

2025 Nebraska First Year Teacher Survey

Chadron State College

Introduction

The Nebraska Department of Education (NDE) administered the Nebraska First Year Teacher Survey from early February to mid-March 2025. This year marks the eleventh successful implementation of the survey, with the survey being sent to both principals and first-year teachers for the ninth time. Surveys were distributed to the principals of first-year teachers, and to the first-year teachers themselves, who completed their preparation programs at 16 preparation institutions in the state. The participating institutions are as follows:

1. Bellevue University
2. Chadron State College
3. College of Saint Mary
4. Concordia University
5. Creighton University
6. Doane University
7. Hastings College
8. Midland University
9. Nebraska Wesleyan University
10. Peru State College
11. Union Adventist University
12. University of Nebraska at Kearney
13. University of Nebraska at Lincoln
14. University of Nebraska at Omaha
15. Wayne State College
16. York College

Evaluation indicators are based on the Council of Chief State School Officers' (CCSSO) Interstate Teacher Assessment and Support Consortium (InTASC) Model Core Teaching Standards, which are recognized as indicators of teacher quality (<https://learning.ccsso.org/intasc-model-core-teaching-standards-and-learning-progressions-for-teachers>). For a list of indicators, please see Figure 1 in the Results section below.

Method

A list of teachers was compiled for those employed during the 2024-2025 school year who received their initial teaching endorsement during the 2023-2024 school year from one of the participating institutions' teacher preparation programs. The data for this list came from the Nebraska Student and Staff Record System (NSSRS) and the Nebraska Teacher Certification Database. If a teacher had assignments at multiple schools, the survey was sent to the principal and the teacher at the school where the majority of the teacher's full-time equivalency (FTE) was assigned. The survey was

developed using the Qualtrics application and distributed electronically via email. Pre-notification of the survey was sent out on February 7th to HR/Institutional Research staff, principals, and teachers. The survey email invitation was sent out on February 12th with subsequent email reminders sent on February 20th, February 27th, and March 3rd. The survey finally closed on March 14th, almost 2 months after it was first sent out. In total, 888 surveys were distributed to principals and 595 were returned, resulting in a response rate of 67.00%. For teachers, 891 surveys were distributed and 422 were returned, resulting in a response rate of 47.36%. For Chadron State College specifically, 48 surveys were distributed to principals and 29 were returned, resulting in a principal response rate of 60.42%, while 49 surveys were distributed to teachers and 24 were returned, resulting in a teacher response rate of 48.98%.

Respondents were asked to rate the extent to which the first-year teacher was effectively prepared for their school assignment on various indicators. These indicators were based on the degree to which the teacher meets the expectations: Advanced, Proficient, Developing, or Below Standard. Both principals and teachers were asked to rate the teacher's impact on student learning, and to provide comments for informing the institution's continuous improvement efforts toward preparing classroom-ready teachers. Besides that, principals were also asked if they considered the teacher effectively prepared for continuing employment in their districts. Teachers, on the other hand, were asked if they were prepared to be an effective first-year teacher.

Results

The survey results are displayed below in several tables and figures. Table 1 displays the standard indicators used in the survey that both principals and teachers answered with the Advanced, Proficient, Developing, or Below Standard response options. Table 2 and 3 illustrate the average responses per standard indicators for both principals and teachers and disaggregated by endorsement types. In Figures 1 through 4, the response options for both principals and teachers are given a numerical value (3=Advanced, 2= Proficient, 1=Developing, 0=Below Standard), summed by indicator category, and then averaged. Tables 4 through 7 display the results of the questions concerning the impact on student learning, continued employment (for principals), and preparedness (for teachers).
