

CSC Student Teaching Data Gathering Instrument - ONE semester of student teaching

Application packet is due no later than September 1st, 2025.

This "gathering instrument" form is where you will tell us where you went to school, if you have any family members in school districts and the choices of school districts that you would like us to try to place you in for your student teaching experience.

DO NOT contact any district personnel about placements until AFTER you receive notification from Chadron State College that a placement has been confirmed, unless told otherwise by Stef. You will not be placing yourself, that is what I do.

You will be informed of your student teaching placement by email from Stef as soon as the placement is finalized with your school district. I could receive the placement back the same day or it could take months. **Please be patient with the process.**

Family members in schools

11. Family members working in or attending schools - Please include in this list any schools where you have family members/relatives working in or attending in the school district. We will not place you in a classroom with family members either as a cooperating teacher or student.

Choices of School Districts for Placement

Indicate three requests of school districts that you would like us to try to place you in (**these requests do not mean 1st choice, 2nd choice, etc.**). Do not indicate three different schools in the same school district; it must be three different school districts, UNLESS a larger community has more than one district. **If three different school districts are not listed, your form will be returned to you. Regardless of your school selections, placement will be at the discretion of the Education Unit. No choice is guaranteed!**

If you request to go outside the Chadron State College supervision area **you will be responsible for the cost of supervision OUT OF POCKET**, which could vary anywhere from **\$0 to \$2,000.00**. Either way you will be paying for the supervision - either through your college fees for a adjunct college supervisor or out of pocket for an out-of-area supervisor. You will sign a contract stating that you will pay for the out-of-area supervisor's services by the end of the student teaching experience. That will be up to you and that out-of-area supervisor on HOW that will get paid - all up front, all at the end, throughout the semester, etc. The out-of-area supervisor must be paid to receive a final grade for student teaching.

If you have received a CSC Careers Scholarship, then you MUST student teach in Nebraska if you have not completed your EDUC 300 Observation & Participation course in Nebraska. You must complete one or the other field experiences in Nebraska to keep the Careers Scholarship.
