Section 1: Contextual Information

1a. Contextual Information

Chadron State College

Chadron State College (CSC) was originally authorized by the State of Nebraska as a Normal School in 1911. It has evolved into a comprehensive college with a wide range of undergraduate and graduate programs. Chadron State is accredited by the Higher Learning Commission, as well as subject-oriented accrediting agencies. From its modest beginning, Chadron State College has evolved into a rapidly growing multipurpose institution of higher education. Located in the scenic Pine Ridge region of northwest Nebraska, the college serves the intellectual, cultural, and recreational needs of western Nebraska.

Chadron State College's academic organizational structure consists of three schools, each under the leadership of an academic dean. The three schools are: (1) Business, Mathematics and Sciences; (2) Liberal Arts; and (3) Professional Studies and Applied Sciences (PSAS). Education is housed within the school of Professional Studies and Applied Sciences. The dean of PSAS and department chair provide the leadership for the Education Department. Throughout this document, the education unit is referred to as the Educator Preparation Program (EPP). The EPP includes both the education program and specialized content area programs that prepare educators.

Educator Preparation Program

At the initial level, the Educator Preparation Program (EPP) supports twelve field endorsements, eight subject endorsements, and five supplemental endorsement programs. At the advanced level, the EPP supports five endorsements. The EPP works cooperatively with the content disciplines, assuring that the teacher candidates have the knowledge, skills, and dispositions necessary for professional teaching. The Education Department assures that all State and accreditation requirements are met and regularly shares data and ideas for the improvement of the overall education programs through the EPP committee. The EPP is led by the education program's department chair and composed of faculty from the education program, teacher educator representatives from the varying disciplines across campus, ESU #13 staff, and area P-12 professionals. The disciplines represented include Business, Mathematics, Family and Consumer Sciences, Science, Social Studies, Health-Physical Education, English/Language Arts, Music, Art, Theatre, and School Counseling. Special Education and Elementary Education are included in the education program. In addition to the EPP committee, the Graduate Council and Academic Review Committees, both a part of the Faculty Senate Committee structure, provide a platform for sharing information about the educator preparation programs with the greater college community.

Mission Statement

The Education Department at Chadron State College prepares professional educators with the knowledge, adaptability, and lifelong learning skills necessary to place students at the center of learning. Our graduates foster academic and social growth, uphold high standards for all students, and contribute meaningfully to education and society.

Vision

To cultivate a generation of educators who are skilled, reflective, open-minded, and committed to empowering every student to reach their full potential and inspire lasting, positive change in schools and communities.

[Section 1 Institutional and EPP Contextual Factors](#)

1b. Standards for Admission, Retention, Transition and Completion

The initial Educator Preparation Program has three major gateways: (1) Admission into the Teacher Education Program; (2) Acceptance into Student Teaching; and (3) Program Completion. Admission into the program generally takes place during or at the end of the sophomore year. Candidates are not allowed into student teaching until they meet the requirements set by the EPP. There are retention measures in place to ensure candidates are proceeding successfully through the education program.

Table 004.06-2 Requirements for Program Admission and Progression

Institutional Criteria	Gateway #1	Gateway #2	Gateway #3
	Admission into the Teacher Education Program	Admission into Student Teaching	Program Completion
Grade Point Average (GPA)	2.75 overall GPA – all college coursework, including transfer credits	2.75 overall GPA – all college coursework, including transfer credits	2.75 overall GPA – all college coursework, including transfer credits
Coursework Completion	30 hours of coursework, including Intro to Teaching, Educational Psychology, Intro to Exceptional Learner, and Technology Resources for Learning, with a C or better.	Earn 90 semester hours with 12 hours in residence at Chadron State College, with a C or better in all Education coursework, including EDUC 300 Observation and Participation and Professional Year courses	Passing grade with a C or better for EDUC 490 Student Teaching and EDUC 495 Education Capstone Passing score on Teacher Work Sample
Praxis Exams			Take the Praxis II content exam
Clinical Practice/Field Experiences	Take EDUC 300 Observation and Participation class	100 observation hours are required prior to student teaching.	16-20 weeks student teaching internship Passing scores on Nebraska Clinical Practice Student Teacher Rubric
Recommendations	Five faculty recommendations, including one from the advisor, one from outside of		

	the Department of Education, and three within the candidate's endorsement area.		
Self-Disclosure	Demonstration of social, emotional, personal maturity and physical capabilities	Demonstration of social, emotional, personal maturity and physical capabilities	
Other	Successful background check	Successful background check	Application for graduation; application for certification

The [Chadron State College website](#) provides the candidates with the required courses for their program of study and the four-year course rotation where students can plan their entire course of study. Advising sheet found in Appendix A.. Advising sheet found in Appendix A.

1c. Field Experiences Required

The program requires 100 practicum clock hours prior to student teaching; one course, EDUC 131 Intro to Teaching at the freshman level and one course, EDUC 300 Observation and Participation at the junior level. Each field experience is used by course instructors to monitor candidates' performance and progress, provides formative information about the candidate, helps the candidate develop the knowledge, skills, and dispositions expected of a teacher, and assists the candidate's understanding of the learner, the classroom environment, application of knowledge, instructional strategies, and professional responsibility. Data is not reported for developmental assessments. Cooperating teacher evaluations are maintained by the EPP to document field experiences.

Student teaching represents the culmination of practical experiences in the teacher education program at Chadron State College. Student teaching is a semester long clinical practice experience for initial teacher certification in which candidates demonstrate knowledge, skills, and professional dispositions by assuming responsibility for whole class instruction in their endorsement and within the grade level for which they are preparing.

Section 2 Endorsement Program Key Assessments and Related Data**Artifact 1. Table of Endorsement Program Key Assessments****Required Assessments**

The faculty within the Educator Preparation Program (EPP) created program outcomes, based on the InTASC standards and learning progressions, developed by the Council of Chief State School Officers. The key assessments for the initial program align with these program outcomes.

Table of Endorsement Program Key Assessments

Name of Assessment used for the following areas:		Type or Form of Assessment	Brief Description of Assessment, including indicated information obtained from Assessment	When Assessment is Administered
1	Content-Praxis II or GPA	Standardized Assessment	Praxis II is a standardized assessment given by ETS.	Praxis II is taken the semester prior to or during student teaching

8	Optional Assessment	Case Study	The Teacher Work Sample is an additional measure that covers overall proficiency of candidates through the completion of a case study addressing all InTASC Standards.	During Student Teaching
	Teacher Work Sample (TWS)			

Praxis II and GPA

Praxis II is the Education Testing Service ([ETS](#)) test for content knowledge. Furthermore, the candidates cannot graduate without a grade point average of 2.75 or better, on a 4.00-point scale.

Nebraska Clinical Practice Evaluation (NCPE)

The NCPE was developed by the [Nebraska Department of Education](#) in cooperation with the Nebraska Association of Colleges of Teacher Education (NACTE). The NCPE mirrors the InTASC standards, as well as the CAEP standards.

NDE Follow up Survey

The NDE survey is aligned to the InTASC standards and is conducted annually to provide Nebraska institutions with information about the effectiveness of first-year and third-year teachers and covers overall proficiency as rated by completers and employers.

Teacher Work Sample (TWS)

The Teacher Work Sample is a case study activity that illustrates the candidate's ability to apply knowledge and skills related to content and pedagogy. Candidates analyze data to make decisions and adjust instruction to meet learner needs. See Appendix B.

Artifact 3. Narrative interpretation/summary of assessment data.

All completers with an early childhood supplemental endorsement demonstrated mastery of **content knowledge** as measured by the Nebraska Clinical Practice Rubric for Student Teaching (NCPRST) as well as the Teacher Work Sample (TWS) examination. Over the two-year reporting period (2023–2025), 4 candidates completed both assessments with proficient or advanced scores. This indicates alignment between program coursework and the content standards set by the Nebraska Department of Education (NDE). This consistency across cohorts suggests that the program effectively prepares candidates in all domains measured. The GPA scores are also used to establish competence in Content Knowledge. The content GPA mean score for 2023-2024 was 3.0 and for 2024-2025 it was 3.83 which reinforces what we have seen in the NCPRST scores.

Data from the NCPRST reveal consistently strong performance in Standards 1, 2, and 3, which emphasize **learner development, learner differences, learning environments** and, from the

TWS, instructional planning. Across both years, mean scores remain in the proficient to advanced range (3.00–3.93 with the single exception of 2.75 in year 24-25), suggesting that candidates consistently demonstrate competence in fostering inclusive, equitable learning environments and leading effective instructional practices. The data indicates that our program completers effectively apply principles like differentiated instruction, inclusive practice, and learner-centered leadership that align with knowledge of learner/learning environments.

For both years, scores from the NCPRST range from 3.0 to 4.0 for **instructional practices**. Chadron's program completers demonstrate consistent skills in assessing the impact on student learning, developing solid instruction supported by research-based strategies and technology. Scores on the TWS support this high level of competence in engaging students in their learning.

Scores measuring **professional responsibilities**, as defined by Standards 9 through 10, are consistently between 3.25 to 4.0. These numbers reflect a high level of professionalism in ethical practices, leadership, collaboration, and communication. The TWS scores are even higher with a range of 3.5 to 4.0, demonstrating a readiness for the classroom in the area of decision making.

The overall proficiency score for all students through both years rates candidates at proficient and above in all areas.

The NDE Follow up surveys cannot be disaggregated, so data reflects overall results. Principals on the 2024 and 2025 NDE follow-up survey rated third-year teachers strongly across all categories (3.1-3.6/4), except for the 2024 standard on learning differences which was rated slightly lower (2.94/4) indicating satisfactory teaching performance and growth with experience. Among first year teachers, in both 2024 and 2025, the survey results indicate lower ratings in learner development (understanding student differences and using student strengths to adjust instruction). Although the survey is voluntary and response rates are low, ratings across nearly every category increased from 2024 to 2025 indicating growth in perceived preparedness among first-year teachers. Literacy and communication skill development were identified as a consistent area of concern within these surveys, reinforcing findings from other program assessments. In contrast, all surveys (first- and third year) identified learning environments and professional learning and ethical practice as areas of strength, indicating that CSC graduates are generally well-prepared to establish supportive classroom cultures while seeking to improve their practice.

Section 3: Use of Related Data and Information for Continuous Program Improvement of Endorsement Program

In December and May, during the assessment day meetings, the Education Department meets as a group to discuss assessment results and plan appropriate program changes/improvements. We then break into smaller groups to continue the work to analyze the data further and bring forward ideas for improvement to the department and then to the entire EPP for discussion and decision making.

Since the last accreditation visit, the following changes were implemented in the FCS department in consultation with the Education Department:

- Changes were reviewed and approved by the FCS faculty during departmental meetings.

- Input from students was also utilized to help make informed decisions regarding programing.
- Final decisions on curriculum changes were made collaboratively by the department chair and FCS department in consultation with the education department. Course activities for pre-student teachers focusing on practical strategies for differentiation of instruction were implemented into the coursework.
- Student feedback and course evaluations were considered to identify areas where students felt underprepared during their student teaching.
- Additionally, the Early Childhood supplemental program was adjusted in 2024 to better match Rule 24 guidelines. The Human Development class was removed as a requirement, because Elementary Education majors already take the course. The Prenatal Practicum was taken out because the supplemental grade levels are age 3 to grade 3. These changes, along with maintaining the other 6 courses, still meet the 18-hour requirement from NDE.

With the changes in early childhood faculty, we currently do not have any planned changes other than revamping coursework to align with current trends and needs in education.

Appendix B TWS Rubric

Chadron State College Teacher Work Sample Scoring Definitions

4. Advanced: {A 140-131} – The teacher candidate obtaining this designation has demonstrated consistent, professional, and performance skills beyond the basic essentials in the chosen academic area and has demonstrated the ability to apply the performance skills with several aspects integrated so that the whole of the TWS has a coherent structure and meaning. The teacher candidate can plan, assess, instruct, analyze data, and reflect upon the appropriate P-12 students' performances at a level that enables P-12 students' growth in a solid, conceptual understanding of the chosen academic area. *This denotes the presence of the advanced skills necessary to teach and assess students in the academic area.*

3. Proficient: {B 130-118} – The teacher candidate obtaining this designation has demonstrated the basic essential set of professional and performance skills needed to teach and assess students in the chosen academic area. The basic concepts of the subject matter, teaching in the academic area, and assessing student performance are understood as one problem, idea, or concept following another, but are not interrelated as a whole system of understanding. The teacher candidate can plan, assess, instruct, analyze data, and reflect upon the appropriate P-12 students' performances to help P-12 students' growth of procedural and conceptual understanding in the chosen academic area at an expanding level. *This denotes the presence of essential skills necessary to teach and assess students in the academic area.*

2. Progressing: {C 117-105} – The teacher candidate obtaining this designation has demonstrated the presence of beginning professional and academic performance skills needed to teach and assess students. Aspects of a problem, idea, or concept are seen in rote application with nominal relationship of facts and ideas to each other. The teacher candidate can assess student learning and can develop learning experiences somewhat based on students' developmental levels and prior experience. The candidate shows minimal analysis or reflection upon appropriate P-12 students' performances such that P-12 students' understanding in the academic area will be more rote learning with less conceptual understanding. *This denotes the presence of the bare essential skills necessary to teach and assess students in the academic area.*

1. Unacceptable: {D Below 105} – The teacher candidate obtaining this designation does not perform at a level that exhibits preparedness for teaching, but does demonstrate some basic understanding of professional and academic performance skills needed to teach and assess students. The teacher candidate cannot accurately assess student learning or develop learning experiences based on students' developmental levels or prior experience. The candidate shows little, if any, analysis or reflection upon appropriate P-12 students' performances such that P-12 students' understanding in the academic area may be negatively impacted. *Any rating earned at or below the Unacceptable level in the teacher candidate's TWS will be deemed unacceptable for a teacher candidate preparing for Nebraska teacher certification.*

0. Missing: {F} – The teacher candidate obtaining this designation does not perform at a level that exhibits preparedness for teaching, nor does the candidate demonstrate any basic understanding of professional and academic performance skills needed to teach and assess students. The teacher candidate cannot accurately assess student learning or develop learning experiences based on students' developmental levels or prior experience. The candidate shows no ability to analyze or reflect upon appropriate P-12 students' performances such that P-12 students' understanding in the academic area may be negatively impacted. *Any rating earned at or below the Unacceptable level in the teacher candidate's TWS will be deemed unacceptable for a teacher candidate preparing for Nebraska teacher certification.*
