Supervised Clinical Experience

Provide the following information about supervised clinical experience in 2019-20. ([§205\(a\)\(1\)\(C\)\(iii\)](#), [§205\(a\)\(1\)\(C\)\(iv\)](#))

Are there programs with student teaching models?

☒ Yes

☐ No

If yes, provide the next two responses. If no, leave them blank.

Programs with student teaching models (most traditional programs)	
Number of clock hours of supervised clinical experience required prior to student teaching	100
Number of clock hours required for student teaching	640

Are there programs in which candidates are the teacher of record?

☐ Yes

☒ No

If yes, provide the next two responses. If no, leave them blank.

Programs in which candidates are the teacher of record in a classroom during the program (many alternative programs)	
Number of clock hours of supervised clinical experience required prior to teaching as the teacher of record in a classroom	
Number of years required for teaching as the teacher of record in a classroom	

All Programs

Number of full-time equivalent faculty supervising clinical experience during this academic year (IHE staff)

10

[Optional tool](#) for automatically calculating full-time equivalent faculty in the system

Number of adjunct faculty supervising clinical experience during this academic year (IHE staff)

21

Number of cooperating teachers/K-12 staff supervising clinical experience during this academic year

148

Number of students in supervised clinical experience during this academic year

86

Please provide any additional information about or descriptions of the supervised clinical experiences:

The Elementary Education and Early Childhood Inclusive endorsement programs require 125 hours of observation and participation in classrooms prior to the student teaching internship. Secondary (PK-12, 6-12 and 7-12) and Middle Level endorsement programs require 100 hours of observation and participation in classrooms prior to the student teaching experience. Clinical experience is defined by Nebraska as the student teaching internship. Field experiences prior to the student teaching internship are embedded assignments requiring observation and participation within the PK-12 classroom based on hours and a course in which the candidates are to observe and participate for a set number of clock hours. The response provided above for the number of full time faculty supervising, reflects the number of faculty directly engaged in the clinical supervision experience (Fall 2019 and Spring 2020). In Nebraska, clinical is defined as the student teaching experience. The number of faculty serving as the College supervisors was 10 while there were 21 adjunct supervisors for the academic year. This response reflects faculty directly engaged with candidates in supervised clinical experience which in Nebraska is defined as the student teaching experience.

Enrollment and Program Completers

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

(§205(a)(1)(C)(ii))

THIS PAGE INCLUDES:

>> [Enrollment and Program Completers](#)

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Enrollment and Program Completers

2019-20 Total	
Total Number of Individuals Enrolled	206
Subset of Program Completers	79

Gender	Total Enrolled	Subset of Program Completers
Male	49	21
Female	157	58
Non-Binary/Other	0	0
No Gender Reported	0	0
Race/Ethnicity	Total Enrolled	Subset of Program Completers
American Indian or Alaska Native	1	0
Asian	0	0
Black or African American	2	1
Hispanic/Latino of any race	12	5
Native Hawaiian or Other Pacific Islander	1	1
White	184	68

Race/Ethnicity	Total Enrolled	Subset of Program Completers
Two or more races	6	4
No Race/Ethnicity Reported	0	0

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2019-20.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

What are CIP Codes?

☐ No teachers prepared in academic year 2019-20

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2019-20. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. [\(\\$205\(b\)\(1\)\(H\)\)](#)

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

What are CIP Codes?

Do participants earn a degree upon completion of the program?

Respond to the following assurances. Note: Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. [\(§205\(a\)\(1\)\(A\)\(iii\); §206\(b\)\)](#)

Program Assurances

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- ☒ Yes
- ☐ No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- ☒ Yes
- ☐ No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- ☒ Yes
- ☐ No
- ☒ Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- ☒ Yes
- ☐ No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- ☒ Yes
- ☐ No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- ☒ Yes
- ☐ No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- ☒ Yes
- ☐ No

8. Describe your institution’s most successful strategies in meeting the assurances listed above:

Chadron State is located in a sparsely populated, geographically isolated, economically depressed portion of the United States. A majority of the graduates of the CSC program will teach in rural communities within Nebraska, Wyoming, and South Dakota. Therefore rural education concepts, elements and strategies are infused within the curriculum. Likewise the students are provided experiences allowing practices within this environment. The assessment results indicate that the students are prepared at a proficient level for working within this geographic environment. The education program has increased hours in the study of differentiated instruction, and assessment for the general teacher. The education unit is likewise increasing study hours in media/technology as a tool to advance learning within the PK-12 systems.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. Summary Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. [\(§205\(a\)\(1\)\(F\)\)](#)

Does your program prepare teachers to:

a. integrate technology effectively into curricula and instruction

- ☒ Yes
- ☐ No

b. use technology effectively to collect data to improve teaching and learning

- ☒ Yes
- ☐ No

c. use technology effectively to manage data to improve teaching and learning

- ☒ Yes
- ☐ No

d. use technology effectively to analyze data to improve teaching and learning

- ☒ Yes
- ☐ No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

The professional education curricula provide learning experiences for using technological applications and strategies to enhance instruction and student learning (1) within specialized coursework, (2) infusion into methods courses,(3) through observation and participation in school settings and (4) during the student teaching experience. The program annually collects information from our student teachers and their cooperating teachers on the effectiveness of the program in preparing them to utilize technology. We then review that data and adjust the curriculum to address any areas that show need for improvement. The institution is utilizing a technology plan that allows students to experience a variety of tools and learning devices. Chadron State College has a teaching and learning center which aids faculty in skill development for utilizing technology as a learning tool.

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

Students take 3 courses in Special Education for a total of 7 credit hours. These courses are designed to help classroom teachers to identify and develop strategies for students with disabilities.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Partnership schools are encouraged to allow student teachers to participate or observe Individual Education Plan (IEP) meetings of students in their assigned classrooms. IEPs are discussed in Special Education classes that all Education candidates are required to complete.

c. Effectively teach students who are limited English proficient.

Candidates complete units of instruction in both special education and reading courses addressing English Language Learners (ELL) strategies. In addition, candidates are working with ELL students during their respective internship field experiences.

2. Does your program prepare special education teachers?

- ☒ Yes
- ☐ No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

Special Education endorsed candidates complete 42 credit hours in Special Education and related courses. These courses are designed to help Special Education Generalist teachers to identify and develop strategies for students with disabilities.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Partnership schools are encouraged to allow student teachers to participate or observe IEP meetings of students in their assigned classrooms. IEPs are discussed in Special Education classes that all Education candidates are required to complete.
