

How-to Assign Pages to Specified Section Only in a Combined Section Course Shell

In Modules find the page that only certain sections should be able to view. On that column, click the three dots on the right-hand side. When the drop-down menu appears, click on Assign To.

A new pop-up screen will appear. This page is currently set to be viewed by all students in all sections of the combined course shell.

Click in the Assign To box and a drop-down menu will appear with all the sections that are included in the combined shells. Select the sections that should have access to the page.

The screenshot shows a 'Course Overview' window with a sidebar on the left containing a list of tabs, with 'All' selected. The main content area has a header 'Course Overview' and a sub-header 'Page'. Below this is a blue information box with an 'i' icon and the text: 'Select who should be assigned and use the drop-down menus or manually enter your date and time.' The 'Assign To' section features a search box with 'Everyone' and an 'X' icon. Below the search box is a list of sections under the heading 'Sections'. The sections listed are: 'BIOL 320 0100-SP24-1-SUPERV STUDY IN LAB & FLD METH', 'BIOL 320 8901-SP24-1-SUPERV STUDY IN LAB & FLD METH', 'BIOL 400 3009-SP24-1-INDEPENDENT STUDY OR RESEARCH', 'CHEM 320 0100-SP24-1-SUPERV STUDY IN LAB & FLD METH', and 'CHEM 320 8901-SP24-1-SUPERV STUDY IN LAB & FLD METH'. The last section is highlighted in dark purple, and a red arrow points to it. The window has a close button 'X' in the top right corner. The bottom of the window shows a taskbar with a PDF icon, the time '10:59 AM', and the date '12/9/2024'.
