

PRE-RADIOGRAPHY

Pre-professional pathway | Health Professions Advising

PREPARE FOR A CAREER IN RADIOGRAPHY

Radiography combines science, technology, communication, and patient care to produce diagnostic images that help health care providers evaluate and treat patients. At Chadron State College, Pre-Radiography helps students build a strong academic foundation while preparing to continue into a professional radiography program.

With employment for radiologic technologists and technicians projected to grow 5 percent nationwide from 2025 to 2035, the field offers steady opportunities for students interested in diagnostic imaging and direct patient care. Radiography may be a good fit for those who are compassionate, detail-oriented, technically minded, strong communicators, and comfortable working closely with patients and health care teams.

FAST FACTS

Program Type

Pre-professional pathway

Pathway

Begin at CSC, then continue to a professional radiography program

Why CSC?

Personalized faculty advising and mentoring

Real-World Connections

Connect with health professionals, hospitals, imaging departments, and rural communities

Next Step

Apply to Chadron State College

WHERE THIS PATHWAY CAN LEAD

CAREERS

Interventional Radiologic Technologist
Diagnostic Radiographer
CT Technologist
MRI Technologist
Mammography Technologist
Imaging Services Specialist

WHERE YOU COULD WORK

Hospitals and medical centers
Diagnostic imaging centers
Medical clinics
Rural health facilities
Outpatient care centers
Specialty imaging practices

YOUR CSC EXPERIENCE

Personalized faculty advising
Health Professions Club
Mentoring and peer connections
Professional-school exploration
Rural health experiences

RURAL HEALTH OPPORTUNITIES PROGRAM

For eligible rural Nebraska students, RHOP offers a Radiography pathway from Chadron State College to UNMC. Students complete two years of pre-professional education at CSC before advancing to UNMC upon successful completion of RHOP requirements. Benefits may include full tuition at CSC, early acceptance, faculty advising, professional development, sponsored visits, and meeting entrance requirements.

PLAN YOUR PATH WITH A FACULTY ADVISOR

No single course plan fits every future radiography student. Professional programs establish their own prerequisite courses, admission standards, application requirements, and timelines, and these requirements may change.

Your CSC faculty advisors can help you understand prerequisite requirements, explore opportunities, and develop an academic plan that supports your goals.
