organization may be asked to secure liability insurance for the event and provide a certificate of insurance to the off-campus location. The College cannot provide this insurance or a certificate of insurance. We are currently assisting student government to securing liability coverage for Student Organizations. More information will be provided to the Colleges and student government when available.

## Checklist to Determine Employee/Independent Contractor Status

1. Is the Contractor a current employee of the College?  Yes  No
2. During the past two (2) years, did the Contractor provide similar services to the College as a full or part-time employee?  Yes  No
3. Does the Contractor work exclusively for the College (versus operating a trade or business that offers services to the general public)?  Yes  No
4. Will the College be providing specific direction to the Contractor as to when, where, and how the work is to be done?  Yes  No
5. Will the College be requiring the Contractor to undergo specific training?  Yes  No
6. Will the College be directing to whom the Contractor is assigning specific tasks or be involved in the hiring, supervision or direct payment of the Contractor's workers?  Yes  No
7. Will the College require that the Contractor work specific days or hours (like an employee) rather than allowing the Contractor to establish the work schedule?  Yes  No
8. Will the College provide all of the tools, equipment, and supplies that the Contractor will use in performing the work?  Yes  No

*Answering "Yes" to any of the questions above indicates the Contractor may be considered an employee, rather than an independent contractor, and you should consult with your Vice President for Administration and Finance or the General Counsel as to whether the Contractor should be hired as a temporary employee under Board Policy 5010, and the Contract for Services should not be used.*

### **Additional Guidance:**

#### **Behavioral Control:**

Questions 4, 5, 6 and 7 relate to the amount of behavioral control between the parties. Whether the College provides specific direction as to when, where and how the work is done, whether the College requires specific training, whether the College controls how the worker assigns work and hires additional workers, and the College's control over the worker's schedule all shed light on the behavioral relationship. These questions are likely sufficient to establish the amount of behavioral control the College exerts over the worker for this analysis.

### **Financial Control:**

Question 8 and 3, regarding the provision of tools and supplies as well as the exclusivity of the working arrangement, inquire into the financial relationship of the parties. However, it may be advisable to consider additional aspects of the parties' financial relationship. Factors such as the opportunity for profit or loss by the worker and the method of payment may be additionally helpful:

- Is the Contractor paid hourly or weekly?
  - Hourly/weekly pay may indicate an employee relationship, while payment on commission or a per-assignment basis may indicate an independent contractor relationship.
- Is the Contractor responsible for paying their own business and travel expenses?
  - Employees are generally directly reimbursed of travel and other business costs, while independent contracts are generally responsible for those expenses.

### **Relationship Control:**

Questions 1, 2, 3, and 7 inquire into the parties' relationship to one another and how they perceive the employment relationship. Whether the College is the worker's only employer, whether the worker is currently or has recently been an employee of the College, and the extent to which the College determines the worker's schedule are all relevant to an analysis of relationship control. These questions are also likely sufficient for an analysis of the parties' relationship control. Additional factors that may be helpful in assessing relationship control include the permanency of the position, any employee benefits provided, and the regularity of business activity.

- Does the College provide the Contractor with vacation, retirement, or health benefits?
  - Provision of these benefits may indicate an employee relationship.
- Has the College hired the Contractor for a specific time period?
  - This factor would indicate an independent contractor relationship. Employees are generally hired for an indefinite period.

**Guidelines for State Contracts Website Compliance**

**Contracts for Inclusion on the State Website:**

All contracts (including grants, contracts and subcontracts) where payments flow through the State of Nebraska Treasury, with certain exceptions. (*Includes contracts from revenue bond operating budget.*)

Contracts where payments/funds do NOT go through the State of Nebraska Treasury, *as in revenue bond contingency maintenance project contracts and bonded construction projects for residence halls and student centers (funds paid by trustee).*

**Contracts EXCLUDED from the State Website, per Neb. Rev. Stat.**

**§84-602.04:**

NSCS contracts providing specific services or financial assistance to specifically named individuals or families.

Contracts of employment (**federal work study assumed excluded, as are benefits contracts**).

Contracts transferring funds between two agencies, boards, commissions, or departments of the state, or payments of state or federal assistance to an individual.

*When scanning the Contract, DO NOT include any documents that are NOT part of the contract (e.g. background check forms, ACH Enrollment forms, W-9's, Citizenship Attestation forms, etc.)*

**REDACTION ITEMS for the Contracts, per Neb. Rev. Stat. §84-602.04:**

*Prior to* uploading the Contract into Ion Wave, *two (2)* people must review it to ensure that any of the following information contained in the Contract or any of the attachments or appendices have been redacted.

- Social Security numbers and Federal Tax ID numbers (individual or business).
- Protected health information (HIPAA).
- Any bank account or credit card numbers or bank routing information.
- Any information considered confidential per state or federal law, rule, or regulation.
- DAS is recommending that **signatures should be redacted**, but not the identities of persons signing the Contract.
- Any information or records that may be withheld from the public per Neb. Rev. Stat. §84-712.05. There is a lengthy list in Neb. Rev. Stat. §84-712.05, most of which should never be in a contract, including “**proprietary information**” (trade secrets, research work, and information advantageous to business competitors). There is a paragraph in Neb. Rev. Stat. §84-712.05 that addresses security of public property and persons. We know other agencies are NOT placing **construction plans and specifications** on the DAS website, and that is our recommendation until the NSCS gets further direction from DAS on the matter. Also, it is important to redact any **computer or communications network information** (such as system diagrams) that can jeopardize the security of the systems.
